THURSDAY, AUGUST 18, 1864.

THE REBELLION.

We begin to get details of Gen. Grant's new movement. On Saturday Gen. Hancock's corps, having deceived the enemy by a feigned movement down the James, crossed the river by night and took a position at Deep Bottom, near where Gen. Foster has recently been. They were joined by two divisions of the 10th corps. On Sunday our forces advanced, driving in the rebel line of skirmishers, and capturing some prisoners and a rebel redoubt, with six guns and 4 mortars. Two lines of the rebel earthworks were carried during the day, the outer one being about nine miles from Richmond. Our troops also captured a battery bearing upon the men working upon the canal which Gen. Butler is digging between two points on the James river, practically converting the peninsula of Bermuda Hundred into an island.

Everything had remained quiet in front of Petersburg to the 16th, nothing more than skirmishing between the pickets having taken place. Our troops still hold their position in front of the rebel works, which are strong and well defended, owing to the nature of the country. The rebels are reported to be extensively mining our works in front of Petersburg.

The N. Y. Post says Sheridan's army is by far the most powerful Union force that has ever gone up the valley any distance above Harper's Ferry. His cavalry arm alone is quite as large as the entire army commanded by Shields, Banks, Fremont, or Hunter. The infantry force is under Major Generals Wright, Crook, and Emory. Gen. Ransom has charge of the cavalry.

Unofficial accounts say there was considerable skirmishing between our gunboats and two rebel rams, up the James river, on the 14th. A shell exploded between the decks of the Agawam, killing three and wounding five.

Gen. Sheridan is said to have lost 200 wagons on Saturday. Longstreet and Fitz Hugh Lee are reported to have passed through Warrenton on Saturday, to reinforce Early. Our forces occupy Strasburg, and the enemy have abandoned their works beyond, retreating, it is believed, towards Mount Jackson.

Troops have left New Orleans to reinforce our forces at Mobile.

The N. Y. Herald's dispatch states that in the engagement at Atlanta, on the 5th, our forces carried the enemy's rifle pits nearly the whole length of the line, and at the same time Schofield's and Palmer's corps were thrown across the railroad south of the city, at a point between White Hill and East Point. By this movement, which was strenuously opposed by the rebels, our forces gained a position whence they can throw minie balls and canister into any train leaving the city. Gen. Logan officially reports that in the battle of July 22 six successive charges were made by the rebels between 11 A. M. and 3 P. M., which were all gallantly repulsed with fearful loss to them. In the evening they made several other vigorous assaults, with the same result. Our loss was 50 killed, 439 wounded, and 72 missing. We captured 5 battle-flags, 106 prisoners, exclusive of 73 wounded, and about 2000 muskets; buried 565 rebels, and left about 200 unburied. The rebels carried away large numbers of their wounded during the fight. Gen. Logan estimates their whole loss at 7000.

The rebel Gen. Wheeler, with 1700 cavalry, demanded the surrender of Dalton, Ga., on the 14th. We have 800 men there. Cannonading was going on at nightfall.—The rebels captured 17 car loads of government cattle on the way to Atlanta.—Gen. Steadman has gone from Chattanooga with a large force in pursuit of them.

200 guerrillas on Saturday were repulsed by 30 men in an attack on Selma, Ky., with a loss of 8 killed, 15 badly wounded, and several prisoners. Our loss was 3 killed, 1 mortally wounded and several slightly, and 4 prisoners.

— The Philadelphia markets are overstocked with peaches.

— A Halifax dispatch reports the pirate Tallahassee off Yarmouth, Tuesday.

— A farm of codfish was last week sold in Beverly for $8 per quintal.

— Some one says that those who are crying peace misspell the word; it *is place* not *peace* they want.

— Gen. Greathouse, of Illinois, recently killed near Atlanta, was only twenty-one years old. He was promoted to the rank of Brigadier General only two days before receiving his fatal wound.

— The New York Herald says that bets have been offered with great odds that the nominee at Chicago will be taken from the following list, viz: Judge Woodward of Pennsylvania, Judge Nelson of New York, Governor Seymour, and Guthrie of Kentucky.

EDITORIAL JOTTINGS.

BANGOR, Aug. 16.

Dear Chronicle:

I send you herewith (not for printing,) the complete roll of our party—the first which has been given correctly. Ex-Gov. Goodwin and Pres. Woods, of Bowdoin College, left us at Brunswick—to the regret of all; and a few others leave and probably a few more may join us when we leave Bangor for "down east"—for that location is not really approached until you get below here, say down to Eastport or the Provinces. This excursion is one of the most complete successes, and all details connected with it are admirably managed by Hon. John H. Rice, of Maine, chairman of the special House committee on the examination of the coast defences of Maine.

The U. S. steam cutter Mahoning is a new and splendid vessel, of about 400 tons. She was built at Philadelphia, and her exquisite oscillating engines *propel* her at a great rate, and with scarcely a jar more than the heart throb of a strong man. Her officers, too, are the best we have ever met. Capt. Webster, who has been for twenty-two years in the revenue service, is an exceedingly agreeable gentleman, as well as a finished and efficient officer; and Lieut. Ritchie and the rest are equally attentive to business and their passengers, and all goes pleasantly and smoothly in the working of the fine craft—no noise, or growling, or harshness. We wish our service had more such boats and such officers. Capt. W. was formerly in command of the old cutter Caleb Cushing, but was on distant duty in the Agawam at the time of the disgraceful rebel capture of the cutter in Portland harbor—which, had he been there, we are sure could never have happened. He was soon after returned on this revenue beat, with this new ship—of which he is eminently worthy, for we regard him as a most perfect specimen of the true American naval officer.

The Mahoning has made 26 miles in two hours since this party has been out, with a little help from her sails; and is rated from 8 to 12 knots. Had she larger boilers, she would be one of the swiftest vessels afloat; and we never saw any craft, large or small, mind her rudder half so quick. Although very long, she will almost swing on her own axis, or rather come about in her own wake, in a manner to astonish officers, pilots and all.

But we have so much to enjoy, all the time, that it is vain to think of giving details, even if you or I desired it. Our progress has been a complete ovation—and wind and weather, and the people of Maine, unite in rendering the trip delightful. I wrote you of our reception and entertainment at Bath—how the people threw open their public and private houses to us, and devoted the whole city, for the time, to the care of their distinguished guests and friends. I cannot tell you of Bath, as I would be glad to; but in passing, must speak a word of their splendid new High School, one of the finest we ever saw anywhere. The new Custom House and Post Office is also a handsome granite building, finely situated on the bank of the river. Good by, Bath; and long will it be ere any of us forget her, or the unbounded hospitalities of her citizens.

Nor can I do more than mention that we passed Point Pemaquid, a few miles east of the Kennebec, that being near the site of very interesting old ruins of Gorges' first city on this continent,—Old York being designed for the second. Bath is 10 or 12 miles from the mouth of the Kennebec, and we passed up without stopping at Fort Popham; but on coming down next morning,—leaving Bath amid cheers and the waving of handkerchiefs—a boat containing the Congressional Committee was sent ashore at this most interesting point, now being strongly fortified, and which so effectually commands the mouth of the river. The indefatigable exertions of Hon. John A. Poor of Portland, Rev. Mr. Ballard of Brunswick, Judge Bourne of Kennebunk, and others who so enjoy digging up old matters from the apparently dead past—have succeeded in convincing them and many others that Popham is more worthy of a Forefathers' Day than even Old Plymouth. For although the English settlement at Popham was soon abandoned, yet by its little 7 years' priority to that of the French settlements, it did much to decide the question of ultimate possession of the country in favor of the English, and so the whole character of New England's institutions, at least, whether they should be English or French. There is to be a grand celebration of the 258th anniversary of Popham's settlement (in 1607) on the spot, next month, and we are all invited; but there is no knowing where we may be by that time, nor what may be left of us, if we continue to be feasted and feted at this rate for another week or two.

Well, the Committee having made personal inspection of the fortifications building at Popham, (which appropriate and expressive name, by the way, is due to the good sense and exertions of Mr. Wood, aforesaid—as is also that of Fort Knox, on the Penobscot,) steam was put on again, and down this magnificent double coast of Maine we sailed, for the Penobscot country.

Ex-Governor Washburn was of the party, and he and others pointing out the many places of interest, historic and personal, as we passed, added greatly to the enjoyment of the occasion. The scene was one of the most lovely; from morn till night a succession of the most picturesque changes, but always beautiful—oh, *how* beautiful!

As we were to visit Rockland, our course lay more up into the bay than otherwise it would, which brought us nearer the shore. Passing the mouth of the Gorges river, what reflections were induced by Mr. Washburn's allusions to the princely residence of Gen. Knox here, and the inglorious death of the old hero of a score of battles, by being choked with a chicken bone. And then the passing of all the islands and points of historic interest bearing the musical names of the Penobscot region—how beautiful, how interesting! But we cannot dwell on even *such* loveliness.

Rounding Owl's Head — a delightful point—we pass up the bay to the beautiful town of Rockland. Here lives Mr. Samuel C. Fessenden, brother to the Secretary, and to his residence, half a mile or more, we march in order for collation, (they are great on collations down this way, and think we can eat a hearty one every half hour). Then a look at the lime-kilns, and off we were for Bangor. The streets of Rockland are full of piles and loads of the dark limestone, going to the kilns, in pieces about the size of a peck measure. These kilns are built on the sides of the hills, so that the stone can be shoveled into the hopper at the top, and taken out, lime, at the bottom. The kilns or furnaces are much like an iron furnace, wood, of course, being used for fuel. After half a day's burning, the lime is shoveled out of the kiln, red hot, but soon cools, and is ready for barrelling in a day or less.

One of our party lost off his hat just before reaching Rockland, and a good deal of fun was had over "the gentleman from New Jersey;" and a sailor while at the wharf there, fell twenty feet or so, and went thro' a hole in the awning, and was picked up insensible, but was not seriously injured.

Scream goes the signal whistle again, and we are soon "all aboard" and off once more. A fine dissolving view is given us as we sail off, of Rockland, which lies on the sloping and curving shore of the Bay; then Camden, similarly situated; and passing other beautifully situated little villages and hamlets, and ridges of verdant hills, we round Fort Point, and are in Penobscot River, twenty miles or more from Bangor. And soon the moon comes up, and old Sol takes *his* "watch below;" and on, on we smoothly glide, past Bucksport and Fort Knox, to Bangor—the outline only of the fine scenery being presented to us by "the pale moonlight." Ah! there goes our screaming whistle again, for signal; and soon the last bend of the river [we are on something of a "bender," aren't we, Kent?] brings us to the lights of the city. And amid the booming of cannon at 11 o'clock at night we march through crowds of people to the hotels of the city, in charge of Mayor Dale and the City Committee of Arrangements, to spend Sunday, when of course church-going or quiet was the order of the day.

Monday morning, reception by the City Government at the Hall; speech of welcome from the Mayor; fitting response by Mr. Rice, chairman of the Cong. Committee, the able and efficient member from this District; also from other M. C's. After which, refreshments at the house of His Honor—plenty to eat and drink, besides California wine, (so the label said). After dinner, a trip to Oldtown, to see the Indians and the saw mills. Of which, more next time I write. Then a splendid levee at Norumbega Hall, Monday evening—which fine hall was thronged with the beauty and fashion of the city. Tuesday morning we are off for Castine and Belfast, where we pass the night. Thence to Mt. Desert, Calais, Eastport, St. John, and I can't say where else. Yours, F.

— The types for some of the New York weeklies are now entirely set by females.

— There are five female compositors in the Newburyport Herald office.

— A girl 15 years old was killed by the cars in Roxbury on Monday afternoon. She was runing cross the track.

— The U. S. steamer Niagara, after taking in coals and provisions, left Liverpool on the 5th—destination unknown.

— The pirate Tallahassee at last accounts had captured 75 vessels. She destroyed sixteen vessels in thirty hours; and 25 more on Tuesday.

— The N. Y. Commercial states that foreign orders for over four million dollars worth of Government bonds have been received.

— The Special Income tax law, which was passed by Congress, of five per cent. upon the past incomes of 1863 and 1864, has been referred to the Attorney-General of the United States, upon the question of its constitutionality.

— A writer in the Church Standard, an Episcopalian paper in England, says that the Established Church is fast becoming an established chaos, for during the past thirty years there have sprung up twenty-five heresies and schisms.

— It is alleged in England that the pirate steamer Georgia is now the bona fide property of Mr. Bates. She has been put in thorough repair, and was about leaving Liverpool for Lisbon under charter to the Portuguese Government, to carry troops to the West Coast of Africa and the mails between Lisbon and the Azores.

— The Richmond Sentinel has discovered that Gen. Bartlett of Massachusetts, who was captured in the assault on Petersburg, "is the same man who became notorious as the father of the bride in the celebrated diamond wedding in New York, in which his daughter, a young and beautiful lady, was married to Signor Oveido, an old Cuban, who was supposed to be immensely rich." No other paper has the news. We believe Gen. Bartlett is about twenty-five years old.

— The Democratic State Convention was held in Bangor on Tuesday. Judge Joseph Howard of Portland was nominated for Governor. A compromise was made between the peace and war wings, but both will fly at the next election. The resolutions are one-idea,—condemnatory of the Administration, but not of the rebels, and declaring "the existing fratricidal and calamitous war the result of the political ascendancy in power of fanatical and factious extremists." We really thought that the rebels had *something* to do with the war.

Brocksieper's Patent
Self-Acting Gas Regulator.

SOMETHING ENTIRELY NEW.

Patented 1864.

A brilliant and equal Light at a saving of 30 per cent. over any Gas Burner now in use.

This is not a Regulator to go on the Meter, but under every Burner in use.

Economy in the use of gas, with the advantage of having a more brilliant light than heretofore, is a point at once desirable. Inventors have for many years sought to attain this end by packing or checking in innumerable ways the flow of gas through the burner tips.

Not one of these has attained the result wished for, namely, "a pure, transparent flame, without waste at any and all pressures, obtained at any hour and in all localities."

The above results are fully obtained in

Brocksieper's Patent Gas Regulator.

We invite the most incredulous to examine and test in the most thorough manner.

RETAIL PRICE, EIGHTY CENTS.

A liberal discount made to Churches, Factories, Hotels, &c. The Regulators will be put on, and if they do not prove satisfactory may be returned. CHARLES T. EMERY,

Hair Dye! Hair Dye!!
BATCHELOR'S Celebrated Hair Dye
Is the Best in the World!
The only Harmless, True and Reliable Dye Known!
This splendid Hair Dye is Perfect—changes Red, Rusty, or Gray Hair instantly to a *Glossy Black or Natural Brown*, without injuring the hair or staining the skin, leaving the hair soft and beautiful; imparts fresh vitality, frequently restoring its pristine color, and rectifies the ill effects of bad dyes. The Genuine is signed WILLIAM A. BATCHELOR, all other sets are mere imitations and should be avoided. Sold by all Druggists, &c. FACTORY—81 BARCLAY STREET, N. "A Wonderful Discovery."
DR. TEBBETTS' "PHYSIOLOGICAL HAIR REGENERATOR" is compounded in strict accordance with the well known laws of Physiology and modern vegetable Chemistry. It is not a "DYE," and will not stain a particle. It will "RESTORE GRAY HAIR" in all cases to its original color. It promotes a luxuriant growth of new HAIR in all cases on BALD HEADS, when the glands or roots of the hair are not completely disorganized. It prevents the hair from falling off and removes all dandruff, heat, humors and itching from the scalp. It keeps the hair soft, moist and perfectly healthy, and gives it a glossy and beautiful appearance. It is highly perfumed, and as a Dressing it has no superior. The "REGENERATOR" is warranted to produce the above results in all cases, if not the money to be refunded. With it every "GRAY HEAD" in New England can be restored in less than sixty days.

Local.

THE MARTIN GUARDS.—By a recent order of Lieut. Col. Dawson, commanding coast defences, Capt. Geo. C. Houghton of the Martin Guards of Manchester, has been assigned to the command of Fort Constitution, Portsmouth Harbor. Lieut. J. E. Johnson, of the same company, is Quartermaster of Fort Constitution, and also of Fort McClary. Sergt. E. P. Kimball is appointed Quartermaster's Sergeant. The Mirror says: "This company is composed principally of young men, and bears the name of one of the most enterprising citizens of Manchester, Col. B. F. Martin. He need not have purchased a representative substitute, while eighty-three young men already represented him so well. They are a noble set of young men, of good habits, ambitious and deserving to be praised by those higher in rank. While on a short visit to the Fort we were glad to learn that already this young company was appreciated and well spoken of."

☞ The backbone of the drought is evidently broken. An easterly rain-storm set in on Wednesday, and early in the evening the water began to come down in the most lavish manner. Nobody regretted to see it come down so copiously, for such visitations have been few and far between recently. Few were abroad, and the umbrellas of those few were fringed all around with streams of water fully merriting the name of cascades. One of those few had no umbrella; we saw him about 8 o'clock; he was near the centre of Market Square, seated in the mud and vacantly gazing upward; for an officer stood over him, with soft and persuasive voice entreating him to arise,—anon, threatening to *ar* raign him before the court if he didn't; he rejoined something, which probably had reference to a wish to prevent the free flow of the rain threatened him. Meanwhile it was growing darker and more dark; carriages occasionally drove furiously by, and the rain continued to fall in torrents; there was water, water everywhere, and he had had a drop of something else to drink. The scene was picturesque, and he seemed desirous longer to drink it in. But the locality was hardly fitted for its quiet enjoyment, and he was borne to free lodgings, where the dim light revealed the white-washed bars and the smoke from the watchman's pipe curled upward toward the damp and blackened ceiling.

☞ We are requested to call the attention of our citizens to the notice of the committee of the Board of Aldermen, which has been posted in the streets, in regard to the Draft, and to impress on them the importance of giving the matters contained therein their earnest attention. It is the duty of every citizen to see that the enrollment is correct, and if any person sees on the enrollment at the City Rooms, names that should come off from the same, they should give such information to the committee as will enable them to have the correction made.

☞ The forty young men from Concord, who came to this city to enlist in the Navy, nearly all came to grief. All but five or six were rejected,—none but those who had had some experience as sailors being accepted.

☞ Lt. Mix, who was officially reported as instantly killed in the assault on Petersburg, has written to his wife in this city that he is alive and well, a prisoner of war, being unhurt in the battle.

☞ Col. D. K. Wardwell, of the Veteran Reserve Corps, who was about a year ago stationed in this city, made a speech at the Democratic State Convention at Bangor on Tuesday, in which he strongly denounced the Administration and eulogized McClellan, urging his nomination at Chicago. We think this impulsive gentleman when here had many bitter enemies in this city, who strongly denounced him. Now they are all on the same side of the fence. Has he changed? or have they?

— The other day, a little fellow, aged seven years, fell from a wharf in Rockland, Me. His body was recovered, and efforts made for resuscitation, which, after several hours were successful.

— A rebel prisoner at Johnson's Island advertises in the N. Y. News for a substitute to stay there in his place—says he "must be 30 years old; have a good moral character; A1 digestive powers, and not addicted to writing poetry. To such a one all the advantages of a strict retirement, army rations and unmitigated watchfulness to prevent him from getting lost, are offered for an indefinite period."

— Some people, we wot of, say: "we must give up; we cannot succeed; the sacrifice is too great to longer continue the contest." Out upon such talk! It is not the language of the true patriot. What! give up all we have gained? give up the right to vote for whom we please! give up the prospect of human freedom? The party politicians may cry give up, but not the people, who feel that their country and its institutions are involved in the issue; they will not waver or distrust.

NEW HAMPSHIRE ITEMS.

—— The Legislature consumed most of Tuesday in an effectual attempt to pass the new military bill. The afternoon session was very exciting, continuing until half-past 7 o'clock. The doors were closed.

—— Pleuro-pneumonia has broken out among the cattle in the southwestern portion of this State, assuming a serious and alarming character in Peterboro', Hancock, Antrim and Dublin. The disease is said to have been contracted from a cow which was driven up from Massachusetts last winter, and kept in Stoddard. One man in Antrim has lost 11 animals from one herd.—The Governor and Council have appointed three Commissioners to ascertain if the law of 1860, in relation to diseased cattle, is being faithfully carried out, and to recommend such other action as the exigencies of the case may demand.

— It is thought that Gen. Grant's movement will compel Lee to recall the troops sent to the Shenandoah Valley.

— The pirate Tallahassee destroyed on Tuesday the ship James Littlefield, of Bangor, from Cardiff for New York.

— Gen. Burnside has not been relieved. He has twenty days leave of absence. Gen. Grant refused his resignation.

—The N.Y. Express predicts that the recent printers' strike will put two thousand females at type-setting in that city, within one year.

— Admiral Simpson, of the Chilian Navy, has arrived in England, empowered to buy war vessels and order iron clads.

—The City Marshal and one of his assistants, of Lawrence, Mass., have been discharged for taking bounty money from prisoners induced by them to enlist.

— Rev. Dr. Jonas King, the famous missionary in Greece, has arrived in this country; it is 36 years since he left the United States.

☞ Special attention is asked to Hunnewell's preparations, advertised on our inside columns. They are based on true medical laws, used very largely by Physicians, and most undoubted testimonials are in the hands of the proprietor, always open to inspection. Let Portsmouth and its vicinity bear testimony by a confidence to test them, which will be scored.

Would you save yourself from suffering after eating, or from acidity of the stomach, or burning sensation, or indigestion? Use Herrick Allen's Gold Medal Saleratus. Never use soda if you can procure this article. It will strengthen weak stomachs and relieve dyspepsia; it is saving in the quantity of flour, &c., &c. Try it. Grocers and Druggists most all sell it. The Wholesale Agents are Wholesale Grocers.

☞ What an amount of suffering and disease among the Volunteers would be prevented by the free use of Holloway's Pills and Ointment. For wounds, sores and scurvy the Ointment is a certain cure. For bowel complaints, fevers, small pox, &c., the Pills are the best medicine in the world.

If the reader of this "notice" cannot get a box of Pills or Ointment from the drug store in his place, let him write to me, 80 Maiden Lane, enclosing the amount, and I will mail a box free of expense. Many dealers will not keep my medicines on hand because they cannot make as much profit as on other persons' make. 35 cents, 88 cents, and $1.40 per box or pot. 221

"A Stitch in Time Saves Nine."
All Furnaces, Stoves and Funnels should be thoroughly cleaned out and put in order, as soon as fires are done being made in them. If allowed to remain filled with ashes and soot through the summer, they will decay very rapidly, and useless expense be incurred.
A full supply of Linings and Repair Pieces constantly on hand, and all orders attended to with dispatch. E. A. STEVENS.

Facts for the People.
The enormous rise in price of Iron, Coal and Labor, has caused manufacturers to advance the price of STOVES and Castings several times since the war began; and it is now arranged to make a general advance of 25 to 50 per cent. this season.
We have not yet raised the price of Stoves in proportion to their increased cost, but shall be compelled to do so very shortly. Persons who expect to purchase anything in the Stove and Furnace line within a year or two, will save money by doing so at once. The price of a Stove is not so much an object, now, as its capacity and the cost of operating it. All things considered, there is no Stove equal to
THE MODEL COOK.
IT IS, IN FACT,
The Best Stove Out,
for economy, convenience and dispatch.
Many people think it best to use an old stove as long as possible, but it is far better to throw it away and purchase a MODEL COOK, than to keep it at the present high price of fuel.
One of our shrewdest citizens who purchased a MODEL COOK STOVE a year since, says he has saved more than its cost already.
A careful, prudent farmer purchased one, and after it had been in operation some days his son came into the store and said, "something was wrong at their house;" his father and himself used wood off the same pile, he burned three baskets full a day, and his father only one! We sold him a Stove before he left, and there has been no complaint since.
These Stoves are in use in many hotels and boarding houses, and in hundreds of private families in this city and vicinity, and give the best of satisfaction.

English Pollock Fish,
No. stripping for sale by
Jos CHAPIN & YEATON.

NEW YORK STATE DRIED APPLES
for sale by
CHAPIN & YEATON.

Important to the Afflicted.

DR. DOW continues to be consulted at his office, No. 7 and 8 SANDUSKI STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a longer course of varied and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since the first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scrofula, Gonorrhœa, Ulcers, pain and distress in the regions of Procreation, inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors, Rashes, Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr. D. devotes a great part of his time to the treatment of those cases, caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy results produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The mental effects on the mind are of a fearful character, such as loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, timidity, &c., are among the evils produced. Those who think of entering into the contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your case. Dr. Dow has also for sale the Patent Capotine, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

Highly Important to Females
IN DELICATE HEALTH.

DR. DOW, Physician and Surgeon, No 7 & 8 SANDUSKY STREET, Boston, is consulted daily for all diseases incident to the female system, Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppressed, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. No doubt rightly certain in the treatment of Leucorrhœa, that most obstinate complaint, yield under it, and the afflicted person soon rejoices in perfect health.

Dr. Dow has not the least fear of his greater experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to this one specific, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 9 A. M. to 9 P. M.

CERTAIN CURE.

In all cases of Charges Made,

Dr. Dow is consulted daily, from 9 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, being the most unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Sandiscot street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the PRIVATE BOUQUET. Order by mail. Two for $1 and a red stamp.

DR. S. O. RICHARDSON'S

BLOOD ROOT ELIXIR

Has been thoroughly tested and proved in his medical practice, for the space of THIRTY YEARS, and is now presented to the public as an efficient cure for

CONSTIVENESS,

and the best remedy ever prepared for

Diseases of the Liver,

SCROFULA,

All Humors and Impurities of the Blood, and Diseases of the Skin.

The preparing and combining the Blood Root Elixir, is attended with results to medical science next to impossible to be attained by other means. Roots, Barks and plants, in themselves purgative and disagreeable, are, by a new and scientific process of extracting, made to become more EFFECTIVE IN THEIR OPERATION, entirely divested of the griping and distressing pain which attends the use of all other purgative medicine. They are also made to become HIGHLY PLEASANT AND AGREEABLE TO THE TASTE,

and by their peculiar combination work so perfectly in HARMONY WITH NATURE, that no unpleasant reaction will follow its operation. It also possesses

A Diffusive and Alterative Effect,

which can only be attained by combining a fluid state, from the active elements in purgative medicines.

Its hand and compact manner in which pills are prepared renders them indigestible—and when taken are forced through the stomach and bowels, half-dissolved, causing only PARTIAL ACTION, therefore, the griping and other purgative pains connected with their passage.

One pill dissolved, somewhat prior, will produce more mechanical and physical effect than five in a crude state.

The BLOOD ROOT ELIXIR has no partial action upon the bowels, but is equally diffused and throughout the system, purifying the blood, imparting a healthy and invigorating action to the STOMACH AND BOWELS, LIVER, LUNGS, KIDNEYS, and results in a healthy and regular secretion of the fluids, through the whole system.

A single dose will produce a cheerful and exhilarating COMFORTABLE FEELING, which together with confidence and assurance of IMMEDIATE RELIEF. A continuance for a short period will DRIVE the obscure and hidden humors to the surface, and will cure and relieve or Block SCROFULOUS AFFECTIONS—and by thus purifying and strengthening the blood, will remove the root of the disease.

CAUSE OF CONSUMPTION.

It incites the various organs of the system to act their allotted part, when all the causes which induce RHEUMATISM AND NEURALGIA, HEADACHE, LOSS OF APPETITE, DYSPEPSIA, COSTIVENESS, and the train of diseases which arise from a derangement of the Stomach and Bowels, and restricted circulation of the Blood.

COUGHS and COLDS, in their early stages, will immediately yield to the effect of the Elixir.

The BLOOD ROOT ELIXIR contains no mercury, no poisonous or injurious drugs, is innocent, but stimulates the secretions by its mild diffusive action. It is an effective and painless specific—have prepared a valuable Cordial, upon the Liver, and there has been no medicine prepared for common family use which possesses equal merit.

Travellers, both by sea and land, will find the Elixir a complete antidote for the evils which they are subject to endure from a change of climate, of water, or of diet.

See the pamphlet around each bottle for a history of the Elixir.

The proprietor of the Blood Root Elixir, (Dr. S. O. Richardson,) has been long and favorably known to the public by his celebrated SHERRY WINE BITTERS, the best tonic medicine ever discovered, and which has been for over thirty years. He is a graduate of the New Hampshire Medical College, and many years associate member of the Massachusetts Medical Society, and has made the study of medicine his profession since 1822.

And so fully convinced is the Doctor of the wonderful curative effects of his Blood Root Elixir, that he hereby offers to each and every person who will use one-half of a bottle of his Elixir, and not be convinced of its good effects therefrom, to refund to said person the amount which he paid for the same, by returning the village bottle to his office.

Price $1.50 per Bottle.

Sold in Portsmouth by J. H. THACHER, opposite the Post Office, and No. 19 Market Square, and by Dealers in Medicine generally, and at Dr. Richardson's Office, No. 51 Hanover street, Boston.

CHEROKEE REMEDY

—AND—

CHEROKEE INJECTION,

Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Inflammation of the Urethra, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Stricture, Gravel, Gleet, Gonorrhœa, and is especially recommended for those painfully Chronic Affections (Whites in females) where all the old nostrums most commonly have failed.

It is prepared in a highly concentrated form, the dose being from one to two tablespoonfuls, three times per day.

It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an allay or substitute for the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites. Its effects are healing, soothing and demulcent; removing all scalding, heat, chordee and pain, instead of the burning and almost unendurable pain that is experienced with nearly all the cheap quack injections.

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are stopped, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write us and we will mail free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.

THE MAGEE

COOKING STOVE.

The subscriber, having received his Fall stock of stoves, would respectfully call the attention of the public to the

CELEBRATED AND UNEQUALED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room, and by the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be warmed while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING

FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about removing or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pots is used for respiration, the tendency to produce headache so much complained of in other furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former modes, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the air-chambers, which prevents the flues from burning out. Wire Gauze is used in the chamber to prevent the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 50 to 60 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, from which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Sise, and others.

NEW HAMPSHIRE BIRD LAW.
PASSED JULY, 1862.
AN ACT to promote the interests of Agriculture.
Section 1. If any person shall, at any season of the year, take, kill or destroy any of the birds called robins, thrushes, larks, blue-birds, orioles, sparrows, swallows, martins, woodpeckers, bobolinks, yellow birds, linnets, fly-catchers or warblers; or shall, between the first day of March and the first day of August, take, kill or destroy any of the birds called snipes, wood-cocks, plover, rails, yellow legs, or sand pipers; or shall, between the first day of March and the first day of September, take, kill or destroy any of the birds called patridges or grouse, or quails; or shall, within the respective times aforesaid, sell, buy or have in possession any of said birds, taken or killed, within this State or elsewhere, he shall forfeit for every said partridge, or grouse, quail, woodcock, snipe or plover taken, killed or had in possession, the sum of three dollars, and for each of the other birds named above, the sum of one dollar, to be recovered by complaint before any justice of the peace.
Sec. 3. It shall be the duty of the selectmen of towns, and of the mayor and aldermen of cities throughout this State, to cause the provisions of this act to be enforced within their respective limits.
Sec. 4. All forfeitures or penalties recovered for violation of any of the provisions of this act, shall enure—one half to the use of the complainant, and one half to the use of the town or city where the same shall be recovered.

Please Look at This.
RYE, N.H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of Dr. SWETT'S PANACEA, and several bottles of his Blood Syrup, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed marvellous cures effected by it since I have acted as agent for the sale of it.
JONATHAN BERRY.
PORTSMOUTH, April 2nd, 1862.
I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which totally cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health.
From ELDER I CHESLEY, *Lee, May 11, 1861*
DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1859, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and BLOOD SYRUP. Since then, it has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named.
ISAAC PARKER, Quaker.
☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, No. 7 High street, Portsmouth, N. H., promptly attended to. may26

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)
76 State street, opposite Kilby street,
Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is More SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Late Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in form to secure for them the ample and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending*. Such examples of success, of great fidelity and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having their claims faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART,
During eight months, the subscriber, in course of his large practice, has made only two rejected applications SIXTEEN APPEALS, EVERY ONE of them was decided in *his favor*, by the Commissioner of Patents.

QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases at the Old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World) of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasures of the Married State, are notified that in consulting Dr. J. Teller, they will find a friend in counsel and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. J. broken down in health, now rejoice in all that makes life desirable and happy. In order is of course aware that the delicacy of this class prevents a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for every body.—Startling disclosures. Dr. Teller's great work for the Married and those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Display a lecture on Love, or how to choose a Partner—a complete work on Conjugal Delicacy. It contains hundreds of secrets, never before published. Warranted to be worth three times the amount asked for it. Sent in a sealed envelope in specie or postage stamps inclosed, will secure a copy by return mail. Dr. Teller has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
Dr. TELLER still remains the only Agency in America, for the sale of Dr. Michel's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, the price per box, these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A.M. to 8 P.M., and on Sundays from 9 to 2 P.M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing the fees. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice. N. B.—No students or boys employed. Notice this, address all letters to

VERNATELLA.
Warranted to make the Soles of Boots and Shoes water and dampness proof, and wear one-third longer.
VERNATELLA
Is a preparation from Copper, having no grease, linseed oil, or anything of the kind, and when the soles are once saturated with it, water can no more get through them than through copper itself. Price 25 Cents Per Bottle, at retail everywhere.
But its cost to the purchaser is really nominal, as it makes the soles wear enough longer to more than pay for it, leaving as a net gain the making of Water and Dampness Proof, and the preservation thereby of that priceless gem, the health.
☞ LADIES, READ THIS! ☜
SAVE YOUR HEALTH!
Use Vernatella on the Soles of your Shoes. It makes them water proof and thereby protects your feet from dampness, for the ground is always more or less moist, either from rain or the morning and evening dew.

FRIDAY, AUGUST 19, 1864.

THE LEGISLATURE.

TUESDAY.—The Senate passed the soldier's voting bill, and appropriately referred the act authorizing cities and towns to fund their debts, and the resolution for raising two regiments.

The House passed the bill authorizing towns to fund their debts, and the resolution for raising two regiments. A message was received from the Governor, recommending the calling of a convention to amend the Constitution so as to allow the soldiers in the field to vote, the same as if they were at home, and to reduce the number of Representatives. The message was referred to a special committee of ten. A bill was introduced to regulate rates of fare on railroads,—that the charge shall not be more than three cents per mile for passengers, nor more than ten cents per ton per mile for freight. Referred to the committee on railroads. Mr. Little of Manchester gave notice of a bill to repeal the charter of the Concord & Portsmouth Railroad. The military bill was discussed at length. An amendment to pay drafted men $400 each, instead of $200, was lost,—132 to 101. An amendment to strike out the section prohibiting towns from paying larger bounties than provided in the bill, was also lost,—139 to 32; also, an amendment to make the State bounties $200 for one years' men, $300 for two years' men, and $500 for three years' men.

WEDNESDAY.—The Senate passed the resolution providing for raising two regiments. In the House, sundry petitions for the assumption of town debts were presented. The committee on Agriculture reported that the bill to prevent the destruction of bass in Great Bay and its tributaries be indefinitely postponed. The resolution authorizing the Governor to refund to drafted men the bounties paid to substitutes suffered the same fate. The following were passed—resolution authorizing the Adj. General to furnish colors to our regiments; bill to fund the State debt; bill to facilitate the raising of troops; bill taxing deposits in Savings Banks (amended, making the tax 3-4 instead of 1-2 per cent, and distributing it among the towns in proportion to deposits); resolution appropriating $300 for a gun house for the Lyndeborough Artillery; bill authorizing bounties to re-enlisted men and certain others. The resolution authorizing the Adj. General to procure colors for the 1st Battery was indefinitely postponed. Mr. Bingham of Littleton offered a resolution for the appointment of a committee to investigate certain charges against Colonel Harriman. A bitter debate followed, terminated by the substitution and passage of a resolution highly complimentary to Col. Harriman.

THURSDAY.—The Senate passed the bill authorizing bounties to re-enlisted men. Also, the resolutions to provide colors for the N. H. regiments, and in favor of the Lyndeborough Artillery. The House adopted an amendment to the bill prohibiting the defacement of buildings and natural objects by advertisements, making the fine $10. A resolution of inquiry was adopted, relative to the non-payment of bounties to the companies of the 1st Cavalry now in camp at Concord.

☞ This season is long to be remembered for the severity of the drought. Recent rains have done much to relieve the effects of the early drought, and the crop record for the year will be a fair one. The hay crop has been light in quantity; but is in the universal testimony that the quality of the yield was very much better than the average, and the weather was such that there never was a hay crop stored in better order. The better quality of the hay and its superior curing will do much to compensate for the small quantity cut. In some of the Western States there was an abundance of grass, more than could be cared for by the limited number of laborers. The wheat crop is a very fair yield, and was harvested in very fine order. The corn crop will be light. The potato crop in New England will be a fair one.

— Somebody suggests wrapping paper as suitable for spiritual communications.

— The report of the capture of Fort Darling was a hoax.

— The pirate Tallahassee arrived at Halifax on Thursday.

— Three hundred and fifty cattle captured by the rebel Wheeler have been recovered.

— The grape crop in the Lake region, Ohio, usually large, promises to be more abundant than ever.

— In the Sandwich Islands about $6000 have been contributed in aid of the U. S. Sanitary Fund.

— Gen. Averill has been made a Major General, for his gallant fight at Moorefield, and successful operations during the past month.

[For the Chronicle.]

AFFAIRS IN TEXAS.

[Continued.]

After reading two or three bombastic effusions from third or fourth rate country papers, narrating atrocities committed by abolitionists or emissaries from the North, having for authority some reliable gentleman from some distant county, the truth of whose stories, however, the editor was willing to endorse; and indulging in a long tirade against everything and everybody north of Mason & Dixon's Line, and the very reasonable wish that said line was an impassable wall of fire, he informed us that the committee had been called together for the trial of a suspicious character whom he had in custody; that he had no doubt of his being an emissary from the North, and rather admired hanging him out of hand without a trial.

However, the man was led in, and was put through a very rigid examination, during which it became evident to my mind that so far from being a conspirator or emissary, as a member of the committee tersely remarked, "He hadn't as much sense as a jay-bird." According to his account, which was rather rambling and disjointed, he had been a school teacher. He stated that he was from South Carolina, although it was evident that he was a Northern man. He either could or would give no reasons for being in Texas, and seemed to me some harmless, crack-brained, wandering visionary, perfectly fearless in his simplicity, with strong religious feelings,—for he wished to open the meeting with a prayer for the rest He was well dressed, seemed to have received some education, and with the exception of a rather foolish cast of countenance, was a very presentable personage. He had a voluminous bundle of papers, which, upon being gravely produced by the Chairman and examined, proved to be a miscellaneous mass of old scraps of very inferior poetry, cut or copied from newspapers.

All this, however, did not by any means satisfy our chairman, who now gravely proposed to hang the poor unfortunate, as he could give no satisfactory account of himself, as his statements were contradictory, and as it was clear to him that there was deep design under all this apparent simplicity. At first I could hardly believe him earnest in making such a proposition, but in a very short time I saw that it was no joke. A large majority of the committee was composed of his relatives and dependents, all desperate men, who would hesitate at nothing when he commanded, and who had given a proof of it by hanging two of my neighbors only three or four weeks before. Although they were tacitly justified by the community in the commission of the act, yet it had an ominous significance that one man, unaided, except by his own dependents, could arrest two of his neighbors for the killing of a distant relative of his (one of them wealthy and influential), confine them in his own house, guard them with his own relatives, impanel a jury, try them openly, after holding them several days in defiance of the civil power, and hang them on the same tree under which the killing took place. All this I knew: and more, that if the chairman had any particular point to make by the death of the poor simpleton he would without hesitation sacrifice any one who stood between his wish and its accomplishment.

However, there were three or four members of the Committee friends true and tried, whose aid I felt confident that I could rely upon whatever the odds, in any attempt that I should make to save the life of the prisoner. The interchange of a glance between myself and friends, and a look at the simple yet fearless face of the intended victim decided me, and I arose and entered a firm protest against the measure proposed.

The chairman ordered the prisoner to be removed from the room as soon as I commenced speaking. Then a warm discussion ensued, in which I mentioned in strong terms my disapproval of the promiscuous hanging, with neither law, evidence nor justice, then so prevalent all through the country, during which I cited an incident with which all in the room were well acquainted, that had occurred in the next town, twenty miles distant, only the week before. A man was discovered at a plantation during the night, who seemed to be hanging about the negro quarters for some purpose. He was arrested and questioned, but being under the influence of whiskey he could give no satisfactory account of himself. Expresses were sent to call the neighbors; they met together—a knot of blinded and prejudiced ignoramuses, with their imaginations fired by the terrible stories so lavishly scattered through the land by the press, of the terrible acts committed by Northwestern emissaries. They had never seen the animal, but after a deliberate examination this august body pronounced the subject before them a northwestern emissary, and he was forthwith taken out and hanged, and the next day it was discovered that he was a poor half-witted man, a well-digger, well known in the country, whose only passion was an inordinate love of whiskey.

I further stated it as my firm belief that the present was a nearly parallel case. My arguments, however, far from having the intended effect, seemed like pouring oil on fire, and the discussion between the chairman and myself rapidly changed into a warm personal altercation, undisturbed by the ominous clicks, as the members of the committee cocked the pistols in their pockets or beneath their coats, each party anxious to get the first fire; while hurried whispers of deprecation or defiance were exchanged as each man drew apart from his neighbor. We were fearfully outnumbered, two to one at least. Yet still the chairman hesitated to commence the attack where few could leave the room alive, and of which few it was but little likely that he would constitute a part.

Those who had interposed between him and myself when the altercation grew personal had silently withdrawn to either side, leaving us standing about six feet apart. The altercation had ceased, the chairman stood gnawing his moustache, and convulsively grasping his pistol in his pocket. I had withdrawn into the corner of the room, on which the silence of death had fallen, as each man glanced upon his neighbor.

"Time threads and narrower third away.
Till on the crowded hall there lay
Such silence as the deadly still
Ere bursts the thunder on the hill.
With blade advanced each chieftain bold
Showed like the swordsman's form of old,
As wanting still the touch of life,
To wake the marble into strife."

All looked for a deadly combat; all were armed; the door was locked, and many a one turned to take a last look at the setting sun as it shone into the western windows, throwing his eyes slowly around as if fully to comprehend the situation.

Our chairman suddenly changed his tactics, and with a precipitation that nearly brought on the fight he was so anxious to avoid, dropped his pistol, held out his hand, and advanced towards me with an openness and apparent sincerity that did not deceive me, saying that friends engaged in a high and holy cause should not fall out about *trifles*, and further, that had he known that I was so strongly interested in the man he would have had nothing to do with him.—To this crafty insinuation, thrown out to induce the belief that the man was an agent of mine, or that I had some ulterior object in view in defending him, I replied, avoiding the snare set for me, by offering to bring proofs that the man was not even an acquaintance of mine, and further stated that I had never seen him until he had caused him to be brought there. Peace, or rather a hollow truce, was restored, however, upon a compromise to which I was forced to accede. The terms being, that the prisoner should be brought in, informed that he was sentenced to be hanged, and a rope placed around his neck and hung over a beam in the back portion of the house, in order to force him by the fear of immediate death to make some confession criminating himself.

He was brought in, everything being prepared. His sentence was read to him, but a mitigation of punishment was offered if he would make a full confession. He said he had no confession to make. He was then asked if he wished to write to any one, and answered no. The rope was then placed around his neck, a handkerchief was tied over his face, and he was led to the place of execution. The only request that he made was for time to pray for all of us, when I could endure the scene no longer, and ordered him to be released, which was immediately done.

But what to do with him was an important question. To allow as simple a person as he to go wandering loose about Texas in such troublesome times was merely casting his life away, without counting that, should he fall into the hands of that very committee, he would assuredly come to grief.

At last some one proposed that the members of the Committee pay his passage to New Orleans and so send him North, which, after a long discussion, was very ungraciously acceded to by the Chairman, with a side glance at me that I well understood. A hollow Peace had been established, which neither believed to be lasting; for I know that I had incurred his undying hatred as certainly as he knew that I mistrusted him and his professions.

"And ne'er again the Border side
Shall we as friends together ride."

I was careful also to have a person whom I could rely upon sent with our late captive to insure his safe arrival at and shipment from Galveston, and the next day the poor fellow left, glad enough to make his escape from Texas upon any terms.

WANDERER.

Portsmouth, July 20th, 1864.

THE REBELLION.

A rebel dispatch from Mobile reports heavy firing at Fort Morgan on the 9th, 10th and 11th. The telegraph between the fort and the city had been cut. Two Federal vessels were off Dog river bar on the evening of the 11th, and the dispatch says that "the bay shores are covered with debris of Federal vessels." The rebels had burned large quantities of tar, pitch and turpentine to prevent the Union vessels from getting up. Troops were arriving daily,—whether Union or rebel is not stated.

The N. Y. Tribune's correspondent reports an attack on Gen. Gregg's cavalry by the rebels on the 16th. They were repulsed by a brigade of infantry sent to Gregg's support. In the evening two of our divisions advanced and a considerable distance was gained. Four colored regiments distinguished themselves. Our loss was 1500. We captured 4 battle-flags and over 400 prisoners. The dead bodies of two rebel generals are now in our hands.—Lieut. Col. Plimpton, 3d N. H. regiment, was killed, and the regiment, which had only five days to serve, lost heavily. Most of the fighting was in the woods, at short range.

Gen. Sheridan has fallen back to Winchester, where he is fortifying. The rebels have taken up a strong position at Fisher mountain, beyond Strasburg, but are reported to be moving northward to flank him.

Gen. Steadman came to the relief of the Union garrison at Dalton, Ga., on Monday morning, and a charge being made on Wheeler's command by the negro troops, they broke and fled in the utmost confusion. The rebel loss was large.

Gen. A. J. Smith, whose force the rebels state at 16,000 strong, is said to be on his way to join Gen. Sherman.

— Gen. Scott's autobiography will be published by Sheldon & Co., New York, early in September.

— The "Maj. Merritt," reported to have inherited a fortune from an uncle in Portland, turns out to be a forger, a swindler, and a jail-bird.

— Two boys, aged 11 and 12 years, were severely injured by being thrown from a swing at Portland, on Tuesday. One had both arms broken, and the other sustained a fracture of one of the bones of the forearm.

— A colored gentleman in Gloucester was hit on the head by a rotten tomato which a naughty boy threw at him, and finding, when he placed his hand on the spot, some red liquid, he dropped upon the sidewalk, exclaiming, "I'se a dead nigger dis time, sure!"

Draft Notice.

To the Citizens of Portsmouth:

The undersigned, having been appointed by the Board of Mayor and Aldermen, a Committee to lay before the Board of Enrollment the names of all persons who claim exemption from the following causes, viz: Alienage, Non-Residence, Unsuitableness of Age, Manifest Permanent Physical Disability, and persons who have been in the service two years during the present war, would give notice that they will be in session on and after Wednesday, Aug. 17, 1864, from 2 till 5 o'clock and from 7 to 9 o'clock P. M., at the City Rooms, for the purpose of receiving evidence in such cases.

The Enrollment list can be seen during the same hours, and every person who can present a claim for such exemption is respectfully requested to attend as above, and by this means correct the Enrollment so that our quota can be reduced.

It is the duty of every citizen, whether enrolled or not, to see that the Enrollment have all the information in his power to give in the above matter, in regard to any person, and we trust that every enrolled man will urge the importance of the subject upon all those who are exempt for the above causes, as it is a matter of interest to all.

Any information in regard to matters connected with the above will be cheerfully given.

Let there be no delay.

ONEDA E. DeBOIS,

Of Hayti.

ONEDA E. DeBOIS, a French Zambo, who was born a slave of her uncle in Southern Alabama, and whose irresistible eloquence has thrilled the hearts of thousands, will deliver a

LECTURE AT
THE TEMPLE, PORTSMOUTH,
Sunday Evening, Aug. 21, at 7 1-2 o'clock,

Detailing the surroundings of her early childhood, her escape from bondage, her education at Oberlin, Journeying to and residence of three years in the Island of Hayti, describing their manners and customs, mode of burying their dead, &c. Miss D. wishes to establish a school for girls in Gonaives, Hayti, and hopes the friends of philanthropy will lend her a helping hand.

NOTICES OF THE PRESS.

The Sandusky Register says: "Miss Oneda E. DeBois, a young lady of color, of uncommon intelligence, and the most acute powers of mind, has been visiting our city for several days past. She starts to-day on a lecturing tour through Northern Ohio and Western Pennsylvania. She has uncommon powers of delivery, and, from a life upon an Alabama plantation cannot fail to give an interesting lecture."

From the Philadelphia Press.

"After devotional exercises, the lecturer was presented to the audience. She is a good and entertaining speaker. Gifted, as she unquestionably is, with a lively imagination, she depicted some of the eventful scenes of her life. She was very happy in her description of the customs and manners of the people of Hayti. Her mission is to raise funds for the establishing of a school for the females in Hayti. She will remain if this city for several days, to receive such voluntary contributions as the philanthropic may be willing to advance, after which she proposes extending her tour as far as Northern Ohio. So far she has been very favorably received, for which, on behalf of the uneducated of Hayti, she expressed her grateful thanks, and believed that under the blessing of God, who holds all his creatures accountable for their actions in life, she will meet with entire success."

From the State Gazette.

"Miss DeBois is evidently a woman of more than average cultivation and intelligence. She brings letters and recommendations from some of the most respectable persons in Washington and elsewhere."

Brooksieper's Patent
Self-Acting Gas Regulator.
SOMETHING ENTIRELY NEW.
Patented 1864.

A brilliant and equal Light at a saving of 30 per cent. over any Gas Burner now in use.

This is not a Regulator to go on the Meter, but under every Burner in use.

Economy in the use of gas, with the advantage of having a more brilliant light than heretofore, is a point at once desirable. Inventors have for many years sought to attain this end by packing or checking in innumerable ways the flow of gas through the burner tips.

Not one of these has attained the result wished for, namely, "a sure, transparent flame, without waste at any and all pressures, obtained at any hour and in all localities."

The above results are fully obtained in

Brooksieper's Patent Gas Regulator.

We invite the most incredulous to examine and test in the most thorough manner.

RETAIL PRICE, EIGHTY CENTS.

A liberal discount made to Churches, Factories, Hotels, &c. The Regulators will be put on, and if they do not prove satisfactory may be returned. CHARLES H. EMERY,

"A Wonderful Discovery."

DR. TEBBETTS' "PHYSIOLOGICAL HAIR REGENERATOR" is compounded in strict accordance with the well known laws of Physiology and modern vegetable Chemistry. It is not a "Dye," and will not stain a particle. It will "RESTORE GRAY HAIR" in all cases to its original color. It promotes a luxuriant growth of new Hair in all cases on BALD HEADS, when the glands or roots of the hair are not completely disorganized. It prevents the hair from falling off and removes all dandruff, heat, humors and itching from the scalp. It keeps the hair soft, moist and perfectly healthy, and gives it a glossy and beautiful appearance. It is highly perfumed, and as a Dressing it has no superior. The "REGENERATOR" is warranted to produce the above results in all cases, if not the money to be refunded. With it every "GRAY HEAD" in New England can be restored in less than sixty days.

NARROW ESCAPE FROM DEATH.—On Tuesday last some bricklayers were at work on the roof of Mr. William Martin's engine building, at his mast yard, North End, when one of them (a Mr. Locke, of Rye,) inadvertently let the bottom of his pants come in contact with the end of a shaft making rapid revolutions. The shaft caught his pants and whirled him around at a fearful rate, to the imminent risk of his life, until assistance could be had, when he was rescued. All of his clothing was stripped from him, except one stocking, and he was much bruised all over his body, particularly one of his ankles. He was sent to his home in Rye, and is said to be doing well.

Conductor; J. E. Chadwick of Deerfield, W. G. Guardian.

There was a large attendance present, and the order throughout the State is represented to be in a very flourishing condition.

[Communication.]

Messrs. Editors—I see in your paper of Thursday a notice of an advertisement inserted in the New York News by a rebel prisoner at Johnson's Island, who wants a substitute. I happened to have a slight acquaintance with the writer when he was local reporter for the New Orleans Delta, and all who knew Maj. McKnight can see his vein of humor "cropping out" in the advertisement of "Asa Hartz." When our fleet captured New Orleans he was acting as Confederate Provost Marshal at Madisonville on the opposite side of Lake Pontchartrain. Soon after the capture of the city one of our gunboats paid a visit to the watering place, and a party went to the house where he was stopping to secure the pleasure of his company. They found the Major seated on the piazza, in his shirt sleeves, smoking. To their inquiry "if Maj. McKnight was there," he replied "I guess he is about here somewhere; he was not long ago." While the party were searching the house, George put on his coat and hat, and coolly sauntered down the road. Too late the ruse was discovered, and the Major was not captured until many months later. ☞ A correspondent of the Bath Times, writing from Scotland, says:—

"Having never before been in Scotland, on my way to Glasgow I looked in 'Bradshaw' to see what hotels were advertised. I selected the 'Waverly,' and found it a very agreeable house, in fact more so than any one I had stopped at on the Island. What astonished me the most was that it was 'conducted on strictly temperance principles.' That a hotel could be so conducted on this island, where 'to drink is the rule, and to keep sober the exception,' almost surpassed belief. But in point of cleanliness, good fare and moderate charges, I have not seen it surpassed. Darling's hotel, in Edinburgh, is quite similar. These hotels are situated in the most pleasant and central points of their respective cities, and well deserve what they amply experience, good patronage."

Let Portsmouth and its vicinity bear testimony by a confidence to test them, which will be sacred.

Would you save yourself from suffering after eating, or from acidity of the stomach, or burning sensation, or indigestion? Use Herrick Allen's Gold Medal Saleratus. Never use soda if you can procure this article. It will strengthen weak stomachs and relieve dyspepsia; is a saving in the quantity of flour, &c., &c. Try it. Grocers and Druggists must all sell it. The Wholesale Agents are Wholesale Grocers.

☞ What an amount of suffering and disease among the Volunteers would be prevented by the free use of Holloway's Pills and Ointment. For wounds, sores and scurvy the Ointment is a certain cure. For bowel complaints, fevers, small pox, &c., the Pills are the best medicine in the world.

If the reader of this "notice" cannot get a box of Pills or Ointment from the drug store in his place, let him write to me, 80 Maiden Lane, enclosing the amount, and I will mail a box free of expense. Many dealers will not keep my medicines on hand because they cannot make as much profit as on other persons' make. 35 cents, 88 cents, and $1.40 per box or pot. 221

"A Stitch in Time Saves Nine."

All Furnaces, Stoves and Funnels should be thoroughly cleaned out and put in order, as soon as fires are done being made in the fall. If allowed to remain filled with ashes and soot through the summer, they will decay very rapidly, and useless expense be incurred.

A full supply of Linings and Repair Pieces constantly on hand, and all orders attended to with dispatch. E. A. STEVENS.

Facts for the People.

The enormous rise in price of Iron, Coal and Labor, has caused manufacturers to advance the price of STOVES and Castings several times since the war began; and it is now arranged to make a general advance of 25 to 50 per cent. this season.

We have not yet raised the price of Stoves in proportion to their increased cost, but shall be compelled to do so very shortly. Persons who expect to purchase anything in the Stove and Furnace line within a year or two, will save money by doing so at once. The price of a Stove is not so much an object, now, as its capacity and the cost of operating it. All things considered, there is no Stove equal to

THE MODEL COOK.

IT IS, IN FACT,
The Best Stove Out,
for economy, convenience and dispatch.

Many people think it best to use an old stove as long as possible, but it is far better to throw it away and purchase a MODEL COOK, than to keep it at the present high price of fuel.

One of our shrewdest citizens who purchased a MODEL COOK STOVE a year since, says he has saved more than its cost already.

A careful, prudent farmer purchased one, and after it had been in operation some days his son came into the store and said, "something was wrong at their house;" his father and himself used wood off the same pile, he burned three baskets full a day, and his father only one! We sold him a Stove before he left, and there has been no complaint since.

These Stoves are in use in many hotels and boarding houses, and in hundreds of private families in this city and vicinity, and give the best of satisfaction.

Important to the Afflicted.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience so unmitted extent, Dr. D. has now the gratification of providing the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scrofula, Gonorrhœa, Ulcers, pains and distress in the region of procreation, inflammation of the bladder and Kidneys, Hydrocele, Abscesses, Tumors, Syphilitic swellings, and the long train of horrible symptoms arising from the effects of mercury, are made to become subdued as the simplest ailing of a

SEMINAL WEAKNESS

Dr. D. devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, rendering them unfitted for the duties of business or society. Some of the sad and melancholy effects produced by early habits of youth, are Nervous debility, Nervous Irritation, Weak Memory, Dim sight, Dizziness or sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. &c. Yet these effects are the most to be dreaded, loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion to society, timidity, Self-distrust, Love of solitude, and evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and vigor.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and board for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving a description of your case. Dr. Dow has also for sale the French Capsules, warranted the best preventive. Order by mail. Price $1 for 12 and a red stamp.

Highly important to Females

IN DELICATE HEALTH.

DR. DOW, Physician and Surgeon, No 7 & 9 ENDICOTT STREET, Boston, is consulted daily for all complaints peculiar to the female sex, Prolapsus, Ulcer, or falling of the Womb, Fluor Albus, and painful or scanty and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days, and perfectly certain in the new mode of treatment, that most obstinate complaints yield under it, and the most painful and dangerous diseases cured.

Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no competitor in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 7 A. M. to 9 P. M.

CERTAIN CURE

In all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. on the treatment of Private and Chronic diseases of every name and nature, having had the universal attention and extraordinary success gained a reputation which calls patients from all parts of the country to consult him.

Among the physicians in Boston, none stands higher in the profession than the celebrated Dr. DOW. Persons requiring medical advice, who need the services of an experienced physician and surgeon should give him a call.

Dr. Dow's Female Pills are for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

DR. S. O. RICHARDSON'S

BLOOD ROOT ELIXIR

Has been thoroughly tested and proved in his medical practice, for a period of THIRTY YEARS, and is now presented to the public as a safe and sure cure for

CONSTIVENESS,

and his best remedy ever prepared for

Diseases of the Liver,

SCROFULA,

All Humors and Impurities of the Blood, and Diseases of the Skin.

The preparing and combining the Blood Root Elixir, is attended with results to medical science equal in importance to the invention of other in surgery. Roots and plants possessing powerful and disagreeable, or, by a new and scientific combination, exceedingly active properties, are rendered PURE INTERMEDIATE THERAPEUTICAL AGENTS, thereby creating invitation and pain to the parts concerned, with their passage.

One of the difficulties encountered, in producing these medicinal and physical effect than lies in a crude state.

The BLOOD ROOT ELIXIR for no partial action, but, by its combination, is carried through the whole circulation of the blood, imparting a healthy and invigorating action to the LIVER, SPLEEN, STOMACH, BOWELS, KIDNEYS, and gently stimulating dormant and torpid secretions through the whole system.

A single bottle will satisfy any one's doubts and unfeeling COMMOTION, which will be manifested instead with confidence and assurance of IMMEDIATE RELIEF. A continuance for a short period will DRIVE the disease from the internal organs to the surface of the skin, and relieve or check SCROFULOUS ERUPTIONS—and by thus purifying the blood, and the Liver, will remove the most fruitful

CAUSE OF CONSUMPTION.

It invites the sickened or weakened system to act their allotted part, removing the causes which induce RHEUMATISM AND NEURALGIA, BILIOUS DISEASES, DYSPEPSIA, CONSTIVENESS, and the various diseases which arise from a derangement of the stomach and Bowels, and restricted circulation of the Blood.

COUGHS and COLDS, in their early stages, will soon yield to the effect of the ELIXIR.

The BLOOD ROOT ELIXIR consists of the purest, vegetable botanical extract, no excitant, but stimulates the secretions by its mild diaphoretic. It is a medicine of the same structure—has a decided, salutary action upon the Liver, and therefore has a medicine prepared for common family use, which promises upon trial.

Travellers, both by sea and land, will find the Elixir a complete antidote for the evils which they are subject to, arising from a change of climate, of water, or of diet.

See the pamphlet around each bottle for a history of the Elixir.

The proprietor of the Blood Root Elixir (Dr. S. O. Richardson) has been long and favorably known to the public by his celebrated SHERRY WINE BITTERS, the first medicine ever discovered, and which has been in use thirty years. He is a graduate of the New Hampshire Medical College, and many years associate member of the Massachusetts Medical Society, has made the study of medicine his profession since 1826.

And so fully convinced is the Doctor of the wonderful curative effects of his Blood Root Elixir, that he hereby offers to each and every person who may purchase a bottle of the Elixir and not be conscious of a good effect therefrom, to refund to said person the amount which he paid for the same, by returning the village bottle to his office.

Price $1.50 per Bottle.

Sold in Portsmouth by J. H. THACHER, opposite the Post Office, and No. 10 Market Square; by Swain & Co., Boston; Hodgdon & Co., Kittery; Kittredge's Office, No. 31 Hanover Street, Boston.

SPEER'S

SAMBUCI WINE,

PURE AND FOUR YEARS OLD,

OF CHOICE OPORTO FRUIT,

For Physician's Use, Females, Weakly Persons and Invalids.

AS A DIURETIC, it imparts a brilliant action to the Glands and Kidneys, and Urinary Organs; very beneficial in Dropsy, Gout and Rheumatic affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, extracted in its native, fresh, concentrated state, by physicians and chemists as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefiting infirm and children.

A LAGER WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

None genuine unless the signature of "ALFRED SPEER, Passaic, N. J." is over the cork of each bottle.

Make One Trial of this Wine.

Liquors, Wines, Cordials or Bitters,

to the list of choice goods enumerated below, which are constantly on hand in large quantities in his Large and spacious

Wine Store and Bottling Establishment,

99 Washington street, Boston.

First on the list, as a reliable pure stimulant, stands the celebrated and widely known

Golden Sheaf Bourbon Whiskey,

made from Wheat, Rye and Corn, warranted for five years old. Put up in unique style, each bottle in a paper box, each box containing one dozen, the large and increasing sales of which convinces the proprietor that no extended advertisement is needed to attract real merit. It will recommend itself on trial

Golden Sheaf Cordial.

A delightful and healthful beverage, aromatic, with a rich ginger flavor, made from the pure Golden Sheaf Bourbon.

Golden Sheaf Bitters.

The best Tonic Bitter ever offered to the public. Mingled with the flavor of the Bitters are a number of other ingredients for restoring the appetite and imparting life and vigor to the whole system.

Golden Sheaf Punch.

Made from fresh, ripe lemons, and other articles, combined as a whole into a fine rich

Bourbon Whiskey Punch.

All the above put up full strength of the whiskey, and in cases of one dozen each. These will stand exposure by age, and no exposure of climate can affect them.

CHEROKEE REMEDY

AND

CHEROKEE INJECTION,

Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Inflammations of the Urine, Inflammation of the Bladder, Retention, Incontinence, Gravel, Stone in the Bladder, Brick Dust Deposits, &c. &c. It is especially recommended to those cases of Gleet, Gonorrhœa, Whites (in females) where all the old nostrums usually fail.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is a powerful diuretic in its action; purifying and cleansing the blood, causing it to flow in all of its original purity and vigor; thus restoring the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an ally or assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Whites, Female Weakness, Ulcers, &c. &c. Its effects are healing, soothing and detersive, removing all scaling, heat, chordee and pain, instead of the burning and the shooting and pain that is experienced with nearly all the cheap quack injections.

☞ For the use of the CHEROKEE REMEDY and CHEROKEE INJECTION, and medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to their healthy and vigorous state.

For full particulars get our pamphlet from any drug store in the country, or write us and we will mail one free, on receipt of a full address.

Price—CHEROKEE REMEDY, $2 per bottle, or three bottles for $5.

Price—CHEROKEE INJECTION, $2 per bottle, or three bottles for $5.

THE MAGEE

COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfecting in baking.

There is a new style and very superior broiler and sad iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. In the upper oven, there is a large copper Reservoir for hot water; also a large warming closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other stove now in use, as no dust can possibly escape into the room, and the shovelling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and powerful in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodeling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and no more of the air which comes in contact with the fire pots is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus here both, to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pots, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the ash-pit, which ignites them as they pass off from the coal, thus saving at least 30 per cent. of the properties of the best in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat into the atmosphere, the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and the ashes will seldom fill the ash-pit, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portland, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron M. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

Morning Chronicle.

A marriage, thoroughly a la Francaise, has just occurred in the theatrical world. Only last Thursday week, M. Leon Achard, a successful singer at the Opera Comique, suddenly bethought himself that he wanted a wife. On that day he said to a friend: "I am a prosperous man. I have a well furnished house in Paris, and another in the country, and I am making 60,000 francs a year by my profession; it is time for me to be married. I care not for a fortune, but I am determined to have a young and pretty woman." Two days afterwards, the friend in question escorted to a stage-box in the Opera Comique a singularly beautiful young lady, Mdlle Le Poitevin, the daughter of a painter. She there saw Achard for the first time singing on the stage, and was given to understand that he might, perhaps, make her an offer. The next day a dinner was arranged at which to introduce the parties. M. Achard, on being presented, said at once, "Mademoiselle, will you marry me?" Her answer, without circumlocution, was, "Yes, sir." The wedding took place on the 5th inst.

☞ A correspondent of the Chattanooga Gazette, writing from East Tennessee, says:

"Sanguine as I have ever been, I must confess to great surprise at the universal popularity of the Lincoln and Johnson ticket. Many gentlemen, reported as tinctured with copper, I find out-spoken and earnest advocates of Abe and Andy, and for the immediate removal of the great and only cause of disagreement between the people of the North and South—slavery."

RYE, N.H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of Dr. SWEET'S PANACEA; and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have noted as agent for the sale of it. JOSIAH HAYNES.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. SWETT'S PANACEA, which effectually cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.

From ELDER I CHESLEY, *Lee, May 31, 1862.*

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1860, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the diseases above named. ISRAEL CHESLEY.

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, No. 7 High street, Portsmouth, N. H., promptly attended to. may26

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS;
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)
76 State street, opposite Kilby street,
Boston.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents; or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is more SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense portion of the subscriber's during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay thereof, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy has made or procured me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, SEVENTEEN OF WHICH was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at the Old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such, being in correspondence with the most eminent Physicians of the Old World, of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.

In Syhilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend in counsele and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject does not permit a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.

A book for everybody—Startling disclosures. Dr. Teller's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery, it contains hundreds of secrets, never before published. Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr. TELLER has devoted a lifetime to the care of those diseases upon which his books treat.

TO THE LADIES.

DR. TELLER still continues his Monthly Agency in America, for the sale of Dr. Velpeau's Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.

CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from 8 A.M. to 8 P.M., and on Sundays from 9 to 5 P.M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice. N. B.—No students or boys employed. Notice this, address all letters to

VERNATELLA.

Warranted to make the Soles of Boots and Shoes water and dampness proof, and wear one-third longer.

VERNATELLA

Is a preparation from Copper, having no grease, linseed oil, or anything of the kind, and when the soles are once saturated with it, water can no more get through them than through copper itself. **Price 25 Cents Per Bottle,**

at retail everywhere.

But its cost to the purchaser is really NOTHING, as it makes the soles wear enough longer to more than pay for it, leaving as a net gain the making of Water and Dampness Proof, and the preservation thereby of that priceless gem, the health.

☞ LADIES, READ THIS! ☜

SAVE YOUR HEALTH.

Use Vernatella on the Soles of your Shoes. It makes them water proof and thereby protects your feet from dampness, for the ground is always more or less moist, either from rain or the morning and evening dew.

Morning Chronicle.

Portsmouth, N. H.

SATURDAY, AUGUST 20, 1864.

THE REBELLION.

Gen. Grant reports that the fighting north of the James river on the 16th was not decisive, but resulted favorably to us so far as it went. The loss on each side was about 1000. Two rebel brigadiers were killed.

Official advices from Gen. Sherman to midnight of the 17th, report no new movements.

Gen. Sheridan reports the defeat of the rebels on the 16th, in an attack by one division of Longstreet's corps and two brigades of cavalry, in front of Front Royal. We captured 2 stands of colors, 24 officers and 276 men. He says: "The cavalry fight was splendid. It was on open ground, and the sabre was freely used by our men."

Refugees report the rebels concentrating a large force at Monroe, Ark., on the Washita river, probably intending to operate against Gen. Steele.

A considerable body of troops is being concentrated by Gen. Canby at Morganzia, La.

Gen. Averill on Thursday held Martinsburg, and his force at noon was drawn up in line of battle just outside the town. No rebels had made their appearance, and the the indications were that they were going toward Gen. Sheridan. But considerable uneasiness was manifested at Hagerstown, and refugees from Martinsburg and other points in the valley were arriving there in considerable numbers.

The rebel Gen. Wheeler is reported to have moved round on Cleveland after his repulse at Dalton, Ga., in the endeavor to get on the railroad leading to Knoxville. Gen. Steadman is said to have defeated him again at Graysville, on the 16th. General Steadman was severely wounded. Colonel Straight, of the 51st Indiana, was killed. A rebel force is reported at Cleveland, Tenn., and a Federal brigade has left Chattanooga for that place. The rebel cavalry has divided into small parties which are demonstrating in the towns of Northern Georgia and Tennessee.

The N. Y. Herald's Washington dispatch states that Gen. Sheridan is pushing up the Shenandoah Valley, and in every encounter from Winchester to Strasburg has driven the rebels. The fight at Front Royal was considered important as unfolding the rebel position.

Union accounts from Adm. Farragut report that the attack on Fort Morgan began on the morning of the 11th. It was to receive an enfilading fire from the fleet and the land forces in the rear. The rebels had destroyed all the out-buildings of the fort, and burnt their only vessel under its guns. To the demand to surrender, their commander replied that he had six months' provisions and plenty of fighting men, and would resist to the last. We held all the channels to the bay, the channel to Dog river was unobstructed, and Gen. Granger had cut off communication between the fort and the city. The captured ram Tennessee would assist in the attack. A rebel dispatch states that on the afternoon of the 15th two monitors and five gunboats crossed Dog river bar, came up within two miles of the obstructions, and opened fire on the rebel batteries and gunboats. One gunboat replied, but their batteries remained silent. The firing lasted till sunset, when the Union vessels hauled off. Firing in the direction of Fort Morgan was heard on the morning of the same day.

The 2d corps made another attack on the rebels north of the James river on the 16th, and were successful, the rebels being driven from their works with heavy loss. We captured several hundred prisoners, a few heavy guns which the rebels had not time to move, and a quantity of small arms. Our loss was severe, but we held the position. About 1 A. M., Thursday, the rebels opened a vigorous fire on the right and centre, at length extending it along the entire line, from the Appomattox to Jerusalem plank road. The fighting was chiefly with artillery and lasted two hours, when the rebels fell back without attempting an assault. The remainder of the day was quiet.

— In London, the other day, a man was sentenced to six weeks' imprisonment for kissing a married woman against her will.

— There has been a fight between the Union and Secesh boarders at Cape May. Secesh were forced to skedaddle.

— The crew of the pirate Tallahassee reported at Halifax that they had destroyed 33 vessels during the past ten days.—The former reports were exaggerated.

— A mechanic in Portland wears a suit of blue broadcloth which he has worn constantly for fifteen years; and his wife previously wore the same cloth, as a cloak, seventeen years.

— Friends of soldiers in hospitals should not put on the regiment or company, when writing to them, as the letters go to the regiments in that case, and are delayed.—It is enough to put on hospital and ward.

NEW HAMPSHIRE ITEMS.

—— There are 7000 more women than men in this State.

—— The National Guards of Manchester, have been ordered to Concord to do guard duty, in place of the cavalry, which has been ordered off.

—— As a cart body was being lifted from the wheels in Bedford on Thursday morning, it accidentally fell over, striking and crushing the head of Charles Parker, a little boy three years old, killing him instantly.

—— The term of service of the 3d N. H. regiment expires on the 24th of August,—the 4th regiment on the 18th of September—the 5th regiment on the 26th of October, and the 1st Battery on the 26th of September.

—— Authority has been given to raise four more companies of heavy artillery in this State, to serve one year and to be mustered in by Sept. 5. They are to be raised in Concord, Nashua, Dover, and Laconia; and Gov. Gilmore has requested permission to raise one more company in Lancaster.

—— Dr. Isaac Doten, an aged physician in Manchester, returning to his house on Thursday morning, after having been with patients all night, by mistake opened the wrong door in the second story, and was precipated the entire length of the back stairs, seriously injuring him in the spine.

—— The Mirror states that Patrick Glavin, 27 years of age, was caught by a belt in the machinery at the Manchester Print Works on Thursday, and wound around a shaft making one hundred and sixty-five revolutions per minute. His hands and feet were severed from his limbs, as they were driven against the ceiling, and although the main belt was thrown off as quickly as possible, he was so severely injured that he died in a few minutes. He leaves a wife and one child.

— A suspicious barque rigged steamer is reported to have been lying off Cape Race Saturday, Sunday, Monday and Tuesday.

— Somebody says Dickens and Dumas are the two greatest spendthrifts of the times.

— The Tallahassee was formerly the blockade runner Atlanta, and has made 3 trips into Wilmington.

— A Hilton Head letter of the 14th inst. states that a large propeller ram ran thro' the fleet off Charleston, got aground, and was destroyed by our batteries.

— The Chattanooga Rebel, of a recent date, says: "We admire McClellan and we admire Buell also; we admire Vallandigham more than all, because he was against the war at the start, and has kept his faith ever since."

— Peterson's Magazine, for September, contains a pretty and suggestive engraving —"the Young Politicians"—and a full month's supply of fashion, miscellany, &c. The price is still kept at $2 per year,—but we can't see how it is done.

— A canvasser for a city directory says he asked an old colored lady the number of her house, and subsequently noticed that her answer was incorrect. He called her attention to the fact, when she replied she knew she was right, for she always took her number with her when she moved.

— On Thursday forenoon the works of the Newton Lubricating Oil Company, in Roxbury, Mass., were totally consumed by fire, which originated from the explosion of the boiler. The works consisted of several buildings, and covered about half an acre of land. Loss $23,000; insured for $15,000.

— A letter from Saratoga says the butterfly, the type of ephemeral pleasure, is, most fittingly, the favorite decoration of the times. It is worn in the hair, of every imaginable material, from gold and precious stones of enormous value, to the slightest tissue of silk and tinsel.

— The Commissary General of Prisoners has ordered that hereafter no supplies of any kind will be furnished to prisoners of war by their relatives or friends, except in cases of sickness. Necessary clothing may be furnished by near relatives to the prisoners. Only one suit of outer clothing and a change of under clothing will be allowed.

— The dwelling house in which General Hamilton lived has just been taken down—the last of the old residences in the lower part of New York. It was a three-story brick house, and a very genteel one in its day. The marble stone steps, down which Hamilton walked on the morning that he left home for the bloody ground of Hoboken, where he fought with Burr, remain, and nearly every passer-by clips off a bit of the marble.

— When Gen. Hunter and staff was moving from Parkersburg to Cumberland via Clarksburg, the authorities of the latter place decided to honor the arrival of the General by a salute. Accordingly as the train came in after dark with the distinguished officer, the Clarksburgians let off their big guns. Instantly the lights in the train were extinguished, and every man on the cars fell flat on the floor, thinking the train was attacked by the rebels. A smile followed soon after the fright.

THE MILITARY BILL.—The following abstract of the provisions of the Military Bill, which is now before the Legislature, is from the Monitor:

The Governor is authorized to appoint ten State agents to recruit in insurgent States, the men secured by them to be divided *pro rata* among the different subdistricts. Said agents receive $10 for each one year's man, $20 for each two years' man, and $30 for each three years' man enlisted, and also $3 per day in full for pay and expenses.

The Governor may commission an agent for any sub-district or association of subdistricts to recruit in insurgent States, said sub-districts to pay the expenses of these agents, and advance the money to cash the State bounties, and the man enlisted to be credited to their quota.

$150 is authorized to be paid as State bounty to a one year's man, $300 for a two years' man, and $500 for a three years' man, in insurgent States. No town bounty is provided for.

The Governor may appoint four paymasters, at a salary of $150 per month, who shall give bonds in a sum double that which is entrusted to their hands, and pay the State bounties to recruits secured by agents authorized to recruit in insurgent States for the quota of the entire State.

The Governor may offer $100 bounty for a one year's man, $200 for a two years' man, and $300 for a three years' man, to volunteers, substitutes and representative substitutes who shall be mustered to fill the quota of this State during the present war, and may offer a bounty of $200 to every drafted man actually mustered for one year's service. These bounties apply to men recruited in this State, either for the military or naval service, and are to be paid to all who have been accredited to our quota since June 1st, 1864.

Any sub-district may offer bounties equal in amount to those specified in the preceding paragraph to the same classes of persons and for the same terms of service, making such distinctions as the legal volunteers please between volunteers and substitutes; and any sub-district may pay any sum they please to an enrolled citizen actually mustered for personal service as a volunteer.—These town and city bounties can only be offered at a called meeting of the legal voters thereof, of which five days notice shall be given.

No city or town shall pay either directly or indirectly to any drafted man, volunteer or substitute any greater sums than those sanctioned by this act—that is $200 for a drafted man for one year, and $100, $200 and $300 for unenrolled volunteers and substitutes—under a penalty of not less than $100 or more than $500, and the forfeiture of the State bounty due to the quota of said town. These bounties are to be paid in currency and not in coin.

The Governor is authorized to refund the sums expended by any town for men credited to their quota under the present call prior to July 16, 1864, to an amount not exceeding the State bounties authorized by this act.

—$24,000,000 of fractional currency is in circulation.

— It is astonishing how many "notorious" guerrilla officers have been killed during the war.

— The speculators have got bitten in attempting to control the peach crop of Delaware. It was too large to handle.

— An anvil weighing seventeen and a half tons was recently cast at Dundas, Canada.

— A new telegraph cable has arrived at Fortress Monroe, from England, to make direct communication with Washington.

— A fire at Manilla has destroyed tobacco to the amount of two millions of dollars.

— The Brooklyn Navy Yard is so crowded with vessels repairing and fitting for sea, that twelve U. S. vessels have been sent to private yards in the vicinity for repairs.

— The Congregational Church at Bennington, Vt., with all its contents, including a large organ, was burned on Thursday morning. The fire is supposed to have been incendiary. The loss is $12,000.

—It is stated that by a recent law of Congress, parties purchasing one hundred dollars' worth of postage stamps or five hundred stamped envelopes, will be entitled to a discount of 5 per cent.

— Of nineteen factory fires which have occurred in 1864, sixteen originated in the picker rooms, and twelve of them in the print machines, and were attributed to foreign matter in the cotton.

— The Salem forts have been garrisoned, and the people sleep more soundly. In fact the Gazette says, in another connection, that the bells rang a fire alarm on Wednesday night "with great perseverance, and came near waking up half the town."

— The names of the vessels now building at the Brooklyn Navy Yard are:—Wampanoag, Madawaska, Moshula, Quinebang and Kalamazoo. When Sec. Welles has exhausted the supply of these pretty names, he may choose some that common folks can appreciate.

— The Press states that a clerk in a Portland drug store, the other day, finding he had taken a quarter eagle by mistake for a cent, took the trouble to inquire of every person from whom he had received change that day, and at last went to a depot where he had purchased a ticket and found their cash account $2.50 short. He handed over the gold piece. Honest Old Abe can't hold a candle to that young man. He'll be President yet.

Draft Notice.

To the Citizens of Portsmouth:

The undersigned, having been appointed by the Board of Mayor and Aldermen, a Committee to lay before the Board of Enrollment the names of all persons who claim exemption from the following causes, viz: Alienage, Non Residence, Unsuitableness of Age, Manifest Permanent Physical Disability, and persons who have been in the service two years during the present war, would give notice that they will be in session on and after Wednesday, Aug. 17, 1864, from 2 till 5 o'clock and from 7½ to 9 o'clock P. M., at the City Rooms, for the purpose of receiving evidence in such cases.

The Enrollment list can be seen during the same hours, and every person who can present a claim for such exemption is respectfully requested to attend as above, and by this means correct the Enrollment, so that our quota can be reduced.

It is the duty of every citizen, whether enrolled or not, to see that the Committee have all the information in his power to give in the above matter, in regard to anyone, and we trust that every enrolled man will urge the importance of the subject upon all those who are exempt for the above causes, as it is a matter of interest to all.

Any information in regard to matters connected with the above will be cheerfully given.

Let there be no delay.

ONEDA E. DeBOIS,

Of Hayti.

ONEDA E. DeBOIS, a French Zambo, who was born a slave of her uncle in Southern Alabama, and whose irresistible eloquence has thrilled the hearts of thousands, will deliver a LECTURE AT

THE TEMPLE, PORTSMOUTH,

Sunday Evening, Aug. 21, at 7 1-2 o'clock,

Detailing the surroundings of her early childhood, her escape from bondage, her education at Oberlin, journeying to and residence of three years in the island of Hayti, describing their manners and customs, modes of burying their dead, &c. Miss D. wishes to establish a school for girls in Gonaives, Hayti, and hopes the friends of philanthropy will lend her a helping hand.

NOTICES OF THE PRESS.

The Sandusky Register says: "Miss Oneda E. DeBois, a young lady of color, of uncommon intelligence, and the most acute powers of mind, has been visiting our city for several days past. She starts to-day on a lecturing tour through Northern Ohio and Western Pennsylvania. She has uncommon powers of delivery, and, from a life upon an Alabama plantation cannot fail to give an interesting lecture."

From the Philadelphia Press.

"After devotional exercises, the lecturer was presented to the audience. She is a good and entertaining speaker. Gifted, as she undoubtedly is, with a lively imagination, she depicted some of the eventful scenes of her life. She was very happy in her description of the customs and manners of the people of Hayti. Her mission is to raise funds for the establishing of a school for the females in Hayti. She will remain in this city for several days, to receive such voluntary contributions as the philanthropic may be willing to advance, after which she proposes extending her tour as far as Northern Ohio. So far she has been very favorably received, for which, on behalf of the uneducated of Hayti, she expressed her grateful thanks, and believed that under the blessing of God, who holds all his creatures accountable for their actions in life, she will meet with entire success."

From the State Gazette.

"Miss DeBois is evidently a woman of more than average cultivation and intelligence. She brings letters and recommendations from some of the most respectable persons in Washington and elsewhere."

Brooksieper's Patent

Self-Acting Gas Regulator.

SOMETHING ENTIRELY NEW.

Patented 1864.

A brilliant and equal Light at a saving of 30 per cent. over any Gas Burner now in use.

This is not a Regulator to go on the Meter, but under every Burner in use.

Economy in the use of gas, with the advantage of having a more brilliant light and therefore is a point at once desirable. Inventors have for many years sought to attain this end by packing or checking in innumerable ways the flow of gas through the burner tips.

Not one of these has attained the result wished for, namely, "a pure, transparent flame, without waste at any and all pressures, obtained at any hour and in all localities."

The above results are fully obtained in

Brooksieper's Patent Gas Regulator.

We invite the most incredulous to examine and test in the most thorough manner.

RETAIL PRICE, EIGHTY CENTS.

A liberal discount made to Churches, Factories, Hotels, &c. The Regulators will be put on and if they do not prove satisfactory may be returned. CHARLES T. EMERY,

"A Wonderful Discovery."
DR. TEBBETTS' "PHYSIOLOGICAL HAIR RE-GENERATOR" is compounded in strict accordance with the well known laws of Physiology and modern vegetable Chemistry. It is not a "DYE," and will not stain a particle. It will "RESTORE GRAY HAIR" in all cases to its original color. It promotes a luxuriant growth of new HAIR in all cases on BALD HEADS, when the glands or roots of the hair are not completely disorganized. It prevents the hair from falling off and removes all dandruff, heat, humors and itching from the scalp. It keeps the hair soft, moist and perfectly healthy, and gives it a glossy and beautiful appearance. It is highly perfumed, and as a Dressing it has no superior. The "REGENERATOR" is warranted to produce the above results in all cases, if not the money to be refunded. With it every "GRAY HEAD" in New England can be restored in less than sixty days.

Local.

☞ On Friday morning the genial face of the counsellor, confidant and friend of Mrs. Partington beamed—(we don't like to say 'genial' and 'beamed'; the epithets are just, but everybody employs them when speaking of Ben. Shillaber, and we aim at originality: but the poverty of the Language constrains us and we say)—the genial face of Mrs. P.'s friend beamed in upon us through the open door of our office. A moment passed, however, and the beam (which wasn't all in your eye, either,) was clouded for another moment with disappointment at the absence of "P.," who is off, as a down-east exchange accidentally put it, with the "Congregational" Committee, for the especial gratification of whom the entire state of Maine seems to have resolved itself into a committee of the whole. But we were speaking of B. P. S., who has been rusticating, extending his peregrinations even unto the land of the Kanucks, and of course being always and everywhere most hospitably entertained. Now turns he hither, intending to remain for a few days amid the haunts which in youth he loved so well, and in the prime of life has oft described in song and story. There are fish waiting to be caught in the blue Piscataqua, and there are rides and sails to be enjoyed, that materials may be obtained for the future delectation of Mrs. P. by tales of rare sport by land and sea.

☞ It will be seen by the advertisement in this morning's Chronicle that the fine new steamer Pioneer has commenced her regular daily trips to and from the Shoals, under the care of Capt. Amazeen, an efficient and affable officer,—leaving Railroad Wharf, at the North End, on the arrival of the trains. By placing this boat on the route, nothing seems to be wanting to render a trip to the Shoals pleasant and attractive. Travellers from abroad may no longer "fear that the wind will die away" and detain them below the Narrows until the afternoon trains have gone.

☞ Paymaster J. McCauly Brown, U. S. N., who has been at this station on special service for several weeks, has received a draft from Washington for $40,000, to pay off U. S. ship Tioga. The payments will be made next Wednesday, Aug. 24.

☞ Maj. Albert H. Hoyt, Paymaster U. S. A., arrived in this city on Friday, from New Orleans, where he has recently been stationed.

☞ Lieut. Robert S. Dame, of this city, Co. K, 5th N. H. regiment, has been promoted to the Captaincy of that company.

☞ The reader's attention is invited to the advertisement of Miss DeBois' lecture on Sunday evening at the Temple. It will not fail to interest all who wish to know the manners and customs of different nations and climes.

Some days since a tenement in Portland was entered by a man named Henry Watson, and robbed of a number of articles.—Marshal Heald was made acquainted with the circumstance, and last Monday officer Smith was put on the track and followed the thief into New Hampshire, and on arriving at Dover he procured the assistance of an officer and continued on up through Strafford County, when on going into a house they found that Watson had just escaped to the woods, leaving his plunder behind, which was secured, but the thief made good his escape.—*Portland Advertiser.*

☞ Barque P. C. Alexander, of Harpswell, Merryman, from New York for Pictou, N. S., was captured Aug. 15, by the pirate Tallahassee, off Monhagan. Crew landed there and arrived at Harpswell. Some of the captured sailors say that Wood's real name is Huckins, a Nova Scotian, who resided in Portland a short time since. The pirate was still at Halifax on Friday.

— The wife of Gen. Sibley, of the rebel army, has come over to our side in Arkansas. Her husband escorted her to the Federal lines and there bade her good-bye. She stands by the old Union and the old flag.

RESTORING PICTURES.—A new method for restoring pictures, which has lately been invented by Professor Pettenkofer, has, we learn, been patented in England. Having examined several paintings of great age, Professor Pettenkofer found that the indistinct appearance was due to a want of cohesion on the part of the molecules of the paint, by reason of which they separated from each other and produced small fissures, thus destroying the power of reflecting light. His remedy is, therefore, a mechanical rather than a physical one, and consists of exposing the picture, which is previously laid upon a flat metallic surface, to a mixture of atmospheric air and alcoholic vapor. The latter penetrates the oil paint, softens its molecules, and, thus allowing them to cohere, once more enables the surface to reflect light as it did at first, and restores it to its primitive condition.

A monument to John Smith has been erected on the Isle of Shoals. The location is good, as there are shoals of the John Smiths.—*Ex.*

Facts for the People.
The enormous rise in price of Iron, Coal and Labor, has caused manufacturers to advance the price of STOVES and Castings several times since the war began; and it is now arranged to make a general advance of 25 to 50 per cent. this season.
We have not yet raised the price of Stoves in proportion to their increased cost, but shall be compelled to do so very shortly. Persons who expect to purchase anything in the Stove and Furnace line within a year or two, will save money by doing so at once. The price of a Stove is not so much an object, now, as its capacity and the cost of operating it. All things considered, there is no Stove equal to
THE MODEL COOK.
IT IS, IN FACT,
The Best Stove Out,
for economy, convenience and dispatch.
Many people think it best to use an old stove as long as possible, but it is far better to throw it away and purchase a MODEL COOK, than to keep it at the present high price of fuel.
One of our shrewdest citizens who purchased a MODEL COOK STOVE a year since, says he has saved more than its cost already.
A careful, prudent farmer purchased one, and after it had been in operation some days his son came into the store and said, "something was wrong at their house;" his father and himself used wood off the same pile, he burned three baskets full a day, and his father only one! We sold him a stove before he left, and there has been no complaint since.
These Stoves are in use in many hotels and boarding houses, and in hundreds of private families in this city and vicinity, and give the best of satisfaction.

THE DEAD ALIVE.

We last week gave a well-deserved obituary Lieut. WM. H. MIX, who was reported killed in the assault on Petersburg, July 30. Mrs. Mix received letters during last week stating the circumstances of his death, from Capt. Pitts, from the Adjutant, and also from several others of the regiment. They gave her information of the amount of his back pay for which she could draw, and also instructions for obtaining her pension. On Wednesday last, while preparing her habiliments of mourning, she received a letter with Confederate stamp, in her husband's own handwriting, stating that he with three others after the most desperate resistance, were taken prisoners, and were then, four days after the capture, in a cell in the vicinity of Petersburg, not wounded. One of the four had escaped. The cheering news which came so unexpectedly upon the mourning wife, was as much as could be well borne.

"BLESS GOD FOR THE RAIN!"—If ever there was a pleasant rainy day which every body seemed to enjoy, it was on Wednesday last, when the cloud poured out their treasures bountifully upon the parched earth—2¼ inches of rain falling. As every acre of ground received about 2000 barrels of water, and Portsmouth contains almost ten thousand acres, there fell from the clouds within our own limits on that day no less than twenty millions of barrels of water, all of which was actually needed to restore vegetation to a healthy state.

ACHIEVEMENTS OF OUR NAVY.

The National Intelligencer of Thursday re-produces in full the pamphlet of Mr. Edge, published in London, on the Kearsarge-Alabama contest. In the course of its comments occur the following remarks:—

The Kearsarge, we need not say, is one of those vessels of recent construction which have been made the subject of much banter by a portion of our press, whose would-be facetious conductors, with more of pleasantry than propriety, have been in the habit of calling them "Rip Van Winkle's tubs." As there is an old proverb which pithily says, "Let those laugh who win," we suppose the present Secretary of the Navy, in availing himself of the permission given by this apothegm, will not feel particularly called, in view of such results as are achieved by his "tubs," to take any very serious notice of the "fleers, the gibes, and the notable scorns" by which certain persons in our own country have sought to disparage the effectiveness of our Navy under its present administration.

When the events of *our* gigantic struggle shall come to be appreciated by the standards of the impartial historian, it will be found, if we mistake not, that the capture of New Orleans—a capture effected by the Navy alone—was not only the greatest achievement of the kind in the annals of naval warfare, but that, if the magnitude of the conquest is estimated by the cost at which it was gained, there has been no success so signal and so complete in the war from its origin to the present time. And it is impossible to overestimate the aid which the Navy has rendered the army in the operations of the latter, whether we look to the effectiveness with which it has sometimes opened the way for our advancing forces, as in the capture of *Fort Henry* at the very beginning of the war, or to the readiness and zeal with which it has sometimes covered retreat, as on the banks of the Tennessee after the battle of Shiloh; and on those of the James after the repulse of Gen. McClellan from Richmond. And what might have been the changes in our situation if the Monitor had not interposed in the "nick of time" to stay the progress of the Merrimac in the spring of 1862? To recur to these familiar topics is to revive in every mind a lively sense of the part which the Navy has played in the history of this most eventful war.

CAPTAIN REED'S NARRATIVE OF THE PIRATE TALLAHASSEE.

Captain Reed, of brig Billow, before reported captured by the Tallahassee gives the following particulars of his interview with the Pirate's Captain: "I was two hours and a half on board the Tallahassee. She had one pivot gun and three forward guns, with one brass rifle gun of large calibre on the hurricane deck. She had also several sporting guns. The Captain, John Taylor Wood, was quite free to talk to me. He said he could steam sixteen knots and had crossed the British Channel, 21 miles, in seventy-two minutes. He would not fight, he said, unless compelled. He preferred to run, as his vessel was fast. He also averred that within one week he had destroyed over fifty vessels. Within 30 hours of my capture he said he had destroyed 16 sails, namely: Three ships, two barques and the rest schooners and hermaphrodite brigs, one was the Sarah Adams, of New York, captured the same day he took me. He added that he would break up the coasting trade so that Uncle Abe would be glad to make peace. He asked me about the Nantucket Light boat, and afterwards said, recurring to his corvett that there were nine afloat then, the Florida and Tallahassee, meaning of course, Confederate ships of a similar character to his own, and that Uncle Sam had better look out. Captain Wood appeared to be a very affable man and said he was doing what it was not pleasant for him to do. The Tallahassee is an iron steamer of English build, schooner rigged, and has no yards or topmasts, and lost her main mast in collision with the Adriatic. She is a very long and narrow vessel, burns soft coal, had about a hundred men on board who were subject to the discipline and order of a man of war. He allowed no swearing on board. All of the officers were Southerners. She had three or four negroes who did not appear very jolly.

A DARING REBEL PIRATE.—The rebel privateer Tallahassee reaped a rich harvest of piracy in her cruise of Friday and Saturday in the vicinity of Sandy Hook. The vessels known to be captured by her are the ship Adriatic, the brigs A. Richards and Carrie Estelle, the barques Bay State and Suliote, the schooners Atlantic, Sarah A. Boyce, Sirene and Carroll, and the pilot boats James Funk and William Bell. The greater part of these vessels were burned, one or two were bonded, and one, the James Funk, was converted into a tender for the rebel cruiser. The Adriatic was a first class ship, of a thousand tons burden, and had 163 emigrants on board, who were sent ashore. She had also a full cargo of merchandise, the latter mostly on British account. In rounding to after her capture the Adriatic collided with the pirate, carrying away the Tallahassee's mainmast, and had there been a good wind at the time would have sunk her.

The pirates were guilty of the greatest inhumanity to the ladies found on board the vessels captured, who were put ashore without food. One of these ladies had an infant at the breast. They also stripped the captains and seamen of the vessels of every article of value. An old man was robbed of every dollar he possessed, the accumulated savings of fifteen years. They even took his dog.

Important to the Afflicted.

DR. DOW continues to be consulted at his office, No. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, impotency, scrofula, Gonorrhœa, Gleet, pain and distress in the region of procreation, inflammation of the bladder and kidneys, Hydrocele, Abscesses, Humors, frightful Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr D. devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervous Irritability, Dyspepsia, Dig-
estive functions, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion to society, self-distrust, timidity, &c., are among the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your cases. Dr. Dow has also for sale the French Capsules, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

Highly Important to Females

IN DELICATE HEALTH.

DR. DOW, Physician and Surgeon, No 7 & 9 Endicott Street, Boston, will be consulted daily upon diseases incident to the female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.

Dr. Dow has no doubt had greater experience in the cure of the diseases of females and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, entitles him to be superior in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 8 A. M. to 9 P. M.

CERTAIN CURE

in all cases, or No Charges Made.

DR. DOW is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, having by his unremitting application to his extraordinary practice gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated Dr. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon, cannot do better than to call on him.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Price $1 and a red stamp.

Boston, April 7, 1864.—eodly

DR. S. O. RICHARDSON'S
BLOOD ROOT ELIXIR

Has been thoroughly tested and proved in his medical practice, for a period of THIRTY YEARS, and is now generously offered to the public as an effectual cure for

COSTIVENESS,

and the best remedy ever prepared for

Diseases of the Liver,

SCROFULA,

All Humors and Impurities of the Blood, and Diseases of the Skin.

The preparing and combining the Blood Root Elixir, is attended with results so astonishing, next in importance to the inhalation of ether in surgery. Roots and plants, in themselves powerful and inoperative, yet, by the use of scientific process of extracting (in vacuo) rendered MORE EFFECTIVE IN THEIR OPERATION, entirely divested of the griping and distressing pain which attends the action of other purgative medicine. They are also made to become HIGHLY PLEASANT AND AGREEABLE TO THE TASTE,

and by their peculiar combination work so perfectly in HARMONY WITH NATURE that no unpleasant reaction will follow its operation. It also possesses

A Diffusive and Alterative Effect,

which can only be attained by medicine in a fluid state. These are new elements in purgative medicines.

The hard and compact manner in which pills are generally employed, makes them indigestible—and when taken are forced through the stomach and bowels, half dissolved, causing only PARTIAL ACTION, and producing griping irritation and pain to the parts connected with the intestinal passages.

One pill dissolved, *somewhere else*, will produce more medicinal and physical effect than five in a crude state.

The BLOOD ROOT ELIXIR has no partial action upon the bowels, but is equally diffused throughout the whole circulation of the blood, thereby giving a most decided tone and vigor to the STOMACH AND BOWELS, LIVER, LUNGS, KIDNEYS, and gently stimulating dormant and morbid secretions into healthy action.

A single dose will produce a cheerful and exhilarating COMMOTION, which will inspire the invalid with confidence and hope, and ULTIMATE RELIEF. A continuance for a short period will DRIVE the obscure and hidden humors to the surface of the skin, and relieve or check SCROFULOUS AFFECTIONS, and by thus purifying and strengthening the blood, will REMOVE the most fruitful

CAUSE OF CONSUMPTION.

It incites the various organs of the system to act their allotted part, removing the causes which induce RHEUMATISM, NEURALGIA, HEADACHE, LOSS OF APPETITE, DYSPEPSIA, COSTIVENESS, and the various diseases which follow from a derangement of the Stomach and Bowels, and restricted circulation of the Blood.

COUGHS and COLDS, in their early stages, will immediately yield to the effect of the Elixir.

The BLOOD ROOT ELIXIR contains no mineral, no poisonous botanical element, no excitant, but stimulates the secretions into a healthy and invigorative action. It is an effective and painless purgative—a focused, salutary action upon the Liver, and does not form an *medicine prepared for common family use which possesses equal merit.*

Travellers, both by sea and land, will find the Elixir a complete antidote for the evils which they are obliged to endure from a change of climate, of water, or of diet.

See the pamphlet around each bottle for a history of the Elixir.

The proprietor of the Blood Root Elixir, (Dr. S. O. Richardson,) has been long and favorably known to the public by his celebrated SHERRY WINE BITTERS, the best tonic medicine ever discovered, and which has been in use over thirty years. He is a graduate of the New Hampshire Medical College, and many years associate member of the Massachusetts Medical Society, and has made the study of medicine his profession since 1820.

And so fully convinced is the Doctor of the wonderful curative effects of his Blood Root Elixir, that he offers to pay $50 to any person who will use one-half of a bottle of his Elixir and not be conscious of a good effect therefrom, to refund to said person the amount which he paid for the same, by returning the village bottle to his office.

Price $1.50 per Bottle.

Sold in Portsmouth by J. H. THACHER, opposite the Post Office, and Soc. to Market Square; and by Dealers in Medicine generally, and at Dr Richardson's Office, No. 51 Hanover street, Boston. aug—2mecd & W

SPEER'S
SAMBUCI WINE,

PURE AND FOUR YEARS OLD,

OF CHOICE OPORTO FRUIT,

For Physician's Use, Females, Weakly Persons and Invalids.

AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs; very beneficial in Dropsy, Gout and Glandular Affections.

SPEER'S SAMBUCI WINE is not a mere stimulant, but a wholesome tonic, and is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by physicians and chemists as containing more medicinal properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and rebuilding ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

☞ None genuine unless the signature of "ALFRED SPEER, Passaic, N. J.," is over the cork of each bottle.

GOLDEN SHEAF WHISKEY.

C. A. RICHARDS,

99 WASHINGTON STREET,

Boston.

Would most respectfully invite the attention and examination of all Grocers, Druggists, Apothecaries and Private Individuals, desiring to sell or use STRICTLY PURE

Liquors, Wines, Cordials or Bitters,

to the list of choice goods enumerated below, which are constantly on hand in large quantities in his Large and Spacious

Wine Store and Bottling Establishment,

99 Washington street, Boston.

First on the list, as a reliable pure stimulant, stands the celebrated and widely-known

Golden Sheaf Bourbon Whiskey,

made from Wheat, Rye and Corn, warranted for five years old. Put up in unique style, each bottle in a paper box, in cases of one dozen each, the large size and fourteen pints of which convince the proprietor that no extended advertisement is needed to extol its real merits. It will recommend itself at first trial.

Golden Sheaf Cordial.

A delightful and healthful beverage, aromatic, with a rich ginger cordial, made from the pure Golden Sheaf Whiskey.

Golden Sheaf Bitters.

The best Tonic Bitter ever offered to the public. Mingled with the rich flavor of the Bourbon are a number of other valuable tonics, combining the appetite and imparting life and vigor to the whole system.

Golden Sheaf Punch.

Made from fresh, ripe lemons, and other articles, combined as a whole into a fine rich

Bourbon Whiskey Punch.

All the above put up full strength of the whiskey, and in cases of one dozen each. These articles improve by age, and no exposure of climate can affect them.

JOHN AND ROBERT DUNSTER'S

CELEBRATED

LONDON DOCK
SPIRITS AND WINES,

Imported solely by C. A. R., in wood, from the London Docks, and bottled by him in America. The distinguished and world-wide reputation of these articles has induced the subscriber to seek and obtain the Sole Agency in this country.—They are sold only in Bottles, *entirely pure, and without adulteration*, and comprise the four kinds, as follows:

LONDON DOCK GIN,
LONDON DOCK BRANDY,
LONDON DOCK SHERRY,
LONDON DOCK PORT.

All in cases of one dozen each, in strong shipping order for immediate transportation, and are sold lower than any other liquors and wines in the market, of equal quality.

Pure California Wines.

The large demand for the pure wines of California has made it a fixed fact that no well selected stock of Wines is complete without them. C. A. R. has made arrangements for the entire production of

The Largest Vineyard in California!

and is now bottling, and offers for sale, the finest CALIFORNIA WINES ever seen in the market, of four qualities, in splendid style of labels, bottles and cases—such as

CLARET—Sweet.
PORT—Rich.
ROCK—Dry.
STILL CHAMPAGNE—Delicious.

Parties attracted by this advertisement, or who have already become acquainted with the qualities of these wines, can have a price list sent by mail, or samples by express, when desired, by addressing the subscriber.

C. A. R. CHARDS,

99 Washington street. - - - Boston.

NOTE.—C. A. Richards would also beg leave to state that the above are only a part of the list of articles for sale and imported by him. He has, in addition, one of the largest stocks to be found of **Fine Bottled Wines and Spirits**, of every variety and kind, together with a fine assortment of Fine Cigars, Pickles, Sauces, and every kind of table ware usually found in a first-class wine store in this country or in Europe.

Orders are most respectfully solicited.

CHEROKEE REMEDY

AND

CHEROKEE INJECTION,

Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys Stone in the Bladder, Stricture, Gravel, Gleet, Gonorrhœa, and is especially recommended in those cases of Whites (Whites in females) where all the old nauseous medicines have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all of its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an ally or assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites. Its effects are healing, soothing and *soothing*, removing all scalding, heat, chordee and pain, instead of the burning and almost unendurable pain that is experienced with nearly all the *cheap quack injections.*

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write us and we will mail free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.

Price—CHEROKEE INJECTION, $2 per bottle, or three bottles for $5.

Sent by Express to any address on receipt of price. Sold by all druggists everywhere.

THE GREAT

INDIAN MEDICINE,

COMPOUNDED FROM

ROOTS, HERBS AND LEAVES.

CHEROKEE CURE.

An unfailing cure for Spermatorrhœa, Seminal Weakness, Impotency and all those disorders caused by self-pollution; such as Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Nervous Irritability, Dyspepsia, Trembling, Wakefulness, Eruptions on the Face, Pale Countenance, Insanity, Consumption, and all the disorders and complaints caused by departing from the path of nature.

☞ This medicine is a simple vegetable extract and one on which all can rely, as it has been used in a number of other countries for many years, and with thousands treated it has not failed in a single instance. Its curative powers have been sufficient to gain victory over the most stubborn cases.

☞ To those who have trifled with their constitution, until they think themselves beyond the reach of medical aid, we would say, *Despair not!* The Cherokee Cure will restore you to health and vigor, and after all quack doctors have failed!

☞ For full particulars, get a circular from any drug store in the country, or write the proprietors, who will mail free to any one desiring the same, a full treatment in pamphlet form.

☞ Price, $2 per bottle or three bottles for $5, and forwarded by express to all parts of the world.

Sold by all respectable druggists everywhere.

DR. WRIGHT'S
REJUVENATING ELIXIR,

OR ESSENCE OF LIFE.

Prepared from Pure Vegetable Extracts,

Containing nothing injurious to the most delicate.

The Rejuvenating Elixir is the result of modern discoveries in the vegetable kingdom; being an entirely new and abstract method of cure, irrespective of all the old and worn-out systems.

This medicine has been tested by the most eminent medical men of the day, and by them pronounced to be one of the greatest medical discoveries of the age.

One bottle will cure General Debility.

A few doses cure Hysterics in females.

One bottle cures Palpitation of the Heart.

A few doses restore the organs of generation.

From one to three bottles restore the manliness and full vigor of youth.

A few doses restore the appetite.

Three bottles cure the worst case of Impotency.

A few doses cure the low spirited.

One bottle restores the sexual power.

A few doses bring the rose to the cheek.

This medicine restores to manly vigor and robust health the poor debilitated, worn-down and languishing victims of sensual pleasure.

The listless enervated young man, the over-tasked man of business, the victim of nervous depression, the individual suffering from general debility, or from weakness of a single organ, will all find immediate and permanent relief by the use of this Elixir or Essence of Life.

☞ Price, $2 per bottle, or three bottles for $5, and forwarded by express, on receipt of money, to any address.

Sold by all druggists everywhere.

CHEROKEE PILLS!

SUGAR-COATED.

FEMALE REGULATOR.

Health Preserver!!

CERTAIN AND SAFE.

☞ For the Removal of Obstructions, and the Insurance of Regularity in the Recurrence of the Monthly Periods.

They are or obviate those numerous diseases that spring from irregularity, by removing the irregularity itself.

They cure Suppressed, Excessive and Painful Menstruation.

They cure Green Sickness (Chlorosis).

They cure Nervous and Spinal Affections, pains in the back and lower parts of the body, Hysterics, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hypochondria, Headache, Giddiness, &c., &c. In a word, by removing the irregularity, they remove the cause and with it, the effects that spring from it.

Composed of simple vegetable extracts, they contain nothing deleterious to any constitution, however delicate, their function being to substitute strength for weakness, which, when properly used, they never fail to do.

They may be safely used at any age and at any period, *except during the first three months*, during which the unfailing nature of their action would infallibly prevent pregnancy.

All letters seeking information or advice will be promptly, freely and discreetly answered.

Full directions accompany each box.

THE MAGEE
COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which makes it equal to the old-fashioned brick oven for perfectly baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also there is warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shovelling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The fine or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off through the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and in fact fire may be kept the entire season without once going out.

They give entire satisfaction wherever used.

We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron R. Hill,	Charles H. Moulton,
Henry F. Wendell,	John Sise, and others.

NEW HAMPSHIRE BIRD LAW.

PASSED JULY, 1862.

AN ACT to promote the interests of Agriculture.

Section 1. If any person shall, at any season of the year, take, kill or destroy any of the birds called robins, thrushes, larks, blue-birds, orioles, sparrows, swallows, martins, woodpeckers, bobolinks, yellow birds, linnets, fly-catchers or warblers; or shall, between the first day of March and the first day of August, take, kill or destroy any of the birds called snipes, wood-cocks, plover, rails, yellow legs, or sand pipers; or shall, between the first day of March and the first day of September, take, kill or destroy any of the birds called partridges or grouse, or quail, or shall, within the respective times aforesaid, sell, buy or have in possession any of said birds, taken or killed, whether in this State or elsewhere, he shall forfeit for every said partridge or grouse, quail, woodcock, snipe or plover taken, killed or had in possession, the sum of three dollars, and for each of the other birds named above, the sum of one dollar, to be recovered by complaint before any justice of the peace.

Sec. 3. It shall be the duty of the selectmen of towns, and of the mayor and aldermen of cities throughout this State, to cause the provisions of this act to be enforced within their respective limits.

Sec. 4. All forfeitures or penalties recovered for violation of any of the provisions of this act, shall enure—one half to the use of the complainant, and one half to the use of the town or city where the same shall be recovered.

EYE, N.H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it afflicted her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of DR. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH PERKINS.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up full of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.

From ELDER I. CHERLEY, *Lee, May 31, 1841.*

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, and continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the diseases above named. ISRAEL CHERLEY

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, No. 7 High street, Portsmouth, N. H., promptly attended to. mav26

Ayer's Cathartic Pills

Are the most perfect purgative which we are able to produce or which we think has ever yet been made by anybody. Their effects have abundantly proved to the community how much they excel the ordinary medicines in use. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, restore the obstructed functions of its organs, purify the blood, and expel diseases. They purge out the foul humors which breed and grow dangerous, stimulate sluggish or disordered organs into their natural action, and impart a healthy tone with strength to the whole system. Not only do they cure the every-day complaints of everybody, but also formidable and dangerous diseases. While they produce powerful effects, they are at the same time so gentle, in combined the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and, being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief, were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of our remedies, while others have sent us the assurance of their conviction that our preparations contribute immensely to the relief of our afflicted, suffering fellow men.

The Agents below named are pleased to furnish gratis our American Almanac, containing directions for their use, and testimonials of their cures of the following complaints:

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache, Headache arising from foul stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and pain arising therefrom, Flatulency, Loss of Appetite, all Diseases which require an aperient medicine. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstructions of its functions.

Do not be put off by unprincipled dealers with other preparations which they make more profit on. Demand AYER'S and take no others. The sick want the best aid there is for them, and they should have it.

Prepared by J. C. AYER & Co., Lowell, Mass., and sold by Brackett Hutchings, J. H. Thacher, W. H. Preston, David Kimball, and all druggists.

American and Foreign Patents.

R. H. EDDY.

SOLICITOR OF PATENTS;

Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)

76 State street, opposite Kilby street,

Boston.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Specifications, Petitions, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty-three past years, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN applications, for all but one of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications for Patents, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.

QUICK CURES AND LOW PRICES.

Over Twenty Thousand Patients Cured Annually!

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a speedy and rapid cure, to be obtained at no other office in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Blisters, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their health and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. J. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.

A book for everybody.—Startling disclosures Dr. Teller's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. "Private Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery, it contains hundreds of secrets never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr. Teller has devoted a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.

Dr. Teller still remains the only Agency in America, for the sale of Dr. Vichon's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.

Caution.—Married ladies or certain delicate situations should avoid their use. For reasons see directions which accompany each package. For the sake of convenience, on the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from 8 A.M. to 8 P.M., and on Sundays from 2 to 5 P.M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

VERNATELLA,

Warranted to make the Soles of Boots and Shoes water and dampness proof, and wear one-third longer.

VERNATELLA

is a preparation from Copper, having no grease, linseed oil, or anything of the kind, and when the soles are once saturated with it, water can no more get through them than through copper itself. **Price 25 Cents Per Bottle,** at retail everywhere.

But its cost to the purchaser is really NOTHING, as it makes the soles wear enough longer to more than pay for it, leaving a net gain the making of them Water and Dampness Proof, and the preservation thereby of that priceless gem, the health.

☞ LADIES, READ THIS! ☜
SAVE YOUR HEALTH.

Use Vernatella on the Soles of your Shoes. It makes them water proof, and thereby protects your feet from dampness, for the ground is always more or less moist, either from rain or the morning dew.—Try one, one-third longer.

MONDAY, AUGUST 22, 1864.

THE REBELLION.

Lee's total force is estimated by our secret service at about 70,000 men. It is not now thought he has sent any men to the west.

Gen. Sheridan is reported to have fallen back to Berryville from Strasburg, Early having been reinforced and threatening to flank him. Gen. Sheridan is now on the defensive, and is understood to be in a strong position. While retreating his rear guard was overtaken near Winchester, by the rebel advance under Breckinridge, and surrounded, nearly all being captured.

Gen. Hovey reports that he has routed Johnson's guerrillas in Kentucky in all directions. Gen. H. has levied an assessment of $32,500 on disloyalists of Union county.

Gen. A. J. Smith attacked three of Forrest's brigades at Hurricane Creek, Miss., on the 13th, and routed them. They left 50 killed on the field. Our loss was 40 killed and wounded.

Rebel reports from Atlanta agree with the Union accounts that there have been no serious engagements or important movements of late.

By Telegraph—Sunday noon.

Sec. Stanton sends the following, dated 8 P. M., Saturday:

"Details of the operations of Gen. Grant's forces are given in official dispatches which have been received by the War Department, which state that Gen. Warren moved with the 5th corps on the morning of the 18th to and across the Weldon Railroad. Up to that point he met nothing but the enemy's pickets. He advanced from there towards Petersburg, meeting the enemy as he advanced. He had considerable fighting during the day, suffering some loss and inflicting loss on the enemy. Some of the rebel wounded fell into our hands, with a few other prisoners. Gen. Grant further reports, 7:30 P. M., 19th, that our troops were firmly fixed across the Weldon Railroad. There had been little or no fighting on that day, either south of Petersburg or north of the James river. Gen. Warren reports that the enemy's dead are found unburied in considerable numbers in his front. Gen. Birney telegraphs to Gen. Butler, 19th, that the enemy attacked his line in heavy force on the night of the 18th, and were repulsed with great loss. In front of one colored regiment 82 dead bodies of the enemy were counted. The assault was in column, a division strong, and would have carried the works if they had not been so well defended. The rebel loss was at least 1000. Much rain has fallen about Petersburg during the week, and there has been a grateful change in the temperature. On the evening of the 19th the enemy came out to Warren's right, driving in his pickets; crossed between him and the left of our old line on the Jerusalem plank road, and forcing back the two right divisions of Warren's corps. A heavy fight took place, resulting in the re-establishing of our lines and the capture of many prisoners. The prisoners were from Heth's, Mahon's and Hoke's divisions. The last dispatch was received on Saturday P. M., and is the latest information received by the Department. It is estimated that the loss of the enemy during the week, in killed, wounded and prisoners, cannot fall short of 4000, if it does not exceed that number. The War Department has satisfactory intelligence from Gen. Sherman up to half past 8 Friday evening. Reports at 5 o'clock P. M., Saturday, from Gen. Sheridan's front, represent all quiet at that time and that Gilmore, with 40 or 50 men, entered Martinsburg on Friday night."

The track of the Weldon railroad was torn up more than a mile. Our troops still held their position on Thursday night, and the next morning they would completely destroy the ties and rails of the road, unless the enemy should visit the neighborhood in too strong numbers.

19th, 6 P. M.—Everything is quiet; some firing was heard during the night in the direction of the 5th corps

— It is said that the 2d Battalion of the Invalid Corps is to be disbanded.

— The editor of the Metropolitan Record has been arrested for opposing the draft in several articles which he has published.

— The corner stone of the new Hall of the Massachusetts Horticultural Society, on Tremont and Bromfield streets and Montgomery place, Boston, was laid Thursday with appropriate ceremonies.

— The Newburyport Herald thinks Lady Franklin's sentiments are probably owing to her hatred of everything North, since the loss of her beloved Sir John at the North Pole.

— A woman was arrested at Gloucester, last week, for taking flowers from a grave in Oak hill Cemetery, and was sentenced to the House of Correction for 30 days. Served her right.

NEW HAMPSHIRE ITEMS.

—— Herod Stevens, of Lebanon, had his arm broken near the wrist by the kick of a horse, one day last week.

—— The 11th N. H. regiment musters for duty 80 guns, and the 12th about the same.

——Enfield had 36 men enlisted into the U. S. service in three days after the last call was made, which fills her quota and gives a surplus of 5 above all calls.

—— H. F. Moulton, of Laconia, son of J. C. Moulton, Esq., has been nominated by Hon. Daniel Marcy as a candidate for midshipman to the Naval Academy, at Newport.

—— The General State Recruiting Office at Concord has been closed, and all enlistments at large will hereafter be made at the office of Provost Marshal Hosea Eaton, of the Second District.

—— Capt. A. J. Hough, of Dover, was not killed at Petersburg as reported, but was wounded painfully, the ball entering at the back of the neck and coming out at the left cheek. He was taken prisoner by the rebels.

—— The Monitor says there was almost a fight between one of the doorkeepers of the House and an honorable member, in the South entrance of the State House, on Friday morning. The parties were pacificated by Mr. Haven, of Portsmouth.

—— For the past few weeks the Profile and Crawford Houses have been running over with guests. The travel to the mountains is on the increase. It is thought the number of visitors this season will nearly reach that of last season, which was much larger than any previous season.

—— The Manchester Union states that an inquest was held in Deerfield on Thursday upon the body of Miss Fanny Morgan, the young woman who died suddenly and mysteriously in that town, at the house of Dr. Wm. Young, on Tuesday the 16th inst. A *post mortem* examination was made by several physicians, and it was their opinion that an abortion had been committed by some person, which was the cause of her death.

—— The Nashua Manufacturing Company has completed its contract, made last December, for the manufacture of army drawers. Two million pairs have been made, of which number eleven hundred thousand pairs were included in last fall's contract. The business has given more or less employment to about two thousand persons outside of the mill. About $200,000 has been disbursed among those employed.

—— The 2d N. H. regiment is performing duty in the trenches and rifle pits at Petersburg, in turn with other regiments. Its camp is pleasantly located on a high hill which overlooks Petersburg, a mile and a half away. Five companies are out at a time, when they are relieved by the remainder of the regiment. Each wing is out from five days to a week at a time. The regiment draws 280 rations, which is more than is drawn by other regiments in that vicinity, with few exceptions.

—— The following divorces have been decreed at the present term of the Supreme Court: Lucretia Kittredge v. Eri Kittredge, Roger W. Woodbury v. Galey E. Woodbury, Jesse Barrett v. Ann Barrett, Clarke Albro v. Rhoda Albro, Eveline B. Ball v. Abel B. Ball, William Adams v. Catherine Adams, of Hillsborough county; Eliza A. Caswell v. John K. Caswell, of Rockingham; Martha H. Bennett v. Sargent Bennett, Susan M. Evans v. Benj. F. Evans, Esther W. McIntire v. William W. McIntire, of Merrimac.

— In the vicinity of Paducah and Mayfield, Kentucky, there are over one hundred widows and families of the Union men murdered by guerrillas. Gen. Paine intends appropriating from the funds assessed on rebel cotton and tobacco for that purpose, five thousand dollars each for these people.

— During a dinner at the commencement of Tufts College, a short time ago, says the Gospel Banner, it was announced that "a person not known to the denomination, who had never been suspected of sympathy with it—an Episcopalian of some note as an author and editor—has left for Tufts College the noble bequest of twenty-five thousand dollars."

— The bridge near Vassalboro, on the Portland & Kennebec railroad, gave way on Friday, dropping a train to the bottom.—The engine and tender got over in safety, but several cars were badly smashed. 20 or 30 passengers were injured, of whom only three are seriously hurt. One man was seriously injured internally. It was a wonder that no lives were lost.

— The New York papers announce that the speculators have been considerably attracted during the past few days by a young lady from Troy, wearing a monitor straw bonnet, trimmed with black ribbon, and a brown duster, and apparently not over 16 years of age, who has presented herself in Wall street, offering for sale a sorrel pony and a four-wheeled cabriolet, trimmed with exquisite taste. The beautiful stranger is reported to conduct herself with the most business-like propriety.

THE LEGISLATURE.

THURSDAY.—The Senate passed: an amendment of the act to enlarge the State Capitol; act to prevent the defacement of private property; to fund the State debt; to tax deposits in Savings Banks; also a resolution requesting the immediate payment of the State bounty to the members of the 1st cavalry who have not assigned it—the payment of such bounties to have been assigned to be withheld until the further action of the Legislature. The military bill was passed, after being amended, so that towns that have raised money for military purposes under the June law may complete the work so commenced before taking action under the new law.

The House passed the bill to prevent the defacement of natural objects, &c., by advertisement; and the act in amendment to the act for the enlargement of the State Capitol. A bill was introduced to pay the members $3 per day during the present session.

FRIDAY.—The House concurred in the Senate's amendments to the military bill, and the bill for funding the State debt.—The following were passed: resolution to pay the unassigned bounties to members of the 1st cavalry; resolution of inquiry in regard to the assignment of certain of these bounties; resolution authorizing suitable receptions to returning regiments; act to allow the soldiers to vote for President, Vice President, and Congressmen; act concerning contagious diseases among cattle; resolution authorizing the payment of $10 per man to defray the expense of raising the 5 companies of Heavy Artillery already authorized, and any other companies or regiments that may hereafter be authorized; resolution providing for a vote of the people in November for a Constitutional convention to be limited to 10 days' pay, and to consider soldiers's voting, abolition of the religious test, reduction of the House, increase of the Senate, and future constitutional amendments. The following message was received from the Governor:

I have the honor to inform you that I have signed the Act to facilitate the raising of Troops, actuated by the consideration that though not what I should desire, it is in some respects an improvement on the existing law. I shall do all in my power to carry its provisions into effective operation.

In the afternoon the Senate passed the act relating to pleuro pneumonia; the resolution relating to the artillery companies; and an act relative to assignment of bounties. The House, 135 to 84, passed the resolution to increase the pay of the members of the Legislature, but the Senate indefinitely postponed it. The House also passed a resolution to pay the bounties assigned by members of the 1st Cavalry, when approved by the Auditor, [one man in Concord holds 99, for which he gave $25,625, and another 39, costing him about $9500]; bill in relation to assignments of bounties.

SATURDAY.—The House, on account of the state of the currency, indefinitely postponed the bill relating to fares on railroads. A message was received from the Governor, renewing his suggestion that the State Treasurer be empowered to call upon the Banks of the State for a temporary loan of a reasonable percentage of their capital, and that the Banks be allowed temporarily to expand their circulation. The Governor stated that there was not a dollar in the Treasury to pay the bounties to the Cavalry, and the Concord banks had refused him $50,000 for three days even, for the purpose. The message was referred to the committee on Finance. [The Manchester banks have since loaned the Governor $28,200.] Both Houses adjourned to Tuesday.

☞ At Halifax, N. S., on Friday noon, Adm. Hope sent to the Tallahassee several boats with full crews, and an order to cease coaling, which was promptly enforced. She intended to take on board 500 chaldrons for a long cruise, but has less than 300—a week's supply. She sailed east from Halifax at 2 o'clock Saturday morning. The Federal war steamer Pontoosuc arrived at 6 o'clock; a fog detained her for a time, but she sailed in pursuit.

The following is said to be a correct list of the vessels destroyed by the pirate:

Ships Atlantic, Adriatic and James Littlefield; barques Bay State, Glevaloon and P. C. Alexander; brig Billow; schooners Sarah A. Boyse, Carrie Estelle, A. Richards, Spokane, Lennot, Dupont, Henry Howe, Howard, Flora, Nestlesen, Caroline, North American, Pearl, Sarah, Louisa, Margitta, Josiah Asbene; Pilot boats Jas. Funk and Wm. Bell.

She also bonded barque Soliote, brig Navi, schrs. Carroll, E. E. Parker, C. B. Harris and Leopard.

— The nationaal debt on the 16th was eighteen hundred and fifty millions, with eighty-three millions of unpaid requisitions.

— A new car on the Old Colony railroad contains five apartments, to accommodate eight persons each, and another for twelve, with a centre table, &c.

— A little boy, who had been fishing on the P. S. & P. railroad bridge at Portland on Friday, fell into the water while endeavoring to escape from an approaching train of cars, and was drowned.

Draft Notice.

To the Citizens of Portsmouth:

The undersigned, having been appointed by the Board of Mayor and Aldermen, a Committee to lay before the Board of Enrollment the names of all persons who claim exemption from the following causes, viz: Alienage, Non Residence, Unsuitableness of Age, Manifest Permanent Physical Disability, and persons who have been in the service two years during the present war, would give notice that they will be in session on and after Wednesday, Aug. 17, 1864, from 2 till 5 o'clock and from 7½ to 8 o'clock P. M., at the City Rooms, for the purpose of receiving evidence in such cases.

The Enrollment list can be seen during the same hours, and every person who can present a claim for such exemption is respectfully requested to attend as above, and by this means correct the Enrollment, so that our quota can be reduced.

It is the duty of every citizen, whether enrolled or not, to see that the Committee have all the information in his power to give in the above matter, in regard to any person, and we trust that every enrolled man will urge the importance of the subject upon all those, who are exempt for the above causes, as it is a matter of interest to all.

Any information in regard to matters connected with the above will be cheerfully given.

Let there be no delay.

Brocksieper's Patent

Self-Acting Gas Regulator.

SOMETHING ENTIRELY NEW.

Patented 1864.

A brilliant and equal light at a saving of 30 per cent. over any Gas Burner now in use.

This is not a Regulator to go on the Meter, but under every Burner in use.

Economy in the use of gas, with the advantage of having a uniform brilliant light in burners, is a point at once desirable. Inventors have for many years sought to attain this end by packing or clocking in innumerable ways the flow of gas through the burner tips.

Not one of these has attained the result wished for, namely, "a pure, transparent flame, without waste at any and all pressures, obtained at any hour and in all localities."

The above results are fully obtained in

Brocksieper's Patent Gas Regulator.

We invite the most incredulous to examine and test in the most thorough manner.

RETAIL PRICE, EIGHTY CENTS.

A liberal discount made to Churches, Factories, Hotels, &c. The Regulators will be put on, and if they do not perform satisfactory may be returned. CHARLES T. EMERY,

HUNNEWELL'S ECLECTIC PILLS,

Declared to be the most perfect Cathartic and Family Pill; seldom requiring more than *One* for a dose, without griping; and one that should be known to every family.

These preparations will be noticed each month, and originating from most potent questions in Medicine, and being for ten years unbounded reputation, readers are invited to accept such notices as a true index of character, and give me their confidence to test them.

BATCHELOR'S Celebrated Hair Dye

Is the Best in the World!

The only Harmless, True and Reliable Dye Known!

This splendid Hair Dye is Perfect—changes Red, Rusty, or Gray Hair instantly to a *Glossy Black or Natural Brown*, without injuring the hair or staining the skin, leaving the hair soft and beautiful; imparts fresh vitality, frequently restoring its pristine color, and rectifies the ill effects of bad dyes. The Genuine is signed WILLIAM A. BATCHELOR, all others are mere imitations and should be avoided. Sold by all Druggists, &c. Factory, 81 BARCLAY STREET, N. "A Wonderful Discovery."

DR. TEBBETTS' "PHYSIOLOGICAL HAIR REGENERATOR" is compounded in strict accordance with the well known laws of Physiology and modern vegetable Chemistry. It is not a "DYE," and will not stain a particle. It will "RESTORE GRAY HAIR" in all cases to its original color. It promotes a luxuriant growth of new HAIR in all cases on BALD HEADS, when the glands or roots of the hair are not completely disorganized. It prevents the hair from falling off and removes all dandruff, heat, humors and itching from the scalp. It keeps the hair soft, moist and perfectly healthy, and gives it a glossy and beautiful appearance. It is highly perfumed; and as a Dressing it has no superior. The "REGENERATOR" is warranted to produce the above results in all cases, if not the money to be refunded. With it every "GRAY HEAD" in New England can be restored in less than sixty days.

Local.

☞ The alarm of fire between 12 and 1 o'clock Saturday night was caused by the burning of a barn in Greenland, owned by Col. J. W. Peirce. The building was one of the extensive series of farm-buildings attached to his residence in that town, and in immediate proximity to the rest. The fire was not discovered until after it had obtained considerable headway,—the roaring of the flames awaking inmates of the house. It was then too late to hope to subdue it, and the attention of those attracted to the spot was turned to the preservation of the other buildings. Fortunately their efforts were successful, although the roof of two or three other buildings caught from the flying cinders. The building destroyed was about 100 feet in length and 50 in breadth, and contained between eighty-five and ninety tons of hay, two hay presses,—one of them high-priced and powerful,—a buggy, and other articles, all of which were destroyed. There is little reason to doubt that the fire was the work of an incendiary, as the barn had not been used since the hay was put into it,—three weeks ago. Fortunately there was little or no wind at the time; otherwise the destruction of buildings would doubtless have been far more extensive and deplorable. All of our fire engines were called out by the alarm given in this city, (where the light of the fire was plainly seen, and originated the alarm,) but the firemen, finding that the fire was at a distance and being unable to ascertain its locality, turned back.

☞ We stated in the Chronicle last week that an unsuccessful attempt had been made by Mr. Reuben Wiley, an experienced diver, to secure a chain to an anchor lying at the bottom of the river in the Narrows. Since then Mr. W. has made two endeavors to reach it; the last one successfully, a chain being fastened around the fluke of the anchor, which will enable workmen to raise it by means of scows and rigging. For this perilous job the diver gets $50. If he had not succeeded in finding it he was to receive nothing.

☞ Capt. Daniel Hall, Provost Marshal of this District, has received the following official information from Capt. W. Silvey, A. A. P. M. General, at Concord:—

No further enlistments will be made for the 1st New Hampshire Cavalry until further orders.

Provost Marshals are instructed that enrolled men of one town must not be enlisted for and credited to another town.

The enrollment of a town or sub-district is the basis for quotas under any call—and any interference with this enrollment by other sub-districts is manifestly unjust, and will not be permitted.

☞ The draft for the money to pay the workmen on the Portsmouth Navy Yard for July came on Friday, and the Roll will be paid off on Monday and Tuesday. The June Pay-Roll amounted to $104,000, while the July Roll foots up about $76,000, with a less number of workmen, the difference being on account of the general stampede at the time of the yellow fever excitement in this vicinity.

☞ Upwards of 2100 workmen are employed on the Portsmouth Navy Yard at the present time, and if,—as was stated a short time since—skillful artisans and mechanics employed on government works are exempt from the draft, the number will soon reach 3000—if they can secure employment. There is an intense anxiety on the part of many to serve Uncle Sam—for $3.25 to $3.50 per day.

POLICE COURT, Friday.—Oren Tiffis was found guilty of drunkenness in the streets, and was fined $3, and costs taxed $3.86; committed to the House of Correction.

Binus Normiston, same offence—same fine and costs—which he paid.

Saturday.—John Jordan was found guilty of keeping open shop on Sunday, and was fined $5, and costs taxed at $5.30, which he paid.

☞ On Thursday night the steamer De Soto, of yellow fever notoriety, drifted from her moorings at Quarantine, and when morning dawned, the vigilant watchmen on board found themselves and their craft off Wood Island.

☞ The latest amusement among the boys, that we have noticed about town, is kicking raw eggs. It must be rather expensive at present prices, as a single application of boot-leather is apt to injure materially the texture of the shell.

— Rumors multiply that Fremont will withdraw as a candidate for the Presidency, and somebody else nominated in his place at Buffalo. His name has not proved a tower of strength.

— It is said that Adm. Dahlgren has been ordered north for some other duty, and that Com. Rowan is going to Charleston with the New Ironsides.

— Marblehead, Mass., was alarmed on Friday by a report that the pirate Tallahassee was shelling the town. Heavy firing was heard seaward, and it is said that one or two shells exploded back of the Neck.—The people turned out with rifles, shot guns, &c., and saw a U. S. vessel target-firing.

— All soldiers of foreign birth, honorably discharged, who have resided in the United States one year, may be immediately naturalized.

— The coopers of New York are striking against the introduction of machine-made hoops. In some of the establishments the workmen have all left.

— For many years the village of Fredonia, N. Y., has been lighted by gas obtained from the earth. When the supply becomes deficient, additional borings are made into the earth, and generally with success.

— A young lady, of high rank in London society, is said to be in love with a gentleman of color, and has defended herself against the general badinage which she receives by replying that she is but following the fashion, as the court is in mourning.

— Eighteen of the Pension Office Clerks have resigned, owing to the inadequacy of their compensation considering the high price of living. Their salaries ranged from $1200 to $1800 per annum. The vacancies have been filled.

— Twenty thousand dollars in gold, belonging to the rebel Government, were melted by a fire which burned an express car on the Danville road. There is no mint in the Confederacy in which to recoin it.

— A private letter from St. Johns, Newfoundland, dated the 10th, states that a frost in that section a few nights previous is reported to have injured the potato crop.—The weather had been unusually cold.—The fisheries had proved almost a total failure.

PARTICULAR NOTICE!—From this date our Carriers of Subscribers' lists are not allowed to sell copies of the Chronicle, nor to receive pay for any subscriptions, except when furnished by us with receipts for the same,—which will not be given for less term than 1 month, 60 cts., or 3 mos. $1.50, in advance. If any prefer to pay weekly, they can do so at our counting room only. Will all concerned please remember this, and thus aid in the more prompt and accurate delivery of our papers. July 18.

☞ Special attention is asked to Hunnewell's preparations, advertised on our inside columns. They are based on true medical laws, used very largely by Physicians, and most undoubted testimonials are in the hands of the proprietor, always open to inspection. Let Portsmouth and its vicinity bear testimony by a confidence to test them, which will be sacred.

Would you save yourself from suffering after eating, or from acidity of the stomach, or burning sensation, or indigestion? Use Herrick Allen's Gold Medal Saleratus. Never use soda if you can procure this article. It will strengthen weak stomachs and relieve dyspepsia; is a saving in the quantity of flour, &c. Try it. Grocers and Druggists most all sell it. The Wholesale Agents are Wholesale Grocers.

☞ What an amount of suffering and disease among the Volunteers would be prevented by the free use of Holloway's Pills and Ointment. For wounds, sores and scurvy the Ointment is a certain cure. For bowel complaints, fevers, small pox, &c., the Pills are the best medicine in the world.

If the reader of this "notice" cannot get a box of Pills or Ointment from the drug store in his place, let him write to me, 80 Maiden Lane, enclosing the amount, and I will mail a box free of expense. Many dealers will not keep my medicines on hand because they cannot make as much profit as on other persons' make. 35 cents, 88 cents, and $1.40 per box or pot. 221

"A Stitch in Time Saves Nine."

All Furnaces, Stoves and Funnels should be thoroughly cleaned out and put in order, as soon as fires are done being made in them. If allowed to remain filled with ashes and soot through the summer, they will decay very rapidly, and useless expense be incurred.

A full supply of Linings and Repair Pieces constantly on hand, and all orders attended to with dispatch. E. A. STEVENS.

Facts for the People.

The enormous rise in price of Iron, Coal and Labor, has caused manufacturers to advance the price of STOVES and Castings several times since the war began; and it is now arranged to make a general advance of 25 to 50 per cent. this season.

We have not yet raised the price of Stoves in proportion to their increased cost, but shall be compelled to do so very shortly. Persons who expect to purchase anything in the Stove and Furnace line within a year or two, will save money by doing so at once. The price of a Stove is not so much an object, now, as its capacity and the cost of operating it. All things considered, there is no Stove equal to

THE MODEL COOK.

IT IS, IN FACT,

The Best Stove Out,

for economy, convenience and dispatch.

Many people think it best to use an old stove as long as possible, but it is far better to throw it away and purchase a MODEL COOK, than to keep it at the present high price of fuel.

One of our shrewdest citizens who purchased a MODEL COOK STOVE a year since, says he has saved more than its cost already.

A careful, prudent farmer purchased one, and after it had been in operation some days his son came into the store and said, "something was wrong at their house;" his father and himself used wood off the same pile, he burned three baskets full a day, and his father only one! We sold him a Stove before he left, and there has been no complaint since.

These Stoves are in use in many hotels and boarding houses, and in hundreds of private families in this city and vicinity, and give the best of satisfaction.

CARD OF STAMP DUTIES.

A verbatim copy of the Official Tax Document, issued by the Commissioner of Internal Revenue. For sale by JOS. H. FOSTER.

Important to the Afflicted.

DR. DOW continues to be consulted at his office, No. 7 and 9 WENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of preventing the unfortunate with reason to bless the hour they first introduced themselves, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scrofula, Gonorrhœa, Ulcers, pain and distress in the region of procreation, Inflammation of the Bladder and Kidneys, Diabetes, Abscesses, Humors, Painful Swellings, and the long train of horrible symptoms attending the class of diseases, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr. D. devotes a great part of his time to the treatment of those cases caused by secret and solitary habit, which ruins the body and mind, unfitting the unfortunate victim for the business or social intercourse of life, and melancholy effects produced by early habits of youth, are Weakness of the back and limbs, Dimness of the head, Loss of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, symptoms of Consumption, &c. The mental effects in the mind are those of a broadened gloom, loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion to society, self-distrust, love of solitude, timidity, and evils produced by such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and his pristine vigor.

Patients who wish to remain under Dr Dow's treatment a few days or weeks, will be furnished with pleasant rooms and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your case. Price $5 for one box, or for sale the Special Capotes, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

Hughly important to Females

IN DELICATE SICKNESS.

DR. DOW, Physician and Surgeon, No 7 & 9 WENDICOTT STREET, Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri, or falling of the womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief and cure insured. Dr. D. is invariably certain in the very mode of treatment, that most obstinate complaints yield to him, and the afflicted person soon rejoices in perfect health.

Dr. Dow has had the greater experience in the cure of diseases of women and children, than any other physician in Boston

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N.B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 8 A. M. to 9 P. M.

CERTAIN CURE

in all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of a private nature, which have met with unwarranted attention and extraordinary success gained a reputation which calls patients from all parts of the country to his office.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Wendicott street, Boston. There is no doubt but any unfortunate gentleman, physician and surgeon should give him a call.

N.B.—Dr. Dow expects and has let take a new article, called the Female Preventive. Order by mail. Two for $1 and a red stamp.

Boston, April 7, 1864—eodly.

DR. S. O. RICHARDSON'S BLOOD ROOT ELIXIR

Has been thoroughly tested and proved in his general practice, for the last THIRTY YEARS, and is now presented to the public as an effectual cure for

COSTIVENESS,

and the best remedy ever prepared for

Diseases of the Liver,

SCROFULA,

All Humors and Impurities of the Blood, and Diseases of the Skin.

The preparing and combining the Blood Root Elixir, is attended with results to medical science next in importance to the inhalation of ether in surgery. Roots and plants, to be effective, must be fresh and undegradable, are by a new and scientific process of extracting (in vacuo) rendered MORE POWERFUL than in the crude state, but entirely divested of the griping and distressing pain which attends the action of all other purgative medicines. They are PLEASANT AND AGREEABLE TO THE TASTE.

Combined, as they are, in the Blood Root, they produce more minutual and physical effect than five in a crude state.

The Blood Root ELIXIR has no partial action upon the bowels, but pervades the whole system of man, and is distributed by the whole circulation of the blood, imparting a healthy and invigorating action to the STOMACH AND BOWELS, LIVER, LUNGS, KIDNEYS, and every part of the animal economy and machinery, extending through the whole system.

A single dose will produce a cheerful and exhilarating COMPOSURE, which will be found potent with confidence and assurance of IMMEDIATE RELIEF. A continuance for a short period will DRIVE the chronic Rheumatism, Gout, Gravel, to the surface of the skin, and relieve or check SCROFULOUS AFFECTIONS—and by thus purifying and strengthening the blood, will remove the cause of trouble.

CAUSE OF CONSUMPTION.

It incites the gastric organs of the system to act as an effectual purgative, removing the bile which induces RHEUMATISM AND NEURALGIA, HEADACHE, LOSS OF APPETITE, DYSPEPSIA, COSTIVENESS, and all the various diseases which arise from a derangement of the Stomach and Bowels, and restricted elimination of the Bile.

COUGHS and COLDS, in their early stages, will immediately yield to the effect of the Elixir.

The BLOOD ROOT ELIXIR contains no mineral, no poisonous botanical element, no excitant, but eliminates the excretions by its mild diffusive action. It is the effective and painless specific for a disordered Liver, action upon the Liver, and there is not a medicine prepared for common family use which possesses equal merit.

Travellers will find it invaluable, and will find the Elixir a complete antidote for the evils which they are obliged to endure from a change of climate, of water, or of diet.

See the pamphlet around each bottle for a history of this Elixir.

The proprietor of the Blood Root Elixir, (Dr. S. O. Richardson,) has been long and favorably known to the public by his celebrated SILVERY WINE BITTERS, the best tonic medicine ever discovered, and which has been used for thirty years. He is a graduate of the New Hampshire Medical College, and many years associate member of the Massachusetts Medical Society, and has made the study of medicine his profession since 1822.

And so fully convinced is the Doctor of the wonderful curative effects of his Blood Root Elixir, that he hereby offers to each and every person who will use one-half of a bottle of his Elixir and not be benefited, to return the bottle from, to refund to said person the amount which he paid for the same, by returning the village bottle to his office.

Price $1.50 per Bottle.

Sold in Portsmouth by J. H. TRACHER, opposite the Post Office, and No. 12 Market Square; and by Dealers in Medicine generally, and at Dr Richardson's Office, No. 21 Hanover street, Boston.

CHEROKEE REMEDY

AND

CHEROKEE INJECTION,

Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Gonorrhœa, Gleet, Inflammation of the Urethra, Inflammation of the Kidneys, Stone in the Bladder, Strictures, Gravel, Gleet, Gonorrhœa, and is equally remarkable in its effects upon the Liver, Inflammation of the Bladder, Whites in females, where all the old nostrums have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an ally or assistant to the CHEROKEE REMEDY, and should be used in conjunction with it at medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites, its effects are healing, soothing and cooling, removing all scalding, heat, chordee and pain, instead of the burning and almost unendurable sensation it is experienced with nearly all the *cheap quack injections.*

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

You find particulars get our pamphlet from any drug-store in the country, or write us and we will mail free, to any address, a full treatise.

THE MAGEE COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet introduced, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the cobband cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the ease with which the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove; as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

"MAGEE'S PATENT"

VENTILATING & AIR WARMING

FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would call the attention of those about remodeling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pots is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney, without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of heat air through the fire-pots, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the best generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 25 to 30 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

A piece of cold charcoal laid upon a burn is said to instantly subside the pain.

When the heart is pure there is hardly anything which can mislead the understanding in matters of immediate personal concernment.

A celebrated Dublin divine was engaged one evening in a disquisition on the difference between Irish and Scotch Celts, and suddenly asked: "What is the difference between an Irishman and a Scotchman on the top of a mountain in frosty weather?" "One is cowld with the kilt and the other is kilt with the cowld."

NEW HAMPSHIRE BIRD LAW.

PASSED JULY, 1862.

AN ACT to promote the interests of Agriculture.

Section 1. If any person shall, at any season of the year, take, kill or destroy any of the birds called robins, thrushes, larks, blue-birds, orioles, sparrows, swallows, martins, woodpeckers, bobolinks, yellow birds, linnets, fly-catchers or warblers; or shall, between the first day of March and the first day of August, take, kill or destroy any of the birds called snipes, wood-cocks, plover, rails, yellow legs, or sand pipers; or shall, between the first day of March and the first day of September, take, kill or destroy any of the birds called patridges or grouse, or quails; or shall, within the respective times aforesaid, sell, buy or have in possession any of said birds, taken or killed, whether in this State or elsewhere, he shall forfeit for every said partridge or grouse, quail, woodcock, snipe or plover taken, killed or had in possession, the sum of three dollars, and for each of the other birds named above, the sum of one dollar, to be recovered by complaint before any justice of the peace.

Sec. 3. It shall be the duty of the selectmen of towns, and of the mayor and aldemen of cities throughout this State, to cause the provisions of this act to be enforced within their respective limits.

Sec. 4. All forfeitures or penalties recovered for violation of any of the provisions of this act, shall enure—one half to the use of the complainant, and one half to the use of the town or city where the same shall be recovered.

RYE, N.H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended by the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of Dr. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There has be to be no return of the disease as was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and testify to many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with dizziness at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give my relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.

From ELDER I. CHESLEY, *Lee, May 31, 1841*

DR. SWETT: Permit me to tell you, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1839, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, No. 7 High street, Portsmouth, N. H., promptly attended to. may26

Ayer's Cathartic Pills

Are the most perfect purgative which we are able to produce or which we think can ever be offered made by anybody. Their effects have abundantly shown to the community how much they excel the ordinary medicines in use. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humore which breed and grow dismmper, stimulate sluggish or disordered organs into their natural action, and impart a healthy tone with strength to the whole system. Not only do they cure the every-day complaints of everybody, but also formidable and dangerous diseases. While they produce powerful effects, they act at the same time, in diminished doses, the safest and best physic that can be administered for children. Being sugar-coated, they are pleasant to take; and, being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief, were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of our remedies, while others have sent us the assurance of their conviction that our preparations contribute immensely to the relief of our afflicted, suffering fellow men.

The Agents below named are pleased to furnish gratis our American Almanac, containing directions for their use, and certificates of their cures of the following complaints:

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from foul stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and pain arising therefrom, Flatulency, Loss of Appetite, all Diseases which require an evacuant medicine. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstructions of its functions.

Do not be put off by unprincipled dealers with other preparations which they make more profit on. Demand AYER'S and take no others. The sick want the best aid there is for them, and they should have it.

American and Foreign Patents.

R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837,)
76 State street, opposite Kilby street,
Boston.

After an extensive practice of upwards of twenty years, continues to procure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and does believe, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during thirty years, has enabled him to secure a complete a vast collection of specifications and official decisions relative to patents.

These, joined to his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse." CHARLES MASON, Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person more *competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN applications, on which dates of which patents have been granted, and that is *now pending*. Such unmistakeable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him for the procuring of their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.

The Old Established Hospital.

No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.

Over Twenty Thousand Patients Cured Annually!

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this specialty, and the large business enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Blisters, Ulcers, Abscesses, and all other impurities of the system are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to counsel and a Physician who has secured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.

A book for everybody.—Startling disclosures! Dr. TELLER'S great work (for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture to the youg, or how to choose a Partner—a complete work on Midwifery, it contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr TELLER has invented a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.

DR. TELLER still remains the only Agency in America, for the sale of Dr. Lisboe's Celebrated Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.

CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price of one box,) these Pills will be sent by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from 8 A. M. to 8 P. M., and on Sundays from 9 to 5 P. M.

N. B.—Persons at a distance can be cured at home by strictly following the Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

VERNATELLA,

Warranted to make the Soles of Boots and Shoes water and dampness proof, and wear one-third longer.

VERNATELLA

Is a preparation from Copper, having no grease, linseed oil, or anything of the kind, and when the soles are once saturated with it, water can no more get through them than through copper itself. **Price 25 Cents Per Bottle,** at retail everywhere.

But its cost to the purchaser is really NOTHING, as it makes the soles wear enough longer to more than pay for it, leaving as a net gain the making of them Water and Dampness Proof, and the preservation thereby of that priceless gem, the health.

☞ LADIES, READ THIS! ☜
SAVE YOUR HEALTH.

Use Vernatella on the Soles of your Shoes. It makes them water proof and thereby protects your feet from dampness, for the ground is always more or less moist, either from rain or the morning and evening dew.

TUESDAY, AUGUST 23, 1864.

THE REBELLION.

Letters of the 11th from the rear of Fort Morgan state that Gen. Granger had received heavy reinforcements from Gen. Herron, and reinforcements had been sent to Pensacola. Fort Morgan was then besieged by land, and the fleet were to bombard it on that morning. The monitor Manhattan threw several shells into the fort, dismounting one gun, prior to the landing of our forces. The rebel gunboat burned to prevent its falling into our hands was the Gaines.

The N. Y. Tribune's dispatch states that Gen. Warren has entrenched himself, been reinforced, and intends thoroughly destroying the Weldon railroad; also, that exactly one-half of all the rebel forces are in the Shenandoah Valley, awaiting Sheridan, while the other half holds the line from Petersburg to Richmond. The Times' dispatch says Gen. Sheridan has changed his position in order the better to watch the passes of the mountains. The great number of points which he is compelled by order to cover imposes upon him a more conservative policy than he would otherwise adopt. The rebel force at Martinsburg is but an inconsiderable raiding party, and will not interfere with Gen. Sheridan's programme of operations, which will be something more than defensive.

Gen. Warren is reported to have penetrated to Burkesville, the junction of the Danville and Lynchburg and Petersburg railroads. The work of destroying the track this time will be most complete.

The rebels on Sunday attempted to drive Gen. Warren's forces from the Weldon railroad. Sunday afternoon they charged in heavy force between the 5th and 6th corps, and succeeded in turning the flank of the former, capturing a large number of prisoners. This part of our line was forced back some distance, but the 9th corps came up and checked the advance of the rebels. At the same time they attacked on our left, and forced that back also, taking 500 or 600 prisoners, including Gen. Hayes. The loss on each side was large. Before dark our troops were reformed and reinforced, and making a charge, recovered the lost ground. Our loss is estimated at 3000. Both armies are busily entrenching, and a battle is looked for at any moment. It is reported that the rebels took 1500 prisoners in the fight on Friday, our troops being surprised while trying to escape the rain.

The captured officers and crews of the rebel rams Tennessee and Selma arrived at New Orleans on the 13th inst.

CONSPIRACY IN INDIANA.—A dispatch from Indianapolis, Ia., Aug. 20, states that some days ago Gov. Morton received a letter from the East stating that a large number of arms were shipped to disloyal parties in Indiana. On the 17th four boxes were received, addressed to J. J. Parsons, at H. H. Dodd & Co.'s establishment. A military guard was immediately placed around Dodd's building. Upon taking possession of the boxes it was found that they contained a number of revolvers of the best description, and a quantity of fixed ammunition. J. J. Parsons and Charles G. Hutchins, partners of Dodd, and Wm. H. Harrison, Grand Secretary of the Order of the Sons of Liberty, have been arrested and placed under guard at Soldiers' Home.—The two former were released on taking the oath. Harrison still remains in custody. On Saturday evening a book containing a list of names of the Sons of Liberty was found in the safe of Dodd & Co. The list is said to include the names of the Secretary of State, Auditor of State, Attorney General, and editor of the Indianapolis Sentinel; also the names of 400 rebel prisoners, who are third degree members, H. H. Dodd being Grand Commander of the Order of Sons of Liberty in Indiana.

FROM HALIFAX.—The blockade runner Helen arrived at Halifax on Monday morning from Bermuda. She reports the yellow fever raging there fearfully. The H. M. S. Jason sailed from Halifax for Bermuda Saturday night, carrying several physicians.

The brig Rosetta, from Pictou for Boston, put into Halifax on Sunday. She reports speaking the pirate Tallahassee Saturday night, steaming east, off Cole Harbor, about 15 miles eastward. A vessel which arrived on Sunday saw two steamers on Friday afternoon sailing east, probably two Federal gunboats. The dispatch says there is no doubt that the Tallahassee is the pioneer ship of a number which are being fitted out at Wilmington, N. C., some of which are quite ready, and soon may be heard from.

SAVINGS BANKS.—Among the good things done by our Legislature at its recent session was an Act in relation to Savings Banks, which relieves them from the troublesome and vexatious provisions of the act passed at the regular session, and places them exactly as such banks stand in Massachusetts, in regard to taxation.

NEW HAMPSHIRE ITEMS.

—— Rev. John Wood of Wolfborough, has been appointed agent of the American Tract Society, Boston, for New Hampshire and Vermont.

—— A son of Col. Joseph Cilley, of Nottingham, was thrown from a carriage on Friday evening, and fractured his skull. Little hopes are entertained of his recovery.

—— The loss of the 4th regiment on the 16th is variously estimated at from fifty to one hundred. Sergt. McNeil of Co. H. was killed, Capt. Parker wounded in the neck, Lieut. Colburn in the thigh, and Lieuts. Jewell and Gile were sun struck. Lieut. Wentworth was killed on the 15th, while on picket.

—— The remaining companies of the 1st Cavalry left Concord on Sunday morning, to join their regiment. In Boston, on coming out of the depot and preparing to march to the boat, over fifty threw off their equipments and skedaddled in different directions. Some were caught, one of them being shot in the back. On reaching the wharf another man jumped overboard to escape. He was fired at and supposed to have been killed. After the soldiers had passed, about two wagon loads of knapsacks, blankets, cartridge boxes, canteens, &c., were picked up in the street. The Boston papers say they were about the hardest set of men ever sent to the army.

☞ The Boston Traveller is responsible for the following: "The U. S. sloop-of-war Dacotah saw the Tallahassee eleven miles ahead of her on Tuesday evening, and chased her at the rate of 6 knots, while the pirate went 12 with ease and was soon lost to view. The Dacotah burned 200 tons of coal in five days, and had to put back for more. This vessel's motive power has been remodelled under the present Navy Department"

☞ The New York Times contains a long letter from Brig. Gen. Seymour, lately a prisoner, giving his views of the present condition of the South, based upon his former knowledge of that section and upon his observations while a prisoner. He says the rebel cause is fast failing from exhaustion, and we need now but fill our armies to that preponderance in numbers which will enable them to crush the rebel forces. He claims that they have been allowed to meet us on equal terms in the field, while we could have four to their one. The South will fight as long as the struggle is equal. It will submit to such preponderance as we should have in every field.

— Mr. Robert Deland died in Salem on Friday, at the age of 83 years. His wife died on the day before, aged 83 years, 7 months. They lived together for many years, and closed their earthly career within twenty-one hours of each other, and were buried at the same time.

— Mr. Babbage says that the Iron Duke was habitually an economist of time. On one occasion, meeting the Duke at a dinner party, and having but a short period previously seen him going to the House of Lords, he asked the Duke how he contrived to dress, and fulfil his engagement. His Grace, it appears, had dressed in his carriage, en route.

GOVERNOR'S PROCLAMATIONS.

An act entitled "An act to facilitate the raising of troops" having this day become a law I would call the attention of the people of New Hampshire to its provisions, and assure them that I shall do my utmost to put it immediately in effective operation.

In accordance with the provisions of this act, I shall commission any agents which a town or city may designate to recruit for said sub-districts in the insurgent States, and afford them every facility in my power for the prosecution of their duties.

And I do hereby authorize any agents appointed to recruit for the quota of the entire State or any sub-district therein, to offer and pay, on behalf of the State, a bounty not exceeding $150 for one year's men, $300 for two years' men, and $500 to three years' men to each recruit who may be secured in the insurgent States, so soon as he shall have been duly mustered into the service of the United States.

I further announce that a bounty of $100 for volunteers or substitutes who enlist for one year, $200 for volunteers or substitutes who enlist for two years, and $300 for volunteers or substitutes who enlist for three years will be paid by the State of New Hampshire.

I call upon the towns and cities of the State to offer the largest bounties authorized by the military bill just passed, and do all in their power to stimulate recruiting in this and other States for the quota of New Hampshire.

JOSEPH A. GILMORE, Governor.

Dated Council Chamber, Concord, August 19, 1864.

WHEREAS, the General Government has authorized the raising of five detached companies of Heavy Artillery in this State, and the Legislature of New Hampshire has authorized the payment of Ten Dollars in addition to the prescribed bounties, for each man furnished to these companies, or to any other new organization which may be authorized in this State by the War Department: I do hereby promise to any recruiting agent or citizen the sum of ten dollars for each man furnished by them and duly mustered to fill these companies or any other new organizations.

And I do hereby establish the recruiting offices for these five companies of Heavy Artillery at Manchester, Concord, Nashua, Dover and Laconia, in this State. And I do hereby notify the people of New Hampshire that I have requested the War Department the privilege of raising one more company of Heavy Artillery, for which the recruiting office shall be opened at Lancaster in this State.

Capt. James O. Chandler of Manchester, is authorized to recruit in that city for the third company of Detached Heavy Artillery from the State of New Hampshire. Other appointments will be made and announced from the Adjutant General's Office.

I would suggest to the people of New Hampshire that this favor, unexpectedly, but not without frequent solicitation, granted by the War Department, affords a rare opportunity for our citizens to enlist in support of their Government, and appeal to them to use their influence to fill these companies to their maximum before the 5th of September next.

JOSEPH A. GILMORE, Governor.

Dated Aug. 19, 1864.

The Christian Index, a "hard-shell" Baptist paper, printed at Macon, Ga., has an article on the providential design of the war, which differs somewhat from the view taken by Christians at the North.

On this statement the Newburyport Herald remarks:

While we think Providence means the death of slavery, these Southern Christians interpret it as death to abolitionism and enlargement of slavery. The institution they believe to be christian, and abolitionism is only an offshoot of modern infidelity, which God means to condemn and destroy by the war.

We have never yet seen the man who *believed* slavery to be "christian,"—nor even the man who believed it to be *humane*, if he himself happened to be the slave. The christian precept to do to others as we would have them do to us, is not so dark and mysterious as to need much explanation. But, Mr. Jefferson being the judge, a people may be so trained and educated as to become barbarous, brutal and imperious; and we suppose the "institution" may also make their moral perceptions so dull that they put darkness for light and light for darkness. If abolitionism be infidelity, we suppose the New York rioters must be Christians *par excellence*. U. T.

SOMETHING NEW.—A new article in the shape of rubber collars and cuffs has lately been patented by Messrs Peter A. Ross & Co., of Albany, N. Y. They have the appearance and comfort of the finest of linen, and are said to be the greatest invention of the age. They can be washed with soap and sponge, and dried in a few seconds. They are the same shape as the linen or paper collars, turn down and stand up. They are manufactured of pure White Rubber.

They can be sent by mail to all parts of the Union at the following rates, (post paid): Gentlemen's Collars, 35 cents each: two for 60 cents: four for $1.00 or, $2.50 per doz. Gentlemen's set Collar and Cuffs, 50 cents: Ladies' set, Collar and Cuffs, 50 cents: Cuffs, 20 cents a pair, or $1.50 per doz.

— A stranger entered a New Haven store on Wednesday and asked to be accommodated with the loan of five dollars. His request being declined he took his leave, and also a valuable horse and wagon belonging to the firm, from in front of the premises. The owners were too astonished to pursue at first, and when they did start the thief and his booty were out of sight.

PARISIAN RAGE FOR RED HAIR!—The last eccentric fashion which has been introduced is much more astonishing than its predecessors—ladies of all ages are now dyeing their hair! Some are ashamed of having brown locks, others of possessing fair tresses—everybody now wishes for red hair. The difficulties of changing the color of the hair will be readily understood. It is easy to dye light hair red—the hair being fair takes the dye easily—but with brown locks the labor is trebled. If the red is achieved, it is not that warm, sunny, golden shade which the Venetian painters loved; but it is, on the contrary, a dull shade of red, not pleasant to behold.' But no matter; many of the ladies belonging to the Court circles, who possess magnificent heads of black or brown hair, have submitted voluntarily to this metamorphosis.—*Lady's Newspaper.*

☞ A correspondent of the Herald writes from Mobile on the 7th inst: "I have just learned that the rebels made a raid on the Pensacola Navy Yard this morning, and that an attempt was made to recapture the rebel Admiral Buchanan and his officers. They were repulsed, however, with considerable loss, by the gunboats and Second Maine cavalry. About five hundred of the latter had, fortunately, been landed at the Navy Yard a short time previous, and they assisted materially in repulsing the attack. The loss on either side is not ascertained."

— The Portland Press states that as the steamer Casco was passing the frigate Sabine on Saturday, one of the men on board the frigate ascended the mainmast, climbed to the main truck, stood upon it and waved his hat and hurrahed. He then kneeled on the truck and afterwards sprang to his feet, gave another shout and descended.

$500 Reward.

The above reward will be paid for the detection of the incendiary who set fire to my barn in Greenland on Sunday morning, the 21st inst., so that he may be brought to justice.

Draft Notice.

To the Citizens of Portsmouth:

The undersigned, having been appointed by the Board of Mayor and Aldermen, a Committee to lay before the Board of Enrollment the names of all persons who claim exemption from the following reasons, viz: Alienage, Non Residence, Unsuitableness of Age, Manifest Permanent Physical Disability, and persons who have been in the service two years during the present war, would give notice that they will be in session on and after Wednesday, Aug. 17, 1864, from 2 till 5 o'clock and from 7½ to 9 o'clock P. M., at the City Rooms, for the purpose of receiving evidence in such cases.

The Enrollment list can be seen during the same hours, and every person who can present a claim for such exemption is respectfully requested to attend as above, and by this means correct the Enrollment, so that our quota can be reduced.

It is the duty of every citizen, whether enrolled or not, to see that the Committee have all the information in his power to give in the above matter, in regard to any person, and we trust that every enrolled man will urge the importance of the subject upon all those who are exempt for the above causes, as it is a matter of interest to all.

Any information in regard to matters connected with the above will be cheerfully given.

Let there be no delay.

Brockelsper's Patent

Self-Acting Gas Regulator.

SOMETHING ENTIRELY NEW.

Patented 1864.

A brilliant and equal Light at a saving of 30 per cent. over any Gas Burner now in use.

This is not a Regulator to go on the Meter, but under every Burner in use.

Economy in the use of gas, with the advantage of having a more brilliant light than heretofore, is a point at issue everywhere. Inventors have for many sought to attain this end by packing or checking in innumerable ways the flow of gas through the burner tips.

Not one of these has attained the result wished for, namely, "a pure, transparent flame, without waste at any and all pressures, obtained at any hour and in all localities."

The above results are fully obtained in

Brockelsper's Patent Gas Regulator.

We invite the most incredulous to examine and test in the most thorough manner.

RETAIL PRICE, EIGHTY CENTS.

A liberal discount made to Churches, Factories, Hotels, &c. The Regulators will be put on, and if they do not prove satisfactory may be returned. CHARLES T. EMERY,

Hair Dye! Hair Dye!!
BATCHELOR'S Celebrated Hair Dye
Is the Best in the World!
The only Harmless, True and Reliable Dye Known!
This splendid Hair Dye is Perfect—changes Red, Rusty, or Gray Hair instantly to a *Glossy Black or Natural Brown*, without injuring the hair or staining the skin, leaving the hair soft and beautiful; imparts fresh vitality, frequently restoring its pristine color, and rectifies the ill effects of bad dyes. The genuine is signed WILLIAM A. BATCHELOR, all others are mere imitations and should be avoided. Sold by all Druggists, &c. Factory, 81 BARCLAY STREET, N. Y. **Batchelor's New Toilet Cream** for Dressing the Hair. Jy9—lydaw

"A Wonderful Discovery."
DR. TEBBETTS' "PHYSIOLOGICAL HAIR REGENERATOR" is compounded in strict accordance with the well known laws of Physiology and modern vegetable Chemistry. It is not a "DYE," and will not stain a particle. It will "RESTORE GRAY HAIR" in all cases to its original color. It promotes a luxuriant growth of new HAIR in all cases on BALD HEADS, when the glands or roots of the hair are not completely disorganized. It prevents the hair from falling off and removes all dandruff, heat, humors and itching from the scalp. It keeps the hair soft, moist and perfectly healthy, and gives it a glossy and beautiful appearance. It is highly perfumed, and as a Dressing it has no superior. The "REGENERATOR" is warranted to produce the above results in all cases, if not the money to be refunded. With it every "GRAY HEAD" in New England can be restored in less than sixty days.

Local.

☞ A letter from Capt. William O. Sides, of the Veteran Reserve Corps, to F. W. Rogers, Esq., of this city, dated U. S. General Hospital, Fortress Monroe, Va., Aug. 17, states that on the morning of that day he had taken from the steamer Thomas A. Morgan the body of 1st Lieut. Lamprey, Co. K, 3d N. H. Volunteers, who was mortally wounded on the 16th, near Petersburg. He died on the steamer, just before reaching the Hospital. Capt. Sides states that he sent the body to the Chesapeake, where his friends can find it. Capt. Sides has been detailed to attend to the unloading of steamboats coming to that station with sick and wounded soldiers, and assign them to the several wards at the U. S. General Hospital. Any further information in regard to Lieut. Lamprey can be obtained by addressing him at that station.

Lieut. Simon N. Lamprey, whose residence is Exeter and not Hampton, as the letter stated, entered Co. B, 3d regiment, as Corporal, on the organization of the regiment in August, 1861, and was regularly promoted through each grade to the position of 1st Lieutenant. He was a temperate, reliable and efficient officer, about 26 years of age.

☞ The fact that the U. S. steamer De Soto broke from her moorings at Quarantine on Thursday night last should not at all be laid to the blame of the watchmen, or any other person then on board, as might be inferred from a paragraph in Monday morning's Chronicle. The vessel parted both anchors, but the fact was known to the watchmen at the moment, and energetic measures were taken by Capt. Matthews, who is temporarily in command, to prevent the vessel going on to the rocks. On assuming command of the vessel he had caused a spare anchor to be brought up from the hold, thinking that possibly there might be occasion for its use. This forethought it was that alone prevented the vessel from going ashore. While endeavoring to get out this anchor, he was hailed from the Fort, and ordered to keep off—an order which it was impossible to obey as promptly as he would have desired. But the ship was at last secured, though not, we believe, until one gun had been fired at the Fort.—As Capt. Matthews' forethought in bringing up the spare anchor, and his exertions to obtain control of the ship after she had broken adrift, (aided in the latter by the comparatively few men on board,) saved the vessel from striking on the rocks, the fact should not be disregarded by the Department.

☞ We would again remind our citizens that the time for correcting the enrollment will expire with the present week, and would urge those citizens who can do anything to correct the enrollment to see that it is done immediately. The Committee are in session at the City Rooms from 2 till 5 and from 7 1-2 till 9 o'clock. Call and examine the enrollment.

☞ The U. S. schooner Beauregard, which has been lying at the Navy Yard for the past three months, has been towed alongside the receiving ship Vandalia, for the better accommodation of the large number of seamen lately enlisted in the service.

☞ Mr. James R. Childs, for some time recruiting officer for the Navy, in this city, and who during the past two months has been attached to the U. S. Receiving Ship Vandalia, has again been ordered to the Naval Rendezvous.

☞ Browne & Pike's Dramatic Combination still continue to draw excellent houses at the Temple. Although now in their fourth week, the interest remains unabated. To-night will be performed the popular play of "The Stranger," with one of Browne's funniest farces.

☞ Orders have been received by Capt. Ricker to hold Co. B, State Guards, Bangor, in readiness to proceed to Fort McClary, Kittery, to relieve Co. A.

☞ The ship James Guthrie, 749 tons, owned in this city by Capt. J. G. Moses, has been sold in Boston on private terms.

— The N. Y. Tribune's dispatch states that an order has been issued to examine all convalescents, who are daily returning to their regiments.

— There are 771,700 persons in the city of New York for whom no provision for public religious worship in any form has been made.

— The Mayor of Mobile has ordered non combatants out of the city, and urges the citizens to defend the city to the last extremity.

— The Indians on the Plains are committing many depredations and murdering many whites. They are prepared for a big war.

— Last Friday morning as a party, consisting of Elias Harriman, Addison Harriman, Mrs. McCoslin, Miss Harriman (all brothers and sisters), Clara, and a boy eight years old, (children of Elias Harriman,) were crossing a pond in Orland, Me., the boat was upset, and all were drowned except Addison and Clara Harriman.

— From a single ward in Boston 210 families are absent in the country.

— On the person of the rebel Gen. Chambliss, killed at Petersburg, was found an elaborate topographical map of the country and fortifications around Richmond.

— Mr. Elisha Parks, for many years a successful merchant in Boston, died at his residence in South street, on Friday, at the age of 84 years.

— Tomatoes, the most healthful vegetable that is placed upon our tables, are offered in our markets in large quantities and at reasonable prices.

BUSINESS NOTICES.

PRICES AND TERMS.
The price of the Daily Chronicle is $6 per year in advance; 50 cents per month—15 cents per week—3 cents per copy.
The (Weekly) N. H. Gazette $2 per year in advance—4 cents single copy.
Terms Cash—or all bills for Advertising, &c., to be presented at the pleasure of the publisher.

PARTICULAR NOTICE.—From this date our Carriers of Subscribers' lists are not allowed to sell copies of the Chronicle, nor to receive pay for any subscriptions, except when furnished by us with receipts for the same,—which will not be given for less term than 1 month, 60 cts., or 3 mos. $1.50, in advance. If any prefer to pay weekly, they can do so at our counting room only. Will all concerned please remember this, and thus aid in the more prompt and accurate delivery of our papers. July 18.

☞ Special attention is asked to Hunnewell's preparations, advertised on our inside columns. They are based on true medical laws, used very largely by Physicians, and most undoubted testimonials are in the hands of the proprietor, always open to inspection. Let Portsmouth and its vicinity bear testimony by a confidence to test them, which will be sacred.

Would you save yourself from suffering alternating, or from acidity of the stomach, or burning sensation, or indigestion? Use Herrick Allen's Gold Medal Saleratus. Never use soda if you can procure this article. It will strengthen weak stomachs and relieve dyspepsia; is a saving in the quantity of flour, &c., &c. Try it. Grocers and Druggists most all sell it. The Wholesale Agents are Wholesale Grocers.

☞ What an amount of suffering and disease among the Volunteers would be prevented by the free use of Holloway's Pills and Ointment. For wounds, sores and scurvy the Ointment is a certain cure. For bowel complaints, fevers, small pox, &c., the Pills are the best medicine in the world.

If the reader of this "notice" cannot get a box of Pills or Ointment from the drug store in his place, let him write to me, 80 Maiden Lane, enclosing the amount, and I will mail a box free of expense. Many dealers will not keep my medicines on hand because they cannot make as much profit as on other persons' make. 35 cents, 88 cents, and $1.40 per box or pot. 221

Putnam Clothes Wringer.

It is the only reliable Self-Adjusting Clothes Wringer.—No wood-work, to swell or split.
No thumb-screws to get out of order.
Warranted, with or without cogs.
It took the First Premium at fifty-seven State and County Fairs in 1863, and is, without an exception, the best Wringer ever made. Patented in the United States, England, Canada and Australia. Agents wanted in every town, and in all parts of the world. Energetic agents can make from $3 to $10 per day. Sample Wringer sent, express-paid, on receipt of price, No. 2, $6 50. No. 1, $7 50. No. F, $8 50. No. A, $9 50.—Manufactured and sold, wholesale and retail, by
THE PUTNAM MANUFACTURING CO.,
No. 13 Platt street, New York; Cleveland, Ohio, and Bennington, Vt. S. C. NORTHUP, Agt.
WHAT EVERYBODY KNOWS, viz:
That iron well galvanized will not rust.
That a simple machine is better than a complicated one.
That a Wringer should be self-adjusting, durable and efficient.
That Thumb-Screws and Fastenings cause delay and trouble to regulate and keep in order.
That wood soaked in hot water will swell, shrink and split;
That wood bearings for the shaft to run in will wear out;
That the Putnam Wringer has all the advantages and not one of the disadvantages above named.
That all who have tested it pronounce it the best Wringer ever made.
That it will wring a thread or a Bed-Quilt without alteration.
We might fill the paper with testimonials, but insert only a few to convince the skeptical, if such there be; and we say to all, test Putnam's Wringer. Test it thoroughly with any and all others, and if not entirely satisfactory, return it.
PUTNAM MANUFACTURING CO: *Gentlemen:*—I know from practical experience that iron well galvanized with zinc will not oxidize or rust one particle. The Putnam Wringer is as near perfect as possible, and I can cheerfully recommend it to be the best in use. Respectfully yours,
JNO. W. WHEELER, Cleveland, Ohio.
Many years' experience in the galvanizing business enable me to indorse the above statement in all particulars. NO. C. LEWIS.
New York, Jan. '64. No. 100 Beekman St.
We have tested Putnam's Clothes Wringer by practical working, and know that it will do. It is cheap; it is simple; it requires no room whether at work or at rest; a child can operate it; it does its duty thoroughly; it saves time and it saves wear and tear. We earnestly advise all who have much washing to do, with all intelligent persons who have any, to buy this Wringer. It will pay for itself in a year at most.

KEROSENE COOKING STOVE.
By the use of two or more burners sufficient heat is obtained for doing most of the cooking for a family, at a very small expense and with great facility.
Economy is perhaps their greatest recommendation in these times of high prices of Coal, for with one of these Stoves tea may be prepared for a family at a cost for fuel not exceeding One Cent, and dinner not exceeding Two Cents.
They are portable, and burn without smoke or odor, hence they may be used in any part of the house.

"A Stitch in Time Saves Nine."
All Furnaces, Stoves and Funnels should be thoroughly cleaned out and put in order, as soon as fires are done being made in them. If allowed to remain filled with ashes and soot through the summer, they will decay very rapidly, and useless expense be incurred.
A full supply of Linings and Repair Pieces constantly on hand, and all orders attended to with dispatch. E. A. STEVENS.

Facts for the People.
The enormous rise in price of Iron, Coal and Labor, has caused manufacturers to advance the price of STOVES and Castings several times since the war began; and it is now arranged to make a general advance of 25 to 50 per cent. this season.
We have not yet raised the price of Stoves in proportion to their increased cost, but shall be compelled to do so very shortly. Persons who expect to purchase anything in the Stove and Furnace line within a year or two, will save money by doing so at once. The price of a Stove is not so much an object, now, as its capacity and the cost of operating it. All things considered, there is no Stove equal to
THE MODEL COOK.
IT IS, IN FACT,
The Best Stove Out,
for economy, convenience and dispatch.
Many people think it best to run an old stove as long as possible, but it is far better to throw it away and purchase a MODEL COOK, than to keep it at the present high price of fuel.
One of our shrewdest citizens who purchased a MODEL COOK STOVE a year since, says he has saved more than its cost already.
A careful, prudent farmer purchased one, and after it had been in operation some days his son came into the store and said, "something was wrong at their house;" his father and himself used wood off the same pile, he burned three baskets full a day, and his father only one! We sold him a Stove before he left, and there has been no complaint since.
These Stoves are in use in many hotels and boarding houses, and in hundreds of private families in this city and vicinity, and give the best of satisfaction.

Important to the Afflicted.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never failed, when first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, the horrors of venereal and impure blood, Impotency, Scrofula, Gonorrhœa, Ulcers, pain and distress in the region of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Bubo, Chancres, frightful Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr. D. devotes a great part of his time to the treatment of those cases caused by secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Nervous Irritability, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects of this habit upon the mind are Loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, timidity, &c., rendering the entire system a wreck. Such unfortunates contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of the case. Now is the time for all to be free. The French Capotins, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

Highly Important to Females

IN DELICATE HEALTH.

DR. DOW, Physician and Surgeon, No 7 & 9 ENDICOTT STREET, Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, or prostration, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in from 3 to 7 days. Ladies can now have the new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.

Ladies can be confined under the care of Dr. Dow in the case of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B. All letters must contain four red stamps, or they will not be answered.

Office Hours from 8 A. M. to 9 P. M.

CERTAINTY IN CURE

In all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, having by his unsurpassed attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

As a physician in Boston, he stands alone and unrivalled in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of a skillful experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FEMININE ELIXIR. Order by mail. Two for $1 and a red stamp.

Boston, April 7, 1864.—eodly.

DR. S. O. RICHARDSON'S
BLOOD ROOT ELIXIR

Has been thoroughly tested and proved in his medical practice for a period of THIRTY YEARS, and is now presented to the public as an effectual cure for

COSTIVENESS,

and the best remedy ever prepared for

Diseases of the Liver,

SCROFULA,

All Humors and Impurities of the Blood, and Diseases of the Skin.

The preparing and combining the Blood Root Elixir, is attended with results to medical science next in importance to the inhalation of ether in surgery. Roots and plants, the most powerful and disagreeable, are by a new and scientific process of extracting (in vacuo) rendered MORE EFFECTIVE IN THEIR OPERATION, without the pain of the griping and distressing pain which attends the action of all other purgative medicines. They are also made to become HIGHLY PLEASANT AND AGREEABLE TO THE TASTE,

and by their peculiar combination work so perfectly in HARMONY WITH NATURE that no unpleasant reaction will follow its operation. It also possesses

A Diffusive and Alterative Effect,

which can only be attained when administered in fluid state. These are the elements in purgative medicine.

The hard and compact manner in which pills are prepared renders them indigestible—and when taken are *passed* through the stomach and bowels, half-dissolved, causing only PARTIAL ACTION, thereby creating griping and pain to the parts connected with their passage.

One pill dissolved, produces one action, will produce more decided and physical effect than five in a crude state.

The BLOOD ROOT ELIXIR has no partial action, sets the bowels, but is *equally diffused* throughout the system, and is brought into the blood, imparting a healthy and invigorating action to the STOMACH AND BOWELS, LIVER, LUNGS, KIDNEYS, and gently stimulating the nervous and mental secretions throughout the whole system.

A single dose will produce a cheerful and exhilarating COMPOSURE, and a calm and quiet intellect with confidence and assurance of IMMEDIATE RELIEF. A continuance for a short period will DRIVE the obscure and hidden humours to the surface of the skin, and relieve our SCROFULOUS AFFECTIONS—and by thus purifying and strengthening the blood, will remove the most fruitful

CAUSE OF CONSUMPTION.

It incites the various organs of the system to set their natural performances, and the cases which induce RHEUMATISM AND NEURALGIA, HEADACHE, LOSS OF APPETITE, DYSPEPSIA, COSTIVENESS, and a long train of diseases which arise from a derangement of the Stomach and Bowels, and restricted circulation of the Blood.

COUGHS and COLDS, in their early stages, will immediately yield to the effect of the Elixir.

The BLOOD ROOT ELIXIR contains no mineral, no poisonous herbs, but is a mild purgative, and but stimulates the secretions by its mild diffusive action. It is an effective and painless aperient—has a decided, salutary action upon the Liver, and *there has been no medicine prepared for common family use which possesses equal merit.*

Travellers, both by sea and land, will find the Elixir a complete antidote for the evils which they are obliged to endure from a change of climate, of water, or of diet.

See the pamphlet around each bottle for a history of this Elixir.

The proprietor of the Blood Root Elixir, (Dr. S. O. Richardson,) has been for many years known to the public by his celebrated SHERRY WINE BITTERS, the best tonic medicine ever discovered, and which has been in use over thirty years. He is a graduate of the New Hampshire Medical College, and many years associate member of the Massachusetts Medical Society, and has made the study of medicine his profession since 1829.

And so fully convinced is the Doctor of the wonderful curative effects of his Blood Root Elixir, that he hereby offers to each and every person who will use one-half of a bottle of his Elixir and not be conscious of a perfect cure therefrom, to refund to said person the amount which he paid for the same, by returning the silage bottle to his office.

Price $1.50 per Bottle.

Sold in Portsmouth by J. H. THACHER, opposite the Post Office, and No. 12 Market Square; and by Dealers in Medicine generally, and at Dr Richardson's Office, No. 31 Hanover street, Boston. aug—3mtod&W

SPEER'S
SAMBUCI WINE,

PURE AND FOUR YEARS OLD,

OF CHOICE OPORTO FRUIT,

For Physician's Use, Females, Weakly Persons and Invalids.

AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs; very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey; recommended by physicians and chemists as possessing medical properties superior to any other Wine for use, and excellent stimulant for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefiting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich generous flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

☞ None genuine unless the signature of "ALFRED SPEER, Passaic, N. J.," is over the cork of each bottle.

GOLDEN SHEAF WHISKEY.

C. A. RICHARDS,

99 WASHINGTON STREET,

Boston.

Would most respectfully invite the attention and examination of all Druggists, Apothecaries and Private Individuals, desiring to sell or USE STRICTLY PURE

Liquors, Wines, Cordials or Bitters,

to the list of choice goods enumerated below, which are constantly on hand in large quantities in his Large and Spacious

Wine Store and Bottling Establishment,

99 Washington street, Boston.

First on the list, as a reliable pure stimulant, stands the celebrated and widely known

Golden Sheaf Bourbon Whiskey,

made from Wheat, Rye and Corn, warranted for five years old. This whiskey stands alone, can be had in a paper box, in cases of one dozen each, the large and increasing sales of which convinces the proprietor that no extended advertisement is needed to extol its real merits. It will recommend itself on trial.

Golden Sheaf Cordial.

A delightful and invigorating aromatic, with a rich ginger cordial, made from the pure Golden Sheaf Bourbon.

Golden Sheaf Bitters.

The best tonic ever offered to the public. Mingled with the rich flavor of the Bourbon are a number of other ingredients for restoring the appetite and imparting life and vigor to the whole system.

Golden Sheaf Punch.

Made from fresh, ripe lemons, and other ingrdients, combined in a style unlike any other.

Bourbon Whiskey Punch.

All the above put up full strength of the whiskey, and in cases of one dozen each. These articles improve by age, and no exposure of climate can effect them.

CHEROKEE REMEDY

—AND—

CHEROKEE INJECTION,

Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, and all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Strictures, Gravel, Gleet, Gonorrhœa, and is especially recommended in the cases of Fluor Albus or Whites to females, where all the old nostrums medicines have failed.

It is prepared in a highly concentrated form, and may be taken by adults from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and invigorating the blood, causing it to flow in all of its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an ally or assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites. Its effects are healing, soothing and demulcent; removing all scalding, heat, chordee and pain, instead of the burning and almost unendurable pain that is experienced with nearly all the *cheap quack injections.*

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges will disappear, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write us and we will mail free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.

Price—CHEROKEE INJECTION, $2 per bottle, or three bottles for $5.

THE GREAT

INDIAN MEDICINE,

COMPOUNDED FROM

ROOTS, HERBS AND LEAVES.

CHEROKEE CURE.

An unfailing cure for Spermatorrhœa, Seminal Weakness, Impotency, Pustulous, and all diseases caused by self-pollution; such as Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Nervous Irritability, Dyspepsia, Trembling, Wakefulness, Eruptions on the Face, Pale Countenance, Insanity, Consumption, and all the painful complaints caused by departing from the paths of nature.

☞ This medicine is a simple vegetable extract and one on which all can rely, as it has been used in our practice for many years, and with thousands treated it has not failed in a single instance. Its curative powers have been sufficient to gain victory over the most stubborn cases.

☞ To those who have indulged with their constitution, until they think themselves beyond the reach of medical aid, we would say, *Despair not!* The CHEROKEE CURE will restore you to health and vigor, and after all quack doctors have failed!

☞ For full particulars, get a circular from any drug store in the country, or write the proprietors, who will mail free to any one desiring the same, a full treatment in pamphlet form.

☞ Prices, $2 per bottle or three bottles for $5, and forwarded by express to all parts of the world.

Sold by all respectable druggists everywhere.

DR. WRIGHT'S
REJUVENATING ELIXIR,

OR ESSENCE OF LIFE.

Prepared from Pure Vegetable Extracts,

Containing nothing injurious to the most delicate.

The Rejuvenating Elixir is the result of modern discovering in the Vegetable kingdom, being an entirely new and abstract method of cure, irrespective of all the old and worn-out systems.

This medicine has been tested by the most eminent medical men of the day, and by them pronounced to be one of the greatest medical discoveries of the age.

One bottle will cure General Debility.
A few doses cure Hysterics in females.
One bottle cures Palpitation of the Heart.
A few doses restore the organs of generation.
From one to three bottles restore the manliness and full vigor of youth.
A few doses restore the appetite.
Three bottles cure the worst case of Impotency.
A few doses cure the low spirited.
One bottle restores manly power.
A few doses bring the rose to the cheek.

This medicine restores to manly vigor and robust health the poor debilitated, worn-down and despairing devotee of sensual pleasure.

The listless, enervated youth, the over-tasked man of business, the victim of nervous depression, the individual suffering from general debility, or from weakness of a single organ, will all find immediate and permanent relief by the use of this Elixir or Essence of Life.

☞ Price, $2 per bottle, or three bottles for $5, and forwarded by express, on receipt of money, to any address.

Sold by all druggists everywhere.

CHEROKEE PILLS!

SUGAR-COATED.

FEMALE REGULATOR.

Health Preserver!!

CERTAIN AND SAFE.

☞ For the Removal of Obstructions, and the Insurance of Regularity in the Recurrence of the Monthly Periods.

They cure or obviate those numerous diseases that spring from irregularity, by removing the irregularity itself.

They cure Suppressed, Excessive and Painful Menstruation.

They cure Green Sickness (Chlorosis).

They cure Nervous and Spinal Affections, pains in the back and lower parts of the body, Hysterics, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysteria, Sick Headache, Giddiness, &c., &c. In a word, by removing the irregularity, they remove the cause and with it all the effects that spring from it.

Composed of simple vegetable extracts, they contain nothing deleterious to any constitution. Power to heal, their function being to effect, not the strength for weakness, which, when properly used, they never fail to do.

They may be safely used at any age and at any period, *except during the first three months*, during which the unfailing nature of their action would infallibly produce prematurity.

THE MAGEE COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, as the shovelful of ashes or the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable invention, would inform those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, the results of which have usually been far from satisfactory, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are compelled by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the generated heat, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus multiplying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

RYE, N.H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even wearing clothes, if affected her hands very much. A large sum had been expended by the most celebrated physicians, for Sarsaparilla Syrups, &c., but she obtained no relief until I procured some ten or twelve bottles of Dr. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There has been no mistake, as the cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.

From ELDER I. CHESLEY, *Jay, May 31, 1841*

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health, can eat, drink, rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISAAC CHESLEY.

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, No. 7 High street, Portsmouth, N. H., promptly attended to. may26

Ayer's Cathartic Pills

Are the most perfect purgative which we are able to produce or which we think has ever yet been made by anybody. Their effects have abundantly proved that they are much more thoroughly cure the ordinary medicines in use. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart a healthy tone with strength to the whole system. Not only do they cure the everyday complaints of everybody, but also formidable and dangerous diseases. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and, being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief, were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of our remedies, while others have sent us the assurance of their conviction that our preparations contribute immensely to the relief of our afflicted, suffering fellow men.

The Agents below named are pleased to furnish gratis our American Almanac, containing directions for their use, and certificates of their cures of the following complaints;

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from foul stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and pain arising therefrom, Flatulency, Loss of Appetite, all Diseases which require an evacuant medicine. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstructions of its functions.

Do not be put off by unprincipled dealers with other preparations which they make more profit on. Demand AYER'S and take no others. The sick want the best aid there is for them, and they should have it.

American and Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)
76 State street, opposite Kilby street,
Boston.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse." CHARLES MASON, Commissioner of Patents.

"I have no hesitancy in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all and some of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on this point, I cannot withhold from those desirous to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twice* rejected application SIXTEEN ALL ALONE. EVERY ONE of them was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.

VERNATELLA

Is a preparation from Copper, having no grease, linseed oil, or anything of the kind, and when the soles are once saturated with it, water can no more go through them than through copper itself. Even 25 Cents Per Bottle, at retail every where.

But its cost to the purchaser is really NOTHING, as it makes the soles wear enough longer to more than pay for it, leaving as a net gain the making of them Water and Dampness Proof, and the preservation thereby of that priceless gem, the health.

SAVE YOUR HEALTH.

Use Vernatella on the Soles of your Shoes. It makes them water proof and thereby protects your feet from dampness, for the ground is always more or less moist, either from rain or the morning and evening dews.

WEDNESDAY, AUGUST 24, 1864.

THE REBELLION.

Refugees assert that Lee is with the rebel force in the Shenandoah Valley, with 40,000 men. There was considerable skirmishing near Charleston, 8 miles from Harper's Ferry, on the 21st.

There was a fight on Sunday two miles beyond Charlestown, between Gen. Sheridan and the rebel forces in the Shenandoah Valley, the movement being made by the rebels to get possession of Martinsburg. The fight was brief but determined, and the losses on both sides severe, and the rebels held the town. Our cavalry retired down the Berryville pike, passing through Charlestown, and bivouacked to the right of that town. On Monday morning the rebels were concentrating on our right for an advance, and there was heavy firing on the Berryville road and Smithfield pike. No rebel forces had crossed the Potomac up to Tuesday P. M. On Monday there was skirmishing all day, but no battle.

A dispatch to the N. Y. Herald states that Gen. Hancock having accomplished the object of his expedition to the north side of the James river is withdrawing his command.

The rebels have been making desperate but unsuccessful efforts to retake the Weldon railroad. Our forces now hold the road firmly, and have secured a position from which it is believed the enemy cannot dislodge them. The enemy made three desperate charges on Sunday on our lines, but were repulsed each time with heavy loss. Our loss was slight. It is said we captured 500 prisoners.

Reports from Petersburg are that in the rebel attack on our forces at the Weldon railroad, Gen. A. P. Hill was mortally wounded, Gen. Keth and a son of Gen. Robert E. Lee killed. The Richmond Dispatch says a Union cavalry force is on the way to the Danville railroad.

Gen. Hatch is about resuming active operations in Florida.

Operations against Fort Sumter are progressing.

The New Orleans Era states that Gen. Granger's forces were within 500 yards of Fort Morgan on the 13th.

Richmond papers of Saturday announce that a Union force is moving overland from Pensacola towards Mobile.

The Raleigh (N. C.) Confederate says Gen. S. D. Lee recently arrived at Atlanta from Mississippi with large rebel reinforcements, and participated in the late battles.

A Louisville dispatch states that on the 13th inst., in front of Atlanta, the 15th corps charged on the rebel works. At the same time Carlin's line of skirmishers called upon the rebel soldiers in the rifle-pits to come over on our side. About 200 leaped out and came into our lines amid the fire of the remaining rebels. Carlin then advanced a strong skirmish line and took possession of the rebel rifle pits and now holds them. They are within 300 yards of the enemy's works.

The rebel cavalry is concentrating at Jackson, Miss. Kirby Smith is at Alexandria. Dick Taylor is commanding Polk's old corps at Atlanta. Buckner commands Taylor's rebels in Louisiana. The rebels are confiscating all the property around Alexandria. Many wealthy planters are living on rations, their houses having been destroyed. The conscription is being rigidly carried out. Conscripts and refugees threaten to seize Dick Taylor's children as hostages for the security of their families.

A dispatch from Fort Smith, Ark., says that Gen. Thayer attacked the rebel General Cooper a mile in front of Fort No. 2 and completely routed him.

☞ The N. Y. Tribune of Friday, said, "if any anxiety was felt yesterday in regard to the fate of Macon, it is dissipated by the dispatch from Nashville which we publish this morning. To the demand of the rebel general for a surrender, Col. Seibold gave the soldierly answer that he was put there to defend the fort, not to surrender it, and with his small force he bravely kept at bay the 5000 rebels who rushed in upon him. They swarmed into the town, but he defended himself behind his earthworks till Gen. Steadman reached him with reinforcements. These reinforcements with a ringing cheer and an impetuous rush which was irresistible,' says the dispatch, 'charged upon the rebels, who broke and fled in the utmost confusion.' These brave fellows, who thus saved Macon, were the Fourth United States Infantry, men of that class who, Gen. Sherman says, in his letter published a few days ago, are good for nothing except as servants and teamsters, and are not fit for soldiers. We doubt if the beleaguered garrison of Macon agree with him—that their contact with these colored men is demoralizing to white soldiers. The fighting of the 4th U. S. Infantry is a better commentary on the General's letter than a page of argument."

NEW HAMPSHIRE ITEMS.

—— Col. Hapgood of the 5th New Hampshire has been honorably reinstated.

—— Gov. Gilmore has received authority to raise the additional battery of Heavy Artillery asked for.

—— Gov. Gilmore has received permission from the War Department to raise one new regiment of infantry, additional to artillery companies previously authorized.

—— A letter to the Manchester Mirror, from Bermuda Hundred, Va., gives the following particulars of the losses of the 3d, 4th and 7th N. H. regiments in the fight of the 16th, near the Newmarket turnpike:

The Third suffered severely. Lt. Col. Josiah Ingalls Plimpton, of Milton, who commanded the regiment, was killed. Arlan S. Atherton, recently promoted from the ranks to 2d lieutenant, met the same fate. Among the wounded officers are Adj. Elbridge J. Copp, Nashua; Capt. Andrew J. Wadlin, Lieuts. Charles A. White, Wolfborough; Geo. H. Giddings, Simon N. Lamprey, Exeter, and Daniel Elbridge, Elbridge, Lebanon. The regiment crossed the James river Sunday morning, and Sunday and Monday suffered from the excessive heat, a large number being sun-struck. Although at times under fire, only three men were wounded. Tuesday our forces advanced on the rebel works, and the losses in our brigade, (consisting of the 3d and 7th N. H. and 6th and 7th Conn. regiments,) amount to about five hundred in killed, wounded and missing. Lieut. Col. Thomas A. Henderson, Dover, of the 7th N. H., is among the officers killed. Gen. Grant compliments our division (Gen. Terry's) for the manner in which it conducted. Among the wounded in the wounded in the 4th N. H. is Capt. Frank W. Parker, Manchester, who had command of the regiment. The old members of the 3d who have not re-enlisted are entitled to a discharge on the 23d.

— The Solicitor of the War Department has been instructed to prosecute dismissed Surgeon General Hammond for fraud.

— Lawrence, Mass., has filled her quota for the 500,000 draft, and has a surplus of nine.

— Mr. Henry Cabot, a well known citizen of Boston, died at Nahant on Thursday at an advanced age. He was a liberal patron of art.

— It a lady in a red cloak were to cross a field in which were a goat, what wonderful transformation would probably take place. The goat would turn to butter, and the lady into a scarlet-runner.

— A man in Lynn, Mass, nearly 70 years old and weighing 200 pounds, arose in his sleep and jumped out a third story window. He struck into a hogshead of water in the back yard, which saved his life. He was only slightly bruised.

— A Newbern dispatch states that since the departure of the rebel pirate Tallahassee from Wilmington, seven more steamers have arrived there, and are receiving their armament with a view of running the blockade to war upon our commerce.

— Boucicault's financial difficulties were again before the Court of Bankruptcy in London, recently. The aggregate debts and liabilities are £32,000, and it was stated that the assignees had a sum of £1000 in hand applicable to dividend.

— Lord De Ros, an English nobleman, debating the question of public schools, expressed himself in favor of fagging, at the same time boasting that he himself had repeatedly blacked the shoes of the Archbishop of Canterbury, and he thought it had done him good!

— An officer of a three years' volunteer organization, who receives a new commission at a date subsequent to that of his original entrance into service, is held to service for three years from the date of his last muster-in, and not for three years from the date of original muster-in.

— Hon. John Appleton, of Portland, died in that city of consumption on Monday afternoon. He had been Member of Congress, Secretary of Legation when Mr. Buchanan was minister to England, and Assistant Secretary of State under the last administration.

— The Grand Trunk Railway Company has now under its control *thirteen hundred and thirty five miles* of railroad, extending from Portland to Lake Huron and Toronto to Quebec, with various branches. No other railway company in the world has such a length of railway under its control.

— Dr. T. W. Whittingham, and his assistant, Dr. Bennett, both belonging to the Board of Enrollment at Morristown, N. J., have been arrested on the charge of branding on the back with caustic a young man named Beach. The doctors were held in $4000 bail to answer.

— The famous Mersey rams were formally handed over to the British Government, under the recent purchase, on the 8th inst. They are are to be fitted with turrets, and will be each armed with four 300-pounder guns. They will be re-named the Scorpion and the Wyvern.

NEW ENGLAND AGRICULTURAL SOCIETY.—We understand that the annual exhibition of the New England Agricultural Society will be held on Hampden Park, Springfield, Mass., on the 6th, 7th, 8th and 9th of September. The present prospect is that the Fair will be the grandest and most complete ever held in New England.—Nearly every railway in New England has agreed to take stock free both ways; and many of them will run excursion trains, or sell tickets at reduced rates.

The people of Maine and the eastern part of New Hampshire and Massachusetts, will have an opportunity for a grand excursion, as the Eastern and Boston & Maine Railroads agree to return all visitors to the Fair free from Boston. Those that go by the way of these roads will procure free return tickets on application to the Secretary of the Society, at the office on the grounds. The roads from Boston will also carry passengers to and from the Fair at reduced prices.

Certificates of Life Membership have been reduced to $3, which will entitle the individual to a member's ticket, good during the Fair, to enter stock (except horses) and all articles free of charge, and to receive the publications of the Society when issued. Gov. Andrew will deliver the annual address on the fourth day of the Fair.

SONS OF LIBERTY.—An item in the Chronicle of Tuesday, on the conspiracy in Indiana, shows plainly and proves fully the existence of a nest of *traitors* in the free States, calling themselves by the above name. There can now be no doubt that this organization exists widely, and that members of it can be found in New Hampshire, and probably in Portsmouth.

No risk is run in saying that no republican or abolitionist belongs to the order, but that every member claims to be a democrat and belongs to the democratic party. It is, however, probably not true that all of the democratic party belong to it; and it is quite possible that half of them do not believe it exists, as their papers usually deny it. But many of their leaders and wire workers, the "*peace*" democrats, *par excellence*, are in the order, and manage it to aid the rebels and weaken the United States as much as possible.

These facts should open the eyes of all honest men, to discern the *hypocrites* who clamor for peace while they ship revolvers, create riots, burn houses and schools, and murder unarmed men, women and children — as in the case referred to, in the great New York riot, and in the smaller ones in Boston and some spots in New Hampshire.

Their cry for peace means peace with rebels only,—war with everybody else.

U. T.

NORTH CAROLINA.—The N. C. Times, speaking of the recent election, says: "The Holden men will have a majority in the Legislature. The citizens of North Carolina desire peace. Notwithstanding the fact that rebel bayonets were used to overawe the conservative party who supported Holden, in the extreme western counties, we learn that he has obtained some large majorities, but a large portion of the vote was thrown out on the ground that it was not considered loyal to the Confederate Government. At Kingston men were imprisoned for voting for Holden."

IMPORTANT RAILROAD SUIT.—An important suit, growing out of alleged abuses practiced by a railroad company in Washington, is on trial in that city. The question involves the right to eject passengers having tickets of previous dates. It was decided at the preliminary examination that the regulations of a corporation not expressly provided for in the charter could not be considered binding, and that the company might be liable for damages for any loss or inconvenience to travellers growing out of such rules.

☞. Here is a mysterious paragraph from a Washington paper, the Republican, which needs explanation:

We learn that General Ledlie, who commanded the division which led the assault at Petersburg on the explosion of the mine, has abandoned his command and disappeared from the army in a suspicious manner. Brig. Gen. Julius White is in command of Ledlie's division.

— The report that Adm. Dahlgren is to be succeeded by Com. Rowan is denied.

— It is said that there are five million pounds of coffee stored in San Francisco—over ten pounds for every person in the State.

— The Bangor Whig is after the Pontoosuc for remaining at Eastport more than 48 hours after it was known that the Tallahassee was at Halifax.

— The manufacturers of wringing machines raised their prices on each wringer one dollar and a half the 1st of August, to meet the increased cost of rubber, iron and other materials.

— The government has recently established a shipyard at Nashville, Tenn. The ground covers about nine acres, fronting on the river, and nearly two hundred hands are employed, mostly in the repairing of vessels.

— A Boston paper is energetically republishing Vanity Fair's old jokes—gives about two a day

— During the past two years there have been built at the West 3556 miles of railroad at a cost of $253,280,464.

— A grocer in Newport hoards up his nickel cents, and has now three bushels of them. He has no other kind of sense—not even "the common kind."

Draft Notice.

To the Citizens of Portsmouth:

The undersigned, having been appointed by the Board of Mayor and Aldermen, a Committee to lay before the Board of Enrollment the names of all persons who claim exemption from the following causes, viz: Alienage, Non-Residence, Unsuitableness of Age, Manifest Permanent Physical Disability, and persons who have been in the service two years during the present war, would give notice that they will be in session on and after Wednesday, Aug. 17, 1864, from 2 till 5 o'clock and from 7½ to 9 o'clock P. M., at the City Rooms, for the purpose of receiving evidence in such cases.

The Enrollment list can be seen during the same hours, and every person who can present a claim for such exemption is respectfully requested to attend as above, and by this means correct the Enrollment, so that our quota can be reduced.

It is the duty of every citizen, whether enrolled or not, to see that the Committee have all the information in his power to give in the above matter, in regard to any person, and we trust that every enrolled man will urge the importance of the subject upon all those who are exempt for the above causes, as it is a matter of interest to all.

Any information in regard to matters connected with the above will be cheerfully given.

Let there be no delay.

Broksieper's Patent

Self-Acting Gas Regulator.

SOMETHING ENTIRELY NEW.

Patented 1864.

A brilliant and equal Light at a saving of 30 per cent. over any Gas Burner now in use.

This is not a Regulator to go on the Meter, but under every Burner in use.

Economy in the use of gas, with the advantage of having a more brilliant light than heretofore, is a point at once desirable. Inventors have for many years sought to attain this end by packing or checking in innumerable ways the flow of gas through the burner tips.

Not one of these has attained the result wished for, namely, "a pure, transparent flame, without waste at any and all pressures, obtained at any hour and in all localities."

The above results are fully obtained in

Brocksieper's Patent Gas Regulator.

We invite the most incredulous to examine and test in the most thorough manner.

RETAIL PRICE, EIGHTY CENTS.

A liberal discount made to Churches, Factories, Hotels, &c. The Regulators will be put on, and if they do not prove satisfactory may be returned. CHARLES T. EMERY,

"A Wonderful Discovery."

DR. TEBBETTS' "PHYSIOLOGICAL HAIR RESTORATIVE" is compounded in strict accordance with the well known laws of Physiology and modern vegetable Chemistry. It is not a "DYE," and will not stain a particle. It will "RESTORE GRAY HAIR" in all cases to its original color. It promotes a luxuriant growth of new HAIR in all cases on BALD HEADS, when the glands or roots of the hair are not completely disorganized. It prevents the hair from falling off and removes all dandruff, heat, humors and itching from the scalp. It keeps the hair soft, moist and perfectly healthy, and gives it a glossy and beautiful appearance. It is highly perfumed, and as a Dressing it has no superior. The "RESTORATIVE" is warranted to produce the above results in all cases, if not the money to be refunded. With it every "GRAY HEAD" in New England can be restored in less than sixty days.

Local.

☞ The payment of the July roll at the Portsmouth Navy Yard was completed on Tuesday, and a large portion of these greenbacks were distributed throughout this city and its vicinity. Many families have been much relieved by this disbursement by Uncle Sam, especially those who are obtaining a livelihood by keeping boarders.—Boarding-house keepers—while in many instances they are obliged to pay cash for articles of food—have to wait a month or two for the money due them; and in the meantime, in some instances, (we trust the cases are rare) poor widows are cheated out of their money by scapegraces, who get their pay, or get some one to cash an order for the same, step out, leaving their board bills unpaid. We have heard of but three cases of this kind, in two of which this swindling operation was practiced on the widow of a soldier who lost his life while fighting his country's battles, leaving a family utterly destitute. We would like to have the names of such individuals, that they might be "tabooed" from all respectable society.

☞ The U. S. steamer Colorado, which has been lying at the Portsmouth Navy Yard for the past few months, is nearly ready for sea, and will probably go into commission this week. Commodore Thacher is to command her. It is understood that the Colorado is to join the Mediterranean squadron, and relieve the Constellation, the latter vessel coming home for repairs.

☞ The Rockingham Association of Universalists meets at South Hampton this, Wednesday, morning for a two days' session. Visitors from this city can go by rail to Amesbury Mills, on to East Kingston, and thence in carriages.

POLICE COURT, Monday.—Michael Mahoney, for drunkenness, was fined $1, and costs taxed at $3.26, which he paid.

Tuesday.—James Dermody, same offence, fined $3, and costs $4.03; paid.

☞ Piscataqua Engine Company, No. 4, of this city, will give a Picnic at North Berwick, Maine, to-morrow—Thursday.—Cars leave the Eastern railroad depot at 7:30 A. M. Tickets, to go and return, $1.

☞ Browne & Pike's Dramatic Company present an excellent bill this evening at the Temple. See advertisement.

— There has been more desperate rioting at Belfast, Ireland.

— Government has increased the price of stamped envelopes. The increase on the letter size is about 17 per cent.

— A feature of the specie shipments from New York last week was the exportation of $10,000 in copper coin.

— The Kearsarge and another Federal steamer passed Deal on the 11th inst., westward bound.

— The Internal Revenue receipts of this quarter, to the 19th inst., are a little under $27,000,000.

— Rev. John H. Windsor, of Marion, Iowa, has accepted a call from the Congregational Church of Saco, Me. He will be installed Sept. 21st.

— In Chicago on Tuesday last a young man and his grandmother were picked up by the police in the streets,—both dead drunk.

— Gen. Grant's renewed activity near Petersburg has caused a decline in the rebel loan in England. Later American news was anxiously waited for.

—In the Crown prosecution for shipping seamen in England for the pirate Georgia the prisoners were found guilty and bound over for judgment.

— The London Times favors the withdrawal of the British troops from Canada, their presence being an element of danger, as provoking an invasion whenever the Americans have a grievance against England.

— Six hundred rebel prisoners are to be placed under fire on Morris Island, there being that number of our prisoners in Charleston. The rebels claim, however, that they are merely in transitu for some other point.

— A new volume of the U. S. Army and Navy Journal commences with the next number. It is an excellent and reliable publication, which everybody might do well to take and keep for binding. Published in New York at $5 per year.

— The steamer Franconia, running between Halifax and Boston, came very near meeting the pirate Tallahassee on her last trip. The pirate put into Halifax the same morning that the Franconia left for Boston.

— Godey's Lady's Book, for September, contains a steel-plate, "Tired Nature's sweet restorer—balmy Sleep;" a double colored fashion plate, containing six figures, and the usual large quantity of illustrations and light reading matter.

— The pirate Tallahassee was allowed to coal at Halifax until it was found that she was in danger of being blockaded by Federal gunboats.

— The Taunton Gazette mentions the death of a boy of that place, caused by frequent bathing in impure water. He absorbed the poison through the skin, abscesses formed, and he died after two weeks' sickness.

— Since the beginning of the month about twenty-seven millions of dollars have been put in the hands of army paymasters, and a considerable number of the soldiers in the field as well as those on detached duty, have been paid to July 1st. The payment of Grant's and Sherman's forces is delayed by their active service.

— The steamer Prince Albert, in attempting to run into Charleston harbor, grounded opposite Fort Moultrie. Our batteries opened heavily on her, rapidly reducing her to a total wreck. Her cargo consisted of medicines and other light articles. She belonged to the Richmond Importing and Exporting Company.

— The Boston and Sandwich Glass Co are making quite heavy shipments of their manufacture to England. The goods thus sent out are mainly kerosene lamps of various patterns: the skill of the Americans in making brass trimming enables the company to undersell the English in their own markets.

— Enormous buckles have come into fashion with the Paris belles. Some measure several inches, and of course enormously wide waistbands are required to accompany them. These waistbands are fashioned of silk and made to fit the figure very like a short stay; small strips of whalebone are inserted between the silk and lining.

— The Atlantic Monthly, for September contains a large quantity of light miscellaneous reading—just what will be sought at the watering places, in the cars, and at home; but the great attraction of the number will be Edmund Kirke's lively account of his visit to Richmond and interview with Jeff. Davis.

— The New York Herald of Saturday says:, "We are glad to see the price of coal falling. Instead of $13 to 13.50 per ton, it is now selling at $11 to $12, wholesale. The public should not be guided by these mock auction sales of coal. In fact, the newspapers should not report such sales, as they help to mislead instead of guide the public in the purchase of their winter's fuel."

BUSINESS NOTICES.

PRICES AND TERMS.

The price of the Daily Chronicle is $6 per year in advance; 60 cents per month—15 cents per week—3 cents per copy.

The (Weekly) N. H. Gazette $2 per year in advance—6 cents single copy.

PARTICULAR NOTICE.—From this date our Carriers of Subscribers' lists are not allowed to sell copies of the Chronicle, nor to receive pay for any subscriptions, except when furnished by us with receipts for the same,—which will not be given for less term than 1 month, 60 cts., or 3 mos. $1.50, in advance. If any prefer to pay weekly, they can do so at our counting room only. Will all concerned please remember this, and thus aid in the more prompt and accurate delivery of our papers. July 13.

☞ Special attention is asked to Hunnewell's preparations, advertised on our inside columns. They are based on true medical laws, used very largely by Physicians, and most undoubted testimonials are in the hands of the proprietor, always open to inspection. Let Portsmouth and its vicinity bear testimony by a confidence to test them, which will be sacred.

Would you save yourself from suffering after eating, or from acidity of the stomach, or burning sensation, or indigestion? Use Herrick Allen's Gold Medal Saleratus. Never use soda if you can procure this article. It will strengthen weak stomachs and relieve dyspepsia; is a saving in the quantity of flour, &c., &c. Try it. Grocers and Druggists must all sell it. The Wholesale Agents are Wholesale Grocers.

☞ What an amount of suffering and disease among the Volunteers would be prevented by the free use of Holloway's Pills and Ointment. For wounds, sores and scurvy the Ointment is a certain cure. For bowel complaints, fevers, small pox, &c., the Pills are the best medicine in the world.

If the reader of this "notice" cannot get a box of Pills or Ointment from the drug store in his place, let him write to me, 80 Maiden Lane, enclosing the amount, and I will mail a box free of postage. Many dealers will not keep my medicines on hand because they cannot make as much profit as on other persons' make. 35 cents, 88 cents, and $1.40 per box or pot. 291

"A Stitch in Time Saves Nine."

All Furnaces, Stoves and Funnels should be thoroughly cleaned out and put in order, as soon as fires are done being made in them. If allowed to remain filled with ashes and soot through the summer, they will decay very rapidly, and useless expense be incurred.
A full supply of Linings and Repair Pieces constantly on hand, and all orders attended to with dispatch. E. A. STEVENS.

Facts for the People.

The enormous rise in price of Iron, Coal and Labor, has caused manufacturers to advance the price of STOVES and Castings several times since the war began; and it is now arranged to make a general advance of 25 to 50 per cent. this season.
We have not yet raised the price of Stoves in proportion to their increased cost, but shall be compelled to do so very shortly. Persons who expect to purchase anything in the Stove and Furnace line within a year or two, will save money by doing so at once. The price of a Stove is not so much an object, now, as its capacity and the cost of operating it. All things considered, there is no Stove equal to
THE MODEL COOK.
IT IS, IN FACT,
The Best Stove Out,
for economy, convenience and dispatch.
Many people think it best to use an old stove as long as possible, but it is far better to throw it away and purchase a MODEL COOK, than to keep it at the present high price of fuel.
One of our shrewdest citizens who purchased a MODEL COOK STOVE a year since, says he has saved more than its cost already.
A careful, prudent farmer purchased one, and after it had been in operation some days his son came into the store and said, "something was wrong at their house;" his father said himself used wood off the same pile, he burned three baskets full a day, and his father only one! We sold him a Stove before he left, and there has been no complaint since.
These Stoves are in use in many hotels and boarding houses, and in hundreds of private families in this city and vicinity, and give the best of satisfaction.

Important to the Afflicted.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 SANDCUTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never been yet introduced to them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal, impure blood, impotency, Scrofula, Gonorrhœa, Gleet, painful distress in the region of procreation, Inflammation of the bladder and Kidneys, Hydrocele, Abscess, Humors, Fistula, Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest siliage or a cold.

SEMINAL WEAKNESS.

Dr D. devotes a great part of his time to the treatment of those cases caused by secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth, are: Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The mental effects are Aversion to society, loss of memory, confusion of ideas, Depression of spirits, self-forebodings, aversion to society, self-distrust, timidity, blushes, and evils too numerous to mention. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Persons who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms and offices for board and treatment.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your case, and inclosing the sale fee. French Capsules warranted the best preventive. Order by mail. Three for $1 and a red stamp.

Highly Important to Females

IN DELICATE HEALTH.

DR. DOW, Physician and Surgeon, No 7 & 9 Sandcutt Street, Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, and prolapsus, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in most cases. He has invariably met with success in the new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health and happiness. Dr. Dow has greater experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to one office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B. All letters must contain four red stamps, or they will not be answered.

Office Hours from 9 A. M. to 9 P. M.

CERTAIN CURE

is all cases of Ill Consequence Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to his office.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Sandcutt street, Boston. He has been long called the friend of the poor and physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FEMALE SHIELD. Order by mail. Two for $1 and a red stamp.

Boston, April 7, 1864.—eodly.

DR. S. O. RICHARDSON'S
BLOOD ROOT ELIXIR

Has been thoroughly tested and proved in his medical practice, DURING THIRTY YEARS, and is now presented to the public as an effectual cure for

COSTIVENESS,

and the best remedy ever prepared for

Diseases of the Liver,

SCROFULA,

All Humors and Impurities of the Blood, and Diseases of the Skin.

The preparing and combining the Blood Root Elixir, is attended with results to medical science next in importance to the inhalation of ether in surgery. Roots and herbs, which are in their general and undecomposable, are, by a new and scientific process of extraction (in vacuo) rendered MORE EFFICACIOUS IN MEDICINE THAN in their entirely different state of the griping and distressing pain which attends the action of all other purgative medicine. They are also made to become HIGHLY PLEASANT AND AGREEABLE TO THE TASTE.

and by their peculiar combination work so perfectly in HARMONY WITH NATURE that no unpleasant reaction will follow its operation.

It also possesses

A Diffusive and Alterative Effect,

which can only be obtained by combination in a fluid state. These are new elements in purgative medicine.

The hard and compact manner in which pills are prepared renders them indigestible—and when taken are forced through the stomach and Bowels undissolved, passing only PARTIAL ACTION, and that only in some one portion of the parts connected with their passage.

One pill dissolved, acts on others, will produce more medicinal and physical effect than five in a crude state.

The BLOOD ROOT ELIXIR has no partial action upon the bowels, but is equally diffused throughout the system, and by its combination with blood, imparting a healthy and invigorating action to the STOMACH AND BOWELS, LIVER, LUNGS, KIDNEYS, and every other organ of secretion and excretion throughout the whole system.

A single dose will produce a cheerful and refreshing COMFORTABLE OPERATION, leaving the patient with confidence and assurance of IMMEDIATE RELIEF. A continuance for a short period will DIVEST THE SYSTEM of all impurities, to the relief of the skin, and relieve or check SCROFULOUS AFFECTIONS—and by thus purifying and strengthening the blood, will remove the seeds of CONSUMPTION.

CAUSE OF CONSUMPTION.

It invests the various organs of the system to secrete and assimilate, and in consequence induces RHEUMATISM AND NEURALGIA, HEADACHE, LOSS OF APPETITE, DYSPEPSIA, COSTIVENESS, and nervous diseases which arise from a derangement of the Stomach and Bowels, and restricted circulation of the Blood.

COUGHS and COLDS, in their early stages, will immediately yield to the effect of the Elixir.

The BLOOD ROOT ELIXIR contains no mineral, no poisonous botanical extract, but stimulates the secretions by its mild diffusive action. It is an effective and painless aperient—has a decided preference and action upon the Liver, and *there has been no medicine prepared for common family use which produces equal results.*

Travellers both by sea and land, will find the Elixir a complete antidote for the evils which they are obliged to endure from a change of climate, diet, or of air.

See the pamphlet around each bottle for a history of the Elixir.

The proprietor of the Blood Root Elixir, (Dr. S. O. Richardson,) has been long and favorably known to the public by his celebrated SHERRY WINE BITTERS, the best tonic medicine ever discovered, and which has been used for over thirty years. He is a graduate of the New Hampshire Medical College, and many years associate member of the Massachusetts Medical Society, and has made the study of medicine his profession since 1822.

And so fully convinced is the Doctor of the wonderful curative effects of his Blood Root Elixir, that he hereby offers to each and every person who will use one-half of a bottle of his Elixir and not be benefited, the price of the same, from, or refused to any person the amount which he paid for the same, by returning the empty bottle to his office.

Price $1.50 per Bottle.

Sold in Portsmouth by J. H. THACHER, opposite the Post Office, and No. 12 Market Square, and by Dealers in Medicine generally, and at Dr. Richardson's Office, No. 51 Hanover street, Boston. 2m6—3mcod&W

SPEER'S

SAMBUCI WINE,

PURE AND FOUR YEARS OLD.

OF CHOICE OPORTO FRUIT,

For Physician's Use, Females, Weakly Persons and Invalids.

AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs; very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by physicians and chemists as possessing medical properties superior to any other Wine, and is an unexceptionable article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefiting ladies and children.

A FAIR TRIAL will convince any not intoxicate as either wine, as it contains no mixture of spirits or other liquors, and is admired for its rich peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

☞ None genuine unless the signature of "ALFRED SPEER, Passaic, N. J.," is over the cork of each bottle.

Glad News for the Unfortunate!

The Long Sought For Discovered at Last.

CURES FROM ONE TO THREE DAYS

CHEROKEE REMEDY

AND

CHEROKEE INJECTION,

Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Stricture, Gravel, Mucus, Gleet, Gonorrhœa, and is strongly recommended in those cases of Fever Albus (or Whites in females) where all the old nauseous nostrums have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all of its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an adjunct or assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases where improper discharges are to be removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write us and we will mail free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.

Price—CHEROKEE INJECTION, $2 per bottle, or three bottles for $5.

Sent by express to any address on receipt of price. Sold by all druggists everywhere.

THE GREAT

INDIAN MEDICINE,

COMPOUNDED FROM

ROOTS, HERBS AND LEAVES.

CHEROKEE CURE.

An unfailing cure for Spermatorrhœa, Seminal Weakness, Nocturnal Emissions, and all diseases caused by self-pollution; such as Loss of Memory, Universal Lassitude, Pain in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Trembling, Nervousness, Eruptions on the Face, Pain, Consumption, Insanity, Consumption, and all the direful consequences caused by departing from the path of nature.

☞ This medicine is a simple vegetable extract and one do which all can rely, as it has been used in our practice for many years, and with thousands treated it has not failed in a single instance. Its curative powers have been sufficient to gain victory over the most stubborn cases.

☞ To those who have trifled with their constitution, until they think themselves beyond the reach of medical aid, we would say, *Despair not!* the CHEROKEE CURE will restore you to health and vigor, and after all quack doctors have failed!

☞ For full particulars, get a circular from any drug store in the country, or write the proprietors, who will mail free to any one desiring the same, a full treatise in pamphlet form.

☞ Price, $2 per bottle or three bottles for $5, and forwarded by express to all parts of the world.

Sold by all respectable druggists everywhere.

DR. WRIGHT'S

REJUVENATING ELIXIR,

OR ESSENCE OF LIFE.

Prepared from Pure Vegetable Extracts,

Containing nothing injurious to the most delicate.

The Rejuvenating Elixir is the result of modern discoveries in the Vegetable kingdom; being an entirely new and abstract method of cure, irrespective of all the old worn-out systems.

This medicine has been tested by the most eminent medical men of the day, and by them proved to be one of the greatest medical discoveries of the age.

One bottle will cure General Debility.

A few doses cure Hysterics in females.

One bottle cures Palpitation of the Heart.

A few doses restore the organs of generation.

From one to three bottles restore the manliness and full vigor of youth.

A few doses restore the appetite.

Three bottles cure the worst case of Impotency.

A few doses cure the low spirited.

One bottle restores mental power.

A few doses bring the rose to the cheek.

This medicine restores to manly vigor and respect health the once delighted, worn-out and despairing devotee of sensual pleasure.

The listless enervated youth, the over-tasked man of business, the victim of nervous depression, the medical suffering from general debility, or from weakness of a single organ, will all find immediate and permanent relief by the use of this Elixir or Essence of Life.

☞ Price, $2 per bottle, or three bottles for $5, and forwarded by express, on receipt of money, to any address.

Sold by all druggists everywhere.

THE MAGEE

COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shovelfuls of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove. Hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING

FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling their dwellings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over the old plan, while others have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of hot air through the grate, which lightens them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, *Esq.*,	Albert R. Hatch, *Esq.*,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

RYE, N.H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—and it has affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some six or twelve bottles of DR. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as the cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief, until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.

From ELDER I CHESLEY, *Lee, May 31, 1841.*

DR. SWETT: Permit me to testify as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, and grew gradually worse weaker till she commenced using your PANACEA and HUMOR WASH. Since then she has recovered her health, can rise and rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, No. 7 High street, Portsmouth, N. H., promptly attended to. mav26

Ayer's Cathartic Pills

Are the most perfect purgative which we are able to produce or which we think has ever yet been made by anybody. Their effects have abundantly shown that they are much better than excel the ordinary medicines in use. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart a healthy tone with strength to the whole system. Not only do they cure the every-day complaints of everybody, but also formidable and dangerous diseases. While they produce powerful effects, they are at the same time mild, and combined, the safest and best physic that can be employed by children. Being sugar-coated, they are pleasant to take; and, being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief, were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of our remedies, while others have sent us the assurance of their conviction that our preparations contribute immensely to the relief of our afflicted, suffering fellow men.

The Agents below named are pleased to furnish gratis our American Almanac, containing directions for their use, and certificates of their cures of the following complaints:

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from foul stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and pain arising therefrom, Flatulency, Loss of Appetite, and Diseases which require an evacuant medicine. They also, by purifying the blood and stimulating the system, cure many complaints which it would be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstructions of its functions.

You not be put off by unprincipled dealers with other preparations which they make more profit on. Demand AYER'S and take no others. The sick want the best aid there is for them, and they should have it.

Prepared by J. C. AYER & Co., Lowell, Mass., and sold by Brackett Hutchings, J. H. Thacher, W. H. Preston, David Kimball, and all druggists.

Research made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. EDDY has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part, I think, should induce all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *nine* rejected applications SIXTEEN NEW CLAIMS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.

The Old Established Hospital.

No. 5 Beaver Street, Albany, N. Y.

QUICK CURES AND LOW PRICES.

Over Twenty Thousand Patients Cured Annually!

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, speedily under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their health and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting J. Teller, they will find a friend, to console and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. J. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the exposure of his condition will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.

A book for everybody.—Startling disclosures. Dr. Teller's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. This single Material and the Married Hippy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery, it contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.

THE LADIES.

DR. TELLER still remains the only Agency in America, for the sale of Dr. Michois's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.

CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of persons at the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from 8 A.M. to 8 P.M., and on Sundays from 2 to 5 P. M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

VERNATELLA.

Warranted to make the Soles of Boots and Shoes water and dampness proof, and wear one-third longer.

VERNATELLA

Is a preparation from Copper, having no grease, linseed oil, or anything of the kind, and when the soles are once saturated with it, water can no more get through them than through copper itself. Price 25 Cents Per Bottle, at retail everywhere.

But its cost to the purchaser is really nominal, as it makes the soles wear enough longer to more than pay for it, leaving as a net gain the making of them Water and Dampness Proof, and the preservation thereby of that priceless gem, the health.

☞ LADIES, READ THIS! ☜

SAVE YOUR HEALTH.

Use Vernatella on the Soles of your Shoes. It makes them water proof and thereby protects your feet from dampness, for the ground is always more less moist either from rain or the morning and evening dew.

Morning Chronicle.

Portsmouth, N. H.

THURSDAY, AUGUST 25, 1864.

THE REBELLION.

Gen. Butler's canal is nearly completed. On Monday our lines were advanced considerably up the Weldon railroad, towards Petersburg, without opposition. The rebels are said to have disappeared from that road early on that morning, and it was believed they had abandoned it and were fortifying their right flank to resist an attack from us. Another extensive and important movement by our troops is said to have commenced on Monday morning.

The N. Y. Herald's dispatch reports Gen. Sheridan's forces strongly posted on the heights in the rear of Harper's Ferry, the enemy being close upon them.

Gen. Granger, on the 16th, had approached to within 800 yards of Fort Morgan, and a general assault was expected in a few days. Admiral Faragut's fleet, including the ram Tennessee, was fully prepared. Fort Morgan was silent.

Gen. Kilpatrick has made a raid very soon after rejoining his command, and has succeeded in destroying three miles of the Macon railroad, near Jonesboro'; also two trains and locomotives. He had a sharp encounter with the rebels, dispersing their cavalry, and capturing a battery and many prisoners. He destroyed all the guns except one, which he brought in, together with 70 prisoners, releasing the rest.

Several guerilla bands in Kentucky have been attacked and broken up within the past few days.

Forrest with 3000 rebel cavalry made a raid into Memphis at 4 o'clock, Sunday morning, having made a forced march to the city. Gens. Washburn, Buckland and Hurlburt narrowly escaped capture. Our troops, however, drove the rebels out of the town.

NEW HAMPSHIRE ITEMS.

—— Hon. Charles H. Bell of Exeter has been appointed Colonel of the new regiment,—the 18th N. H.

—— Capt. L. W. Cogswell has been appointed Lieut. Colonel of the 11th regiment, and Richard O. Greenleaf Major of the 4th.

—— More than 5000 tickets were sold for the two performances of Van Amburg, in Bristol on Saturday. That's the way the money goes.

—— Capt. J. W. Lang, of the 12th N. H. regiment, and First Lieut. John Curtin, of the 6th N. H., have been honorably dismissed the service for physical disability.

——The Concord Board of Education advertises for a "Lady assistant in the Concord High School, competent to instruct in Latin, Greek, French, and the Higher English branches. Salary $300 per school year." If a lady competent to teach those branches can't get a higher salary than that in these times, it is about time to give the children a vacation for an indefinite period.

—— The sentence of death upon Private Walter Cutler of the 1st N. H. Battery, for desertion, has been commuted to a heavy fine, in consideration of good conduct since his return to service.

—— The Concord Monitor states that of the recruits sent to the N. H. Cavalry last Sunday, 146 could not sign their names to the muster-in rolls; they were almost all foreigners. About 80, who had been mustered in, deserted while in camp in Concord and several were shot in the attempt.

THE LEGISLATURE.

The House on Tuesday passed a bill in addition to the military bill, to make town meetings held since the passage of the act valid. The Governor sent in a veto of the act in relation to the Carroll County Bank.

The Senate passed the act in addition to the military bill on Wednesday. In the House it was voted to indefinitely postpone the whole matter relating to Auditor. The committee reported adversely to the proposed forced loan from the banks, and a resolution was passed, advising the Governor to apply to the banks for sums needed upon such rate of interest as may be agreed upon, and failing there to apply elsewhere.

— Col. Streight was n't killed at Dalton.

— Our troops destroyed a long rebel supply train near Martinsburg on Monday.

— A colored substitute broker has been arrested in Portland for victimizing a recruit he had put in.

— The Overland mail has been discontinued for the present, in consequence of the Indian troubles.

— It has been decided that the man who takes a receipt for money paid, should pay for the Revenue stamp.

— It has been telegraphed over the country that Senator Henry Wilson had gone to Washington to urge upon the President the policy of an armistice with the rebels. He has published a letter denying it, and stating that no public man connected with the Administration is in favor of an armistice.

The Congressional Committee's Excursion.—No. Three.

St. John, N. B., Aug. 22.

Dear Chronicle:

Here we are, in a foreign country—the Congressional party, and their invited companions. In a State or Province under a Government other than our own; though not very much different, as it is administered here, after all. But they should incontestably be the same, and the two "countries" must doubtless ultimately be re-connected by political and social bands, as strong as those of nature and interest which now connect them. But before presenting to your readers, any of the many reflections of a national or general character, which might perhaps be of interest, I will tell you something of our voyage from Bangor hither. But first, a word of our stay at the city of the Penobscot, or Norembega.

I have already told you of our arrival at Bangor, at eleven o'clock Saturday night—how the guns of that city boomed out their welcome, to which our cutter could only respond with her whistle, as the guns were shotted to meet the Tallahassee or any other emergency. Through crowds of people, the Congressmen and all marched to the hotels, where they were soon enjoying the rest much needed.

On Sunday each worshipped Go! according to the dictates of his conscience, or his "persuasion," or not at all, as he chose. Two or three of the clergymen occupied pulpits in the city. During all our stay here, Mayor Dale, the Aldermen, Committee of Arrangements, and citizens generally, were most assiduous to render our visit agreeable; and were eminently successful.

Personally, we are under great obligations to Aldermen John Wyman, (who some twenty-five or thirty years ago, was a midshipman at the Portsmouth Navy Yard,) for his unremitting attentions and courtesies. Several of us accepted his invite to the 1st Parish Congregational Church,—a large and handsome edifice,—where the congregational singing from Temple Melodies was to us a most agreable feature. We were told that that social, and to us the only devotional form of church music, which was recently practised in most of the churches here, has been generally discontinued, and choirs again employed. No doubt a choir is desirable if not essential in most or all churches—but "the whole congregation" should also have books, and participate in at least one tune during each service.

On the arrival of the party at Bangor, each individual was furnished with a package of coach tickets, for any part of the city. And besides this several of us were indebted to prominent gentlemen of Bangor, for drives with their private teams—which, though mostly single, abound here in larger proportion than in almost any other city, except probably Hartford. We were personally favored with delightful rides behind Mr. Wyman's trotter, one of the finest animals we ever saw, — at once a family and sporting beast, a miler and a roadster; and he knows how to hold the ribbons over him, too. His owner did wisely to decline the thousand dollars offered for him that day — for "Sam" is worth a couple of them, sure. A good horse, like a good wife, and Jeremiah's figs, is very good indeed; but, the bad are not worth the having. And since we have made the comparison, we will remark, that good horses are neither so plenty nor so easily obtained as good wives — for while the dear creatures seem generally fit and willing to bless almost any man who places himself in the irresistible position of lover to them, apparently regardless whether or not he possesses other requisites for their happiness; it is a rare thing that a man finds more than one horse in a lifetime which perfectly suits him, or ought to.

But we have not time for moralizing on this or kindred subjects, and must hurry be able even to refer to the brief memoranda we made at the time, in note-book of paper or memory, of the incidents of this most enjoyable excursion. The object of this trip is for the House Com. of Congress on the Northeast coast defences of Maine, to visit the State, and examine the condition of things, with special reference to the extension of the European & North American railway (never called railroad down this way,) from Bangor to the British line, where it will be met by the Provincial extension of the same road, and all ultimately form a complete chain of rail, connecting Halifax with New York, and especially with Portland, and greatly aid in completing the net-work of railroads, which is as essential to the growth and prosperity of Maine and our whole Eastern country, as it is vital to these Provinces. To assist in this great work, Maine has appropriated ten townships, and asks the aid of the U. S. Government, (on the ground of this border railroad being the best military defence in case of war with England,) though only to the very modest extent of paying to her the amount of certain State claims on the U. S., which she insists are at all events her just due from the settlement of the long-vexed and perhaps yet to be again discussed Northeastern boundary question. To Bangor, as to Portland and St. John, this is a matter of vital interest, and the city of Bangor has voted its credit to the amount of half a million dollars, and will double it if necessary, to aid the project; while the Province of New Brunswick is ready to give to any parties who will build their end of the road, a bonus of $10,000 per mile. But more of railroads by and by. I must try and get the Jotter through and out of Bangor; but it is slow work, there was so much to enjoy there.

Monday morning, the committee of arrangements on the part of the City Government and citizens of Bangor escorted the Cong. party to the City Hall. Here they were introduced to Mayor Dale and the City Council, and other prominent citizens; and the city being in the congressional district of Hon. J. H. Rice, chairman of the committee, (who was nominated for re-election at the convention held in this city three days after this,) the whole proceedings here were of especial interest and significance.

Mr. Rice replied to the Mayor's welcome in a few brief but happily chosen remarks, and then introduced successively James T. Hale, M. C. from Penn., of the Com.; N. Perry, M. C. from N. J.; Prof. Patterson of Dartmouth College; J. B. Alley, M. C. from Mass.; N. B. Smithers, M. C. from Delaware; T. A. Jenckes, M. C. from Rhode Island, and Alex. H. Rice, of Mass., —all of whom made brief and powerful speeches, evincing a warm and earnest interest in the project which the Committee are investigating. The speeches of Prof. Patterson, Hons. N. B. Smithers, T. A. Jenckes and A. H. Rice were peculiarly happy and forcible efforts. No better speeches have ever been made in Bangor (we quote from the Whig) than were those by the gentlemen just mentioned—unexpected and off-handed though they must have been. About 12-2 P. M., having enjoyed "the feast of reason and flow of soul," the party repaired to Mayor Dale's fine residence, where they were introduced to Mrs. Dale, and proceeded to partake of an elegant collation, to which most ample justice was done.

Enough to say for to-day. But I must keep you for another day, as they did us in Bangor, to tell what we saw that afternoon.

Ever yours, F.

STATE OF NEW HAMPSHIRE.

In the year of our Lord One thousand eight hundred and sixty-four.

An act in relation to the taxing of deposits in Saving Banks.

Be it enacted by the Senate and House of Representatives in General Court convened,

Section 1. It shall be the duty of the treasurers of all Saving Banks in this State annually on or before the first day of May to make out and return to the Secretary of State a staement under oath of the whole amount of deposits and accumulations due from such Saving Banks to each depositor on the first day of April next preceding, together with the name and residence of each depositor residing in this State, and said Treasurer shall on or before the 1st day of July next succeeding, pay to the Treasurer of the State 3-4 of 1 per cent. on the amounts of such deposits and accumulations on the said first day of April next preceding, which said tax of three-fourths of one per cent. shall be in full for all taxes imposed upon the deposits and accumulations in said Banks or on the depositors therein on account of such deposits or accumulations, and the State Treasurer shall pay to the several towns in this State on or before the first day of October annually their proportion of the aforesaid tax, according to the amount of the deposits and accumulations held in said Savings Banks by the residents of said towns, and the tax on *non*-residents and such depositors whose residence is unknown shall remain in the State Treasury for the benefit of the State.

Section 2. All laws now in force requiring the treasurers of Savings Banks to make returns to the assessors of the several towns in the State of the amounts due depositors, and all acts and parts of acts inconsistent with this act, be and they are hereby repealed.

Section 3. This act shall take effect and be in force from and after its passage.

Signed, William E. Chandler,
Speaker of the House of Representatives.
Charles H. Bell,
President of the Senate.
Approved August 19, 1864.

Draft Notice.

To the Citizens of Portsmouth:

The undersigned, having been appointed by the Board of Mayor and Aldermen, a Committee to lay before the Board of Enrollment the names of all persons who claim exemption from the following cause, viz: Alienage, Non Residence, Unsuitableness of Age, Manifest Permanent Physical Disability, and persons who have been in the service two years during the present war, would give notice that they will be in session on and after Wednesday, Aug. 17, 1864, from 2 till 5 o'clock, and from 7½ to 9 o'clock P. M., at the City Rooms, for the purpose of receiving evidence in such cases.

The Enrollment list can be seen during the same hours, and every person who can present a claim for such exemption is respectfully requested to attend as above, and by this means correct the Enrollment, so that our quota may be reduced.

It is the duty of every citizen, whether enrolled or not, to see that the Committee have all the information in his power to give in the above matter, in regard to any person, and we trust that every enrolled man will urge the importance of the subject upon all those who are exempt for the above causes, as it is a matter of interest to all.

Any information in regard to matters connected with the above will be cheerfully given.

Let there be no delay.

Self-Acting Gas Regulator.

SOMETHING ENTIRELY NEW.

Patented 1864.

A brilliant and equal Light at a saving of 30 per cent. over any Gas Burner now in use.

This is not a Regulator to go on the Meter, but under every Burner in use.

Economy in the use of gas, with the advantage of having a more brilliant light than heretofore, is a point at once desirable. Inventors have for many years sought to attain this end by packing or checking in innumerable ways the flow of gas through the burner tips.

Not one of these has attained the result wished for, namely, "a pure, transparent flame, without waste at any and all pressures, obtained at any hour and in all localities."

The above results are fully obtained in

Brocksieper's Patent Gas Regulator.

We invite the most incredulous to examine and test in the most thorough manner.

RETAIL PRICE, EIGHTY CENTS.

A liberal discount made to Churches, Factories, Hotels, &c. The Regulators will be put on, and if they do not prove satisfactory may be returned. CHARLES T. EMERY.

A Card to Invalids.

A Clergyman, while residing in South America as a missionary, discovered a safe and simple remedy for the Cure of Nervous Weakness, Early Decay, Diseases of the Urinary and Seminal Order, and the whole train of disorders brought on by baneful and vicious habits. Great numbers have been already cured by this noble remedy. Prompted by a desire to benefit the afflicted and unfortunate, I will send the recipe for preparing and using this medicine, in a sealed envelope, to any one who needs it, *Free of Charge.*
Please inclose a stamped envelope, addressed to yourself.
Address JOSEPH T. INMAN,

Hair Dye! Hair Dye!!

BATCHELOR'S Celebrated Hair Dye
Is the Best in the World!

The only Harmless, True and Reliable Dye Known!
This splendid Hair Dye is Perfect—changes Red, Rusty, or Gray Hair instantly to a *Glossy Black* or *Natural Brown*, without injuring the hair or staining the skin, leaving the hair soft and beautiful; imparts fresh vitality, frequently restoring its pristine color, and rectifies the ill effects of bad dyes. The Genuine is signed WILLIAM A. BATCHELOR, all others are mere imitations and should be avoided. Sold by all Druggists, &c. FACTORY—81 BARCLAY STREET, N. Y. **Batchelor's New Toilet Cream** for Dressing the Hair. Jy9—1ydaw

"A Wonderful Discovery."

DR. TEBBETTS' "PHYSIOLOGICAL HAIR RESTORATOR" is compounded in strict accordance with the well known laws of Physiology and modern vegetable Chemistry. It is not a "DYE," and will not stain a particle. It will "RESTORE GRAY HAIR" in all cases to its original color. It promotes a luxuriant growth of new HAIR in all cases on BALD HEADS, when the glands or roots of the hair are not completely disorganized. It prevents the hair from falling off and removes all dandruff, heat, humors and itching from the scalp. It keeps the hair soft, moist and perfectly healthy, and gives it a glossy and beautiful appearance. It is highly perfumed, and as a Dressing it has no superior. The "RESTORATOR" is warranted to produce the above results in all cases, if not the money to be refunded. With it every "GRAY HEAD" in New England can be restored in less than sixty days.

☞ The quota of Portsmouth under the last call is 271. The Aldermen's Committee having the matter in charge, have the names of over 100 residents, enlisted in the Navy, who will count on the quota. They want information in regard to the persons named below. Will those cognizant of the facts communicate them at once? It must be done immediately, or it will be too late.

UNITED STATES NAVY.—Information is wanted concerning the following named persons, enlisted in the U. S. Navy since 1861. Any information relating to their residence, families, &c., left at the City Rooms, will greatly assist the committee on enlistments in the Navy.

POLICE COURT, Aug. 24.—John Devine for drunkenness, was fined $1 and costs $4.97; paid.

Daniel Welch, same offence, fined $3 and cost, $4.80.

John Jones, drunk, fined $3 and costs, $4.80.

Patrick Smith, for same offence, was lucted in the same amount.

Harriet More, for being a common night walker, was sent to the House of Correction for six months, and ordered to pay costs, $3.86.

☞ As some men were at work on the U. S. steamer Colorado, at the Navy Yard, on Wednesday morning, lowering a roll of lead into the hold, it slipped from the straps and fell, injuring Frederick Howard and Stephen Downes of this city, quite severely.—the former in the back and the latter in the head. Mr. Downes, among other injuries, sustained a fracture of the jaw. They both belonged to the machinists' gang, and were at work on the boiler. One of them was struck by the lead, and the other injured by the door of the boiler, which had been propped upon a stake, falling upon and jamming his head.

HEAVY ARTILLERY.—We learn that a movement is on foot to raise a company of Heavy Artillery in this city (as five companies are to be raised in the State,) and that J. Horace Kent, of the Provost Marshal's office, will be tendered the position of Captain. We know of no one who has more friends, and can fill a Company sooner than Capt. Kent.

☞ The N. Y. Tribune has moved the 'frigate Franklin—the largest ship in the Navy except the Niagara'—bodily to Brooklyn Navy Yard, and promises that she shall be launched the first of next month. It is also fitting out the De Soto and Tioga at the same yard, and altogether is transporting thither all the vessels building, fitting and thought of here.

☞ We are indebted to Hon. Horton D. Walker, Representative from Ward One, for a copy of the Law in relation to the taxing of deposits in Savings Banks, which we publish this morning.

☞ The Portland Press very innocently asked us some weeks ago, why the New York people did not call the Brooklyn Navy Yard, the New York Navy Yard. The object was to draw us into the admission of a certain conclusion, through reasoning from analogy, but we thought we would bide our time. And we find in its issue of Wednesday, the following;

The carpenters of the New York Navy Yard recently attempted a strike for a half dollar increase of daily wages, but failed, and were glad to go to work at former prices.

— Reports from reliable men in every part of Maine represent that the harvest will be abundant. Some crops will exceed the average.

— A robust mamma tried to smuggle her son, a likely lad of thirteen, over the Stonington railroad the other day, under her crinoline. He was detected at Providence.

— The Mobile rebels had a cigar shaped torpedo boat, which they sent down to combat the monitors, but the boiler exploded, using up every man on board, and the craft is now sunk in Navy bay, which is now in our possession.

— While some newsboys in Baton Rouge were playing ball the other evening, a colored cavalryman rode through their midst and struck one of them on the hip. It was the signal for a fight; the darkey was used up, and the next day breathed his last.

— It is the same old story — Charles Wiggin, of Greenville, Me., had been out gunning, on Tuesday, in a boat, and on reaching the shore drew his gun by the muzzle toward him, the trigger caught on the gunwale, and he was instantly killed.

— Gold fell 4 per cent. in New York on Wednesday, on the strength of rumors "current and credited in the best financial circles," that the Government has decided to send 3 Republican and 2 Democratic commissioners to Richmond, to arrange preliminaries for peace, and that they are already on their way.

— A young man at Woodstock, Ill., was drowned while bathing. His father and friends discharged a cannon over the water to raise the body. The gun burst into innumerable fragments, and out of the crowd only one was hit, and that one was the father of the drowned young man, and he was mortally wounded.

☞ Piscataqua Engine Company, No. 4, of this city, will give a Picnic at North Berwick, Maine, to-morrow—Thursday.—Cars leave the Eastern railroad depot at 7:30 A. M. Tickets, to go and return, $1.

☞ Browne & Pike's Dramatic Company present an excellent bill this evening at the Temple. See advertisement.

If any prefer to pay weekly, they can do so at our counting room only. Will all concerned please remember this, and thus aid in the more prompt and accurate delivery of our papers. July 18.

HUNNEWELL'S STANDARD PREPARATIONS.—On our inside columns will be found a notice of these justly celebrated and standard preparations, of unbounded reputation in New England, profess only what they are remedies for, are for sale by all wholesale and retail dealers, and confidence is asked to test them. See advertisement.

To every barrel of Flour you can make thirty pounds more Bread or Biscuit (and much better) by using Herrick Allen's Gold Medal, than by yeast fermentation or any other Saleratus.—It is perfectly healthy, will not turn your cookery yellow, will strengthen weak stomachs, and cure dyspeptic persons It is much better to use with cream tartar than soda. Try one paper, and you will be convinced. Most of the Grocers sell it. Depot 112 Liberty Street, New York.

ATTENTION, SOLDIERS!—Protect your health!—No sensible man will leave the city without a supply of Holloway's Pills and Ointment. For Wounds, Bruises, Sores, Fevers and Dysentery, these medicines are the best in the world. Every English and French soldier uses them.

If the reader of this "notice" cannot get a box of Pills or Ointment from the drug store in his place, let him write to me, 80 Maiden Lane, enclosing the amount, and I will mail a box free of expense. Many dealers will not keep my medicines on hand because they cannot make as much profit as on other persons' make. 35 cents, 88 cents, and $1.40 per box or pot. 225

GRAPES IN N. JERSEY. WE HAVE BEEN shown specimens of sacramental or pure juice Wine, prepared by Mr. Alfred Speer, of Passaic, N. J., out of the Portuguese Sambuco, a valuable grape which he cultivates in the country. In taste it assimilates to port with out its heating qualities, being absolutely free from spirits further than its own fermentation affords. Preference is given to it over all other wines in New York and other hospitals, as a tonic, gentle stimulant, diuretic and sudorific. Mr. Speer has been nine years experimenting in the production of this Wine, and the newest wine he sells is four years old.

"A Stitch in Time Saves Nine."

All Furnaces, Stoves and Funnels should be thoroughly cleaned out and put in order, as soon as fires are done being made in them. If allowed to remain filled with ashes and soot through the summer, they will decay very rapidly, and useless expense be incurred.

A full supply of Linings and Repair Pieces constantly on hand, and all orders attended to with dispatch. E. A. STEVENS.

Facts for the People.

The enormous rise in price of Iron, Coal and Labor, has caused manufacturers to advance the price of STOVES and Castings several times since the war began; and it is now arranged to make a general advance of 25 to 50 per cent. this season.

We have not yet raised the price of Stoves in proportion to their increased cost, but shall be compelled to do so very shortly. Persons who expect to purchase anything in the Stove and Furnace line within a year or two, will save money by doing so at once. The price of a Stove is not so much an object, now, as its capacity and the cost of operating it. All things considered, there is no Stove equal to

THE MODEL COOK.
IT IS, IN FACT,
The Best Stove Out,

for economy, convenience and dispatch.

Many people think it best to use an old stove as long as possible, but it is far better to throw it away and purchase a MODEL COOK, than to keep it at the present high price of fuel.

One of our shrewdest citizens who purchased a MODEL COOK STOVE a year since, says he has saved more than its cost already.

A careful, prudent farmer purchased one, and after it had been in operation some days his son came into the store and said, "something was wrong at their house;" his father and himself used wood off the same pile, he burned three baskets full a day, and his father only one. We sold him a stove before he left, and there has been no complaint since.

These Stoves are in use in many hotels and boarding houses, and in hundreds of private families in this city and vicinity, and give the best of satisfaction.

CARD OF STAMP DUTIES.

A verbatim copy of the Official Tax Document, issued by the Commissioner of Internal Revenue. For sale by JOS. H. FOSTER.

Important to the Afflicted.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of prescribing the unfortunate with remedies that have never, since the first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, impotency, scrofula, Gonorrhœa, Gleet, pain and distress in the regions of procreation, inflammation of the Bladder and Kidneys, Hydrocele, Abscess, Hernia, Rightful Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailing of a child.

SEMINAL WEAKNESS.

Dr D. devotes a great part of his time to the treatment of those cases caused by severe and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervous Irritability, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded—loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, timidity, &c., are among the evils produced. Such persons should, before entering into marriage, matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions by mail, on receiving description of your cases. Dr. Dow has also for sale the French Capsules, a surprised the best preventive. Orders by mail. Three for $1 and a red stamp.

Highly Important to Females

IN DELICATE HEALTH.

DR. DOW, Physician and Surgeon, No 7 & 9 Endicott Street, Boston, is consulted daily for all diseases incident to the female system, Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, in all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the cure of the most difficult and most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.

Dr. Dow has no doubt had more experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodation for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to the consultation and cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 8 A. M. to 9 P. M.

CERTAIN CURE

in all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, having by his unwearied attention and great success in curing gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and would give fifty dollars for a cell.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH RUBEN. Order by mail, two for $1 and a red stamp.

DR. S. O. RICHARDSON'S
BLOOD ROOT ELIXIR

Has been thoroughly tested and proved in his medical practice, for a period of THIRTY YEARS, and is now presented to the public as an effectual cure for

COSTIVENESS,

and the best remedy ever prepared for

Diseases of the Liver,

SCROFULA,

All Humors and Impurities of the Blood, and Diseases of the Skin.

The preparing and combining the Blood Root Elixir, has attended with results in medical practice, next in importance to the inhalation of ether in surgery. Roots and plants, in themselves powerful and dangerous, yet, so well are we now in the process of extracting (in vacuo) rendered MORE EFFECTIVE IN THEIR OPERATION, entirely divested of the griping and distressing pain which attends the action of all other purgative medicine. They are also made to become HIGHLY PLEASANT AND AGREEABLE TO THE TASTE,

and by their peculiar combination work so perfectly in HARMONY WITH NATURE that no unpleasant reaction will follow their operation. It also possesses

A Diffusive and Alterative Effect,

which can only be attained by medicine in a fluid state. These are new elements in purgative medicines.

The hard and compact manner in which pills are prepared, renders it impossible, they pass when taken are *passed*, through the stomach and bowels, half-dissolved, causing only PARTIAL ACTION, thereby occasioning griping and pain to the parts connected with their passage.

One pill dissolved, *operates entire*, will produce more medicinal and physical effect than five in a crude state.

The BLOOD ROOT ELIXIR has no partial action upon the bowels, but is *equally diffused* there and throughout the whole circulation of the blood, imparting a healthy and invigorating action to the STOMACH AND BOWELS, LIVER, LUNGS, KIDNEYS, and gently stimulating dormant and morbid secretions throughout the system.

A single dose will produce a cheerful and exhilarating COMMOTION, which will inspire the patient with confidence in the certainty of IMMEDIATE RELIEF. A continuance for a short period will DRIVE the disease and hidden humors to the surface of the skin, relieve or cure the SCROFULOUS AFFECTIONS—and by thus purifying and strengthening the blood, will remove the most fruitful

CAUSE OF CONSUMPTION.

It incites the various organs of the system to act their allotted part, removes all the causes which induce RHEUMATISM AND NEURALGIA, HEADACHE, LOSS OF APPETITE, DYSPEPSIA, COSTIVENESS, and the various diseases which arise from a disordered state of the Liver and Bowels, and restricted circulation of the Blood.

COUGHS and COLDS, in their early stages, will immediately yield to the effect of the Elixir.

The BLOOD ROOT ELIXIR contains no mineral, no poisonous substance whatever, but is innocent, but stimulates the secretions by its mild diffusive action. It is so effective and painless apparent—has a decided, salutary action upon the liver, and does not gripe—*is therefore prepared for common family use which possesses great merit.*

Travellers, both by sea and land, will find the Elixir a complete antidote for the ills to which they are obliged to endure from a change of climate, of water, or of diet.

See the pamphlet around each bottle for a history of this Elixir.

The proprietor of the Blood Root Elixir, (Dr. S. O. Richardson,) has been long and favorably known to the public as the proprietor of celebrated "CHERRY WINE BITTERS, the best tonic medicine ever discovered, and which has been in use over thirty years. He is a graduate of the New Hampshire Medical College, and many years associate member of the Massachusetts Medical Society, and has made the study of medicine his profession since 1826.

And so fully convinced is the Doctor of the wonderful curative effects of his Blood Root Elixir, that he hereby offers to any sick and every person who will use one-half of a bottle of his Elixir and not be conscious of a good effect therefrom, to refund to said person the money which he paid for the same, by returning the village bottle to his office.

Price $1.50 per Bottle.

Sold in Portsmouth by J. H. THACHER, opposite the Post Office, and No. 10 Market street and by Dealers in Medicine generally, and at Dr. Richardson's Office, No. 51 Hanover street, Boston. aug—tuseod&W

CHEROKEE REMEDY

—AND—

CHEROKEE INJECTION,

Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Gonorrhœa or the Gleet, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Stricture, Gravel, Gleet, Gonorrhœa, and is especially recommended in these cases of Fluor Albus or Whites in females, where all the old numerous nostrums have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an adjuvant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites in females, *quickly and effectually* removing all scalding, heat, chordee and pain. Instead of the burning and almost unendurable pain that is experienced with nearly all the other quack injections.

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write us and we will mail free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.

Price—CHEROKEE INJECTION, $2 per bottle, or three bottles for $5.

THE MAGEE

COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plated, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and ad iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shovelling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING

FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture of the very valuable Furnace, would ask those about remodelling or erecting buildings to examine this very valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the pipe is injurious for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason of this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 50 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the dome can be made to consume its own smoke, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal; make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer the reader to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell.	John Sise, and others.

NEW HAMPSHIRE BIRD LAW.
PASSED JULY, 1862.

AN ACT to promote the interests of Agriculture.

Section 1. If any person shall, at any season of the year, take, kill or destroy any of the birds called robins, thrushes, larks, blue-birds, orioles, sparrows, swallows, martins, woodpeckers, bobolinks, yellow birds, linnets, fly-catchers or warblers; or shall, between the first day of March and the first day of August, take, kill or destroy any of the birds called snipes, wood-cocks, plover, rails, yellow legs, or sand pipers; or shall, between the first day of March and the first day of September, take, kill or destroy any of the birds called partridges or grouse, or quails; or shall, within the respective times aforesaid, sell, buy or have in possession any of said birds, taken or killed, whether in this State or elsewhere, he shall forfeit for every said partridge or grouse, quail, woodcock, snipe or plover taken, killed or had in possession, the sum of three dollars, and for each of the other birds named above, the sum of one dollar, to be recovered by complaint before any justice of the peace.

Sec. 3. It shall be the duty of the selectmen of towns, and of the mayor and aldermen of cities throughout this State, to cause the provisions of this act to be enforced within their respective limits.

Sec. 4. All forfeitures or penalties recovered for violation of any of the provisions of this act, shall enure—one half to the use of the complainant, and one half to the use of the town or city where the same shall be recovered.

RYE, N.H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to no more celebrated physician, for Sarsaparilla syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of DR. SWETT'S ECZEMA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can cure Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed the full cures effected by it. Hence I act as an agent for the sale of it. JOSIAH JENNESS.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with dizziness in my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S ZANACEA, which helped me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. W. DOW.

From ELDER I. CHESLEY, *Lee, May* 31, 1841

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humors and blotches, so that on visiting our house in the spring of 1840, she had been confined for a number of months, without hardly a real rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your ZANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with their case, or if not worth the price. All orders directed to DR. S. SWETT, No. 1 High street, Portsmouth, N. H., promptly attended to. may26

Ayer's Cathartic Pills

Are the most perfect purgative which we are able to produce, and the most efficacious medicine made by anybody. Their effects have abundantly shown to the community how much they excel the ordinary medicine in use. They are safe—and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and feed disease, stimulate sluggish or disordered organs into their natural action, and impart a healthy tone with strength to the whole system. In a word, they cure the every-day complaints of everybody, but also formidable disease that defeats. While they produce powerful effects, yet at the same time, in diminished doses, are safest and most agreeable to take, even by children. Being sugar-coated, they are pleasant to take, and, being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief, were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of the remedies, while others have sent us the assurance of their conviction that our preparations contribute immensely to the relief of our afflicted suffering fellow men.

The Agents below named are pleased to furnish gratis our American Almanac, containing directions for their use, and certificates of their cures of the following complaints:—

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from foul stomach, Nausea, Indigestion, Dysentery, Morbid Inaction of the Bowels and pain arising therefrom, Flatulency, Loss of Appetite, all Diseases which result from an evacuant medicine. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed would reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and that hundred complaints arising from a low state of the body or obstructions of its functions.

Do not be put off by unprincipled dealers with their preparations which they make more profit by, demand AYER'S and take no others. The sick want the best aid there is for them, and they should have it.

Prepared by J. C. AYER & Co., Lowell, Mass., and sold by Brackett Hutchings, J. H. Thacher, J. E. Preston, David Kimball, and all druggists.

American and Foreign Patents.
R. H. EDDY.
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)
76 State street, opposite Kilby street,
Boston.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but, though it involves many advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty-four years past has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse." CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office." EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN applications in all, some of which patents have been granted, and that he has *given satisfaction*, Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him for the securing of patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twelve* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.

The Old Established Hospital.
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the latest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with Immense Success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to counsel and a Physician who has cured thousands, is almost every part of the United States, who applied to Dr. T. broken down in health, now rejoicing in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK:

A book for everybody.—Startling disclosures. Dr. TELLER'S great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on love, advice to choose a Partner—a complete work on Midwifery, it contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.

DR. TELLER still remains the only Agency in America, for the sale of Dr. Michel's Italian Female Monthly Pills. The sale of more than 50,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.

CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, the regular price of one box, Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from 8 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.

N. B.—Persons at a distance can be cured at home by following the advice of Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

VERNATELLA.

Warranted to make the Soles of Boots and Shoes water and dampness proof, and wear one-third longer.

VERNATELLA

Is a preparation from Copper, having no grease, linseed oil, or anything of the kind, and when the soles are once saturated with it, water can no more get through them than through copper itself. Price 25 Cents Per Bottle, at retail everywhere.

But its cost to the purchaser is really NOTHING, as it makes the soles wear enough longer to more than pay for it, leaving as a net gain the making of them Water and Dampness Proof, and the preservation thereby of that priceless gem, the feet!

☞ LADIES, READ THIS! ☜
SAVE YOUR HEALTH.

Use Vernatella on the Soles of your Shoes. It makes them water proof and thereby protects your feet from dampness, for the ground is always more or less moist, either from rain or the morning dew, which is unhealthy.

Morning Chronicle.

Portsmouth, N. H.

FRIDAY, AUGUST 26, 1864.

THE REBELLION.

Dispatches from Atlanta show no active operations going on there, and that Gen. Sherman is to remain quiet until events transpire in other quarters. The N. Y. Herald's Nashville dispatch of the 24th states that our army is advancing parapets and strengthening their works. Gen. Dodge and Gen. Logan are reported wounded, the former mortally.

Our forces have advanced several miles to the west of the Weldon railroad, and are threatening the Petersburg and Lynchburg road. The Weldon road between Petersburg and the former place is being thoroughly destroyed by our cavalry. The rebels have fallen back to their lines two miles from Petersburg, and are laboring night and day erecting earthworks. Our losses from Thursday to Tuesday foot up 4255—one-half being missing.

A rebel Mobile dispatch reports that 2000 Union troops crossed Perdido river on the 16th; and that a heavy force was in North Mississippi, for the same destination.

Great preparations are said to be making for a new movement by our forces at Charleston.

NEW HAMPSHIRE ITEMS.

—— The Governor has vetoed the soldiers' voting bill.

—— Exeter has filled its quota under the last call.

—— Gen. Burnside passed through Dover, on Friday last, on his way to the Lake and the White Mountains.

—— Col. Aaron F. Stevens, of the 12th N. H. regiment, is now in command of the 1st brigade, 1st division, 18th army corps.

—— Mr. Edward Gilmore, aged 22 years, son of Governor Gilmore, died in Concord on Wednesday evening.

—— Asst. Surgeon John Sullivan, of Exeter, 2d N. H. regiment, has resigned and returned home.

—— Rev. Francis E. Abbott of Beverly, will be ordained as Pastor of the Unitarian Church in Dover, on Wednesday, Aug. 31. Services to commence at 11 o'clock.

—— A new Directory of Dover is about being published by Mr. W. A. Greenough, Jr., of Boston, compiler and publisher of the Portsmouth and Nashua Directories.

—— Maj. Wm. Grantham of Wakefield, of the 12th N. H., has been promoted to Lt. Colonel of the same regiment. At the beginning of the war, he enlisted as a private in the 1st Mass. Regiment.

—— The Advent Camp Meeting will commence at Alton Bay on Saturday, 27th, to continue over the two succeeding Sabbaths. The steamers on the Lake will run for the accommodation of those who may attend, on both Sabbaths.

—— Messrs. Towle, Topliff and others of Freedom, are making arrangements to manufacture tar, turpentine, &c., at that village. A building for the purpose is now being erected. The establishment will give employment to about forty hands.

—— A fire in South Tamworth on the 16th destroyed Daniel S. Hidden's dwelling house, barn and out buildings; also, an unoccupied house and barn belonging to Henry Flood. The fire was first discovered in Flood's barn—supposed to be the work of an incendiary.

—— On the 8th inst. Mr. Ebenezer Parshley and his wife Sally, celebrated the fiftieth anniversary of their marriage in the same house where they were married by Rev. Joseph Boody, fifty years ago, in Barrington, (now Strafford.) All of their children, sons-in-law and grand children were present. Golden presents were made to the aged happy couple, crowned with a splendid rich repast and joyful congratulations. Rev. E. Place officiated on the occasion.

— A new and apparently very rich vein of lead has been found at the Bucks County Mines in New Britain Township, Penn.—About a ton of very pure ore was taken out the first day of its discovery.

— In Portland a hard-working woman lost about $400, the little savings of fourteen years of toil; she advertised it, and two little boys having found it, returned it, and declined any reward.

— Great Britain yields nearly eight million tons of iron ore; and the coal product amounts annually to about eighty-three and a half million tons, the estimated value ranging from eighteen to twenty-one millions sterling.

—. The little brig Vinco, one and three-quarters tons burthen, has been spoken out on the Atlantic Ocean, and supplied with provisions. She is on her way to England. When she gets there she will be a vision indeed.

— William B. Stearns has been chosen president of the Fitchburg Railroad, in place of John I. Swift, resigned. Mr. Stearns has been connected with the road fifteen years, as civil engineer and as superintendent.

EDITORIAL JOTTINGS.

The Congressional Committee's Excursion.—No. Four.

St. John, N. B., Aug. 22.

Dear Chronicle:

Our party is quartered at the two chief hotels of the city, the Stubb's House and the Waverly. And good houses they are, though very plain and unpretending in appearance—being situated in the centre of long blocks of buildings. My excellent quarters at the Waverly House, situated at the head of King street, make me feel quite at home and satisfied. The multitude of waiters at table, and the prime quality of their mutton, and salmon fresh from the cold rivers, are most agreeable features. The visitors are mostly Canadians, with distinct English features.

From my window, I can see the town of Carleton, across the Bay of St. John; and the queer little towers of fortification or observation at the entrance of the harbor. I can also read store signs bearing the names of Joseph Lordly, Smiler & Bowser, J. McAlary, Steeves Brothers, &c. A block or two below, on a corner, stands the little wooden building which we are told was built and occupied as a store and residence by Arnold the traitor. We wonder if the traitors of our day will be as universally despised as he now is?

But we are getting ahead of our subject, which was a visit to Oldtown from Bangor, over the Oldtown Railroad, 12 miles; a line said to be the first built in Maine, and now the sole property of Gen. Veazie, of Bangor—a very wealthy gentleman, who also numbers a bank in his inventory of estate, besides a whole village of saw-mills at Oldtown, &c. He very generously placed his railroad at the disposal of our party, and a special train took us to Oldtown, a town of about 1200 inhabitants we believe—the Indians owning a large island here, and numerous other fine isles in the river above.

There are only about 400 of this Penobscot tribe left, and many of these are of mixed blood; and the tribe is rapidly approaching extinction, by death, decay, and bleaching out by mixing with the whites.—Those little wandering parties which visit our cities and beaches, are from this tribe. They live very comfortably by farming, fishing, basket-making, &c., and also receive aid from the Government. By allowance, simply, and without provision by law, they elect a delegate or agent to the Legislature, who, we believe, receives mileage and pay, and takes charge of the aid from the Government. We, who saw them for the first time, were surprised to find them occupying such comfortable frame houses. Being dressed in civilized costume, they looked too much like other people, with the exception of their copper skins of various hues. We found that their leading men, at any rate, were not copperheads; for in his speech their interpreter rather sneeringly referred to two of their former Agents, who were on that day "gone to the Democratic Convention" at Bangor—which produced a significant laugh all round.

Their birch canoes, boats and gondolas were found in abundance, ready to transport the visitors to the Indian Island. From a Liberty pole on the Island the stars and stripes proudly floated, and a national salute was fired by our red brothers in honor of the visit of the representatives of their great Father at Washington. After landing and strolling among the dwellings of the Indians awhile, the party were invited in front of the Indian Gov. Joseph Attien's residence, where were seated the Governor, the venerable Lieutenant Governor, Father Neptune, now 106 years old, the spokesman of the tribe Joseph Nicola, and other members. The Hon. John H. Rice was introduced to the Governor and his party by Mr. Richardson, a former Indian Agent.

Mr. Rice made a brief but touching address, which was responded to by the spokesman, Nicola, in a speech that was frequently applauded, and which was full of the most powerful appeals to our patriotism, and the necessity of uniting, if we would not share the sad fate of the remnant of the once powerful tribe of Penobscots, who have well nigh perished because of their internal differences. He stated that twenty of their bravest young men (though not enrolled or liable to draft) had fought or were fighting under the flag of the white men, which meant freedom and peace to all men, of whatever blood or complexion.

He was followed by the Rev. Edward Ballard, Secretary of the Maine Historical Society, who has made the history of the Penobscots a special study, in some very interesting remarks. Hon. N. B. Smithers of New Jersey, was then introduced, and made a short but very telling and eloquent address. None who heard it will be likely to forget it. Indeed the whole interview with these fading remnants of a people whose origin and history is so completely shrouded in mystery, must always be treasured in the mind of every thinking man of that party.

"The Colonel," a tall quarter-breed who fired the salute, wore a coat embroidered with beads, and was the only person we saw thus ornamented.

A visit to their Church (Catholic), which is neatly and tastily fitted up, where a very interesting sketch of a gifted Indian boy-artist was narrated by Hon. John A. Poor, closed the chapter of experiences on India Island, and the party returned to Oldtown. A visit to the saw-mills, where the mysteries of manufacturing lumber were explained to the uninitiated; but the glory of these mills is departed in consequence of the shrunken proportion of the Penobscot, which barely furnishes water enough to move the saws faster than a snail's pace.—They "go through the motions," and that is about all.

From thence the party went to the Wardleigh House, where the hospitable citizens of Oldtown had instructed mine host, Dudley, to lay a collation in behalf of the party. Having paid their *devoirs* (devours?) to this bountifully supplied table, Hon. John H. Rice in behalf of the guests, expressed his sincere thanks and gratitude, and E. C. Brett, Esq., responded in a brief but humorous strain, "setting the table in a roar."

Returning to the cars a little past six the party was soon in Bangor, alighting at the depot, when three cheers for the road were proposed and given with hearty good will by the company, and three more for General Samuel and John W. Veazie, for the liberality shown in putting the road at the use of the party for this most pleasant, profitable and interesting occasion.

Gov. Attien and several representatives of the tribe returned with the party on an invitation to visit the gunboat Mahoning, by Capt. Webster.

The Levee at Norombega Hall in the evening, in honor of the city's guests, was a most brilliant and successful affair. The Hall (a neat but not extravagant building, [with a market beneath] to accommodate perhaps a couple of thousand persons—just such as Portsmouth wants,) was completely filled with one of the largest assemblages of "the best society" ever seen within those walls. Among other honored guests of the occasion was Gov. Attien, of the Penobscots, and some of his staff, "that observed of all observers." We have only time to say that the Band discoursed most sweetly, to the edification of those disposed to indulge in saltatory exercises, and that Duckworth (a fine specimen of a man, magnificently gotten up, but with a very insignificant name, who acted as prompter, and called on the dancers to "change partners," instead of turning them,) also did his part in supplying refreshments, just as it should have been done.

But that was enough for one day for us, and so it will be for you. So good bye for now.

Yours, F.

Brocksieper's Patent

Self-Acting Gas Regulator.

SOMETHING ENTIRELY NEW.

Patented 1864.

A brilliant and equal Light at a saving of 30 per cent over any Gas Burner now in use.

This is not a Regulator to go on the Meter, but under every Burner in use.

Economy in the use of gas, with the advantage of having a more brilliant light than heretofore, is a point at once desirable. Inventors have for many years sought to attain this end by packing or clocking in innumerable ways the flow of gas through the burner tips.

Not one of these has attained the result wished for, namely, "a pure, transparent flame, without waste at any and all pressures, obtained at any hour and in all localities."

The above results are fully obtained in

Brocksieper's Patent Gas Regulator.

We invite the most incredulous to examine and test in the most thorough manner.

RETAIL PRICE, EIGHTY CENTS.

A liberal discount made to Churches, Factories, Hotels, &c. The Regulators will be put on, and if they do not prove satisfactory may be returned. CHARLES T. EMERY.

Hair Dye! Hair Dye!!

BATCHELOR'S Celebrated Hair Dye
Is the Best in the World!
The only Harmless, True and Reliable Dye.-Known!
This splendid Hair Dye is Perfect—changes Red, Rusty, or Gray Hair instantly to a *Glossy Black or Natural Brown*, without injuring the hair or staining the skin, leaving the hair soft and beautiful; imparts fresh vitality, frequently restoring its pristine color, and rectifies the ill effects of bad dyes. The Genuine is signed WILLIAM A. BATCHELOR, all others are mere imitations and should be avoided. Sold by all Druggists, &c. FACTORY—81 BARCLAY STREET, N. "A Wonderful Discovery."

DR. TEBBETS' "PHYSIOLOGICAL HAIR REGENERATOR" is compounded in strict accordance with the well known laws of Physiology and modern vegetable Chemistry. It is not a "DYE," and will not stain a particle. It will "RESTORE GRAY HAIR" in all cases to its original color. It promotes a luxuriant growth of new HAIR in all cases on BALD HEADS, when the glands or roots of the hair are not completely disorganized. It prevents the hair from falling off and removes all dandruff, heat, humors and itching from the scalp. It keeps the hair soft, moist and perfectly healthy, and gives it a glossy and beautiful appearance. It is highly perfumed, and as a Dressing it has no superior. The "REGENERATOR" is warranted to produce the above results in all cases, if not the money to be refunded. With it every "GRAY HAIR" in New England can be restored in less than sixty days.

Local.

☞ About the liveliest locality in town now-a-days is Daniel street. The Provost Marshal's office in the old Custom House is the grand centre of attraction, although it is well known that not until September will it prove the full extent of its ability to draw. The ever-glorious Stars and Stripes are suspended across the street from nearly every building in it, and from nearly every door and window stare out upon you huge placards, announcing the fact that substitutes can be obtained (by paying enough for them); that none but good and reliable men are furnished there; that all contracts will be promptly and faithfully fulfilled;—with much other information of absorbing interest to many of those who line the sidewalks or hasten with eager steps to the P M.'s office. These placards are closely and thoughtfully scanned by the scores of men anxious to learn the latest quota-tions and utterly bewildered by the endless number of offices purporting to be 'the *only* reliable agency.' Every man of them wants to get his man sooner than anybody else, cheaper than anybody else, and to beat the entire crowd in getting his man 'put through' in the shortest time possible, with a proper regard to the accurate preparation of his exemption papers.

This anxiety on the part of each one to enter his man before anybody else, (which is very appropriately attended to at the old Custom House, — though often, we fear, there is the skeleton of an idea rolled up and tucked away in the back part of the sub.'s cranium, that he is only entered for clearance at the first opportunity, his port being designated indefinitely as Canada,—which skeleton of an idea shall by and by be warmed into life by the vivifying beams of the southern sun,)—this anxiety, we say, causes a grand rush to the Provost Marshal's office, reminding one of what may have taken place when the floods had come; and the doors of the Ark had been shut, and the people cried 'Noah!' and the reply was, 'Ah, No!'

At any rate the stairs and entry are often thronged with a jostling, somewhat noisy, and occasionally profane crowd—each man demanding to be admitted first, and all hoping to be "called" next.

There many stand and wait, and wait and stand, while the sub.,—if he can be trusted and the principal has the bump of cautiousness very slightly developed—is permitted to step down and smoke a cigar or get something (to eat, of course) to steady his nerves for the approaching ordeal. Meanwhile, other men move quietly about among the anxious waiters, till fixing their eye upon one who has a pretty good chance to succeed quickly, and who has moreover a certain appearance which encourages them to approach him with an offer of assistance in getting his man put through. 'Is he anxious to get his man in at once? Does he want to reach the train before it starts? They have great influence with the officers; they would be very happy to aid him; they will secure his prompt admission to the officers,' &c., &c., winding up with the gratuitous information that 'it shall cost him a mere trifle—give them $25 even, and they'll cheerfully do it.' The man may "see it," and he may not. He settles that matter to his own satisfaction and if he happens to be called soon after,—has he reason to complain? or suspect?

But some must wait, and the day is warm. The air is none of the purest in the contracted entry, and it is tiresome work standing and waiting. Yet if success comes at last, and patient waiting has indeed proved no loss, the principal, who has put in his substitute, grasps his papers and goes home joyfully, thinking that he is out of the draft for 3 years; or the Selectman, who has filled his town's quota, returns to his constituents with golden-hued dreams in which his fellow townsmen rise up and bless him, that he has saved them from the dread evils of the bloody battlefields of the Republic. If the army is as efficient as it would be were the men of the North to Go instead of to Send somebody, it is just as well. If the result be different—What Then?

TRAVELERS' INSURANCE COMPANY.—We desire to call the attention of our readers to the advertisement of the above company, who have just established an agency in this city. The yearly payment of a small premium can insure a stipulated sum paid to one's family in case of their death by any accident in traveling or in following their business. The same policy also pays a stipulated amount per week for 26 weeks, if one is injured by any accident which disables them. Further information can be obtained from their agent, Mr. John Sise.

POLICE COURT, Thursday. — Joseph White, for making disturbance at the Temple, was fined $3, and costs $3.86. Paid.

Joseph Neil, for an assault, was bound over in the sum of $50.

Charles Ricker, for cutting a boat's painter, was fined $1, and costs $5.57, and ordered to pay $3, for the rope cut. He appealed.

☞ Even though the danger of an attack may not be regarded as imminent, a city is fortunate in having its forts garrisoned by faithful and reliable companies, under the command of efficient and energetic officers. At such times as these, with pirates hovering on the coast, threatening to run in at night and destroy property, it is especially desirable that fort garrisons should constantly be on the alert, and that where the slightest suspicion is excited, energetic measures should be taken to ascertain whether that suspicion has any foundation. Our own city seems to be fortunate in this respect. Fort Constitution is garrisoned by the Martin Guards, of Manchester, and the Lafayette Artillery, of Lyndeborough, Capt. George C. Houghton being in command. A few nights ago the steamer De Soto, lying at quarantine, was observed by the sentinels to be not stationary, as she should have been, but moving in a strange and suspicious manner. The fact was communicated to Capt. Houghton; and the vessel was hailed repeatedly and ordered to heave to, and finally a blank cartridge was fired. The officers of the ship, we understand, endeavored to answer the hail promptly, but there were very few men on board, and the attention of all, officers and men, was turned mainly to efforts to obtain control of the vessel. As soon as possible the officers of the Fort were informed of the accident. The movement of the vessel had previously seemed very mysterious to them, and the recent capture of the cutter in Portland harbor would have justified their action, even had it not been expressly demanded by the tenor of their instructions. Although the vessel in this case proved to be a friendly one, the incident shows that Capt. Houghton and his officers and men can be trusted to act promptly should an emergency arise.

PROMOTED.—We learn that Charles W. Adams, son of Hon. J. B. Adams, of this city, has been promoted to Acting Master, and ordered to the iron-clad Tennessee.—Mr. Adams is the youngest Acting Master in the Navy, and richly deserves further promotion.

☞ Mr. Frank Howard, who was injured at the Navy Yard on Wednesday, had already lost an arm in the service of his country

☞ Capt. Geo. Frank Towle, of this city, had his horse shot under him at the battle of August 16th.

☞ The funeral of Miss ELLEN AUGUSTA NORTON will take place at her father's residence, No. 83 State Street, this (Friday) morning at 9 o'clock.

Facts for the People.

The enormous rise in price of Iron, Coal and Labor, has caused manufacturers to advance the price of STOVES and Castings several times since the war began; and it is now arranged to make a general advance of 25 to 50 per cent. this season.

We have not yet raised the price of Stoves in proportion to their increased cost, but shall be compelled to do so very shortly. Persons who expect to purchase anything in the Stove and Furnace line within a year or two, will save money by doing so at once. The price of a Stove is not so much an object, now, as its capacity and the cost of operating it. All things considered, there is no Stove equal to

THE MODEL COOK.

IT IS, IN FACT,
The Best Stove Out,

for economy, convenience and dispatch.

Many people think it best to use an old stove as long as possible, but it is far better to throw it away and purchase a MODEL COOK, than to keep it at the present high price of fuel.

One of our shrewdest citizens who purchased a MODEL COOK STOVE a year since, says he has saved more than its cost already.

A careful, prudent farmer purchased one, and after it had been in operation some days his son came into the store and said, "something was wrong at their house;" his father and himself used wood off the same pile, he burned three baskets full a day, and his father only one! We sold him a Stove before he left, and there has been no complaint since.

These Stoves are in use in many hotels and boarding houses, and in hundreds of private families in this city and vicinity, and give the best of satisfaction.

CARD OF STAMP DUTIES.

A verbatim copy of the Official Tax Document, issued by the Commissioner of Internal Revenue. For sale by JOS. H. FOSTER.

Important to the Afflicted.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of

GONORRHŒA, GLEET AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, impotency, Scrofula, Gonorrhœa, Ulcers, pain and stress in the region of prostrate gland, inflammation of the Bladder and Kidneys, dysuria, Abscesses, Humors, frightful Swellings, and the long train of horrible symptoms attending the other diseases, are soon rendered harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr D. devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and unsexes, unfitting the individual for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and Limbs, Dimness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of consumption, &c. The mental effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion to society, self-distrust, irritability, are among the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will find accommodations, good attendance, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of the case. Dr. Dow has also for sale the French Capotten, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

Highly Important to Females

IN DELICATE HEALTH.

DR. DOW, Physician and Surgeon, No 7 & 9 Endicott Street, Boston, is consulted daily for all diseases incident to the female sex, such as Whites, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new principles and principles peculiar to himself, and are surprised in a few days, so invariably certain is the new mode of treatment, the most obstinate complaints yield under it, and the sufferer is soon restored to health and happiness.

Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no rival in this or other states.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 8 A. M. to 9 P. M.

CERTAIN CURE

in all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all diseases requiring skill, cases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to his office.

Among the physicians in Boston, none stand higher in the profession than the celebrated DR. DOW. Persons afflicted with a delicate disease need the services of an experienced physician and surgeon should give him a call.

N. B.—Dr. Dow's Capotten is kept for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

DR. S. O. RICHARDSON'S

BLOOD ROOT ELIXIR

Has been thoroughly tested and proved in his medical practice, for a period of THIRTY YEARS, and is now presented to the public as an efficient cure for

CONSTIPATIVENESS,

and the best remedy ever prepared for

Diseases of the Liver, &

SCROFULA,

All Humors and Impurities of the Blood, and Diseases of the Skin.

The preparing and combining the Blood Root Elixir, is attended with results to medical science next in importance to the inhalation of ether in surgery; the Blood Root Elixir, if humoral, stagnant and disagreeable, are, by a new and scientific process of extracting, in a secret, rendered highly powerful in the Blood Root ELIXIR, entirely divested of the griping and distressing pain which attends the action of all other purgatives, leaving the Blood Root ELIXIR A MOST HIGHLY PLEASANT AND AGREEABLE TO THE TASTE.

and by their combined action work so perfectly in HARMONY WITH NATURE that no unpleasant reaction will follow its operation. It also possesses

A Diffusive and Alterative Effect,

which can only be attained by medicine in a fluid state. These are new elements in purgative medicines.

The hard and compact manner in which pills are prepared renders them indigestible—and when taken are forced through the stomach and bowels, half digested, with little or no MEDICINAL ACTION, thereby creating irritation and pain to the parts connected with their passage.

One pill from the Blood Root Elixir will produce more medicinal and physical effect than five in a crude state.

The BLOOD ROOT ELIXIR has no partial action upon any portion of the system, but pervades and throughout the whole circulation of the blood, imparting a healthy and invigorating action to the STOMACH AND BOWELS, LIVER, KIDNEYS, and gently stimulating dormant and morbid secretions through the whole system.

A single dose will produce a powerful and exhilarating EXPULSIVE EFFECT, which will convince the patient with confidence and assurance of IMMEDIATE RELIEF. A continuance for a short period will DRIVE the obscure and hitherto concealed disease to the surface of the skin, and relieve or check SCROFULOUS AFFECTIONS—and by thus purifying and strengthening the blood, will remove the root of all evil.

CAUSE OF CONSUMPTION.

It incites the vascular organs of the system to act their allotted part, removing the causes which induce RHEUMATISM AND NEURALGIA, HEADACHE, LOSS OF APPETITE, DYSPEPSIA, CONSTIPATION, and the whole train of evils, which arise from a derangement of the Stomach and Bowels, and restricted circulation of the Blood.

COUGHS and COLDS, in their early stages, will immediately yield to the effect of the Elixir.

The BLOOD ROOT ELIXIR combines, in general, no pernicious botanical extract, no excitant, but stimulates the secretions by its mild diffusive action, and is an effectual purgative, which arises from a decided alterative action upon the Liver, and there has been no medicine prepared for common family use which possesses equal merit.

Druggists, both in town and country, will find the Elixir a complete antidote for the evils which they are obliged to endure from a change of climate, of water, or of diet.

See the pamphlet around each bottle for a history of the Elixir.

The proprietor of the Blood Root Elixir, (Dr. S. O. Richardson,) has been long and favorably known to the public by his celebrated SHERRY WINE BITTERS, the best tonic medicine ever discovered, and which has been used for many years. He is a graduate of the New Hampshire Medical College, and many years associate member of the Medical College of Philadelphia, and has made the study of medicine his profession since 1829.

And so fully convinced is the Doctor of the wonderful curative effects of his Blood Root Elixir, that he hereby offers to each and every person who will use one-half of a bottle of the Elixir and not be benefited, or receive effect therefrom, to refund to said person the amount which he paid for the same, by returning the village bottle to his office.

Price $1.50 per Bottle.

Sold in Portsmouth by J. H. THACHER, opposite the Post Office, and No. 12 Market Square, and by Dealers in Medicine generally, and at Dr. Richardson's Office, No. 51 Hanover street, Boston. ap6—3mecod&W

CHEROKEE REMEDY

AND

CHEROKEE INJECTION,

Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Strictures, Gravel, Gonorrhœa, and is especially recommended to their cases of Urine Albus or Whites to females; where all the old nauseous medicines have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an ally or assistant to the CHEROKEE REMEDY, and should be used in connection with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites. Its effects are *healing, soothing and stimulant*; removing all scalding, heat, chordee and pain, leaving the parts healthy and free from all able pain that is experienced with nearly all the *cheap quack injections.*

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION, the patient is relieved at the same time all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write us and we will mail free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.

Price—CHEROKEE INJECTION, $2 per bottle, or three bottles for $5.

DR. WRIGHT'S

REJUVENATING ELIXIR,

OR ESSENCE OF LIFE.

Prepared from Pure Vegetable Extracts,

Containing nothing injurious to the most delicate.

The Rejuvenating Elixir is the result of modern discoveries in the Vegetable kingdom; being an entirely new and scientific method of cure, irrespective of all the old and worn-out systems.

This medicine has been tested by the most eminent medical men of the day, and by them proved to be one of the greatest medical discoveries of the age.

One bottle will cure General Debility.
A few doses will cure Nervous Debility.
One bottle cures Palpitation of the Heart.
A few doses restore the organs of generation.
Three bottles cure the worst case of Impotency.
A few doses cure the low spirited.
One bottle restores mental power.
A few doses bring the rose to the cheek.

The medicine restores to healthy vigor and robust health the poor debilitated, worn-down and despairing devotee of sensual pleasure.

The listless enervated youth, the over-tasked man, the victim of nervous depression, the individual suffering from general debility, or from weakness of a single organ, will all find immediate and permanent relief by the use of this Elixir or Essence of Life.

☞ Price, $2 per bottle, or three bottles for $5, and forwarded by express, on receipt of money, to any address.

THE MAGEE

COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and cast iron heater combined, by which the odor of broiling meats cannot pass into the cooking or sitting room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be command during the mid night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING

FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headaches so much complained of in other furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of air, which is introduced through tubes, and then as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat, without making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles M. Mendum,
Henry F. Wendell,	John Sise, and others.

THE MYSTERIES OF IRON.—There is no miracle recorded in the annals of any religion more mysterious, more incomprehensible, more inconceivable, than some of the well-known properties of the simple metal, iron. Consider, for instance, its change from its ordinary to its passive state. If a piece of the metal in its ordinary condition is immersed in nitric acid, it is powerfully acted upon, entering into combination with the acid and losing its metallic form. But if a piece of platinum wire has one end inserted in the acid, and the iron is then immersed in contract with the wire, it is so changed that the acid has no power upon it, and this condition continues after the platinum wire is withdrawn. The contact of a single point with the platinum sends a transformation through all it particles which renders them invulnerable to the action of the most powerful acid. Even more wonderful is its change under the influence of a current of electricity. When a bar of pure soft iron is wound with an insulated wire, the bar is instantly converted into a magnet. It is endowed with an unseen force which strches out from its ends, and seizing any other piece of iron within its reach, draws them to itself, and holds them in its invisible grasp. The object of insulating the wire is to prevent the electricity from leaving it, and yet through this insulation cost a power is exerted which changes so strangely the nature of the iron, enabling it to act on substances with which it is not in contact. As soon as the circling current ceases, the iron becomes like Sampson shorn of its locksits miraculous power has departed.

Not less mysterious than either of these is the much more familiar phenomenon of the fall of a piece of iron to the ground, under the simple act of gravitation. What is that invisible force which reaches out in all directions from the earth, and clutches all matter in its grasp? The fibres of this power are imperceptible to any of our senses. If we pass our hands under a suspended rock we can feel nothing reaching from it to the earth; and yet there is something stretching up from the earth, taking hold of the rock, and drawing it down with the strength of a hundred cables! We walk enveloped in mysteries, and "our daily life is a miracle."—*Scientific American.*

RYE, N.H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of DR. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected, by it since. I have acted as agent for the sale of it.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with dizziness, dimness of sight, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health.

From ELDER I. CHESLEY, *Lee, May* 31, 1841

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural strength or appetite. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named."

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if fort worth the price. All orders directed to DR. S. SWETT, No. 7 High street, Portsmouth, N. H., promptly attended to. may26

Ayer's Cathartic Pills

Are the most perfect purgative which we are able to produce, and the best that we ever yet been made by anybody. Their effects have abundantly shown to the community how much they excel the ordinary medicines in use. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow diseases, stimulate sluggish or disordered organs into their natural action, and restore healthy tone with strength to the whole system. Not only do they cure the every-day complaints of everybody, but also formidable and dangerous ones. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take, and, being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief, were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of our remedies, while others have sent us the assurance of their conviction that our preparations contribute immensely to the relief of our afflicted, suffering fellow men.

The Agents below named are pleased to furnish gratis our American Almanac, containing directions for their use, and certificates of their cures of the following complaints:

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from foul Stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and pain arising therefrom, Flatulency, Loss of Appetite, all Diseases which require an evacuant medicine. They also, by purifying the blood and stimulating the system, remove many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and Many kindred complaints arising from a low state of the body or obstructions of its functions.

Do not be put off by unprincipled dealers with other preparations which they make more profit on. Demand AYER'S and take no others. The sick want the best aid there is for them, and they should have it.

Prepared by J. C. AYER & Co., Lowell, Mass., and sold by Brackett Hutchings, J. H. Thacher, W. H. Preston, David Kimball, and all druggists.

American and Foreign Patents.

R. H. EDDY.

SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under date of 1857,)
76 State street, opposite Kilby street,
Boston.

After an extensive practice of upwards of twenty years, continues to procure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and *trustworthy*, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been issued, the other is now *pending*. Such unmistakeable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him for their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents, **R. H. EDDY.**

QUICK CURES AND LOW PRICES.

Over Twenty Thousand Patients Cured Annually!

DR. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.

Nervous Debility, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their health and destroyed the vigor of their minds, fitting themselves for all the pleasure of the Married Life, are notified that by consulting Dr. J. Teller, they will find a friend to console and a Physician who has rescued thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in that he made life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.

A book for everybody.—Startling disclosures. Dr. TELLER'S great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy, a lecture delivered, now reduced to a Pamphlet—a complete work on Midwifery. It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr. TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.

DR. TELLER still remains the only Agency in America, for the sale of Dr. Delpio's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.

CAUTION.—Married ladies in certain delicate situations should not purchase Pills, unless they see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price of one box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from 9 A.M. to 8 P.M., and on Sundays from 2 to 5 P.M.

N. B.—Persons at a distance can be cured at home by strict adherence to Dr. J. Teller, on receipt of a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boy employed. Notice this, address all letters to

VERNATELLA.

Warranted to make the Soles of Boots and Shoes water and dampness proof, and wear one-third longer.

VERNATELLA

is a preparation from Copper, having no grease, linseed oil, or anything of the kind, and when the soles are once saturated with it, water can no more get through them than through copper itself. **Price 25 Cents Per Bottle,**

at retail everywhere.

But its cost to the purchaser is really NOTHING, as it makes the soles wear enough longer to more than pay for it, leaving as a net gain the making of them Water and Dampness Proof, and the preservation thereby of that priceless gem, the health.

☞ LADIES, READ THIS! ☜

SAVE YOUR HEALTH.

Use Vernatella on the Soles of your Shoes. It makes them water proof and thereby protects your feet from dampness, for the ground is always more or less moist, either from rain or the morning and evening dew.

SATURDAY, AUGUST 27, 1864.

THE REBELLION.

A rebel dispatch reports a defeat of our cavalry at Gainesville, Fla., Aug. 18th, and the capture of 150 prisoners, 1 cannon and 100 negroes.

A Mobile dispatch states that the rebel Maj. Gen. Frank Gardner has assumed command of the Gulf Department. On the 18th, some Union troops landed at Montrose in five launches.

Adm. Farragut on the 14th made a reconnoissance to the obstructions near Mobile, and found the channel to the city obstructed by the sunken steamer Nashville. There are two iron-clad rams and several plated batteries near the city.

A cavalry reconnoissance from Harper's Ferry on Thursday showed that a large portion of the rebel force left Charleston on that morning and marched toward Leesburg. Our cavalry struck three lines of skirmishers about a mile beyond Kearneysville, and after a brilliant charge succeeded in capturing quite a number of prisoners We lost a few killed and wounded, all of whom were brought off the field.

Richmond papers state that the rebel Gen. Saunders was killed, Lamar mortally wounded, and Barton, Finnegan and Henderson wounded on the 21st.

On the 24th our cavalry were within two miles of the Danville road—the last line of communication between Richmond and the South—and had met no force of the enemy.

Forrest is reported to have attacked, captured and murdered a colored garrison and nearly 300 white laborers, at Stewart's Landing on the 20th.

NEW HAMPSHIRE ITEMS.

—— A drunken soldier fired a musket in the depot at Concord on Thursday afternoon, and wounded four persons, one man fatally.

—— Lieut. Col. Cross, of the 5th N. H. regiment, has been cashiered and dismissed from the service for disobedience of orders.

—— Lieut. Col. Carr, late of the 2d N. H. Vols., has opened a recruiting office in Concord for the 18th N. H. Vols

—— The majority of the House Committee have presented a report that the soldiers' voting bill became a law before the Governor sent in his veto—the time allowed him by law being five days.

—— The "Admirable Crichton" among mechanics has been discovered away up in New Hampshire. His sign reads as follows: "W—— T. L——, Millwright, Carpenter, Bridge-Builder, Painter, Joiner and Architect;—Boots and Shoes Made and Repaired."

—— It appears from the report of the Finance Committee of the Legislature, upon the proposition of Gov. Gilmore to make a forced loan from the banks of the State, that twenty-six of the Banks, representing a capital stock of $2,250,000, have loaned to the State $266,700, a sum equal to about 12 per cent. of their capital, and if a law were passed making it compulsory upon the banks to loan 10 per cent. of their capital to the State, only about $200,000 could be realized from that source.

—— Lieut. Michael O'Brien of Manchester was arrested in Boston on Wednesday, on a charge of fornication and a deadly assault on police officer Patten—which offences were committed about a year ago. He was taken by surprise, and a general fight ensued, in which the women of the house where he was stopping participated. O'Brien was armed with two revolvers, but after a desperate resistance he was ironed. He went into the army last fall as a substitute, and after serving awhile as a private, he was promoted to a lieutenancy in a negro regiment at the South. It is alleged that while on duty with this regiment he embezzled about $2000 of the funds belonging to the Government.

— Howard, the proclamation forger, has been released.

— Another pirate was seen off Nassau recently—supposed to be the Electric Spark.

— A rich mine of plumbago has been discovered on the tract of the Marquette Silver Mining Company, Lake Superior, the stock of which is mostly owned in Detroit.

— Rebel deserters from Columbus, Ga., state that all the machinery in the rebel arsenals and workshops has been removed to Augusta. All the males between 18 and 55 in Columbus are being conscripted.

— The harp is soon to be introduced into the Church of England choirs. The most historical of instruments is finding many advocates, and the Court Journal says: "Several prelates of authority have considered the point involved most favorably, and musicians are as one as to the solemn and beautiful effect it will have in occasional accompaniment."

EDITORIAL JOTTINGS.

The Congressional Committee's Excursion.—No. Five.

St. John, N. B., Aug. 22.

Dear Chronicle:

I send you several letters from this city, as it is the first stop we have made, long enough to get breath. And even now, while I write——. Positively, I had just written that, when, a tap at my door, and in came an invite to join a party of our folks in a ride about the city. There are two engagements for all the time on this trip, leaving sleep out of the question. Of that drive just now, to Suspension Bridge, &c., a word hereafter; now for getting out of Bangor, if we ever can. I can't recall what I was going to "write" at the commencement of this, so I'll begin anew.—There is too much to be seen and heard, while on the trip, for me to be able to write a line while in passage, as all our weather has been fine; and pleasure enough for two days has been crowded into each one.

At Bangor, Tuesday morning, Hon. Elijah L. Hamlin, brother of the Vice President, who is deeply interested in the collection of Indian relics, and the like, favored us with an inspection of Mr. Stevens' precious collection of the famous Castine coins, so called, being a small part of a large lot found near the town of Castine a few years ago. Baron de Castine was a French nobleman, who came to this country early, and built up a trading settlement at what is now the town of Castine, where he amassed an immense fortune in trade with the Indians. He married the daughter of a great chief, and five or six other squaws; and when he returned to France left them all behind, but took one of his sons with him. And these coins are a few (18) of about $500 worth of silver found near his place, and were doubtless his property. They are very rare and choice specimens of French and Spanish, and perhaps English coin; most of them many-sided and not round; and there is one very perfect pine-tree shilling among them.

But we can't stop to write old Indian history, although we are getting pretty full of it. It is as much as we can do, if not more, to tell in our own way a little of what we see as we go, not to mention what we hear and read. Mr. Hamlin didn't offer to give us any of his precious coin, which little lot he said could be sold for $500 any day, on a specie basis; and we don't know that we should have accepted them, if he had, for we have no use for money at all, down this way. We took a little with us, as usual; but never see it, except when we look to know whether we have lost it; and actually it is wearing out in our wallet, from being creased so long in one fold. But we shall be relieved from that difficulty after to-morrow, when the party gets up river out of the hands of "our American Cousins," for then greenbacks count but one-half or third, or less,—or two or three dollars for one. Purchases made on the boat rate greenbacks at 50 per cent; and in St. John about 40 cents per dollar, and in one case of exchange of money but 28 cents per dollar was returned. U. S. silver is at 20 per cent. discount. This makes us feel a little cheap, but we remind the Provincials that in the good old cash times *their* currency was always at 10 to 15 per cent. discount. We can't well buy a paper or an apple; but our friend Haynes, of Maitewaumkeag, being the only man provided with "change," we bleed him pretty well for newspapers, tolls, &c., &c. This morning he bought the whole stock of a newsboy, and distributed them around. But of him, and all person' al matters, by-and-by.

Bangor is really a fine city, of 18,000 inhabitants or so, but does not seem to be growing much now. There are many fine residences, but the business part of the city is not so good, and we did not observe many large gardens. Lumber is the great staple here, as all along the Penobscot river; and we were told by a responsible man that most, or all, of the measuring and marking of lumber is done by the eye, or guess, and very rarely by actual test of the scale or rule. The name of the town was intended to be Sunbury, but the pious old deacon who had the matter in hand preferred the name of his favorite old tune Bangor, and accordingly substituted that, entirely of his own choice. But good-bye, Bangor, we must away.

On Tuesday morning, amid the mutually answering cannon, and cheers, and waving of handkerchiefs, from the deck of our vessel and the wharves and neighboring hills, we left Bangor. Never was a lovelier sail than that down the Penobscot, and round to Castine, and thence to Rockland for the night. The kaleidescopic beauty of the scenery; the running comments on old and new occurrences, and the bits of Indian history or tradition, as we passed the scenes of events important to white man or red, (from Rev. Mr. Ballard or Hon. John A. Poor, who are among the most interesting men we ever met,) rendered the occasion one never to be forgotten.

After brief colloquial lectures from both these cyclopædic voyagers, Mr. Rice introduced "David Barker, the poet of Maine," and called upon him for a poem for the occasion. He responded with the spirited verses I have already sent you, which in a few spicy introductory remarks, he stated were written in the few spare moments he had been able to find between the levee of the night previous, and this start. After hearing Mr. Barker's really fine reading of the fiery poem, Hon. Mr. Smithers of New Jersey, who is the wag of the party, quaintly remarked, that "although the writer was a Bark-er, that poetry wasn't dog-gerell, by a great sight." Mr. Rice also called upon Mr. Patterson to respond to the sentiments of the poem, and he did so in terms of glowing eloquence and fervid earnestness.

Chief among the pretty little towns and villages scattered along the banks of the Penobscot, is Bucksport, finely situated in a bend of the river. It contains, we believe, about 4000 inhabitants; and has a small theological seminary. As we landed on the wharf, an illustrated sign over the door of a room of an unpainted building, looking like a wharfinger's office, drew our attention. Translated, it read, "lemon-ade, fruit, cigars, tobacco and liquors." But there was no word or letter on it, save "ade," and the "and" between the last two words; all the rest was symbolised or designated by paintings representing various fruits, and a bunch of grapes. A good hit, and several of us had a glass of lemonade plain on it, with "Lord John."

The party were ferried across in a horse-boat, a queer old craft—the first we ever saw of the sort—to Fort Knox, on the opposite side of the river. This is an immense series of granite fortifications, one of the most extensive of the sort on the coast; it has been in course of construction for upwards of thirty years, and $800,000 have already been spent upon it, and it don't begin to be done yet. After a thorough examination of this formidable "defence,"—both by the Committee and all the party—we return across the river, and are soon all aboard the cutter, and off again. Among the incidents of the morning was the loss of her hat overboard by a young lady who came aboard at Bangor that morning for a day or two's sail, and as she had recently selected it herself in Paris, it is presumed she must have been rather vexed at losing such "a *duck* of a hat;" but she was too much of a lady, and too well-travelled, to make any show of her feelings. The fugitive went sailing away up river on the tide, gaily enough; and the lady had only the old cowl-cape of her water-proof to wear that day and evening. When *will* women learn to fasten on their "things?" Senator Hale, and Mr. Morrill of Vermont, with ex-Govs. Washburn and Goodwin, Mr. and Mrs. Haile of Penn., and others, left our party at Bangor; and Mayor Dale and family, and other gentlemen joined us.—There had been two ladies on board all the while until now—at Belfast all but one left, and she continued to the end, or rather to this city of St. John.

Down and out of the river we go, and round the bay to Castine, where we stop to dinner. Salutes, military we mean, were the order of this day. At Bangor in the morning; then from the guns of Fort Knox, which, located so high above the river, echoed with a grand, rumbling, thundering sound, and re-echoed, over, among and beyond the hills, till it seemed as if the mountains were being rolled together like a scroll, and might well symbolize the crash of worlds. Then at Castine, at which little town the party was received with one of the most unique and pleasant celebrations of the trip. From the high land, not far from the old Fort de Castine, and also near the English fortifications in "the last war," was displayed the stars and stripes, and here the cannon was placed. Long before we arrived, could be seen a group of waiting ladies, waving their handkerchiefs from a beautiful mountain peak—a charming picture. On landing, a march or walk of a mile or two brought us into a pleasant and nice grove for a pic-nic. At the entrance was a beautiful and artistic arch of flags and streamers; and within was spread a most bountiful and acceptable dinner, beginning with a nice clam chowder and hot coffee, and going through a liberal bill of fare. A large company of the townspeople and others were present, and the occasion a joyous one indeed. At the close of the feast, Mr. Rice called upon Mr. Woodbridge to address the crowd; and he did so, to good acceptance, for a few minutes.—Then on board and off again, for Castine. But one passenger was left on shore—the reporter of the Journal of Commerce; who thought, perhaps, that as the paper he represents is so far behind the times, he might as well be. But he was set over in a sailboat to Belfast, and joined the party there in the evening; and it is to be hoped that his paper will soon start ahead also. Castine is said to be the richest town in Maine, in proportion to its population.—Passing around Brigadier's Island, in going to and returning from Penobscot river, the summer residence of Mr. Thos. H. Perkins, of Boston, standing alone in a clearing of the woods there, is pointed out to us. The island is the property of the Sears family, and is part of the little town of Bearsport, adjoining. Yours, F.

Brocksieper's Patent

Self-Acting Gas Regulator.

SOMETHING ENTIRELY NEW.

Patented 1864.

A brilliant and equal light at a saving of 30 per cent. over any Gas Burner now in use.

This is not a Regulator to go on the Meter, but under every Burner in use.

Economy in the use of gas, with the advantage of having a more brilliant light than heretofore, is a point at once desirable. Inventors have for many years sought to attain this end by packing or checking in innumerable ways the flow of gas through the burner tips.

Not one of these has attained the result wished for, namely, "a pure, transparent flame, without waste at any and all pressures, obtained at any hour and in all localities."

The above results are fully obtained in

Brocksieper's Patent Gas Regulator.

We invite the most incredulous to examine and test in the most thorough manner.

RETAIL PRICE, EIGHTY CENTS.

A liberal discount made to Churches, Factories, Hotels, &c. The Regulator will be put on, and if they do not prove satisfactory may be returned. CHARLES T. EMERY,

Hair Dye! Hair Dye!!
BATCHELOR'S Celebrated Hair Dye
Is the Best in the World!
The only Harmless, True and Reliable Dye Known!
This splendid Hair Dye is Perfect—changes Red, Rusty, or Gray Hair instantly to a *Glossy Black or Natural Brown*, without injuring the hair or staining the skin, leaving the hair soft and beautiful; imparts fresh vitality, frequently restoring its pristine color, and rectifies the ill effects of bad dyes. The Genuine is signed WILLIAM A. BATCHELOR, all others are mere imitations and should be avoided. Sold by all Druggists, &c. FACTORY—81 BARCLAY STREET, N. "A Wonderful Discovery."
DR. TEBBETTS' "PHYSIOLOGICAL HAIR RESTORATIVE" is compounded in strict accordance with the well known laws of Physiology and modern vegetable Chemistry. It is not a "DYE," but will not stain a particle. It will "RESTORE GRAY HAIR" in all cases to its original color. It promotes a luxuriant growth of new HAIR in all cases on BALD HEADS, when the glands or roots of the hair are not completely disorganized. It prevents the hair from falling off, and removes all dandruff, heat, humors and itching from the scalp. It keeps the hair soft, moist and perfectly healthy, and gives it a glossy and beautiful appearance. It is highly perfumed, and as a Dressing it has no superior. The "RESTORATIVE" is warranted to produce the above results in all cases, if not the money to be refunded. With it every "GRAY HEAD" in New England can be restored in less than sixty days.

— The powder works at Charlotte, N. C., blew up recently, killing three men and wounding several others.

— The rumor that the President proposes to send peace commissioners to Richmond is pronounced to be false.

— Gilmore's Band—twenty-five pieces—have gone to Chicago, to furnish music at the Convention.

— A bold thief stole $17,000 in U. S. 5-20 bonds, from the office of Brewster, Sweet & Co., Boston, on Thursday noon, while the clerks were busy.

— Dr. Jonathan Knight, an eminent physician, and for many years a Professor in Yale College, died at New Haven on Thursday evening, aged 75.

— In the trunk of Muller, the English railway murderer, who was arrested on the ship Victoria, at New York, the watch and hat of the murdered man were found. He stoutly protests his innocence.

— In 1826 a prominent citizen of Northampton was indicted by the grand jury and fined for visiting Mount Holyoke on Sunday. Now scores visit the mountain every Sabbath, and the grand jury says never a word.

— There was another accident on the Grand Trunk on Thursday—caused by a bad rail. About twenty-five passengers were badly bruised, the sleeping car running off the track and being precipitated into the Ammonoosuc river. Fortunately the stream was low.

THE UNION FOREVER.

AN IMPROMPTU, BY DAVID BARKER.

Written and read on board U. S. Cutter Mahoning, while on the late Congressional trip along the coast of Maine.

From Pennsylvania's yawning mines,
And from my native land of pines;
From stern New Hampshire's granite hills,
And Massachusetts' cotton mills;
From climes where heated freemen spoke
Their wrongs, around that Charter Oak:
Where'er you came, whoe'er you are,
From fresh Vermont, or Delaware;
Though coming up from many a mile,
From Jersey, or Manhattan's Isle:
Form, comrades! quick, form in the ring,
And aid me in this song I sing.

With humble heart and tearful eye
Send up the prayer, send forth the cry,
That heaven may smile, that God may bless
Our country in her dire distress—
To haste the hour when wars shall cease,
And bring the olive-branch of peace.

But, brothers, closer form the ring,
And join another song I sing.
With craven souls, before we stand
To see one leprous, traitor hand
Raised, on a robber-arm, to tear
Our nation's ensign, fluttering there—
To blot one star, or make it dim;
Then welcome famine, gaunt and grim;
And welcome fire, and welcome flood,
And welcome deeper seas of blood.

BUSINESS NOTICES.

PRICES AND TERMS.

The price of the Daily Chronicle is $8 per year in advance; 60 cents per month—15 cents per week—3 cents per copy.

The (Weekly) N. H. Gazette $2 per year in advance—6 cents single copy.

Terms Cash—or all bills for Advertising, &c., to be presented at the pleasure of the publisher.

PARTICULAR NOTICE.—From this date our Carriers of Subscribers' lists are not allowed to sell copies of the Chronicle, nor to receive pay for any subscriptions, except when furnished by us with receipts for the same,—which will not be given for less term than 1 month, 60 cts., or 3 mos. $1.50, in advance. To every barrel of Flour you can make thirty pounds more Bread or Biscuit (and much better) by using Herrick Allen's Gold Medal, than by yeast fermentation, or any other Saleratus—It is perfectly healthy, will not turn your cookery yellow, will strengthen weak stomachs, and cure dyspeptic persons. It is much better to use with cream tartar than soda. Try one paper, and you will be convinced. Most of the Grocers sell it. Depot 112 Liberty Street, New York.

HUNNEWELL'S STANDARD PREPARATIONS.—On our inside columns will be found a notice of these justly celebrated and standard preparations, of unbounded reputation in New England, profess only what they are remedies for, are for sale by all wholesale and retail dealers, and confidence is asked to test them. See advertisement.

ATTENTION, SOLDIERS!—Protect your health!—No sensible man will leave the city without a supply of Holloway's Pills and Ointment. For Wounds, Bruises, Sores, Fevers and Dysentery, these medicines are the best in the world. Every English and French soldier uses them.

If the reader of this "notice" cannot get a box of Pills or Ointment from the drug store of his place, let him write to me, 80 Maiden Lane, enclosing the amount, and I will mail a box free of expense. Many dealers will not keep my medicines on hand because they cannot make as much profit as on other persons' make. 35 cents, 88 cents, and $1.40 per box or pot. 225

"A Stitch in Time Saves Nine."
All Furnaces, Stoves and Funnels should be thoroughly cleaned out and put in order, as soon as fires are done being made in them. If allowed to remain filled with ashes and soot through the summer, they will decay very rapidly, and useless expense be incurred.
A full supply of Linings and Repair Pieces constantly on hand, and all orders attended to with dispatch. E. A. STEVENS.

Facts for the People.
The enormous rise in price of Iron, Coal and Labor, has caused manufacturers to advance the price of STOVES and Castings several times since the war began; and it is now arranged to make a general advance of 25 to 50 per cent. this season.
We have not yet raised the price of Stoves in proportion to their increased cost, but shall be compelled to do so very shortly. Persons who expect to purchase anything in the Stove and Furnace line within a year or two, will save money by doing so at once. The price of a Stove is not so much an object, now, as its capacity and the cost of operating it. All things considered, there is no Stove equal to
THE MODEL COOK.
IT IS, IN FACT,
The Best Stove Out,
for economy, convenience and dispatch.
Many people think it best to use an old stove as long as possible, but it is far better to throw it away and purchase a MODEL COOK, than to keep it at the present high price of fuel.
One of our shrewdest citizens who purchased a MODEL COOK STOVE a year since, says he has saved more than its cost already.
A careful, prudent farmer purchased one, and after it had been in operation some days his son came into the store and said, "something was wrong at their house;" his father and himself used wood off the same pile, he burned three baskets full a day, and his father only one. We sold him a Stove before he left, and there has been no complaint since.
These stoves are in use in many hotels and boarding houses, and in hundreds of private families in this city and vicinity, and give the best of satisfaction.

POOR RICHARD'S REASONS FOR BUYING UNITED STATES SECURITIES.

The other day we heard a rich neighbor say he had rather have railroad stocks than the U. S. stocks, for they paid higher interest. Just then Poor Richard came up, and said that he just bought some of Uncle Sam's three years notes, paying seven and three-tenths per cent. interest. My rich friend exclaimed, "You! I thought you had no money to buy with." "Yes," said Richard, "I had a little laid up, for you know it is well to have something laid up against a wet day, and I have kept a little of my earnings by me." Now Poor Richard is known to all the country round to be a very prudent and industrious, and withal, wise man; for Richard never learned anything he didn't know how to make use of, and his wisdom and prudence had become a proverb. So, when he took out his savings and bought the notes, more than one was surprised, and it was no wonder rich Mr. Smith asked why. So Poor Richard, in a very quiet humble way—for he never assumed anything—replied, "I suppose Mr. Smith, you know a great deal better than I do what to do with money, and how to invest; for I never had much, and all I got I had to work hard for. But I have looked round a good deal upon my neighbors, and seen what they did with their money and I will tell you some things I saw and what I thought of it. One very rich man was always dealing in money, and he made a great deal, but was never satisfied without *high* interest. So he lent most of his money to some people who he thought were very rich, at a very high rate; and he often told how much he got, till one day the people he lent to went to smash. He got back about ten cents on a dollar of his money. I know another old gentleman, who had some bank stock and he went to the bank and got ten per cent. dividend. The President and everybody said it was the best stock in the country—paid ten per cent. But what did the old man do but *sell* his stock the next day! Why? why! said everybody. Because, it *pays too much dividend.* And in six months the bank went to smash. Now, *that* I know to be a fact. Well, Mr. Smith, you say railroad stocks are best because they pay *high* dividends? Can you tell how long they will pay them? I like railroads. I helped to build one, and I go in for useful things. But I tell you what I *know* about them. One-third of the railroads don't pay *any* dividend, and two thirds (and some of them cracked up too,) do not pay as much as Government stocks. Now that brings me to the Government securities, and I will tell you why I prefer them. I take it you will admit Mr. Smith, that in the long run the investment which is *best* should have these qualities: First, it should be *perfectly secure:* secondly, that the income should be *uniform and permanent*—not up one year and down the next; and thirdly, that it should be *marketable*, so when your west day comes, and you want your money, you can get it back. And I think these notes or bonds have got these qualities more than any other kind of personal property you can name. Try it.

"First, then, I have been looking into that great book you call Census Statistics. I used to think it wasn't worth much; but since I began to study it, I tell you, I found out a good many things very useful for me to know. I found out, by looking at the crops, and the factories and shipping, &c., that we (I dont mean the Rebel States) are making a thousand millions of dollars a year more than we spend. So you see that since (the increase of debt isn't half that) we are growing *rich* instead of poorer, as John Bull and the croakers would have us think. Then the debt will be paid, anyhow, no matter how long the war is. Besides did you ever hear of a Government that broke before the people did? Look into your big histories, Mr. Smith, and you will find the people break before the Governments. Well, then, I call that stock *perfectly secure.*

"Secondly, you want the income *uniform and permanent.* Well, I want to take up a list of banks, railroads, mines, insurance companies—anything you choose—and tell me (honor bright, now!) how many have paid a *uniform* income for ten or twenty years. Not one in a hundred, Mr. Smith, and you know it.

"Now here is the Government will pay you without varying a tittle. Now I like something that gives me my income every year.

"Thirdly, you want something which is *marketable* any day in the year. Now if you will ask any bank President, he will tell you that *Government stocks are the only kind of property that is always saleable,* because they will sell *anywhere in the world.*

"Now, Mr. Smith, this is *why* I put my little savings in Government stocks. I confess, too, that I wanted to help that dear old country, which is *my* home and *my* country." "I confess," said Mr. Smith, "I hadn't thought of all this. There is a good deal of sense in what you say, and I will go so far as to put two or three thousand dollars in United States stocks. It can do no harm."

We left Mr. Smith going towards the bank, and Poor Richard returning home, with that calm and placid air which indicated the serenity of his disposition and the consciousness of doing right towards his country and his fellow men.

CONCORD, N. H., Aug. 24.

The most intense excitement has prevailed in the Legislature this afternoon. A message came in from Gov. Gilmore, accompanied by a veto of the bill allowing the New Hampshire soldiers in the field to vote in State and national elections, and before they reached the Speaker's desk a motion was made to adjourn. Thereupon a scene of great commotion ensued. Disputes arose concerning points of order, which were met with the wildest confusion and most uproarious disorder. The Republicans demanded that the motion for adjournment be put, while the Democrats shouted at the top of their voices—"Message from the Governor;" "Let the Secretary of State be heard;" "No gag law!" Stand up for the Constitution," &c., &c. This most disgraceful state of things continued till after seven o'clock before an adjournment could be effected.

Mr. Edward Gilmore, aged twenty-two years, son of Gov. Gilmore, died this evening.

It now appears that the Danish and German war is closed — Germany robbing Denmark not only of the *Provinces* wrested from her, unaided as she has been, but portions of Denmark proper. One-third of her slender territory gone, and nearly one-third of her population, which was but 2,300,000 in the whole.

Important to the Afflicted.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, even in the first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scrofula, Gonorrhœa, Ulcers, pain and distress in the region of procreation, Inflammation of the bladder and Kidneys, Hydrocele, Gravel, Stricture, Bubones, Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr D., devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded, such as loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, timidity, &c., are among the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your case. Dr. Dow has also for sale the French Capsules, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

Highly Important to Females

IN DELICATE HEALTH.

DR. DOW, Physician and Surgeon, No 7 & 9 ENDICOTT STREET, Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri, or falling of the womb, Fluor Albus, Suppression, or other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invaluable certainly has the new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.

Dr. Dow has had the most extensive practical experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1834, having confined his whole attention to his office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

☞ N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 8 A. M. to 9 P. M.

CERTAIN CURE

In all cases, for **No Charges Made.**

Dr Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, the treatment of which has had extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the diseases he makes a specialty, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FEMALE TONIC. Order by mail. Two for $1 and a red stamp.

Boston, April 7, 1864—eodly.

DR. S. O. RICHARDSON'S

BLOOD ROOT ELIXIR

Has been thoroughly tested and proved in his medical practice for a period of THIRTY YEARS; and is now presented to the public as an effectual cure for

CONSUMPTION,

and the best remedy ever prepared for

Diseases of the Liver,

SCROFULA,

All Humors and Impurities of the Blood, and Diseases of the Skin.

The preparing and combining the Blood Root Elixir, has attended with results to medical science next in importance to the inhalation of ether in surgery. Roots and plants, in themselves purgent and disagreeable, are by a new and simple process of extracting (in vacuo) rendered MORE EFFECTIVE IN THEIR OPERATION, entirely divested of the griping and distressing pain which attends the action of all other purgative medicine. They are also made to become HIGHLY PLEASANT AND AGREEABLE TO THE TASTE,

and by their peculiar combination work so perfectly in HARMONY WITH NATURE that no unpleasant sensation will follow its operation. It also possesses

A Diffusive and Alterative Effect,

which can only be attained by medicine in a fluid state. These are new elements in purgative medicines.

The third and compact manner in which pills are prepared renders them difficult of solution in the stomach, and they are passed through the stomach and bowels, half-dissolved, causing only PARTIAL ACTION, thereby creating griping and pain to the parts connected with their passage.

One pill dissolved, *somewhere within*, will produce more medicinal and physical effect than five in a crude state.

The BLOOD ROOT ELIXIR has no partial action upon the bowels, but is equally diffused throughout the whole alimentary canal, and the blood, imparting a healthy and invigorating action to the STOMACH AND BOWELS, LIVER, LUNGS, KIDNEYS, and gently stimulating dormant and morbid secretions throughout the system.

A single dose will produce a cheerful and exhilarating COMMOTION, which will inspire the patient with confidence, and insure a TIMELY AND IMMEDIATE RELIEF. A continuance for a short period will DRIVE the obscure and hidden humors to the surface of the skin, and relieve or cure SCROFULOUS AFFECTIONS—and by thus purifying and strengthening the blood, will remove the most fruitful

CAUSE OF CONSUMPTION.

It incites the various organs of the system to act their allotted part, remove the causes which induce RHEUMATISM AND NEURALGIA, HEADACHE, LOSS OF APPETITE, DYSPEPSIA, COSTIVENESS, and the various diseases which arise from a derangement of the Stomach and Bowels, and restricted circulation of the Blood.

COUGHS and COLDS, in their early stages, will immediately yield to the effect of the Elixir.

The BLOOD ROOT ELIXIR contains no mineral, no poisonous vegetable element, no acrid agent, but stimulates the secretions by its mild diffusive action. It is an effective and painless agent—has a decided, salutary action upon the Liver, and there has been no medicine *prepared for evening family use which possesses equal merit.*

Travellers, both by sea and land, will find the Elixir a complete antidote for the ills which they are obliged to endure from a change of climate, of water, or of diet.

See the pamphlet around each bottle for a history of the Elixir.

The proprietor of the Blood Root Elixir, (Dr. S. O. Richardson,) has been long and favorably known to the public by his celebrated BLACKBERRY WINE BITTERS, the best tonic medicine ever discovered, and which has been in use over thirty years. He is a graduate of the New Hampshire Medical College, and many years associate member of the Massachusetts Medical Society, and has made the study of medicine his profession since 1826.

And so fully convinced is the Doctor of the wonderful curative effects of his Blood Root Elixir, that he hereby offers to each and every person who will use one-half of a bottle of his Elixir and not be conscious of a good effect therefrom, to refund to such person the amount which he paid for the same, by returning the village bottle to his office.

Price $1.50 per Bottle.

Sold in Portsmouth by J. H. THACHER, opposite the Post Office, and No. 10 Market Square; and by Dealers in Medicine generally, and at Dr. Richardson's Office, No. 51 Hanover street, Boston. ap5—3moeod&W

CHEROKEE REMEDY

—AND—

CHEROKEE INJECTION,

Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Stricture, Gravel, Gleet, Gonorrhœa, and is a powerful stimulant in those cases of Fever Albus (or White in females) where all the old manners and remedies have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all of its original purity and vigor; thus removing from the system all pernicious causes which induce disease.

CHEROKEE INJECTION is intended as an ally or assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites. Its effects are *healing, soothing and demulcent*; removing all scalding, heat, chordee and pain, instead of the burning and almost insufferable pain that is experienced with nearly all the *cheap quack nostrums*.

☞ The use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write us and we will send free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $3 per bottle or three bottles for $8.

Price—CHEROKEE INJECTION, $2 per bottle, or three bottles for $5.

Sent by Express to any address on receipt of price. Sold by all druggists everywhere.

THE GREAT

INDIAN MEDICINE,

COMPOUNDED FROM

ROOTS, HERBS AND LEAVES.

CHEROKEE CURE.

An unfailing cure for Spermatorrhœa, Seminal Weakness, Nocturnal Emissions, and all diseases caused by self-pollution; such as Loss of Memory, Universal Lassitude, Pain in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Trembling, Wakefulness, Dryness on the Face, Hectic Flushes, Confusion of Ideas, Nervousness, Consumption, and all the direful complaints caused by departing from the path of nature.

☞ This medicine is a simple vegetable extract and one on which all can rely, as it has been used in our practice for many years, and with thousands treated it has not failed in a single instance. Its wonderful powers have been sufficient to gain victory over the most stubborn cases.

☞ To those who have tried with their conscientious, unfavorable results far beyond the reach of medical aid, we would say, *Despair not!* the CHEROKEE CURE will restore you to health and vigor, notwithstanding the quack doctors have failed!

☞ For full particulars, get a circular from any drug store in the country, or write the proprietors, and will send free to any one desiring the same, a full treatment in pamphlet form.

☞ Prices, $2 per bottle or three bottles for $5, and forwarded by express to all parts of the world.

Sold by all respectable druggists everywhere.

They cure Nervous and Spinal Affections, pains in the back and lower parts of the body, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysteria, Sick Headache, Giddiness, &c. &c. In a word, by removing the irregularity, they remove the cause and with it ALL the effects that spring from it.

Composed of simple vegetable extracts, they contain nothing deleterious to any constitution, however delicate, their function being to substitute strength for weakness, which, when properly used, they never fail to do.

They may be safely used at any age and at any period, *except during the first three months*, during which the unfolding nature of their action would infallibly prevent pregnancy.

All letters seeking information or advice will be promptly and discreetly answered.

THE MAGEE

COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the water larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper heavy reservoir for hot water, also the tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes entirely disappears. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING

FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pots is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which lights them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used.

We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

LICENSES IN PHILADELPHIA.—For the present year there have been issued, in Philadelphia, two thousand eight hundred and sixty-five licenses to hotels and taverns. The unlicensed hotels and shops where liquor is sold without license will swell the figures to over four thousand. Taking the population of the city at seven hundred thousand, there will be one hotel, tavern or grog-shop to every one hundred and seventy-five inhabitants, not excepting women and children. If the proportion of adult males to women and children is as one to six, which proportion we believe is nearly correct, it will make every twenty-nine men the supporter of a tavern, and if we deduct the number of total abstinence men, each hotel is, doubtless, supported by a smaller number than that.

The above item is not from a fanatic, but from a zealous copperhead organ. If correct, it shows that the old plea for a license law, that it restrains the traffic, is false: it only gives it a kind of sanction. It should be observed, however, that many women in cities are supporters of such places, and not a few are among the tempters to enter them. In this city, the drinking places are now about one hundred, with a gradual increase.

EYE, N.H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of DR. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH DAMON.
PORTSMOUTH, April 21st, 1862.
I have for several years been afflicted with distress at my stomach, loss of appetite, and often could not rise out of my bed immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.
From ELDER I. CURTLEY, *Lee, May 31, 1861*
DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and had previous to your visiting our house in the spring of 1860, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." Isaac N. CURTLEY.
☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or it is not worth the price. All orders directed to DR. S. SWETT, No. 1 High street, Portsmouth, N. H., promptly attended to. may26

Ayer's Cathartic Pills
Are the most perfect purgative which we are able to prepare, consistent with safety, and have been made by anybody. Their effects have abundantly shown to the community how much they excel the ordinary medicines in use. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, restore the healthy action of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow dismal, stimulate sluggish or disordered organs into their natural action, and restore a healthy tone with strength to the whole system. Not only do they cure the every-day complaints of everybody, but also formidable and dangerous diseases. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and, being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief, were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of our remedies, while others have sent us the assurance of their conviction that our preparations contribute immensely to the relief of our afflicted, suffering fellow men.
The agents below named are pleased to furnish gratis our American Almanac, containing directions for their use, and certificates of their cures of the following complaints:
Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from foul stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and pain arising therefrom, Flatulency, Loss of Appetite, all Diseases which require an easy yet sure medicine. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstructions of the functions.
Do not be put off by unprincipled dealers with other preparations which they make more profit on. Demand AYER'S and take no other. The sick want the best aid there is for them, and they should have it.
Prepared by J. C. AYER & Co., Lowell, Mass., and sold by Brackett Hutchings, J. H. Thacher, W. R. Preston, David Kimball, and all druggists.

Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, specifications, Bonds Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or Inventions—and legal opinions rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
This agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, what could in any case be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in form to secure for them an early and favorable decision at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. R. H. Eddy has made for me THIRTEEN applications, all but three of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part I feel bound to extend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.
During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications 8 CLEAR APPEALS, EVERY one of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.

QUIETLY CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 3 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, other institutions devoted a lifetime of a quiet and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Boils, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been cured in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their faculties and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures. Dr. TELLER's great work for the Married or those contemplating marriage—300 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single MARRIED and the Married happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery, it contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
DR. TELLER still remains the only Agency in America, for the sale of Dr. Vichon's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of females. Pills by the receipt $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A.M. to 8 P.M., and on Sundays from 2 to 5 P.M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice. N. B.—No students or boys employed. Notice this, address all letters to

VERNATELLA.
Warranted to make the Soles of Boots and Shoes water and dampness proof, and to preserve the leather.
VERNATELLA
Is a preparation from Copper, having no grease, linseed oil, or anything of the kind, and when the soles are once saturated with it, water can no more get through them than through copper itself. **Price 25 Cents Per Bottle,**
at retail everywhere.
But its cost to the purchaser is really NOTHING, as it renders the soles wear enough longer to more than pay for it, leaving as a net gain the making of them Water and Dampness Proof, and the preservation thereby of that priceless gem, the health.
☞ LADIES, READ THIS! ☜
SAVE YOUR HEALTH.
Use Vernatella on the Soles of your Shoes. It makes them water proof and thereby protects your feet from dampness, for the ground is always more or less moist, either from rain or the morning or evening dew.

MONDAY, AUGUST 29, 1864.

THE REBELLION.

Gen. Sheridan is closely watching the rebels, making frequent reconnoissances, and having frequent skirmishes. Gen. Custar, who was in some danger, has reached a safe position.

The rebels made a sortie on Gen. Butler's right wing on Thursday, but were promptly repulsed, leaving 60 prisoners.—Gen. Hancock, with a portion of his command, reached Reams' Station, the extreme left of our line, on Tuesday. While the troops were destroying the railroad, Gen. Gregg moved out and had a lively skirmish with the enemy; the rebels were driven, leaving 180 killed and wounded. Our artillery is reported to be finely posted, and the army is sanguine.

Union citizens of Greensboro, N. C., resisted a rebel force sent there for conscripts and after a severe fight, drove them with considerable loss from the town.

Sec. Stanton reports that Gen. Hancock was attacked several times on the 25th, but repulsed the enemy in every assault. The principal attack was in the afternoon, when the rebels made a combined attack on his centre and left. After one of the most desperate battles of the war, the enemy withdrew from the field, leaving their dead and wounded. The rebel Gens. Wilcox and Heth were taken prisoners. Stanton estimates the rebel loss in the last two weeks at 10,000 in killed and wounded. We have lost heavily, but chiefly in prisoners.

Gen. Kilpatrick while on his raid tore up about fourteen miles of the Macon railroad at several points, defeated a rebel force, inflicted severe damage on the rebel fortifications, and brought in two captured guns.

By Telegraph—Sunday noon.

Sec. Stanton's official bulletin Saturday afternoon removed from the public mind a painful impression, which the first reports had produced, that the 2d corps had met with a bad repulse at the Weldon railroad. The secessionists in Washington, who were quite jubilant in the forepart of the day, retired in disgust when the true state of the case became known. The fact that Grant still holds the Weldon railroad is sufficient evidence of their failure, as well as of the previous desperate efforts of the rebels to retake it. Instead of invading Pennsylvania, Early's forces will no doubt soon be ordered back to Richmond and Petersburg, where they will be required to enable Lee to hold the rebel capital. The occupation by us of the Weldon R. R. is a deadly blow to the rebels, as they freely acknowledge; and they will not finally relinquish their attempts to recover it until compelled to do so by exhaustion or utter hopelessness of the task. There is no news in Washington to-day outside of military circles worth telegraphing.

CHICAGO, ILL., Aug. 27.—It is well understood here that Gen. McClellan is not the first choice of a majority of the delegates, including the peace wing and those who doubt the policy of electing a military man, but the thing is so well managed by New York politicians that there seems to be a spontaneous feeling among the people in favor of McClellan. Gen. Singleton of Illinois, one of the ablest men opposed to McClellan, and upon whose influence in the West Fernando Wood depends, says he shall acquiesce in the nomination of the Convention. A bolt has been threatened, but the probabilities are that the malcontents will be very few. The outside pressure in favor of McClellan is tremendous.—The meeting this evening is an instance. McClellan is glorified to such an extent on the eve of the Convention that the nomination of any other man would seem an absurdity. What can be done for any one else, when McClellan is ratified beforehand? The New England delegation seem to have no particular favorite—at least they are ready, almost without exception, to go for the nominee, whoever he may be. Harrington says the vote of New Hampshire will be a unit in favor of the head man—McClellan being their first choice. Powell and Wells are most talked of for the Vice Presidency.

— St. Albans, Vt., has shipped $80,000 worth of butter in two weeks.

— A rascally bachelor calls the friendship of two women "always a plot against a third."

— England has legalized street railways. That makes George Francis Train enormously rich, unless he has sold his rights.

— Gen. Grant, it is estimated, has captured 15,000 prisoners since the opening of the present campaign, in May.

— A lady's drawing-room is that in which she receives company; an artist's, that in which he makes pictures, and a dentist's that in which he pulls teeth.

THE LEGISLATURE.

FRIDAY.—At the opening of the session, the following communication was received from Gov. Gilmore, by the House of Representatives, read, laid on the table and ordered to be printed:

To the Hon. Senate and House of Representatives:

On Wednesday, the 24th instant, I returned to the House of Representatives, in which it originated, the bill entitled "An act to enable the qualified voters of the State of New Hampshire engaged in the military service of the country to vote for Electors of President of the United States and for Representatives to Congress," with my objections thereto, as provided in the 44th article of the Constitution of New Hampshire.

My veto message, which I am informed the House has thus far refused to have read, was as follows:

"There has been presented to me an act entitled 'An act to enable the qualified voters of the State of New Hampshire engaged in the military service of the country to vote for Electors of President and Vice President of the United States and for Representatives in Congress.'

I return it to the House, in which it originated, with my objections. I have heretofore to this Legislature expressed my earnest desire to extend to our soldiers in the field the right of suffrage; but I proposed to do it not by a violation but through an amendment of the Constitution.

In order not to be misunderstood or misrepresented, I quote from a former message what ought to be familiar to every member of the conjoint bodies, who, with myself, are charged with the administration of the government of this State:

'The fact that the citizen soldiers of our State contributed their share to that glorious result which struck dismay to the rebel leaders, requires no extenuation or apology. If our battle-scarred veterans have not the right to vote, I know not who has. I regret, exceedingly, that at the last session of the Legislature measures were not taken so to amend the Constitution of the State as to secure this right to all our soldiers without withdrawing them from the field of active opperations. Such an amendment has lately been adopted by the State of New York; and I would urge the proposal of a similar amendment to our people as an act of simple justice to our noble soldiers. I cannot understand why a man's loyalty should disfranchise him; nor do I believe the liberties of a nation are safer in other hands than those of the men who have taken up arms to defend them. God helping me, our New Hampshire troops shall vote in the State if they are not permitted to vote out of it.'

Without referring to obvious objections to the bill in its details, some of which, it seems to me, leave no hope of a fair vote in which the private soldier should participate with the commissioned officer in obedience to his unbiassed judgment and convictions, it is enough for me to find that upon the judgment of the highest tribunal of the State, and upon my own judgment, expressed in my annual message, the act is unconstitutional.

The next step after the violation of the constitution of the State of New Hampshire and of the United States is anarchy.

There is no object sufficiently desirable to justify a palpable violation of the Constitution which we have all taken an oath to support."

I am further informed that a question has arisen as to the time said bill came into my hands. For the information of the Legislature upon this point, I would state that the bill was first presented to me on Thursday, Aug. 18, which date was minuted by me upon the bill at the time it was so presented to me. J. A. GILMORE, Governor.

TALL WALKING.—A man named Elson recently walked 360 miles in six days, over the common road, at St. John, N. B., while "the American party" were there. He would walk 10 miles out from the city and return, three times a day, making the 60 miles, daily—at such hours as he felt most like it. He finished the tremendous task in good shape, Saturday night; and as there was no wager or stakes pending, to draw out such an exhibition of pluck and good bottom, the crowd which naturally collected to witness his final arrival, made up a purse of $500 or $600 for him. He earned a good deal more than that, though, and ought to have had it up before he started on such a fearful race with time and muscle. He offered to run 10 miles in an hour the next Monday, but nobody cared to bet he couldn't, and we don't think it would be safe to say he might not "fly", after what he has done.

☞ Cyrus W. Field, Esq., of teleraphic celebrity, arrived at Shediac, N. B., Aug. 19, from Newfoundland, where he, in company with Capt. Orbbar, was successful in selecting an eligible site for the American terminus of the Atlantic telegraphic cable. He spent the day with the American visitors at Shediac. The ship Great Eastern is now loading the new oceanic telegraphic cable on board, and Mr. Field expects to have it laid in a year or so. About ten miles per day is manufactured.

— During the recent Editors' Convention and Congressional Committee visit at Portland, the old stars and stripes which came out of the Enterprise and Boxer fight with so much glory, though sadly tattered and torn, and begrimmed with smoke, were exhibited from the balcony of one of the public buildings, as the procession of editors and M. C.s passed. Says our Jotter, "That's a good exhibition of Enterprise." "Yes," replies the Local of the Argus, "a fit memento of the art of self-defence."

NO. 5.

At the decease of John Tufton Mason his brother inherited the estate, and soon after sold the title to the lands in New Hampshire to Samuel Allen, a merchant in London, on the 27th day of April, 1691, for seven hundred and fifty pounds. Allen applied to the king to recognize his title, and appoint him governor of the province. The king did this, giving him a commission dated March 1st, 1692, and at the same time appointed John Usher, his son-in-law, Lieut. Governor, vesting him with full power to execute the office of Governor in the absence of Allen, for which service he was allowed an annual compensation of two hundred and fifty pounds. Usher was a native of Boston. He was a stationer, and possessed a very fair reputation in trade.—When in England he was employed by the Government of Massachusetts to negotiate the purchase of Maine from the heirs of Ferdinando Gorges, thereby acquiring a taste for land speculation which he subsequently endeavored to gratify. He was of a peculiar disposition, fond of showing his authority, and severe in discipline. His commission was published August 13th, and he immediately entered upon the discharge of his duties. Having rendered himself very unpopular in accepting the office of treasurer under Sir Edmund Andros, the wishes of the people did not accord with his present administration. He was, however, much interested in the affairs of this province, and seems to have labored for its advantage. In his expectation of gain he was destined to meet with disappointment from his employer, for when his bill was presented at the end of the third year it was returned protested, probably on account of Allen's inability to act in compliance with the demand. Seeing no prospect of remuneration, he requested Allen either to assume the government himself or to get a successor appointed to fill his position. His desire for this change, however, had been anticipated by the people, who privately agreed to recommend William Partridge to the king as being in every way qualified for the office. Partridge succeeded in obtaining the appointment, much to the surprise of Usher, who had been wholly unaware of this movement. Being at Boston when Partridge arrived with a commission appointing him Lieutenant Governor, Usher declared "that no commission should supersede his till duly published, and intimated his intention of coming hither if he could be safe with his life." His private secretary be dispatched to England with instructions concerning this affair,—and the Lords of Trade, to whom it was presented for adjustment, decided that he should continue in the administration until the commission of Partridge was properly published, and all the formalities of the law duly respected.

At that time Charles Story resided upon this island. He formerly lived in England, but on receiving a commission constituting him Judge of Admiralty for the province he embarked for this country. Soon after his arrival he associated with the Council, who appointed him their Clerk, and Secretary of the Province. He took the oaths, and was entrusted with all their provincial records and files. Soon after giving him these appointments the Council again assembled, but Story did not attend. They sent a boat to his place for him, that he might immediately hasten to meet them.—He, however, did not appear until the following day, and when questioned by the president concerning this dereliction of duty, intimated that he deemed it inadvisable to act in the offices of either Clerk of the Council or Secretary of the Province. The Assembly then called upon him to deliver up the books and papers belonging to the Province in his possession, but he peremptorily refused. They then despatched a sheriff "to make diligent search in any houses, rooms, closets, chests, trunks, or other places within this province, for the above said books and papers, or any other books and papers or records belonging to this province, and the same when found to bring to the President and Council." The sheriff immediately proceeded in the discharge of his duty, and in a short time returned with the articles in question. Mr. Story was again brought before the Council, and after receiving a severe reprimand was summarily dismissed, and Henry Penny was reinstated.

To be continued.

— Our joker wishes to know if, when the poet spoke of "taking no note of time but by its loss," he referred to doing a cash business for fear of losing by bad paper?

— One of the veterans tells us of a famous four-horse stage team which Barnabee used daily to trot over the Eastern line, between Newburyport and Ipswich, eleven miles we believe, in 40 or 45 minutes, including shifting the mail at Rowley. They were called "the crazy boys," and were especially selected for that route, by Gen. Storey, from a stock of 600 fine horses. They were worth $300 apiece then, and would command almost half as many thousands now.

ADJUTANT GENERAL'S OFFICE.

CONCORD, N. H., August 24, 1864.

To the Selectmen of the several Towns and Wards in the State:

Gentlemen—Permit me to call your attention to a mode by which your quotas can probably be filled before the draft, and at a much less expense than by sending substitutes at the present enormous prices.

The Eighteenth Regiment of Infantry, Colonel CHARLES H. BELL, of Exeter, and six Companies of Heavy Artillery, are now being raised in this State for one year's service. Towns are allowed by the new military law to pay to persons who have for three months been inhabitants thereof, and who enlist as part of their quotas, *any* sum they may see fit to vote as bounty. So if a town should vote $300 as bounty to each volunteer inhabitant, &c., that sum added to the State and United States bounties, of $100 each, would give the volunteer $500 bounty, or $100 more than a drafted man can possibly receive; and the town will in this way save $300 to $400 on each man from what it would have to pay for substitutes. Thus a town putting in twenty men would save from $6000 to $8000.

Is is understood that the draft *can not be postponed* beyond the 5th of September, as that day was fixed by act of Congress. At the rate at which men are put in at the several Provost Marshals' offices, a draft for at least one half the quota of the State will have to be made one the 5th of September. The young men, a very large part of them, know that if drafted they *must go*, at the present price of substitutes; and it is believed that large numbers of them will be ready to enlist for one year and avoid the draft. They will get a large bounty (generally), will not be put into old regiments with substitutes, &c., and they will prefer to volunteer.

It certainly seems for the interest of towns that their officers should make every effort in their power to fill their quotas at this reduced expense by encouraging voluntary enlistments of their inhabitants into the new organizations. And the sooner it is done the better. Nineteen hundred and fifty men will fill the new organizations to the maximum, and a considerable number have already been raised. From present indications there is no certainty that another week will not see them full.

So much as to the matter of saving expense to towns. But I should feel that I had not discharged my duty if I failed to call your attention to the incalculable benefit which the enlistment of *our own inhabitants* will render to the country. One regiment of such men is more desirable than a brigade of substitutes. Our State may well be proud when she sends to the front the hardy sons of her soil, who have borne the old flag gallantry on scores of battle-fields, and have never once done discredit to the memory and home of JOHN STARK.

Yours, respectfully,

NATT HEAD, Adj. Gen.

Draft Notice.

To the Citizens of Portsmouth:

The undersigned, having been appointed by the Board of Mayor and Aldermen, a Committee to lay before the Board of Enrollment the names of all persons who claim exemption from the following cause, viz: Alienage, Non Residence, Unsuitableness of Age, Manifest Permanent Physical Disability, and persons who have been in the service two years during the present war, would give notice that they will be in session on and after Wednesday, Aug. 17, 1864, from 2 till 5 o'clock and from 7½ to 9 o'clock P. M., at the City Rooms, for the purpose of receiving evidence in such cases.

The Enrollment list can be seen during the same hours, and every person who can present a claim for such exemption is respectfully requested to attend as above, and by this means correct the Enrollment, so that our quota can be reduced.

It is the duty of every citizen, whether enrolled or not, to see that the Committee have all the information in his power to give in the above matter, in regard to any person, and we trust that every enrolled man will urge the importance of the subject upon those who are exempt for the above causes, as it is a matter of interest to all.

Any information in regard to matters connected with the above will be cheerfully given.

Let there be no delay.

"A Wonderful Discovery."
DR. TEBBETTS' "PHYSIOLOGICAL HAIR REGENERATOR" is compounded in strict accordance with the well known laws of Physiology and modern vegetable Chemistry. It is not a "DYE," and will not stain a particle. It will "RESTORE GRAY HAIR" in all cases to its original color. It promotes a luxuriant growth of new HAIR in all cases on BALD HEADS, when the glands or roots of the hair are not completely disorganized. It prevents the hair from falling off, and removes all dandruff, heat, humors and itching from the scalp. It keeps the hair soft, moist and perfectly healthy, and gives it a glossy and beautiful appearance. It is highly perfumed, and as a Dressing it has no superior. The "REGENERATOR" is warranted to produce the above results in all cases, if not the money to be refunded. With it every "GRAY HEAD" in New England can be restored in less than sixty days.

NEW HAMPSHIRE ITEMS.

—— There are more educated men in New Hampshire in proportion to the population than in any other State.

—— Mr. George S. Sheldon, of Hancock, the man who was most seriously wounded at the depot in Concord, Thursday afternoon, died during the night. He was 25 years of age. The soldier who shot him has been held for trial.

—— Some residents of Barnstead recently prevailed upon Rev. Joseph Boody; of the Freewill Baptist denomination, now about 93 years of age, to deliver a discourse in their town. They conveyed him from and to New Durham, and made up to him the sum of $25.

—— James Ordway, of Hooksett, a mason, was seriously injured in Londonderry, on Thursday, while at work rebuilding a bridge on the Concord railroad. The corner of a stone which he was prying up broke, causing him to fall over a bank wall some seven or eight feet, striking on his head and shoulders.

—— During the thunder shower on Friday morning the lightning struck a house in Manchester,—striking first the lightning rod and then *dividing*, one portion going down the rod and making a large hole in the ground, and the other portion branching off into the house, tearing a hole at the bottom of an outside door, and then descending to the cellar.

—— Capt. Robert L. Ela, 6th N. H. R., of Concord, arrived home on Tuesday, from the front at Petersburg. He was one of the seven commanders of the Regiments of the second Brigade, 2d Division, 9th Corps, all of whom were either killed or wounded in the fight on the 30th ult., at the blowing up of the fort, and is yet suffering, and quite lame, from a severe contusion from the explosion of a shell near him.

—— But $7000 was received by the N. H. Missionary Society last year. The disbursements in the State were about $5000. During the year thirty-eight missionaries have been employed in the State, in forty-one towns. There are twenty-five destitute churches in the State. Eighty churches in the State have contributed nothing to the funds of the Society. Donations from Christian women have steadily advanced during the past seven years, two-fifths of the whole funds coming from them.

—— The Statesman says a few flocks of quail have been observed in the vicinity of Concord this season; an occurrence of sufficient rarity to be a subject of remark.—They are usually found about grain fields; are numerous in the Western and Middle States, and remain there during the whole year, in inclement seasons being often seen feeding with poultry about barn yards.—Their eggs have been often hatched under a common hen, and there is no doubt that by a little attention they might be domesticated. They are easily shot, and their flesh is considered excellent food. They are called partidges in Pennsylvania, where the bird which we call a partridge is known as grouse—the latter being its proper name.

To every barrel of Flour you can make thirty pounds more Bread or Biscuit (and much better) by using Herrick Allen's Gold Medal, than by yeast fermentation or any other Saleratus.—It is perfectly healthy, will not turn your cookery yellow, will strengthen weak stomachs, and cure dyspeptic persons. It is much healthier than with cream tartar than soda. Try one paper, and you will be convinced. Most of the Grocers sell it. Depot 112 Liberty Street, New York.

HUNNEWELL'S STANDARD PREPARATIONS.—On our inside columns will be found a notice of these justly celebrated and standard preparations, of unbounded reputation in New England, profess only what they are remedies for, are for sale by all wholesale and retail dealers, and confidence is asked to test them. See advertisement.

ATTENTION, SOLDIERS!—Protect your health!—No sensible man will leave the city without a supply of Holloway's Pills and Ointment. For Wounds, Bruises, Sores, Fevers and Dysentery, these medicines are the best in the world. Every English and French soldier uses them.

If the reader of this "notice" cannot get a box of Pills or Ointment from the drug store in his place, let him write to me, 80 Maiden Lane, enclosing the amount, and I will mail a box free of expense. Many dealers will not keep my medicines on hand because they cannot make as much profit as on other persons' make. 35 cents, 88 cents, and $1.40 per box or pot. 225

"A Stitch in Time Saves Nine."
All Furnaces, Stoves and Funnels should be thoroughly cleaned out and put in order, as soon as fires are done being made in them. If allowed to remain filled with ashes and soot through the summer, they will decay very rapidly, and useless expense be incurred.
A full supply of Linings and Repair Pieces constantly on hand, and all orders attended to with dispatch. E. A. STEVENS.

Facts for the People.
The enormous rise in price of Iron, Coal and Labor, has caused manufacturers to advance the price of STOVES and Castings several times since the war began; and it is now arranged to make a general advance of 25 to 50 per cent. this season.
We have not yet raised the price of Stoves in proportion to their increased cost, but shall be compelled to do so very shortly. Persons who expect to purchase anything in the Stove and Furnace line within a year or two, will save money by doing so at once. The price of a Stove is not so much an object, now, as its capacity and the cost of operating it. All things considered, there is no Stove equal to
THE MODEL COOK.
IT IS, IN FACT,
The Best Stove Out,
for economy, convenience and dispatch.
Many people think it best to use an old stove as long as possible, but it is far better to throw it away and purchase a MODEL COOK, than to keep it at the present high price of fuel.
One of our shrewdest citizens who purchased a MODEL COOK STOVE a year since, says he has saved more than its cost already.
A careful, prudent farmer purchased one, and after it had been in operation some days his son came into the store and said, "something was wrong at their house;" his father said himself used wood off the same pile, he burned three baskets full a day, and his father only one! We sold him a stove before he left, and there has been no complaint since.
These Stoves are in use in many hotels and boarding houses, and in hundreds of private families in this city and vicinity, and give the best of satisfaction.

Important to the Afflicted.

DR. DOW continues to be consulted at his office, No. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scrofula, Gonorrhœa, Ulcers, pain and distress in the regions of procreation, Inflammation of the Bladder and Kidneys, Gravel, Abscesses, Humors, frightful Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest siblings of a family.

SEMINAL WEAKNESS

Dr D. devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate victim for the duties of procreation, Indigestion, Dyspepsia, Nervous effects produced by early habits of youth, are Weakness of the back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful results of this habit are well known to the public, to be enumerated here. Loss of memory, confusion of ideas, depression of spirits, bodeful dreams, aversion of society, self-distrust, timidity, &c. &c. are some of the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Persons who wish to remain under Dr Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, and perfect secrecy, one year each. Dr. Dow has also for sale the French Capsules, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

Highly Important to Females

IN DELICATE HEALTH.

DR. DOW, Physician and Surgeon, No 7 & 9 ENDICOTT STREET, Boston, is consulted daily for all diseases incident to the female system, Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppressed and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in all cases. No longer shall females be the victims of new modes of treatment, that bring obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.

Dr. Dow has had a much greater experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 8 A. M. to 9 P. M.

CERTAIN CURE

in all cases, and No Charges Made,

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, having for the past twenty years had an extraordinary success in treatment and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 ENDICOTT STREET, Boston. Persons need the services of an experienced physician and surgeon, would give him a call.

P. S.—Dr Dow imports and has for sale a new article, called the FRENCH PREVENTATIVE. Order by mail. Two for $1 and a red stamp.

Boston, April 7, 1864.—eodly.

DR. S. O. RICHARDSON'S BLOOD ROOT ELIXIR

Has been thoroughly tested and proved in his medical practice for a period of THIRTY YEARS, and is now presented to the public as an effectual cure for

COSTIVENESS,

and the best remedy ever prepared for

Diseases of the Liver,

SCROFULA,

All Humors and Impurities of the Blood, and Diseases of the Skin.

The preparing and combining the Blood Root Elixir, is intended with results to medical science next in importance to the inhalation of ether in surgery. Roots and plants, in their properties general and specific, yield up a new and simple process of extracting the virus of medicine MORE EFFECTIVE IN THEIR OPERATION, entirely destroyed of the griping and nauseating pain in which attends the action of all purgative medicine. They are also made to become HIGHLY PLEASANT AND AGREEABLE TO THE TASTE,

and by their peculiar combination work so perfectly in HARMONY WITH NATURE that no unpleasant sensation will follow its operation. It also possesses

A Diffusive and Alterative Effect,

which can only be attained in medicine in a fluid state. These are new elements in purgative medicines.

The bland and pleasant manner in which pills are prepared, rendering it indigestible—and when taken are borne through the stomach and bowels, half-dissolved, exerting only PARTIAL ACTION, thereby producing griping and pain in the parts connected with their passage.

One pill dissolved, sometimes, will produce more medicinal and physical effect than twelve crude pills.

The BLOOD ROOT ELIXIR has no partial action upon the bowels, but is equally diffused there and throughout the whole system of the blood, leaving a healing and invigorating action to the STOMACH AND BOWELS, LIVER, LUNGS, KIDNEYS, and gently stimulate the secretions and excretions through the whole system.

A single dose will produce a cheerful and exhilarating COMMOTION, which will be felt in every depth and cranny of the system, assurance of IMMEDIATE RELIEF. A continuance for a short period will DRIVE the disease and hidden humors to the surface of the skin, and the whole system accompanied AFFECTIONS—and by thus purifying and strengthening the blood, will remove the most fretful

CAUSE OF CONSUMPTION.

It incites the various organs of the system to set their allotted part in motion, and will cure Indian RHEUMATISM AND NEURALGIA, HEADACHE, LOSS OF APPETITE, DYSPEPSIA, COSTIVENESS, and the various diseases which arise from a sluggish action of the Stomach and Bowels, and restricted circulation of the Blood.

COUGHS and COLDS, in their early stages, will immediately yield to the effect of the Elixir.

The BLOOD ROOT ELIXIR contains no mineral, no poisonous ingredients, and is so mild and safe, but stimulates the secretions by its mild diffusive action. It is so effective and painless operation—has a pleasant odor, and is so much the *Liver, and yet so free from medicine prepared for common family use which possesses equal merit.*

Travellers, both by sea and land, will find the Elixir a valuable antidote for the evils which they are obliged to endure from a change of climate, of water, or of food.

One dose is sufficient to send each bottle for a history of this Elixir.

The proprietor of the Blood Root Elixir, (Dr. S. O. Richardson,) has been long and favorably known to the public by his celebrated SHERRY WINE BITTERS, the best tonic medicine ever discovered, and which has been in use over thirty years. He is a graduate of the Berkshire Medical College, and many years associate member of the Massachusetts Medical Society, and has made the study of medicine his profession since 1822.

And so fully convinced is the Doctor of the wonderful curative effects of his Blood Root Elixir, that he offers one bottle to each and every person who will use one-half of a bottle of his Elixir and not be conscious of a good effect therefrom, to refund to said purchaser the amount which he paid for the same, by returning the village bottle to his office.

Price $1.50 per Bottle.

Sold in Portsmouth by J. H. THACHER, opposite the Post Office, and No. 12 Market Square; and by Dealers in Medicine generally, and at Dr. Richardson's Office, No. 51 Hanover street, Boston. sat—3mod & W

SPEER'S

SAMBUCI WINE,

PURE AND FOUR YEARS OLD,

OF CHOICE OPORTO FRUIT,

For Physician's Use, Females, Weakly Persons and Invalids.

AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs; very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the Juice of the Portugal Sambucus, cultivated in New Jersey, recommended by physicians and chemists as possessing medical properties superior to any other Wines in use, and as a valuable article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefiting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

☞ None genuine unless the signature of "ALFRED SPEER, Passaic, N. J.," is over the cork of each bottle.

GOLDEN SHEAF WHISKEY

C. A. RICHARDS,

99 WASHINGTON STREET,

Boston,

Would most respectfully invite the attention and examination of Druggists, Grocers, Druggists, Apothecaries and Private Individuals, desiring to sell or

USE STRICTLY PURE

Liquors, Wines, Cordials or Bitters,

to the 'Sun of choice goods represented by' which are constantly on hand in large quantities in his Large and Spacious

Wine Store and Bottling Establishment,

99 Washington street, Boston.

First on the list as a reliable pure stimulant, stands the celebrated and widely known

Golden Sheaf Bourbon Whiskey,

made from Wheat, Rye and Corn, warranted for five years old. Brought in unique style, each bottle in a paper box, in cases of one dozen each, the large and increasing sales of which convince the proprietor that no extraordinary advertising is needed to extol its real merits. It will recommend itself on trial

Golden Sheaf Cordial.

A delightful and invigorating beverage, aromatic, with a rich ginger cordial, made from the pure Golden Sheaf Bourbon.

Golden Sheaf Bitters.

The best Tonic ever offered to the public. Mingled with the rich flavor of the Bourbon are a number of other ingredients for restoring the appetite and imparting life and vigor to the whole system.

Golden Sheaf Punch.

Made from fresh, ripe lemons, and other articles, combined as a whole into a fine rich

Glad News for the Unfortunate!

The Long Sought For Discovered at Last.

CURES FROM ONE TO THREE DAYS

CHEROKEE REMEDY

AND

CHEROKEE INJECTION,

Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Gravel, Brick Dust, Mucous Secretions, and is specially recommended in those cases of Fever Albus or Whites in females, where all the old numerous specifics have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is a safe and effective in its action; purifying and cleansing the blood, causing it to flow in all of its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an adjunct or assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites. Its effects are healing, soothing and invigorating, leaving no after ill consequences behind pain, instead of the burning and almost unendurable pain that is experienced with nearly all the specifics heretofore used.

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or with the medicine will mail free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.

Sent by Express to any address on receipt of price. Sold by all druggists everywhere.

THE GREAT

INDIAN MEDICINE,

COMPOUNDED FROM

ROOTS, HERBS AND LEAVES.

CHEROKEE CURE.

An unfailing cure for Spermatorrhœa, Seminal Weakness, Nocturnal Emissions, and all diseases resulting from Solitary Habits such as Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Nervous Irritability, Dyspepsia, Palpitation of the Heart, Pale Countenance, Insanity, Consumption, and all the direful complaints caused by departing from the path of nature.

☞ This medicine is a simple vegetable extract and one on which all can rely, as it has been used in our practice for many years, and with thousands treated it has not failed in a single instance. Its curative powers have been sufficient to gain victory over the most stubborn cases.

☞ To those who have long suffered with their constitution, until they think themselves beyond the reach of medical aid, we would say, *Despair not!* The medicine we will recommend is sure to health and vigor, and after all quack doctors have failed!

☞ For full particulars, get a circular from any drug store in the country, or write the proprietors, who will mail free to any one desiring the same, a full treatment in pamphlet form.

☞ Price, $2 per bottle or three bottles for $5, and forwarded by express to all parts of the world.

Sold by all respectable druggists everywhere.

DR. WRIGHT'S

REJUVENATING ELIXIR.

OR ESSENCE OF LIFE.

Prepared from Pure Vegetable Extracts,

Containing nothing injurious to the most delicate.

The Rejuvenating Elixir is the result of modern discoveries in the vegetable kingdom, for being an entirely new and abstract method of cure, irrespective of all the old and worn-out systems.

This new method has been tested by the most eminent medical men of the day, and by them pronounced to be one of the greatest medical discoveries of the age.

One bottle will cure General Debility.

A few doses cure Hysterics in females.

One bottle cures Palpitation of the Heart.

A few doses restore the organs of generation.

From one to three bottles restore the manliness and full vigor of youth.

A few doses restore the appetite.

Three bottles cure the worst case of Impotency.

A few doses cure the low spirited.

One bottle restores nervous debility.

A few doses bring the rose to the cheek.

This medicine restores to manly vigor and robust health the poor debilitated, broken-down and despairing devotee of sensual pleasure.

The ladies enervated youth, the over-tasked man of business, the victim of nervous prostration, the individual suffering from general debility, or from weakness of a single organ, will all find immediate and permanent relief by the use of the Rejuvenating Elixir of Life.

☞ Price, $2 per bottle, or three bottles for $5, and forwarded by express, on receipt of money, to all parts of the world.

Sold by all druggists everywhere.

THE MAGEE

COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and will be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in the city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"

VENTILATING & ANTI-WARMING

FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would invite those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pots is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing the requisite qualities of our former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the immense volume of air brought into the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the best in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cold can be made to consume the gases of the coal, as they pass off with a large amount of the best generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated just so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq., Aaron H. Hill, Charles H. Mendum, Henry F. Wendell, John Sise, and others.

RYE, N.H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of DR. SWAYNE'S PANACEA, and several bottles of his Bunker Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed the full cures effected by its use. I have acted as agent for the sale of it. JOSIAH JENNESS.
PORTSMOUTH, April 21st, 1862.
I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOW.
From ELDER I CHESLEY, *Lee, May 31, 1841*
DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a long time to her room, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your Panacea, and BUNKER WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be obtained for the disease above named." ISRAEL CHESLEY
☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not answer the purpose for which it is recommended. All orders directed to DR. S. SWETT, No. 7 High street, Portsmouth, N. H., promptly attended to. may26

Ayer's Cathartic Pills
Are the most perfect purgative which we are able to produce or which we think has ever yet been made by anybody. Their effects have abundantly shown to the community that they excel the ordinary medicines in use. They are safe and pleasant to take, but powerful to cure. Their generating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors of which most of us grow distempered, stimulate sluggish or disordered organs into their natural action, and impart a healthy tone with strength to the whole system. Not only do they cure the every-day complaints of everybody, but also formidable and dangerous diseases. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take, and, being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief, were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of our remedies, while others have sent us the assurance of their conviction that our preparations contribute immensely to the relief of our afflicted, suffering fellow men.
The Agents below named are pleased to furnish gratis our American Almanac, containing directions for their use, and certificates of their cures of the following complaints:
Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache, Sick Headache, Foul stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and pain arising therefrom, Flatulency, Loss of appetite, all Diseases that require an evacuant medicine. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstructions of its functions.
Do not be put off by unprincipled dealers with other preparations which they make more profit on. Demand AYER's and take no others. The sick want the best aid there is for them, and they should have it.
Prepared by J. C. AYER & Co., Lowell, Mass., and sold by Brackett Hutchings, J. H. Thacher, W. R. Preston, David Kimball, and all druggists. jy25 thtuw 2m 7s

American and Foreign Patents.
R. H. EDDY.
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the act of 1837.)
76 State street, opposite Kilby street,
Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove this. None is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay thereby, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their application into store for them at as early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is now pending. Such unusual success is proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.
During eight months, the subscriber, in course of his business, made on *twice rejected* applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.

The Old Established Hospital.
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private disease, at his old established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World) of obtaining the select as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and vigorous cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, we particularly induce the counsel of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the married Life, are notified that in consulting Dr. J. Teller, they will find a friend to counsle and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and manhappy. The reader is our witness how sad the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures. Dr. J. KILLER's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete treatise on Midwifery. It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. Sent in sealed letter envelopes, for stamps, inclosed, will secure a copy by return mail. Dr TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
DR. TELLER still remains the only Agency in America, for the sale of Dr. Michon's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
CAUTION.—Married ladies in certain delicate situations should not use these Pills, as the accompanying directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A.M. to 8 P.M., and on Sundays from 9 A.M. to 2 P.M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing the money. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No Female Boys employed. Notice this, address all letters to

VERNATELLA.
Warranted to make the Soles of Boots and Shoes water and dampness proof, and wear one-third longer.
VERNATELLA
is a preparation from Copper, having no grease, linseed oil, or anything of the kind, and when the soles are once saturated with it, water can no more get through them than through copper itself. **Price 25 Cents Per Bottle,**
at retail everywhere.
But its cost to the purchaser is really NOTHING, as it makes the soles wear enough longer to more than pay for it, leaving as a net gain the making of Warm and Dampness Proof, and the preservation thereby of that priceless gem, the health.
☞ LADIES, READ THIS! ☜
SAVE YOUR HEALTH.
Use Vernatella on the Soles of your Shoes. It makes them water proof and thereby protects your feet from dampness, for the ground is always more or less moist, either from rain or the morning and evening dew.

Portsmouth, N. H.

TUESDAY, AUGUST 30, 1864.

THE REBELLION.

Gen. Washburn compliments his officers and men and the Memphis militia for their conduct in defence of the city against the rebel forces under Forrest. Our loss in the raid on the city is estimated at 15 killed, 50 wounded, and 140 missing, the latter including 69 citizens. The raiders are said to have captured 229 prisoners. The rebel loss at Hernando, on Sunday night, was 50 killed, 190 wounded, and 30 missing.

Gen. Sherman is reported to be making a movement that would place him in the rear of Gen. Hood's position.

Our total loss in the fight of Thursday for the possession of the Weldon Railroad, did not exceed 2000, while that of the enemy is supposed to be about 5000. We still hold about 4 miles of the road, and the portion abandoned by the 2d corps was effectually destroyed.

Reports from Duvall's Bluff, Ark., say that Shelby and Marmaduke made an attack on Pine Bluff, and that reinforcements had been sent to the latter place from Little Rock. Nothing definite is known.

On Friday afternoon Gen. Crook had some brisk fighting with the rebels in Gen. Sheridan's front, compelling them to retreat in great disorder to their earthworks. Gen. Averill also had a spirited fight at Williamsport with two regiments of rebel cavalry and some infantry, who were attempting to cross, and drove them back.

Gen. Sheridan reports that the rebels left his front on Friday night, and appear to be retreating from the Shenandoah Valley. Lee wants them. A special dispatch says Gen. Sheridan is advancing, and a battle is imminent.

Richmond papers of Saturday announce that Fort Morgan, Mobile harbor, is in our possession. Atlanta papers of the same day say the fort surrendered with all its garrison, including Gen. Paige; also guns, munitions of war, &c.

By Telegraph.

WAR DEPARTMENT,
WASHINGTON, Aug. 29th.

To Maj. Gen. Dix:

The capture of Fort Morgan is fully confirmed by dispatches from Gen. Grant and Gen. Sherman, who derive their information from Richmond and Mobile papers.

E. M. STANTON, Sec. of War.

NEW HAMPSHIRE ITEMS.

—— The 3d regiment, 180 men, returned to Concord on Sunday.

—— The First National Bank of Derry was organized last week. Capital, $60,000.

—— Claremont boasts its mineral spring —strong chalybeate water with tonic properties—recently discovered.

—— Capt. Wm. G. Andrews, 1st N. H. Sharpshooters, was wounded in the left arm on the 16th inst.

—— Maj. Charles Foster, 11th Iowa regiment, a native of this State, and a graduate of Dartmouth College, died a few days since at Cincinnati.

—— Orders have been issued to Edward H. Fletcher, Captain of the Nutt Head Zouaves, of Manchester, to fill up the company to one hundred men for the 18th regiment.

—— Lieut. Col. B. T. Hutchins, of the 1st Cavalry, who has been very ill for some weeks at the City Point Hospital, has recovered sufficiently to come North, and is at present at Long Branch.

—— Mr. Henry Griffin while picking berries in Antrim was attacked by two ruffians who attempted to take his money.—He knocked one down and had a severe struggle with the other, but succeeded in extricating himself. Before he could give an alarm the villians fled.

—— The Concord Statesman thinks that the expression, "with perfect impunity and great boldness," originated with Hon. Chas. H. Peaslee, being first found in a petition drawn up by him, asking for the appointment of a secret inspector of the revenue, to be stationed in Concord. The petition set forth that, since the completion of the railroad to Concord the facilities for defrauding the revenue were greatly increased; that in fact smuggling was carried on "with perfect impunity and great boldness."

A BIG LOAN.—The Boston Journal's dispatch states that propositions have been received by the Secretary of State from a prominent banker of Hamburg, offering to take a loan of ONE THOUSAND MILLIONS at 5 per cent.—the loan to run seventy-five years, interest payable semi-annually in coin, to be disposed of on the continent of Europe on the principle of premium loans.—The banker proposes to pay the loan as follows: Seven millions in U. S. bonds, two millions in U. S. currency, and one hundred millions in coin. The matter has been referred to Secretary Fessenden.

— A Halifax dispatch of Saturday says there is no confirmation of the reported destruction of 22 fishing vessels by the Tallahassee. The report is supposed to be a hoax.

THE SEVEN-THIRTIES — WHAT ARE THEY?—We trust that a large portion of our readers have pondered the Appeal of Mr. Fessenden, our new Secretary of the Treasury. The purport of it is that the People of the United States, acting as a body through their agent the Government, wish individuals to lend them two hundred millions of dollars for three years, at seven and three-tenths per cent. annual interest, payable every six months. For this they offer Treasury Notes—that is, in reality, notes drawn and endorsed by every man in the country. The loan is wanted for a great national purpose, to effect which every man, unless he be a traitor at heart if not in act, is solemnly pledged.

The Appeal is addressed not merely to a few great capitalists, but also to the many whose aggregate means constitute the mass of the wealth of the land. The notes upon which this loan is asked are from $50 upward. Every man who has fifty dollars can take part in this loan. Apart from patriotism and the duty which all owe their country, no investment is so desirable as this.

It is secure. Every dollar of every man's property is pledged for the punctual payment of the interest, and of the debt when due. The security is increasing in value. For some years before the war we were earning 1000 millions a year more than we spent. During the three years of the war, owing to the high prices and constant demand for labor, we have earned more than ever before. No man who could or would work has been idle; and, except for the war, we have spent less than before. The total valuation of the property of the United States, according to the census of 1860, was $16,159,000,000, of which $10,957,448,956 was in the Loyal States. This valuation, according to the usual rule of assessment, was not more than two-thirds of the actual cash value of the property. The increase of property in the Loyal States during the last ten years was over 126 per cent., or an average of 12 6-10 per cent. per annum. In three years of the war we of the United States have certainly earned 3000 millions more than we have spent apart from the war. The cost of the war may be set down at 2000 millions. Deducting this from our net earnings, the People who are security for this loan are 1000 millions richer to-day than they were when the war broke out.

No other investment can be so easily convertible. The man who has a Treasury note for $50, or $100, or $1000, can turn it into money more readily, and upon better terms, than if it were invested upon bond and mortgage, or in railroad stocks.

The interest offered is higher than can be realized from any other safe and convertible investment. It is, moreover, readily collectable when due. To each note are affixed five "coupons," or *interest tickets*, due at the expiration of each successive half-year. The holder of a note has simply to cut off one of these coupons, present it at the nearest bank or Government Agency, and receive his interest; the note itself need not be presented at all. Or a coupon thus payable will everywhere be equivalent, when due, to money.

Thus, while this loan presents great advantages to large capitalists, it offers special inducements to those who wish to make a safe and profitable investment of small saving. It is in every way the best Savings' Bank; for every institution of this kind must invest its deposits profitably in order to pay interest and expenses. They will invest largely in this loan, as the best investment. But from the gross interest they receive they must deduct largely for the expenses of the Bank. Their usual rate of interest allowed to depositors is 5 per cent. upon sums over $500. The person who invests directly with Government will receive almost 50 per cent. more. Thus the man who deposits $1000 in a private Savings' Bank receives $50 a year interest; if he deposits the same sum in this National Savings' Bank he receives $73. For those who wish to find a safe, convenient and profitable means of investing the surplus earnings which they have reserved for their old age or for the benefit of their children, there is nothing which presents so many advantages as this National Loan.

It is convertible into a 5 per cent. gold-bearing bond. At the expiration of three years a holder of the notes of the 7-30 loan has the option of accepting payment in full or of funding his notes in a 5 per cent. gold interest bond, the principal payable in not less than five nor more than twenty years from its date, as the Government may elect. For six months past, these bonds have ranged at an average premium of about 8 per cent. in the New York market, and have sold at 109 to-day (Aug. 12th), thus making the real rate of interest over 10 per cent.; and besides, to make the inducement even greater, Congress by special act exempts its Treasury notes from State and municipal taxation. Could Shylock ask more? Was patriotism ever so liberally rewarded?—*Harper's Magazine.*

MILLOCHAU'S PATENT PAINT OIL is now extensively used as a substitute for Linseed Oil. It costs very much less, and gives entire satisfaction wherever tried. Orders promptly supplied by CRAFTS & WILLIAMS, 6 and 7 Commercial Wharf, Boston.

WAKING UP.—It is understood that Gov. Curtin of Pennsylvania has decided to call out four or five thousand of the State Guard immediately. They are to be established on a war footing, and placed along the border for State defence. One regiment of cavalry will also be raised immediately. In the meantime the whole force of fifteen thousand, authorized by the recent act of Assembly is, to be organized, subject to orders from the Commander-in-chief, to move at any moment for the defence of the State. The quarter-master general has been sent to Washington to solicit arms and equipments from the general government for the new levies. Should the general government refuse to accede to the request, the State will purchase the necessary arms and clothing.

☞ Four of the prisoners recently exchanged at Charleston have arrived at New York, bearing a memorial to the President, setting forth the condition of the Union prisoners in Georgia. The memorial represents that these prisoners are subjected to the most terrible sufferings for the want of food, clothing and shelter. At Andersonville, Ga., thirty-five thousand (a Richmond paper admits that there are 38,000) are confined in a field of some thirty acres, enclosed by a board fence, heavily guarded. About one-third have various kinds of indifferent shelter; but upwards of thirty thousand are wholly without shelter, or even a shade of any kind, and are exposed to the storms and rains, the cold dews of the night, and the fierce heat of the tropical sun by day. From scanty rations, insufficient clothing and the exposure to sun and storm it is not to be wondered at the deaths average one hundred daily. The memorialists earnestly appeal to the President to relieve these unfortunate men by effecting an exchange of prisoners with the Confederate authorities.

☞ A paper in New England, esteemed both loyal and able, has this sentence in an editorial:

Suppose you quote Jeff. Davis' words still it would not convince us, any more than Mr. Lincoln's words, that he will receive no propositions for peace without an abandonment of slavery, convinces us that this is the only ground on which the North will settle.

It it would not be asking too much, will that paper, or any other, please to state when or where President Lincoln said or wrote the above words?

In his dispatch "to whom it may concern," he says that he *will* entertain such a proposition, but he does *not say* that he will listen to no other. And we believe he has never said it.

At the same time it is the opinion of thousands of our people, and perhaps of a large majority in the free States, that no *real peace* can be enjoyed by the United States until the slave power is destroyed by the extinction of slavery.

— The managers of the Chicago Convention invited Bishop Hopkins to open their Convention with prayer. This is significant. Mr. H. takes the extreme Southern view, defends slavery as a divine institution, and secession as a right on the part of the South, and is, in heart and feeling, in everything in fact but the overt act, as much a rebel as Jeff. Davis himself. Why is he invited to do the praying, if not because the managers are in sympathy, with him?

— Coal dust is now used for fuel. It is cleansed of its impurities, eight parts of coal tar are added to ninety-two parts of the dust. It is used for heating locomotives.

— The Calendar, the organ of Connecticut Episcopalianism, has a writer who maintains the unlawfulness of allowing any social intercourse with the ministers of other denominations.

— Provost Marshal General Fry has decided that when an enrolled man puts an alien substitute into the navy for one year, he is exempt for that period, and the substitute counts on the town's quota.

"A Wonderful Discovery."

DR. TEBBETTS' "PHYSIOLOGICAL HAIR REGENERATOR" is compounded in strict accordance with the well known laws of Physiology and modern vegetable Chemistry. It is not a "Dye," and will not stain a particle. It will "REMOVE GRAY HAIR" in all cases to its original color. It promotes a luxuriant growth of new HAIR in all cases on BALD HEADS, when the glands or roots of the hair are not completely disorganized. It prevents the hair from falling off and removes all dandruff, heat, humors and itching from the scalp. It keeps the hair soft, moist and perfectly healthy and gives it a glossy and beautiful appearance. It is highly perfumed, and as a Dressing it has no superior. The "REGENERATOR" is warranted to produce the above results in all cases, if not the money to be refunded. With it every "GRAY HEAD" in New England can be restored in less than sixty days.

Committee for obtaining credits of enlisted men in the Navy.

☞ Asst. Surgeon C. H. White, detached from the Portsmouth Navy Yard, has been ordered to the Naval Academy.

Com. H. K. Thatcher has been detached from the Vermont and ordered to command the Colorado. The following named officers have also been ordered to the Colorado:—Lieut. Commander R. L. May; Lieuts. Mortimer L. Johnson and Henry B. Roberts; Boatswain, Chas. Fisher; Gunner, John D. Fletcher; Carpenter, William W. W. Dwier; Chief Engineer G. B. N. Tower, 2d Assistant Engineers H. M. Quig and George H. Riley, 3d Assistant Engineers M. A. Southerland, Joseph W. Laville and F. W. Bissett; Sailmaker, John King.

Actiog Assistant Paymaster Frank W. Hackett has been detached from the U. S. steamer Miami, and is on his way home.

☞ High bounties do not seem to do "Jack" much more good than the various old ways of rewarding his hard life in the service of his country. We hear of one man who recently shipped in the navy, receiving $1000 bounty, of which he gave his wife $975. On Saturday last she went on board the receiving ship to see him, when he handed her a roll of bills amounting to $1200 to take home, the result of numerous "little games of draw." All very well for that man's family, but how many were bluffed out of their wages to secure such a result?

☞ We are requested by Messrs. Job Jenness & Son, of the Surf House, Rye Beach, to state that the house will be closed for the season, on and after Sept. 5th, Monday next.

The Atlantic House, we believe, remains open till about the 18th Sept. Both houses have done a good business, this season. Among the guests at the Atlantic, Saturday, was Cyrus W. Field, Esq., of telegraphic celebrity.

☞ Rev. George D. Henderson, of this city, for several years a resident of Kansas, and during the past four years, Post Chaplain at Fort Riley, has been appointed Chaplain in the U. S. Navy, and reports to Admiral Lee of the blockading squadron, at Hampton Roads. To fill three vacancies of Chaplains, it is said there were upwards of nine hundred applicants.

☞ Sixteen seamen deserted from the U. S. steamer Colorado at the Navy Yard on Saturday night. One of them was recaptured by the Police on Sunday night, just as he was about to leave by the freight train on the Eastern railroad.

☞ Fasten your doors!—We have among us some of the very lowest order of thieves, fellows who have neither the brains to conceive nor the nerve to carry out a decent burglary, but a miserable set of area-sneaks, clothes-line thieves and gutter snipes. One night last week they entered the kitchen window of one of our hotels and carried off a quantity of culinary utensils, clothing, &c. The lady of the house said she "would not have thought anything of it if those new coffee pots had been paid for."

A burglar was heard moving about the cellar of a dwelling house on Mason's hill, shortly before midnight Sunday, and measures were taken to capture him—two watchmen, who really happened to be in the vicinity, being drafted into the service. Instead, however, of charging at once on the enemy's lines, the watchmen waited for reinforcements; and when they at length arrived, it was ascertained that by a brilliant flanking movement the burglar had escaped.

POLICE COURT, Monday.—John Leavitt, for being drunk, was fined $3 and costs $3.86, which he paid.

☞ Hon. Edward Everett passed Sunday in this city.

☞ Browne & Pike's Dramatic Company continue to attract large and delighted audiences at the Temple. An excellent bill is presented this evening. See advertisement.

☞ "Passing over the Eastern Railroad recently, (the Newburyport Herald says) we could not help noticing the improvement in vegetation during the past month. The corn is looking finely and will yield a good crop. Late potatoes will be plenty, and the fall feed seldom promised better, while the hay crop that has been gathered is superior in quality and large in quantity. Apples generally speaking will be rather poor in quality, but a fair yield. We missed the familiar faces of conductors Cram and Towle. The former is now recovering from a long illness, his place having been supplied by Mr. West, who has made himself a favorite with the travelling public. Conductor Towle is off recruiting his health. We hope he will get that enjoyment from others, the public have when travelling with him."

— Gold 235 3-8.

A powerful 3-funnelled steamer anchored of Foynes, Ireland, on (the 13th, and sailed again suddenly on Saturday evening. She is supposed to be a blockade runner. A warlike party with one of the Alabama's Lieutenants landed. It is believed she is to carry an immense supply of clothing to the Confederates.

THE CHICAGO CONVENTION opened on Monday, being called to order by Augustus Belmont. Ex-Gov. Bigler was temporary chairman. McClellan almost certainly will be nominated to-day. Ohio in caucus votes 16 for him, 26 scattering; Missouri 13 for McClellan, 9 scat.; Indiana 18 for McClellan, 6 scat.; Illinois 22 for McClellan, 10 scat.; New York 53 for McClellan, 10 scat.

ATTENTION, SOLDIERS!—Protect your health!—No sensible man will leave the city without a supply of Holloway's Pills and Ointment. For Wounds, Bruises, Sores, Fevers and Dysentery, these medicines are the best in the world. Every English and French soldier uses them.

If the reader of this "notice" cannot get a box of Pills or Ointment from the drug store in his place, let him write to me, 80 Maiden Lane, enclosing the amount, and I will mail a box free of expense. Many dealers will not keep my medicines on hand because they cannot make as much profit as on other persons' make. 35 cents, 88 cents, and $1.40 per box or pot. 225

DEATHS.

In this city, Sunday morning, Aug. 28, Mr. WILLIAM N. MARR, aged 48 years, of Charlestown, Mass.,—son in-law of the late Henry Nowell. [Maine and Mass. papers please copy.]

☞ Funeral from No. 2 Dover Street, this (Tuesday) afternoon at 2½ o'clock.

In New Orleans, La., Aug. 15 of yellow fever, Carpenter OLIVER T. STIMSON, U. S. N., aged 31 years, son of Charles Stimson, Esq., of Kittery. Mr. S. was attached to Adm. Farragut's squadron, as Fleet Carpenter, the duties of which position called him to be on shore much of the time, to look after the fitting out of vessels, &c.

In South Berwick, Me., Aug. 26, at the residence of his father-in-law, John P. Lord, THEODORE A. ROLLINS, son of John A. Rollins, of Wellesly, Mass.

— A gentleman in one of the rural cities of New York, last winter, insured his house, furniture and "wearing apparel therein." A short time ago, he demanded one thousand dollars of the Insurance Office for "wearing apparel," which had been consumed by fire while on the body of his wife, who was burned to death by the ignition of her clothing by fire from the stove.

"After all," said Louis Napoléon, Emperor of the French, to Lord Elgin, guest and viceroy elect, "I think I have done something since I saw you in London; Russia defeated, Italy revived, Paris rebuilt, the revolution bridled, something has been accomplished." 'Your Majesty,' said the polite Scotchman—we tell the story as it was told to us, the scene was at the dinner at St. Cloud—"forgets the greatest of your achievements." "Eh! what is that—the greatest?" "Your Majesty has made the English a military nation."—*Spectator.*

— The body of a colored man was submitted to the embalming process in New Orleans, and an incision was making in the brachial artery, when the man proved to be alive. Two days after he was at work as usual.

— Work has ceased on the light draft monitors now building at New York, and they are to undergo a radical change from their original design. The only vessel of this class yet launched was a failure.

— The State Department has been officially informed that the Governor of Canada has prohibited the exportation of anthracite coal from that province in any manner or way whatever.

U. S. 7-30 LOAN.

The Secretary of the Treasury gives notice that subscriptions will be received for Coupon Treasury Notes, payable three years from Aug. 15th, 1864, with semi-annual interest at the rate of seven and three-tenths per cent. per annum,—principal and interest both to be paid in lawful money.

These notes will be convertible at the option of the holder at maturity, into six per cent. gold bearing bonds, payable not less than five nor more than twenty years from their date, as the Government may elect. They will be issued in denominations of $50, $100, $500, $1,000 and $5,000, and all subscriptions must be for fifty dollars or some multiple of fifty dollars.

The notes will be transmitted to the owners free of transportation charges as soon after the receipt of the original Certificates of Deposit as they can be prepared.

As the notes draw interest from August 15, persons making deposits subsequent to that date must pay the interest accrued from date of note to date of deposit.

Parties depositing twenty-five thousand dollars and upwards for these notes at any one time will be allowed a commission of one-quarter of one per cent., which will be paid by the Treasury Department upon the receipt of a bill for the amount, certified to by the officer with whom the deposit was made. No deductions for commissions must be made from the deposits.

Special Advantages of This Loan.

IT IS A NATIONAL SAVINGS BANK, offering a higher rate of interest than any other, and *the best security.* Any savings bank which pays its depositors in U. S. Notes, considers that it is paying in the best circulating medium of the country, and it *cannot* pay in anything better, for its own assets are either in government securities or in notes or bonds payable in government paper.

It is equally convenient as a temporary or permanent investment. The notes can always be sold for within a fraction of their face and accumulated interest, and are the best security with banks as collaterals for discount.

Convertible into a 6 per ct. 5-20 Gold Bond

In addition to the very liberal interest on the notes for three years, this privilege of conversion is now worth about three per cent. per annum, for the current rate for 5-20 Bonds is not less than *nine per cent. premium*, and before the war the premium on six per cent. U. S. stocks was over twenty per cent. It will be seen that the actual profit on this loan, at the present market rate, is not less than ten per cent. per annum.

Its Exemption from State or Municipal Taxation.

But aside from all the advantages we have enumerated, a special act of Congress *exempts all bonds and Treasury notes from local taxation.* On the average, this exemption is worth about two per cent. per annum, according to the rate of taxation in different parts of the country.

It is believed that no securities offer so great inducements to lenders as those issued by the Government. In all other forms of indebtedness, the faith or ability of private parties, or stock companies, or separate communities, only is pledged for payment, while the whole property of the country is held to secure the discharge of all the obligations of the United States.

While the Government offers the most liberal terms for its loans, it believes that the very strongest appeal will be to the loyalty and patriotism of the people.

SUBSCRIPTIONS WILL BE RECEIVED by the Treasurer of the United States, at Washington, the several Assistant Treasurers and designated Depositaries, and by the

All Furnaces, Stoves and Funnels should be thoroughly cleaned out and put in order, as soon as fires are done being made in them. If allowed to remain filled with ashes and soot through the summer, they will decay very rapidly, and useless expense be incurred.

A full supply of Linings and Repair Pieces constantly on hand, and all orders attended to with dispatch. E. A. STEVENS.

Facts for the People.

The enormous rise in price of Iron, Coal and Labor, has caused manufacturers to advance the price of STOVES and Castings several times since the war began; and it is now arranged so make a general advance of 25 to 50 per cent. this season.

We have not yet raised the price of Stoves in proportion to their increased cost, but shall be compelled to do so very shortly. Persons who expect to purchase anything in the Stove and Furnace line within a year or two, will save money by doing so at once. The price of a Stove is not so much an object, now, as its capacity and the cost of operating it. All things considered, there is no Stove equal to

THE MODEL COOK.

IT IS, IN FACT,

The Best Stove Out,

for economy, convenience and dispatch.

Many people think it best to use an old stove as long as possible, but it is far better to throw it away and purchase a MODEL COOK, than to keep it at the present high price of fuel.

One of our shrewdest citizens who purchased a MODEL COOK STOVE a year since, says he has saved more than its cost already.

A careful, prudent farmer purchased one, and after it had been in operation some days his son came into the store and said, "something was wrong at their house;" his father and himself used wood off the same pile, he burned three baskets full a day, and his father only one! We sold him a stove before he left, and there has been no complaint since.

These Stoves are in use in many hotels and boarding houses, and in hundreds of private families in the city and vicinity, and give the best of satisfaction.

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never yet failed to cure the most alarming cases of

GONORRHŒA AND GLEET,

Beheath his treatment all the horrors of venereal and impure blood, Impotency, Scrofula, Gonorrhœa, Ulcers, pain and distress in the region of prostration, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors, Syphilis, Swellings, and the long train of horrible symptoms attending this class of diseases, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr D., devotes a great part of his time to the treatment of these cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Nervous debility, Lassitude, Loss of energy, Loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion to society, self-distrust, Nervous Irritability, are among the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be boarded and treated at a low price, and charges for board must with pleasant rooms, and charges for board must be made.

DR. S. O. RICHARDSON'S
BLOOD ROOT ELIXIR

Has been thoroughly tested and proved in his medical practice for a period of THIRTY YEARS, and is now presented to the public as an EXTERNAL

COSTIVENESS,

and the best remedy ever prepared for

Diseases of the Liver,

SCROFULA,

All Humors and Impurities of the Blood, and Diseases of the Skin.

The preparing and combining the Blood Root Elixir, is attended with results to medical science next in importance to the invention of the Ether Surgery. Roots and Herbs, in themselves painless, and disposable, are, by a new and scientific process of extracting, in vapor, without OPERATION, MORE EFFECTIVE IN THE OPERATION, and exclusive of the griping and distressing effects of the griping and distressing pain which attends the action of all other purgative medicine. They are also more EFFECTIVE, HIGHLY PLEASANT AND AGREEABLE TO THE TASTE.

and by their peculiar combination work so perfectly in HARMONY WITH NATURE that no supplement remedies will follow its operation. It also possesses

A Diffusive and Alterative Effect,

which can only be attained by medicine in a fluid state. There are two elements in purgative medicine.

The hard and compact manner in which pills are prepared renders them indigestible—and are prepared through the system, and when taken are *forced* through the system in HALF DIGESTED MASS, the only PARTIAL ACTION, therefore causing irritation and pain to the parts connected with their passage.

One pill dissolved, produces more effect than five in a more medicinal and physical effect than five in a crude state.

The BLOOD ROOT ELIXIR has no partial action upon the bowels, but is equally diffused throughout the whole circulation of the blood, imparting a healthy and invigorating action to the STOMACH AND BOWELS, LIVER, LUNGS, KIDNEYS, and generally stimulating dormant and torpid secretions through the whole system.

A single dose will produce a cheerful and invigorating COMMOTION, which will insure the patient with confidence and assurance of IMMEDIATE RELIEF. A continuance for a short period will DRIVE the obnoxious humors from the surface of the skin, and relieve or check SCROFULOUS AFFECTIONS—and by thus purifying and strengthening the system, it removes the most healthful

CAUSE OF CONSUMPTION.

It incites the various organs of the system to act therefore, and counteracting the causes which induce RHEUMATISM AND NEURALGIA, HEADACHE, LOSS OF APPETITE, DYSPEPSIA, WEAKNESS, and all the various diseases which arise from a derangement of the Stomach and Bowels, and restricted circulation of the Blood.

COUGHS and COLDS, in their early stages, will immediately yield to the effect of the Elixir.

The BLOOD ROOT ELIXIR contains no mineral, no poisonous botanical element, no excitant, but stimulates the secretions by its mild diffusive action. It is as effective and painless application, has a decided, salutary action upon the Liver, and they has been so medicine prepared for common family use which possesses equal merit.

Travellers, both by sea and land, will find the Elixir a complete antidote for the evils which they are obliged to endure from a change of climate, or water, or of diet.

See pamphlet around each bottle for a history of the Elixir.

The proprietor of the Blood Root Elixir (Dr. S. O. Richardson), has been long and favorably known to the public by his celebrated SHERRY WINE BITTERS, the best tonic medicine ever discovered, and which has been in use over thirty years. He is a graduate of the New Hampshire Medical College, and many years associate member of the Massachusetts Medical Society, and has made the study of medicine his profession since 1822.

And so fully convinced is the Doctor of the wonderful curative effects of his Blood Root Elixir, that he hereby offers to each and every person who will use one bottle of a bottle of Elixir and not be convinced of its good effect therefrom, to refund to said person the amount which he paid for the same, by returning the village bottle to his office.

Price $1.50 per Bottle.

Sold in Portsmouth by J. H. THACHER, opposite the Post Office, and No. 12 Market Square, and by Dealers in Medicine generally, and at Dr. Richardson's Office, No. 21 Hanover street, Boston. eod3m

SPEER'S

SAMBUCI WINE,

PURE AND FOUR YEARS OLD.

OF CHOICE OPORTO FRUIT,

For Physician's Use, Females, Weakly Persons and Invalids.

AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs; very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mere or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by physicians and chemists as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefitting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, it contains no admixture of spirits or other liquors, and is admired for its rich peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

☞ None genuine unless the signature of "ALFRED SPEER, Passaic, N. J." is over the cork of each bottle.

Boston.

Would most respectfully invite the attention and examination of all Grocers, Druggists, Apothecaries and Private Families, desiring to sell or use STRICTLY PURE

Liquors, Wines, Cordials or Bitters,

to the list of choice goods enumerated below, which are constantly on hand in large quantities at his large and spacious store.

Wine Store and Bottling Establishment,

99 Washington street, Boston.

First on the list, as a reliable pure stimulant, stands the celebrated and widely known

Golden Sheaf Bourbon Whiskey,

made from Wheat, Rye and Corn, warranted for five years old. Put up in unique style, each bottle is a paper box, in case of a dozen bottles, in the large and handsome sales of which convince the proprietor that no extended advertisement is needed to extol its real merits. It will recommend itself to all.

Golden Sheaf Cordial.

A delightful and healthful beverage, aromatic, with a rich ginger cordial, made from the pure Golden Sheaf Whiskey.

Golden Sheaf Bitters.

The best Tonic Bitter ever offered to the public. Mingled with the rich flavor of the Whiskey, is a number of other ingredients for restoring the appetite and imparting life and vigor to the whole system.

Golden Sheaf Punch.

Made from fresh ripe lemons, and other articles, combined as a whole into a fine rich

Bourbon Whiskey Punch.

All the above put up full strength of the whiskey, and in cases of one dozen each. These articles improve by age, and we expose of climate can affect them.

JOHN AND ROBERT DUNSTER'S

CHEROKEE REMEDY
—AND—
CHEROKEE INJECTION,

Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Inflammation of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Strictures, Gravel, Gleet, Diabetes, and is positively recommended in these cases of Female Weakness or Fluor Albus, which it invariably cures when all the old and mucous medicines have failed.

It is prepared in a highly concentrated form, the dose only being from one to two fluid ounces, in the most obstinate cases of Gonorrhœa, Gleet, Fluor Albus or Whites, its effects are *by long, soothing and demulcent*, instead of stimulating, and consequently, instead of the burning and almost unendurable pain that is experienced with nearly all the other specifics.

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write to us and we will mail free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.

Price—CHEROKEE INJECTION, $2 per bottle, or three bottles for $5.

THE MAGEE

COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any articles can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove in use, as the ashes are prevented from escaping into the room, and the shovelling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"

VENTILATING & AIR WARMING

FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of its air which comes in contact with the fire-pots is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objections raised by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The occasion of heat escaping into the air, pass out into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, saving at least 30 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the dome can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used.

We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world.—

Our recommend of the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Sise, and others.

ESTABLISHED 1852. PORTSMOUTH, N. H. WEDNESDAY, AUGUST 31, 1864. VOL. XXV. NO. 52.

Morning Chronicle.

FOREIGN.—The London Times expresses astonishment at the manner in which Federal bonds are absorbed at Frankfort, adding that each successive failure is regarded by the existing bondholders with gratification instead of dismay.

The Confederate loan advanced three cents on Grant's repulse before Petersburg, the latest quotations being 77 to 79.

The Federal sloop-of-war Sacramento arrived at Plymouth on the 16th. She ran down the Norwegian brig Ceres off Start Point, crew saved. The Sacramento was uninjured. The Federal frigate Niagara has sailed from Lisbon. Her destination is unknown. An unexampled heat prevailed in Portugal, and crops and vines suffer exceedingly.

The pirate Florida destroyed the ship "Indian," of Brazil, bound from New York for California. She took $70,000 from her.

— Judson Avery of Jefferson, Me., harvested about twenty-five tons of hay this season, in eighteen days, without the aid of a mowing machine, and with no other assistance than that of his daughters, 14 and 18 years old.

— Establishments on the New York streets, where the weaker sex can get their "bitters" in a quick way when out shopping, are said to be indicated by a placard bearing the words, "If you don't see what you want, ask for it."

— There lately died in Buenos Ayres an old man of seventy-eight years, whose will contained a clause leaving ten thousand cigars for those who might attend his funeral. He also expressed his desire that his friends should not leave the house of mourning without drinking to his memory all the wine left in his cellar.

The late drought, it is desired, may end as well as that of 1764, a hundred years ago, when, as recorded in Parson Smith's Journal, in July there was "great drought," which in August, "still continued." But, August 18, he records as a "marvellous growing time." Sept. 21, "grass green." Oct. 16, "grass better than in the spring."

RYE, N. H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for nine years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands so much. A large sum had been expended in the most celebrated physicians, for Sarsaparilla, Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of Dr. Swett's Panacea and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than five years ago. No other medicine can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who have affirmed to me that many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

PORTSMOUTH, April 21st, 1863.

I have for several years been afflicted with Piles as my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of Dr. S. SWETT'S PANACEA, which fully cured me, and I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.

From REUBEN I. CHESLEY, *Esq., May* 31, 1841

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the diseases above named." ISRAEL CHESLEY

☞ Any one returning the remainder of a bottle of DR. SWETT'S MEDICINES shall have pay for it, if it do not agree with his case, if not worth the price. All orders directed to DR. S. SWETT, No. 7 High street, Portsmouth, N. H., promptly attended to. may26

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837,)
76 State street, opposite Kilby street,
Boston.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Reissues, Specifications, Bonds Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not unexcelled by any other, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part, I feel bound to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *nine* rejected applications SIXTEEN AMENDS, EVERY ONE of them was decided *in his favor*, by the Commissioner of Patents. R. H. EDDY.

The Old Established Hospital.
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their health and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of the subject will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.

A book for everybody.—Startling disclosures. Dr. TELLER'S Great Work for the Married or those contemplating marriage—200 page—full of plates—price 25 cts Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery, it contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. DR TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.

DR. TELLER still remains the only Agency in America, for the sale of Dr. Vicholi's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and obstructions to female health.

CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from 8 A.M. to 8 P.M., and on Sundays from 2 to 5 P.M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.

N. B.—No students or boys employed. Notice this, address all letters to

VERNATELLA.

Warranted to make the Soles of Boots and Shoes water and dampness proof, and wear one-third longer.

VERNATELLA

Is a preparation from Copper, having no grease, linseed oil, or anything of the kind, and when the soles are once saturated with it, water can no more get through them than through a copper itself. **Price 25 Cents Per Bottle,** at retail everywhere.

But its cost to the purchaser is really NOTHING, as it makes the soles wear one-fourth longer to more than pay for it, leaving as a net gain the making of them Water and Dampness Proof, and the preservation thereby of that priceless gem, the health.

☞ LADIES, READ THIS! ☜
SAVE YOUR HEALTH.

Use Vernatella on the Soles of your Shoes. It makes them water proof and thereby protects your feet from dampness, for the ground is always more or less damp, either from rain or the morning and evening dew.

WEDNESDAY, AUGUST 31, 1864.

THE REBELLION.

Additional guns are to be brought to bear on Fort Sumter immediately; meanwhile the bombardment of the city continues.

Gen. Sherman's movement, it is said, is to the vicinity of Red Oak, and thence upon Atlanta from the South. Sec. Stanton speaks of it as a movement to occupy the rebel lines of supply, and adds that up to the latest reports it had been successful.

Gen. Gillet drove a rebel force from Greenville, East Tennessee, Aug. 23, killing 40. He lost 25 men.

It is thought that Early has withdrawn from the Shenandoah Valley, leaving a rear guard under Gen. Anderson. Gen. Averill defeated Fitz Hugh Lee near Smithfield on Sunday. Gen. Sheridan believing that Early is trying to get away as fast as possible, has consolidated his forces and is pushing on in four columns. He reached Charlestown on the night of the 28th.

The expedition from Hilton Head into Florida was surrounded, but not surprised and captured as previously repeated. The troops have succeeded in cutting their way out and reaching Magnolia.

Richmond papers state that the Union Gen. A. J. Smith is sweeping through Eastern Mississippi and Alabama.

Hood has armed all his cooks and has placed a part of the men from every gun in infantry regiments.

☞ An important order from the War Department directs that hereafter recruits for new military organizations will be mustered in, in the same manner as those for old organizations. No advance bounty will be paid till the companies are organized, and the rolls are made out. Company officers will not be mustered till the companies are organized, and field and staff officers not till the regiment is organized, and no extra officers will be mustered in. The muster in of the men will be from the date of enlistment and they will be discharged at the expiration of the period for which they were mustered in.

— Large and valuable beds of variegated marble have been discovered near Quebec.

— One third, at least, of the newspapers in the United States four years ago, have now suspended publication.

— A recent number of the Dansville (N. Y.) Herald was put in type by two young women, who six weeks before had never been inside of a printing-office.

— There was quite a fire in the Pemberton Mill picker room, at Lawrence, Mass., on Friday afternoon last, but the damage by water was greater than from fire.

— The Grand Trunk elevator and wharf at Toronto, C. W., were burnt on Sunday, with their contents. Loss $100,000; insured for $50,000.

— Sec. Chase says: "Not to the amount of a farthing did I ever profit directly or indirectly, from any loan, negotiation, contract, or other transaction in behalf of the government."

—The Tallahassee captured and bonded for $17,000 the ship Nova, from Lingan, C. B., for New York, Aug. 17. She burnt the fishing smack North America, from New London, on the same day.

— One of the speakers at Chicago said: "Why, the prairie chickens are all singing for little Mac." And all the chicken hearted men in the country are singing for him, too.

— A Boston speculator, named P. Perley, while purchasing gold coupons for 2.30, in Bangor, was arrested on Tuesday for violation of the internal revenue act, in not having a broker's license.

— The rebels report that Gen. Frank Gardner, who was in command of Port Hudson when that place surrendered to General Banks, is leading Federal troops from Pensacola to attack Mobile. Gardiner was born in Mass.

— Extensive fires are raging in the woods of the Lake Superior country. A trader from Georgian Bay says the country for ninety miles back is in a blaze. The destruction of timber and of fur-bearing animals is very great.

— The town of Muscoda, Wis., has been terribly scourged by a disease that the doctors can neither name nor heal. Up to Aug. 11th there had been thirty deaths within five weeks, and the disease was still raging. It had confined its attacks to children until lately.

— The Petersburg correspondent of the Mobile Register says that our sharpshooters kill their artillerists sometimes a mile distant. He states that the day before he wrote, a spent ball struck the ground in front of Gen. Lee and hit his heel, and a few minutes after a young officer, standing near Lee, was shot through the lungs.

EDITORIAL JOTTINGS.

THE CONGRESSIONAL COM. EXCURSION—6. *At Home, Aug. 31.*

Dear Chronicle:

The old injunction, "Let your moderation be known to all men," is doubtless as valuable in these days as ever—perhaps more so; but whoever obeys it must be a very "slow" man, mustn't he? At any rate, one of our cotemporaries in Rockingham County, (which boasts the same name of *News-Letter*, with the first paper published in this new world,—and *that* was quite a slow coach, too,) but which publication is now-a-days, as then, rather more sure than swift—recently gave one of the best exhibitions of "moderation" in the publishing line that we ever saw, especially in these days of steam and lightning. Not finding it convenient to insert the whole of Gov. Gilmore's June Legislative Message in one paper, as is usually hurriedly done, our deliberate cotemporary actually published it along in installments, "to be continued," in several numbers of his weekly issue. And he had not much more than got through with it when the extra session was called; and there was another Address, which we suppose he also inserted. Now we are not going to condemn anybody for not hurrying themselves to death, but shall rather approve the example of our most successful brother, more successful pecuniarily than perhaps almost any other in the State, by adopting it to a certain extent. For finding it absolutely impossible to do any writing, as we went along, and enjoy to the full the multiplicity of pleasures which positively deluged us all during every hour of the late unique and unparalleled excursion—we were obliged to content ourselves to take brief notes as we went, "and faith we shall print them, too," as soon as we can find time to write them out, and room in your columns for them, even if it takes us all Summer and part of the Fall to do it—hoping our hasty observations may be of interest and perhaps benefit to some of our friends and readers.

The daily telegraph, I presume, has already informed all, through the Boston papers, of the partys' route and most successful progress. And then the Boston Journal, N. Y. Tribune, the Portland papers and others, have already given detailed reports. I shall talk to you, therefore, only of what was specially interesting from my personal standpoint of inspection. I believe I left you, or you me, at Belfast. There our vessel arrived just at night, and here again we were received with another celebration, which this time consisted of a social levee, at which, a speech of welcome by the Mayor, then brief addresses from Messrs. Rice, Rollins, and others of the party; concluding with a dance, which at 10 o'clock precisely was abruptly terminated by the queer old Mayor announcing in a loud voice that "the exercises of the evening are now closed!" Rather a novel way of doing things, but full late enough for anybody.—Here, as everywhere else, also, our whole party of sixty or more persons were taken in charge by the citizens of Belfast for the night, either at their best residences, or at the hotels. Was the like ever seen before?

Wednesday was a rare sail, even for this party—passing through the famous Edgemoggin Reach, a straight smooth run of 20 miles or more in length—alongside of Grand Menan Isle, with its steep inaccessible shores in some places more than a hundred feet high, and having along its entire length of 25 miles or so, but one or two possible approaches in boat; then among the other numerous and beautiful islands of Penobscot Bay, and across to Mount Desert, "for dinner at 2 o'clock"—that is, this was what our programme said, but that wasn't exactly what we came to, for "just before we did we did not" get into Southwest Harbor and up to Mt. Desert. A dense fog, which had been hanging about all day, suddenly shut down upon us, and as we were rather off the usual course of vessels it was deemed best to anchor.

By and by, after a good deal of raining, (the first unpleasant weather we had) and a good deal of story-telling, singing and fun, the fog lifted a little, and the Mahoning up anchor and steamed into—not exactly S. W. Harbor, as we intended, but into Bass Harbor instead, a few miles round the coast, and about three miles across land from our desired haven. Here, after fishing and lounging the rest of the afternoon away, it became necessary to provide food and lodgings for the night, as the cutter could not accommodate half of our company, besides her own officers and men, and in fact, like all small naval steamers, could hardly accommodate her own crew.

So those who chose it, perhaps twenty or thirty, were put ashore for the walk to the pleasure hotels at Mt. Desert; through the mud, and in the rain, which now began to fall again in torrents. We saw and heard no more of them that night, and so lost the rich scene that ensued. A certain Judge, from our neighboring county of York, who though no longer a young man, yet retains more of his inquiring turn of mind and persistent go-aheadativeness than most young men possess, thought it best to ride if he could. So after some hunting among the humble residences of small fishermen and smaller farmers living on the shore, he found a man who owned a team—but *such* a team; a horse and hay-rack—(a "rack" it soon was, sure enough, and "left behind" too,) but don't let us get ahead of our story, even for a pun or an attempt at one. So a price was made for the passage of ten of the oldest and heaviest of the party—but, mind you, our judicial friend named was *not* one of the "heavy" men, avoirdupois, however full his purse, or however severe his decisions may sometimes weigh; and a score such as he would never have procured the approaching disaster. Well, in they climb, and off they go; but alas! but half a mile is crossed, when crack goes an axle at one end, and off goes a front wheel—and down tumble M. C.'s, judges, lawyers, ministers, editors, and common people in one inglorious heap, and *that* ride is up. As the fare was *not* "paid on entering" on this line, the unlucky farmer had to pocket the loss and foot the damage to his rickety old cart himself, while our late elevated friends were obliged to come down a peg, pocket the joke, and foot it to their destination. We are pleased to say that they all reached the hotels in due season, and found good quarters for the night.

The old men, the fat, the lame and the lazy, who remained on board the cutter, being stowed away or ticketed for berths or chairs in the cabin and wardroom—a few of us younger folks sought a chance to stretch out on the floor of the forecastle, beneath the hammocks swinging overhead. Our friend of the Boston Post, with an eye to the main chance, had been below before us, and selected the sailroom for *his* bunk; and it was nuts to us of these jottings, and the junior of the Lewiston Journal, to see the sailmaker pull out almost all the canvass the Post man had designed to post himself on, and spread it down for our mattress, leaving Mr. Post only a coil of rope, covered but not concealed, for his bed. We wonder if he has got that kink out of his side yet?

We made a very good night of it, with plenty of canvass under and over us, though at times a little fearful that some of the Jacks might fall or step on us, from their hammocks, in the relief of watch. And another good joke we two before-named had to laugh at that night, too. A man had been shipped at Bangor as one of the crew, and Mr. Clark, the Land Agent for the State of Maine, had also come on board there to join the party—and *he* was sleeping on the floor, by our side. Well, somehow or other, the man who was ordered to rouse the middle watch, took Mr. Clark to be one of them, and having shaken him well, ordered him on deck. What for, asks Clark. Why, to relieve watch, to be sure. Isn't there some mistake? says Clark. No, answers Jack; ain't you the man who come aboard at Bangor? Yes, replies Mr. C., but—. Well, come along then, and no more sleepy talk about it. All right, laughs Clark, and I'll come if you can't do any better; but I guess you're mistaken in your man. Why, ain't you the man who shipped at Bangor? Here the fun was up, and Mr. Clark and the rest of us were allowed to subside once more.

Towards morning the rain ceased, and the fog having cleared away, the anchor was once more hove up, and our little cutter steamed the ten miles round into Mt. Desert harbor. Firing a couple of guns to rouse our party at the hotels, and by dint of a good deal of whistling afterwards, finally all were got aboard, and we were off for Eastport. The harbor of Mt. Desert presents the most charming view our eyes ever rested on,—a broad, circular, placid basin, (which sometimes actually accommodates as many as 500 sail of fishing and coasting vessels,) nestled among its circuit of everlasting hills, rising above it on every hand except the entrance—the whole, we were told by a travelled gent of our party very much resembling the matchless harbor of Rio Janerio, and equalled by no other point save that, which he had ever visited.

And beside the loveliness of nature here, the whole region is full of historic interest; but we must not stop for this now. A great business is carried on here in canning lobsters, and fishing, &c. The pleasure visitors can only come by stage or water conveyance. The handsomest residence, we were glad to learn, was that of a New Hampshire man—we forget his other name.

Away we go, still down east—the shores continually growing more bold and rocky, and the scenery nobler and more grand, and the weather cooler as we progress.—But of our arrival at Eastport, and Calais, and thence to St. John, Fredericton, Bangor and home, I must have at least one more letter. Ever Yours, F.

☞ The steamer Marrionec, which left Rockland, Me., Monday morning, captured the iron steamer Rouen, of about 600 tons. The steamer had no papers nor colors, and her officers, as is said, told different stories about her destination. This steamer was sold at auction in Boston last week and was purchased by parties belonging in St. John, probably for the purpose of being used as a blockade runner.

NEW HAMPSHIRE ITEMS.

—— The Peterborough Transcript says there will be more than an average yield of apples in that part of the State.

—— There is to be a Musical Convention in Peterborough sometime in the month of September, under the charge of Prof. Emerson.

—— Lieut. Andrew W. Doe, of Nashua, Co. A, 10th regiment, was shot through the head and instantly killed by a rebel sharpshooter, while on picket duty, Aug. 22d, near Petersburg. His body is to be embalmed and sent home.

—— The Rockingham Association of Universalists met on Wednesday, the 24th of August, at South Hampton, and enjoyed a two days' session. The opening prayer was offered by Rev. Mr. Wheeler, of the Baptist Church. Mr. J. W. Eaton was Moderator. Sermons were delivered by Rev. Messrs. Bell of Boston, Fletcher of Exeter, Chambre and Borden of Newburyport. Fourteen ministers were present, who, with others, took part in devotional exercises and conference. Resolutions were passed, earnestly recommending prayer and action in behalf of our country, its government, and liberty. Music by a good choir, and good cheer by hospitable hosts, were enjoyed by a full assembly of people.

—— The General Association and Conference of Orthodox Congregational and Presbyterian Churches of New Hampshire met on the 23d Aug., in Manchester, and was opened by a sermon from Rev. Erdix Tenny, D. D., Lyme. His theme was—"The Progress and Universality of the Kingdom of Christ;" founded upon Zacharaih 14: 4—"And the Lord shall be King over all the earth." In the Narrative of the State of Religion, revivals, many of them extensive and powerful, were reported. The condition of Sabbath Schools was reported to be flourishing, but the temperance cause generally as discouraging.

The receipts of the N. H. Domestic Mission Society for the year have been $7,028.-12,—of which $880.43 were sent directly to the Parent Society—making $7,907.54 in the whole. The disbursements in New Hampshire have been $5,094.07; churches and congregations aided 38; missionaries in commission during the year 37. In the business meetings of the body patriotic resolutions were passed.

—— The 3d N. H. regiment still exists as an organization, about 800 men, re-enlisted veterans still remaining in the field. They are under the command of Capt. Dow, Maj. Randlett being Provost Marshal of the 10th corps. The 3d was organized in the fall of 1861, has done good service through a series of important and desperate battles, and has lost heavily in officers and men. They were always in the front because they could always be relied upon. Aug. 16th, when having only six days to serve, they went into the hottest of the fight at Deep Bottom, and lost nearly 100 men. But four of the original officers of the Regiment are at present connected with it, viz: Col. Bedel, who went out Major; Maj. Randlett, who went out Captain, Capt. Maxwell, who went out 1st Lieut., and Quartermaster Hynes, who went out 2d Lieut. Chaplain Henry Hill has faithfully served his entire term of service, and was mustered out with the men. Lieut. Col. Plimpton, three Captains, and nine Lieutenants have been killed, or have died in the service.

Draft Notice.

To the Citizens of Portsmouth:

The undersigned, having been appointed by the Board of Mayor and Aldermen, a Committee to lay before the Board of Enrollment the names of all persons who claim exemption from the following causes, viz: Alienage, Non-Residence, Constitutional Age, Manifest Permanent Physical Disability, and persons who have been in the service two years during the present war, would give notice that they will be in session on and after Wednesday, Aug 17, 1864, from 2 till 5 o'clock and from 7½ to 9 o'clock P. M., at the City Rooms, for the purpose of receiving evidence in such cases.

The Enrollment list can be seen during the same hours, and every person who can present a claim for such exemption is respectfully requested to attend as above, and by this means correct the Enrollment, so that our quota can be reduced.

It is the duty of every citizen, whether enrolled or not, to see that the Committee have all the information in his power to lay before the above matter, in regard to any person, and we trust that every enrolled man will urge the importance of the subject upon all those who are exempt for the above causes, as it is a matter of interest to all.

Any information in regard to matters connected with the above will be cheerfully given.

Let there be no delay.

"A Wonderful Discovery."

DR. TEBBETS' "PHYSIOLOGICAL HAIR RESTORATIVE" is compounded in strict accordance with the well known laws of Physiology and modern vegetable Chemistry. It is not a "Dye," and will not stain a particle. It will "RESTORE GRAY HAIR" in all cases to its original color. It promotes a luxuriant growth of new HAIR in all cases on BALD HEADS, when the glands or roots of the hair are not completely disorganized. It prevents the hair from falling off and removes all dandruff, heat, humors and itching from the scalp. It keeps the hair soft, moist and perfectly healthy, and gives it a glossy and beautiful appearance. It is highly perfumed, and as a Dressing it has no superior. The "REGENERATOR" is warranted to produce the above results in all cases, if not, the money to be refunded. With it every "GRAY HEAD" in New England can be restored in less than sixty days.

QUOTA OF WARD THREE.

ALDERMEN'S ROOMS,
Portsmouth, N. H., Aug. 26, 1864.

To Thos. H. Odlon, Benj. Russell, Esqs., and others:

Gentlemen—In reply to yours of the 21st inst., making inquiry in regard to the condition of the quota of Ward 3, I have the honor to inform you, that from the best information I can obtain it is as follows:

Number of men required from the Ward	63
" in the Navy as credits	42
" as Volunteers	6
" as substitutes	3

The Committee on Naval Enlistments informed me there were 109 men whom they expected to obtain as credit, and that Capt. Silvey informed them that, inasmuch as these men had not been returned by the ward officers, but had been by the city as represented by the Mayor and Aldermen, he should credit them to the whole city. Whether this manner of credit would be beneficial to the ward, providing they are credited equally between the wards and not in proportion to their respective quotas, I am unable to tell, as it takes three one year's men to count one on the credit.

The Committee in our opinion should have designated on the credit-papers the wards in which these men resided at the time of their enlistments; as men who have served in the Navy and enough to prevent a draft in the ward in which they live, should not be compelled to stand draft in that locality which by prior services they have once relieved from the same.

Your representatives in the Board of Aldermen have entered a protest against the credits being made to the whole city, and we trust it will prove effectual in having them established where they properly belong. I have the honor to remain your obedient servant, J. E. RIDER.

☞ The little steamer "Pioneer," which runs daily to the shoals, is what we have been needing for years; and with some little improvements which will be made by and by, must be a great public favorite. The Shoals are yearly gaining in importance as a watering place—and a trip by steam is usually vastly more pleasant and certain than the dependence on winds and tides. Everybody ought to try a sail in the Pioneer, ere the season closes.

☞ The new side-wheel steamer Iosco, built at Bath, Me., has been in search of the pirate Tallahassee, and put in at Portsmouth Navy Yard on Tuesday for coal.

☞ The U. S. steamer San Jacinto arrived in the lower harbor on Tuesday, and made an attempt to get up to the Navy Yard, but was obliged to put back for want of steam. She has also been on a cruise for the above-named pirate.

☞ The Chronicle, like many *other* citizens of Portsmouth, is often indebted to Mr. J. T. Brown, the courteous and wide-awake telegraph operator at Newburyport, for dispatches of interest, not otherwise easily obtainable. Thanks to him for all such favors.

☞ The Saco Democrat states that the buildings and land in Somersville, Me., recently purchased by Jas. M. Burbank, Esq., have been sold to Mr. W. G. Cole, of this city, who designs occupying them for the purpose of a tannery. He is going into the business quite extensively.

☞ Hon. Israel Washburn, Jr., is announced to speak in York on Wednesday evening, Sept. 7, and in Kittery on Friday evening, 9th.

☞ The Navy Department has information from Adm. Dahlgren of a brilliant descent into rebel territory, in which Commander Colvocoressis, formerly stationed at the Portsmouth Navy Yard, captured a lieutenant and 20 privates of Company F, Third S. C. cavalry, and dispersed the remainder. He also captured their arms and equipments, burned their encampment, and destroyed two large salt works; captured 6 overseers and 71 slaves, destroyed a bridge on the main road from Savannah, and captured a mail.

☞ Maj. A. H. Hoyt, Paymaster U. S. A., has been ordered to duty at Boston. He left this city on Tuesday evening, to enter upon the discharge of his duties.

U. S. 7-30 LOAN.

The Secretary of the Treasury gives notice that subscriptions will be received for Coupon Treasury Notes, payable three years from Aug. 15th, 1864, with semi-annual interest at the rate of seven and three-tenths per cent. per annum,—principal and interest both to be paid in lawful money.

These notes will be convertible at the option of the holder at maturity, into six per cent. gold bearing bonds, payable not less than five nor more than twenty years from their date, as the Government may elect. They will be issued in denominations of $50, $100, $500, $1,000 and $5,000, and all subscriptions must be for fifty dollars or some multiple of fifty dollars.

The notes will be transmitted to the owners free of transportation charges as soon after the receipt of the original Certificates of Deposit as they can be prepared.

As the notes draw interest from August 15, persons making deposits subsequent to that date must pay the interest accrued from date of note to date of deposit.

Parties depositing twenty-five thousand dollars and upwards for these notes at any one time will be allowed a commission of one-quarter of one per cent., which will be paid by the Treasury Department upon the receipt of a bill for the amount, certified to by the officer with whom the deposit was made. No deductions for commissions must be made from the deposits.

Special Advantages of This Loan.

IT IS A NATIONAL SAVINGS BANK, offering a higher rate of interest than any other, and *the best security.* Any savings bank which pays its depositors in U. S. Notes, considers that it is paying in the best circulating medium of the country, and it *cannot* pay in anything better, for its own assets are either in government securities or in notes or bonds payable in government paper.

It is equally convenient as a temporary or permanent investment. The notes can always be sold for within a fraction of their face and accumulated interest, and are the best security with banks as collaterals for discount.

Convertible into a 6 per ct. 5-20 Gold Bond

In addition to the very liberal interest on the notes for three years, this privilege of conversion is now worth about three per cent. per annum, for the current rate for 5-20 Bonds is not less than *nine per cent. premium*, and before the war the premium on six per cent. U. S. stocks was over twenty per cent. It will be seen that the actual profit on this loan, at the present market rate, is not less than ten per cent. per annum.

Its Exemption from State or Municipal Taxation.

But aside from all the advantages we have enumerated, a special act of Congress *exempts all bonds and Treasury notes from local taxation.* On the average, this exemption is worth about two per cent. per annum, according to the rate of taxation in different parts of the country.

It is believed that no securities offer so great inducements to lenders as those issued by the Government. In all other forms of indebtedness, the faith or ability of private parties, or stock companies, or separate communities, only, is pledged for payment, while the whole property of the country is held to secure the discharge of all the obligations of the United States.

While the Government offers the most liberal terms for its loans, it believes that the very strongest appeal will be to the loyalty and patriotism of the people.

SUBSCRIPTIONS WILL BE RECEIVED by the Treasurer of the United States, at Washington, the several Assistant Treasurers and designated Depositaries, and by the

and by all National Banks which are depositaries of public money, and

"A Stitch in Time Saves Nine."

All Furnaces, Stoves and Funnels should be thoroughly cleaned out and put in order, as soon as fires are done being made in them. If allowed to remain filled with ashes and soot through the summer, they will decay very rapidly, and useless expense be incurred.

A full supply of Linings and Repair Pieces constantly on hand, and all orders attended to with dispatch. E. A. STEVENS.

Facts for the People.

The enormous rise in price of Iron, Coal and Labor, has caused manufacturers to advance the price of STOVES and Castings several times since the war began; and it is now arranged to make a general advance of 25 to 50 per cent. this season.

We have not yet raised the price of Stoves in proportion to their increased cost, but shall be compelled to do so very shortly. Persons who expect to purchase anything in the Stove and Furnace line within a year or two, will save money by doing so at once. The price of a Stove is not so much an object, now, as its capacity and the cost of operating it. All things considered, there is no Stove equal to

THE MODEL COOK.

IT IS, IN FACT,

The Best Stove Out,

for economy, convenience and dispatch.

Many people think it best to use an old stove as long as possible, but it is far better to throw it away and purchase a MODEL COOK, than to keep it at the present high price of fuel.

One of our shrewdest citizens who purchased a MODEL COOK STOVE a year since, says he has saved more than its cost already.

A careful, prudent farmer purchased one, and after it had been in operation some days his son came into the store and said, "something was wrong at their house;" his father and himself used wood off the same pile, he burned three baskets full a day, and his father only one! We sold him a Stove before he left, and there has been no complaint since.

These Stoves are in use in many hotels and boarding houses, and in hundreds of private families in this city and vicinity, and give the best of satisfaction.

Important to the Afflicted.

DR. DOW continues to be consulted at his office, No. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scrofula, Gonorrhœa, Ulcers pain and distress in the region of prostration, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors, Tightness, Swellings and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr D. devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate victim for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and Limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c., the horrid subject on the mind are much to be dreaded, loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, timidity, &c., are amongst the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your cases. Dr. Dow has also for sale the French Lozenges, warranted the best preventive. Orders by mail. Three for $1 and a red stamp.

Highly Important to Females

IN DELICATE HEALTH.

DR. DOW, Physician and Surgeon, No 7 & 9 ENDICOTT STREET, Boston, is consulted daily for all diseases incident to the female constitution. Prolapsus Uteri, Falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and a cure is guaranteed in a few days. It is invariably certain in the new mode of treatment, that most obstinate complaints yield under it, and the afflicted females can safely consult Dr. Dow.

Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in the United States.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, solicits a share of public patronage.

☞ All letters must contain four red stamps, or they will not be answered.

Office Hours from 7 a. M. to 9 P. M.

CERTAIN CURE

in all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all diseases incident to the sex, which, for delicacy of feeling and nature, having by his unwarried attention and extraordinary success gained a reputation which calls patients from all parts of the country, by the hundreds.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW. No. 7 Endicott street, Boston. Those who desire the services of an experienced physician and surgeon should give him a call.

☞ N.—Dr. Dow from 1845 has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

Boston, April 7, 1864.—eodly.

DR. S. O. RICHARDSON'S
BLOOD ROOT ELIXIR

Has been thoroughly tested and proved in his medical practice, for a period of THIRTY YEARS, and is now presented to the public as an effectual cure for

CONSTIPENESS,

and the best remedy ever prepared for

Diseases of the Liver,

S C R O F U L A,

All Humors and Impurities of the Blood, and Diseases of the Skin.

The preparing and combining the Blood Root Elixir, is attended with results to medical science next in importance to the inhalation of ether in surgery. Its roots and plants, which are powerful and disagreeable, are, by a new and scientific process of extracting (in vacuo) rendered MORE EFFICIENT, and PLEASANT TO OPERATION, entirely divested of the griping and distressing pain which attends the action of all other purgative medicines. They are blended by a process, known as

PLEASANT AND AGREEABLE TO THE TASTE,

and by their peculiar combination work so perfectly in HARMONY WITH NATURE that no unpleasant reaction will follow its operation. It also possesses

A Diffusive and Alterative Effect,

which only can be attained by medicine in a fluid state. These are new elements in purgative medicines.

The hard and compact manner in which pills are prepared renders them indigestible—and when taken are forced through the stomach and bowels, half dissolved, and with only PARTIAL ACTION, thereby creating irritation and pain to the parts connected with their passage.

Liquids are quickly assimilated, and will produce more beneficial and physical effect than five in a crude state.

The BLOOD ROOT ELIXIR has no partial action upon the bowels, but is diffused by its peculiar nature throughout the whole circulation of the blood, imparting a healthy and invigorating action to the STOMACH AND BOWELS, AND LIVER, KIDNEYS and GENERAL SYSTEM, dislodging dormant and morbid secretions through the whole system.

A single dose will produce a cheerful and exhilarating COMPOSITION, which will inspire the patient with confidence and assurance of IMMEDIATE RELIEF. A continuance for a short period will DRIVE the obscure and latent humors to the surface of the skin, and relieve or check SCROFULOUS AFFECTIONS—and by thus purifying and strengthening the blood, will remove the cause fruitfully.

CAUSE OF CONSUMPTION.

It incites the various organs of the system to act with renewed energy, and is the only remedy to induce RHEUMATISM AND NEURALGIA, HEADACHE, LOSS OF APPETITE, DYSPEPSIA, CONSTIPENESS, and the various diseases which arise from a derangement of the Stomach and Bowels, and restricted circulation of the Blood.

COUGHS and COLDS, in their early stages, will immediately yield to the effect of the Elixir.

The BLOOD ROOT ELIXIR, for ever, removes an pernicious botanical element, no excitant, but stimulates the secretions by its mild diffusive action. It is an effective and painless aperient, and exerts a salutary action upon the *Liver, and does less harm to medicine prepared for common family use which possesses equal merit.*

Druggists, hotels by one cash hand, will find the Elixir a complete antidote for the evils which they are obliged to endure from a change of climate, of water, or of diet.

See the pamphlet around each bottle for a history of this Elixir.

The proprietor of the Blood Root Elixir, (Dr. S. O. Richardson,) has been long and favorably known to the public by his celebrated SHERRY WINE BITTERS, the best tonic medicine ever discovered, and which has been in use over thirty years. He is a graduate of the New Hampshire Medical College, and many years associate member of the Massachusetts Medical Society, and has made the study of medicine his profession since 1829.

And so fully convinced is the Doctor of the wonderful curative effects of his Blood Root Elixir, that he hereby offers to each and every person who will use one-half of a bottle of his Elixir and not be convinced of its efficacy, to refund to said person the amount which he paid for the same, by returning the village bottle to his office.

Price $1.50 per Bottle.

Sold in Portsmouth by J. H. THACHER, opposite the Post Office, and No. 12 Market Square; and by dealers in Medicine generally, and at Dr. Richardson's Office, No. 51 Hanover street, Boston. 4m—Smeod&W

CHEROKEE REMEDY

—AND—

CHEROKEE INJECTION,

Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Gravel, Strictures, Gleet, Gonorrhœa, and is especially recommended in the cure of Fluor Albus or Whites, in females, where all the old nauseous medicines have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all of its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an ally or assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites. Its effects are *healing, soothing and demulcent*, removing all scalding, heat, discharge and pain, instead of the burning and almost unendurable pain that is experienced with nearly all the *drug* remedies used.

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write to us and we will mail free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.

Price—CHEROKEE INJECTION, $2 per bottle, or three bottles for $5.

DR. WRIGHT'S

REJUVENATING ELIXIR,

OR ESSENCE OF LIFE.

Prepared from Pure Vegetable Extracts,

Containing nothing injurious to the most delicate.

The Rejuvenating Elixir is the result of modern discoveries in the medical profession; being an entirely new and abstract method of cure, irrespective of all the old and worn-out systems.

This medicine has been tested by the most eminent medical men of the day, and by them pronounced to be one of the greatest medical discoveries of the age.

One bottle will cure General Debility.

A few doses cure Hysterics in females.

One bottle will restore the vitalities of the fleeet.

A few doses restore the organs of generation.

From one to three bottles restore the manliness and full vigor of youth.

A few doses restore the appetite.

Three bottles cure the worst case of Impotency.

A few doses cure the low spirited.

One bottle restores mental power.

A few doses bring the rose to the cheek.

This medicine restores to manly vigor and robust health, the enervated, the broken-down and despairing devotee of sensual pleasure.

The listless enervated youth, the over-tasked student, the victim of excess, the depressed, the individual suffering from general debility, or from weakness of a single organ, will all find immediate and permanent relief by the use of this Elixir or Essence of Life.

☞ Price, $2 per bottle, or three bottles for $5, and forwarded by express, on receipt of money, to any address.

THE MAGEE

COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet introduced, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad iron heater combined, by which the odor of broiling meats are prevented from escaping in the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shovelling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING

FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other furnaces, is entirely obviated.

The objects aimed at by the constructors of heating furnaces have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing, indeed, the important desideratum of economy, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass through the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the grate, which causes them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large portion of the heat, without heating the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Graves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

— The finishing touches have been given to the dome of the Capitol at Washington. The eastern portico of the north wing is also completed.

— At the Alfieri Theatre, in Paris, an opera has lately been played which has the strange title of "Ourang-outang." It is probably a dramatized version of some popular tale.

— A curious circumstance occurred recently in Brussels, namely, the prosecution of a photographist by a gentleman for exhibiting his photograph at the shop door. He said that owing to the circumstance and the ugliness of the copy of nature, he had lost a good chance of making a rich marriage!

— Walden Pond, in Concord, is said to have shown recently some of the eccentricity of Thoreau, who lived for years upon its banks. During the recent long protracted drought it has steadily risen, and when its recent rains came they found Walden with more water in its bosom than it had at any time before for seven years!

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the act of 1836,)
76 State street, opposite Kilby street,
Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patentees or patents; also, opinions or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is now *pending*. Such unmistakeable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART.
During eight months, the subscriber, in course of his large practice, made only *four* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

The Old Established Hospital.
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In spite of Gonorrhoea, Gleet, Stricture, Enlargement of the Testicle and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to counsel and a Physician who has cured thousands in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for every body—Startling disclosures. Dr. Teller's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A treatise on Love, or how to choose a Partner—a complete work on Midwifery, it contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps inclosed, will secure a copy by return mail. Dr. Teller has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
Dr. Teller still remains the only Agency in America, for the sale of Dr. Vinhoy's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
Caution.—Married ladies in certain delicate situations should not use these Pills. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price of a box of these Pills will be sent by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.
N. B.—Persons at a distance can be cared at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

VERNATELLA.
Warranted to make the Soles of Boots and Shoes water and dampness proof, and wear one-third longer.
VERNATELLA
is a preparation from Copper, having no grease, linseed oil, or anything of the kind, and when the soles are once saturated with it, water can no more get through them than through copper itself. **Price 25 Cents Per Bottle,**
at retail everywhere.
But its cost to the purchaser is really NOTHING, as it makes the soles wear enough longer to more than pay for it, leaving as a net gain the making of them Water and Dampness Proof, and the preservation thereby of that priceless gem, the health.
☞ LADIES, READ THIS! ☜
SAVE YOUR HEALTH.
Use Vernatella on the Soles of your Shoes. It makes them water proof and thereby protects your feet from dampness, for the ground is always more or less moist, either from rain or the morning and evening dew.

THURSDAY, SEPTEMBER 1, 1864.

THE CHICAGO CONVENTION was organized on Tuesday, Gov. Seymour of New York being President. Among the Vice Presidents is J. W. Sullivan of this State: and J. H. Woodward, also of New Hampshire, is one of the Secretaries. The committee on resolutions organized on Monday evening by the choice of Mr. Guthrie as chairman. There was a sharp contest of three hours between him and Vallandigham. The resolutions were presented and adopted on Tuesday afternoon, with but four dissenting voices. They declare: 1st, Unswerving fidelity to the Union; 2d, In favor of an armistice and a convention to restore peace on the basis of Union, at the earliest practicable moment; 3d, That "the direct interference of the U. S. military authority in the recent Kentucky, Maryland, Missouri and Delaware elections was a shameful violation of the Constitution, and the repetition of such acts will be held as revolutionary and resisted with all the means and power under our control"; 4th, That the Administration is almost as bad as it is possible for it to be; 5th, That the Administration has shamefully neglected the suffering Union prisoners. The 6th promises "all the care, protection, regard and kindness that the brave soldiers of the Republic have so nobly earned," when the Democratic party obtain power. The 5th resolution *by implication* condemns the rebels for their cruelties to the Union prisoners—and this is the nearest approach to a condemnation of rebellion, treason and their concomitant evils, which the resolutions contain. And all this great "National" Convention can find the heart to say, in the present crisis of the country, is the following. Not a word of condemnation of traitors or treason, rebellion or rebels—only a hint that the Union prisoners are cruelly treated, and the Administration is responsible for that. Four resolutions out of six condemn the Administration; not one condemns the rebels. But here is the resolution in full:

Resolved, That the shameful disregard of the Administration of its duty in respect to our fellow citizens who now and long have been prisoners of war in a suffering condition, deserves the severest reprobation on the score alike of public and common humanity.

Mr. Long of Ohio wanted the first Kentucky resolution of 1798, drafted by Jefferson, to be inserted after the first resolution, but he was crushed out.

Nominations for a candidate for the Presidency were then made. Stockton of New Jersey nominated McClellan, and Cox, in behalf of a portion of the Ohio delegation, seconded the nomination. Gov. Powell of Kentucky, and Franklin Pierce were nominated, but their names were withdrawn. Stewart of Ohio nominated T. H. Seymour, and Harris of Maryland seconded it, in a speech in which amid great confusion he bitterly denounced McClellan as a tyrant, a usurper of our liberties, an assassin of State rights, who "if nominated would be beaten everywhere, as he was at Antietam." Gen. Morgan of Ohio and Judge Underwood of Kentucky defended McClellan.—Finally Harris said he held himself bound to vote for the candidates of the Convention. Long of Ohio also attacked McClellan as a man "who has gone even further than Mr. Lincoln in the perpetration of tyrannical measures upon the sacred rights and privileges of the people,"—the chief complaint against McClellan being his order for the arrest of the Maryland Legislature. Mr. Carrigan of Pennsylvania replied, but the Convention was impatient, it was growing dark, "gas not having been introduced into the wigwam," (for illuminating purposes, of course) and one of the numerous motions to adjourn was at last carried.

On Wednesday McClellan was nominated on the first ballot, by 202½ votes, against 23 1-2 for Seymour of Connecticut. Vallandigham moved the nomination be made unanimous. George R. Pendleton of Ohio was nominated on the 2d ballot for Vice President. A resolution, offered by Wickliffe of Kentucky, was adopted unanimously, declaring the convention a permanent body, subject to the call of the National Executive Committee.

— Gold declined eighteen per cent. in two days.

— A salute was fired at the Fort in Salisbury on Tuesday, in honor of Mr. Eaginear Pierce, who was there to pay off the men.

— Capt. Brownson, of Gen. Hancock's staff, a son of Orestes A. Brownson, was killed in the battle of Thursday last, on the Weldon railroad.

— The flour and provision markets declined on Tuesday. Flour was 20 to 30 cents per barrel lower; wheat 3 to 5 cents per bushel lower; corn and oats 1 cent lower; whisky lower and dull; beef dull; pork $1 per barrel lower, and lard dull and lower.

Colton's American School Geography.

Friend Miller:—I have been a non-contributing reader of the Gazette now for a long while, for the reason that I had nothing special to say of importance to your readers. My present theme I deem an important one, though it is called only a school-book. For on school-books now depends the character of the next generation. And American character now is greatly the result of poorer school-books than we now have, and better than known to the masses anywhere else. *Excelsior* is the motto of our schools: *Dirigo* is what our school system says to the rest of the world. It is only when I look on some first-class school-book, like this, that I wish my childhood back.

This Geography is not a hasty production. Your paper of Feb. 21, 1861, announced the issue of the Atlas belonging to it. I then said, "Colton's American School *Geography* is not yet ready. He is a slow worker; for his atlas has, to my knowledge, been nearly four years under the graver." I do not call his course since then very precipitate. But the result will, I think, justify all this outlay of time. There can be no justification for a crude, half-made school-book.

We have long been greatly in advance of all the world in popular geography. I know of no other nation that has reached the point we passed a quarter century ago. But notwithstanding all the impulse the war gives us, multiplying wall-maps without number, which unnumbered billions of flies are now commenting on, a want of geographical knowledge was never so palpable. Neither has the money given to it been wisely expended. The atlas to this geography is worth more than the most costly map I have yet seen.

What a step it was when Woolbridge's Geography appeared! Next came Mitchell's—not so decided an advance. Then came the thin quarto atlas-shaped geographies, with "the questions always opposite the map." Said map was a tiny bit on a large page, and you could not learn by any possibility the relative positions of Hanover, N. H., and Norwich, Vt., for they were not on the same map. But the contrivance admirably answered its only end: to enable children to answer printed questions.

Next came a higher class of books: Barrington's Physical Geography, Guyot's Earth and Men, Colton's $20 Atlas, his $13 Atlas still better, a large Mitchell at $10 or more—not to mention Johnston's Physical Atlas, a costly English work, never to be republished here. But none of these reached the masses. Their best effect was to induce the feeling that the million must have something better than they yet had,—and Colton's American School Geography and Atlas are the best tangible result. To the Atlas I did full justice when it was new, so far as I could unaided by the Geography, which throws new light upon it. The Geography is a solid 12mo. of 588 pages, by Ivison & Phinney, of New York. It is my purpose briefly to describe it, but I fear my long preface must make the task a brief one.

It is in four parts. 1st. *Astronomical*: 21 pages. This is perhaps rather fuller than we often expect in treatises on Astronomy, but neither too large nor too small.

2d. *Physical Geography*: 98 pages. To the great mass of merely school-read persons this, which would be quite a book in itself, will be entirely new. It includes the laws of winds and ocean currents, a chapter on Zoology, and another on Geology, (not taken, I am sorry to say, from Dana, but from a "recent work of a much esteemed friend" of the author, Prof. Henry,) with a very complete account of the distribution of planets and animals. But a full examination of Part 2d would occupy more space than you can spare to the whole book.

Part 3d, *Civil Geography*, excludes the races of man (treated of in the preceding) and includes language, religion, government, occupations and civilization: 24 pages.

Part 4, *Local Geography*, occupies 446 pages. Having carried generalization as far as possible, it now takes up State by State and nation by nation. A very large part of it consists of questions upon maps. Maps cannot be studied without questions, and a proper selection of these is a matter of the highest moment. These alone, of all the book, I have not been able to examine. In these questions are given the pronunciation of names of places. If I ever get time to go over the questions on the physical maps it will be well spent

Some of the pictures in the geography are a curiosity. Imagine if you can how three pictures can have the foreground in common, and be otherwise entirely distinct. I do not admire them, for I think one large picture is worth more than three in the same space. But I will not quarrel with the experiment.

I close with some general remarks on the spelling of names of places. It is peculiar to the English language to preserve the spelling of other nations. We alone have Alexandria in the U. S., Alessandria in Italy, and Alejandria in Spain. The Spanish find Bologna in both France and Italy. We have Boulogne in France and Bologna in Italy. The place which the Dutch call Ghent and the French call Gand with singular perverseness we have spelled in Dutch and pronounced in French ever since 1814—thus, G-h-e-n-t—*Gong*. It is like c-h-e-v-a-l—*horse*. But these are places inhabited by races that do not use our alphabet. Here spelling runs wild. I saw yesterday in the same learned work in English Karnak and Karnaq—the same place. I would be willing to leave this matter to such a gentleman and scholar as Gilman, the Librarian of Yale College, and geographical editor of the American Journal of Arts and Sciences; but I see in that journal the place called Khartum, Kartoum, Cartoom and Qartum, spelled at least four of these ways in the same number. I prefer the last, and dislike so in all these words. Colton does not. He writes *Toorkistan*, but not *Toorks*, though I presume he would *Koords*. The Missionary Herald ought to be a good standard, but it prints *Mecca* and Mush indifferently. I presume Colton has adopted his spelling advisedly, but I protest against it. Good scholars spell *Hindu* and *Hindustan*.

The Geography has no Table of Contents, and no index of either places, plants, animals, minerals, races or anything else. If you want anything you must hunt for it. But this is the first editon of a book of which I hope to live to see the fiftieth.

We are not easy out here. Men from this county have been in the rebel army from choice. In the next county an outbreak, encouraged from this, required the presence of artillery. Two things will keep the southern parts of Ill. and Ind. from open rebellion. First, the people do not like the results in Missouri. Whole counties there are desolate, and no man is a gainer by the strife. But this would not avail if the copperheads could as easily get arms and ammunition as the government.—Nay, could they but get from the South a good supply of artillery and fixed ammunition, I think they would run the risk rather than abide the result of the November elections.

I suppose two-thirds of all the revolvers in Illinois, and half the rifles and powder are in the hands of men who want not the will to use them against the Government. But 30-pounders and percussion shell are not easy to be smuggled into a country town, or bought on the plea of defence against highwaymen, or to shoot prairie-fowl. And on the Canada border the population is much more loyal. But I am here of my own choice, and I don't mean to leave till I have spoken, written and voted for my country. I hope that I may not be called also to fight and bleed for her.

Yours, I. F. H.

Hillsgrove, Ill., August, 1864.

NEW HAMPSHIRE ITEMS.

—— Canterbury, Weare, Henniker, and Chichester have each voted to give $1000 bounty to residents who volunteer.

—— The re-enlisted veterans of the 8th regiment have started on their return to the field.

—— Wm. G. Lock, 5th N. H. regiment, died recently in one of the Washington hospitals.

—— Daniel Fellows of Orange, while chopping a few days ago, cut his foot so badly as to cause insanity, and at present his recovery is doubtful.

— The papers are very busily telling the Halifax people all about a decoy vessel which has been sent after the Tallahassee. Very kind in the papers.

—— Highwaymen who seem willing to take life for money, are creating considerable excitement in Hillsborough and vicinity. They have attacked two men recently.

—— An extensive tannery in Manchester, owned by John B. Chase, was burnt on Tuesday morning, with a steam engine and nearly all the tools. Also, a large barn filled with hay and grain, and all the farming tools. Loss $10,000; insured for $6000.

—— The grounds of the Merrimack County Agricultural Society, on the Plains, Concord, are being put in order for the approaching Fair of the Society. Workmen are building a new and substantial close fence around the entire lot, and a large number of raised seats are being erected near the track. It is the intention of the managers of the Society to have a first class Fair this fall.

—— A horse was frightened by the cars at East Canaan a day or two since, and backed the wagon, containing Mr. Forber Dimond of Orange, with his wife and two children, off the bank, into the river below, a distance of 12 or 15 feet. Fortunately, no bones were broken, though the bank was lined with stones and bushes, but they were all considerably injured. The wagon was made a complete wreck, and the horse considerably bruised.

—— Gen. Burnside made a brief speech at Centre Harbor on Monday evening, in the course of which he said:

I have the fullest confidence in the ability of the Government to crush out this wicked rebellion. I feel that the day is not far distant when the despondency which now prevails will totally disappear and the people in the North will see, as we in the field see, that the end is at hand. I refer to this because I have lately witnessed this despondency and been surprised at it. Why, I have heard more grumbling at the North in three days than I heard in our whole campaign from the Rapidan to Petersburg. People seem to think that our armies are wearing out without corresponding exhaustion of the enemy. This is a mistake. Let every citizen do all in his power and the result is sure. It is not possible that any cause so founded in iniquity as this rebellion should succeed. But independent of the right and wrong, I am sure from observation that we have the strength and will to conquer.

THE REBELLION.

It is said that Gen. Sherman now commands the Macon railroad. A rebel dispatch reports another Union raiding force 700 strong, with 9 cannon, on the way to Covington, Ga.

A rumor that Wheeler was moving on Nashville in force caused great excitement in that city on Tuesday.

Early seems not to have retreated so far as was thought, but still to have a heavy force in our front. There was severe fighting near Smithfield on Monday.

The N. Y. Tribune's Washington dispatch says Farragut will remain at Fort Morgan, as his work was not done with the capture of that fort.

The Richmond papers of the 28th admit a loss of near 4000 in the attack on Reams' Station. Prisoners say it was over 5000.

The losses of the 5th corps on the 18th, 19th and 21st will not exceed 3800.

THE LEGISLATURE.

MONDAY.—The Governor returned to the House the resolution advising a temporary loan, without signature—1st, because it was merely advisory in its character; 2d, because it opened to the State no new source of supply; and 3d, because he regarded the scheme as wholly impracticable, it being impossible to carry it out without an expense of $100,000. The Governor recommended the appointment of a permanent Committee of Finance, composed of reliable men, who "shall raise, if possible, the amount of money necessary and sufficient to save the credit of the State from disgrace." A long discussion ensued, and no quorum being present the House adjourned.

TUESDAY.—A resolution was introduced in the Senate to obtain the opinion of the Supreme Court regarding the Soldiers' voting bill. The House resumed the consideration of the resolution declaring the same bill a law; and passed it by a vote of 166 to 110.

WEDNESDAY. — A resolution to close the session Sept. 1, was laid on the table. A bill was introduced providing that any one leaving the State to avoid the draft, must reside here six months after his return before he can vote. The opinion of the Judges of the Supreme Court was received, that the soldiers' voting bill is Constitutional, and that the Legislature has power to pass the same.

☞ Mr. Speer, having some property in New Jersey, turned his attention to the cultivation of the Sambuco, imported from Portugal. It bears a grape whose superior quality, juiciness and richness in saccharine matter is unexcelled by that of the Catawba. After numerous experiments in fermentation, Mr. Speer has produced a wine which will immortalize his name and prove a new honor to America.—[Boston Traveller.

Draft Notice.

To the Citizens of Portsmouth:

The undersigned, having been appointed by the Board of Mayor and Aldermen, a Committee to lay before the Board of Enrollment the names of all persons who claim exemption from the following causes, viz: Allenage, Non Residence, Unsuitableness of Age, Manifest Permanent Physical Disability, and persons who have been in the service two years during the present war, would give notice that they will be in session on and after Wednesday, Aug. 17, 1864, from 2 till 6 o'clock and from 7½ to 9 o'clock P. M., at the City Rooms, for the purpose of receiving evidence in such cases.

The Enrollment list can be seen during the same hours, and every person who can present a claim for such exemption is respectfully requested to attend as above, and by this means correct the Enrollment, so that our quota can be reduced.

It is the duty of every citizen, whether enrolled or not, to see that the Committee have all the information in his power to give in the above matter, in regard to any person, and we trust that every enrolled man will urge the importance of the subject upon all those who are exempt for the above causes, as it is a matter of interest to all.

Any information in regard to matters connected with the above will be cheerfully given.

Let there be no delay.

"A Wonderful Discovery."
DR. TEBBETS' "PHYSIOLOGICAL HAIR REGENERATOR" is compounded in strict accordance with the well known laws of Physiology and modern vegetable Chemistry. It is not a "DYE," and will not stain a particle. It will "RESTORE GRAY HAIR" in all cases to its original color. It promotes a luxuriant growth of new HAIR in all cases on BALD HEADS, when the glands or roots of the hair are not completely disorganized. It prevents the hair from falling off and removes all dandruff, heat, humors and itching from the scalp. It keeps the hair soft, moist and perfectly healthy, and gives it a glossy and beautiful appearance. It is highly perfumed, and as a Dressing it has no superior. The "REGENERATOR" is warranted to produce the above results in all cases, if not the money to be refunded. With it every "GRAY HEAD" in New England can be restored in less than sixty days.

Local.

THE UNION ELECTORAL CONVENTION held at the Court House in this city on Wednesday, was called to order by Mr. Tullock, of the State Central Committee. Moses Humphrey of Concord was chosen President, Wm. B. Morrill of Exeter and Geo. Weeks of Greenland Vice Presidents, and B. F. Prescott of Concord and C. H. Hayes of Portsmouth Secretaries.

On the ballot for Presidential Elector, there were 62 votes; necessary to a choice 32. Moses Humphrey of Concord had 1, Reed P. Clark 1, Gilman Marston 1, H. D. Walker 2, Jas. M. Lovering 4, Wm. H. Y. Hackett 53. And Mr. Hackett was declared the nominee for Presidential Elector for the First Councillor District in New Hampshire.

The Committee appointed to inform Mr. Hackett of his nomination, reported that he was absent from the city.

Col. Walter Harriman was by vote invited to address the Convention, which he did briefly, earnestly, and to the point, as is his wont, and his remarks were rapturously applauded.

The following Resolutions were unanimously adopted:—

Resolved, That we heartily approve the policy of Abraham Lincoln, President of the United States, in his efforts to crush the rebellion; and that the Union Party in this State, in the coming Presidential Election, will give him an earnest and unqualified support.

Resolved, That we are opposed to any armistice with rebels in arms against the Government; and that the war should be prosecuted with vigor and undiminished energy, until this unholy rebellion is crushed by force of arms.

Resolved, That we recognize in Hon. W. H. Y. Hackett, this day nominated as candidate for Elector, a gentleman of sound judgment, an earnest patriot, and a devoted friend to the Union voters of this District, who will give him their hearty support.

☞ The City Council, at a special meeting on Tuesday evening, passed the following:

AN ORDINANCE providing for the payment of bounties to enrolled inhabitants of the City, who may volunteer into the service of the United States.

Be it ordained by the City Council of the City of Portsmouth, as follows:

SEC. 1. The Mayor is hereby authorized to pay to the order of any enrolled inhabitant of this city, who shall enlist as a volunteer for the quota of this city, and be actually mustered into the military, naval or marine service of the United States for the term of one year or more, upon his receiving a satisfactory certificate thereof, the sum of Three Hundred Dollars, anything in any Ordinance of this City, heretofore passed, to the contrary notwithstanding;—Provided, that the bounties herein authorized shall not be paid to any enrolled inhabitant who shall enlist as a substitute for any other person.

SEC. 2. Any portion of the loan authorized to be raised by an Ordinance passed July 28, 1864, entitled "An Ordinance for the payment of bounties to Volunteers and others," which may not be needed for the purposes specified in said ordinance, shall be and hereby is transferred and appropriated to pay the bounties provided for in this Ordinance, and shall be raised by said loan for said purpose.

☞ The following is a list of officers attached to the U. S. steamer San Jacinto, arrived at this port on Tuesday:

POLICE COURT, *Tuesday.*—Oliver Dennet, 2d, for being drunk, was fined $3, and costs $4.80, which he paid.

Wednesday.—Patrick Coffee, for brawl and tumult, was fined $5, and costs $5.74; paid.

Alex. Gorman, for brawl and tumult in W. Freeman's saloon, was fined $2, and costs $4.80; paid.

☞ Provost Marshal General Fry has instructed the Provost Marshals of this State to keep volunteering up as much as possible after the 5th of September, and let it be known that volunteers will be counted on the quotas of the present call up to the last practicable moment before the drafted men are accepted and sent to Rendezvous.

☞ The Democrats (a few of them) were out with the Portsmouth Cornet Band last evening, to ratify the nomination of McClellan & Pendleton, and called on some of the faithful for words of encouragement.

☞ Adj. C. L. Hayes, of Kittery, 32d Maine regiment, is sick. The regiment has now but one commissioned officer, Lieut. Child, and is under the command of Capt. Jones of the 6th N. H., regiment. The companies are commanded by Sergeants and Coporals.

☞ Mr. Joy announces to resume his Singing Schools immediately, at Mercantile Hall. We hope, for his sake and the public good, that the classes will be well filled.

JAMES TELLER, M. D., OF ALBANY.—Not least among public benefactors are those who strive to alleviate the many ills that flesh is heir to. It will not do, however, to take it for granted that every one who writes M. D. after his name, is a modern saviour, able to heal all manner of sickness and disease. Too many poor victims of quackery have found this out to their cost. It is true enough that the world is over-doctored, as well as over governed, but it is none the less true there are cases in which nature will sink under disease if left unaided, and these are the cases which demand the aid of medicine. At such times it is very agreeable to feel that our lives are in the hands of an honest reliable man, who not only has a thorough knowledge of diseases and their remedies, but also has the ability to adapt the knowledge to the wants of each particular case. Such a man is the subject of our sketch. A few facts of his personal history may not be without interest to the reader.

Dr. Teller was born at Skaneateles, N. Y., Feb. 6th, 1812. His father was a Methodist preacher. He received his professional education at the Fairfield Medical College. At the age of twenty-four we find him a practicing physician at Massillane, Ohio. The favors of fortune did not descend upon him here in such copious showers as they did later in life—but this is common lot of young men entering a professional career, to whom that fickle dame is not noted for being particularly amiable. He remained here however, until 1849, managing to live meanwhile, though he did not make much money. But during these thirteen long years we may be sure that he was laying the foundation of that professional eminence he now enjoys, by careful study and observation of the cases which came under his notice.

He next turns up in San Francisco, California, as a hotel keeper, and we infer that he pleased his patrons, from the fact that he did well there, and in three years was enabled to return to his native State and resume his profession. He located himself in Albany and opened an office there in 1853, where he still remains. How well he succeeds may be inferred from the fact that 20,000 patients are treated by him annually. That he succeeds in curing these patients is as good testimony as can be required for his ability and skill.

One secret of his great success is that he does not trust his business to students and run the risk of their inexperience and carelessness, but keeps his entire course of treatment, and his immense laboratory for the preparation of medicines, under his own personal supervision and control. That he bestows such attentive care upon his patients tells why he has been so fortunate as to secure the enviable popularity which he enjoys. He has always been attended with rare success in the treatment of stubborn cases of chronic disease—especially of those peculiar ills to which he devotes particular attention. That it is that he has steadily worked his way to the head of his profession. Sufferers of all classes, rich and poor, find relief alike at his hands. The unfortunate whom fate has stricken with evils and reduced to poverty find in him a friend and benefactor. It is pleasant to meet such men, who have a heart to feel and a hand to help. But none whether poor or rich can complain of extortion at his hands. His prices are moderate, not from mere motives of policy, because these pay the best in the long run, but because he is willing to live and let live, and to deal with others fairly and honorably. That he has not made a mistake in pursuing this course, we see from the fact that the public have favored him with such a patronage, that, in spite of great losses, he has been enable to amass an ample fortune.

In his social relations the Doctor is a very agreeable companion, and is esteemed, by those who know him, as a refined, liberal-minded, whole-souled gentleman. Nature has blessed him with fine features, and rare talent, which aided by agreeable manners, and a rare faculty of pleasing, render him a desirable acquisition to any circle.

His face furnishes a study for a physiognomist. A clear honest eye meets yours with a calm, genial look, which makes you feel at once, that he sees clearly and judges correctly; and yet we feel sure that he will pass no harsh judgment upon the failings of poor humanity, with which his professional experience has rendered him so familiar. A fine well shaped forehead rises above the eye and gives a hint of the brain behind. In the lines of the features we read firmness and character, and we see too that the man has lived a full, generous life, and loved and suffered like the rest of us.

His political views are plain and practical. Though no politician he is yet earnest and decided in the support of his country and its government.

His reputation is by no means limited to Albany. He is well and widely known through the State. Among his other good qualities we notice that he is a punctual paymaster. He advertises extensively, and this has contributed in no small degree to his prosperity. But the best of it is he pays the printer promptly and cheerfully, and never suffers a bill to be twice presented. It is safe to trust a man who does business in this way, for we can feel sure that such habits will insure thoroughness and care in whatever he undertakes.

To all those who need the services of a physician we can most cordially commend Dr. Teller, and assure them, that they will find in him, an excellent practitioner, and a kind friend. Though his words may not flow as volubly as those of the itinerant vender of some infallible specific, yet they are no less trustworthy on that account.

His office is at present located at No. 5 Beaver Street, Albany, N. Y.—*N. Y. Era.*

STARTLING! BUT TRUE.—The volunteers are braving the dangers of fever, scurvy, wounds and cholera. Many a gallant fellow will leave his bones to bleach, who, by the aid of Holloway's Pills and Ointment, would have returned to his family strong and healthy. Soldiers, try them.

If the reader of this "notice" cannot get a box of Pills or Ointment from the drug store in his place, let him write to me, 80 Maiden Lane, enclosing the amount, and I will mail a box free of expense. Many dealers will not keep my medicines on hand because they cannot make as much profit as on other persons' make. 35 cents, 88 cents, and $1.40 per box or pot. 226

The surgeons' reports show that our armies have suffered greatly from chills and fever which is induced by the miasma and change of climate to which they are exposed. They also find Ayer's Ague Cure is an effectual remedy for this distemper, and are urging the government to adopt it within the regulations. The Surgeon General hesitates, because it is put up in a proprietary form. However great that convenience to the public, he prefers the physicians of the army should give their own directions for the doses. Whatever professional pride may dictate, he knows as well as we do, that Dr. Ayer's "Cure" is an almost perfect antidote for the Ague, and that the soldiers should have the benefit of it, as well as the people.—*Washington (D. C.) Correspondent.*

U. S. 7-30 LOAN.

The Secretary of the Treasury gives notice that subscriptions will be received for Coupon Treasury Notes, payable three years from Aug. 15th, 1864, with semi-annual interest at the rate of seven and three-tenths per cent. per annum,—principal and interest both to be paid in lawful money.

These notes will be convertible at the option of the holder at maturity, into six per cent. gold bearing bonds, payable not less than five nor more than twenty years from their date, as the Government may elect. They will be issued in denominations of $50, $100, $500, $1,000 and $5,000, and all subscriptions must be for fifty dollars or some multiple of fifty dollars.

The notes will be transmitted to the owners free of transportation charges as soon after the receipt of the original Certificates of Deposit as they can be prepared.

As the notes draw interest from August 15, persons making deposits subsequent to that date must pay the interest accrued from date of note to date of deposit.

Parties depositing twenty-five thousand dollars and upwards for these notes at any one time will be allowed a commission of one-quarter of one per cent., which will be paid by the Treasury Department upon the receipt of a bill for the amount, certified to by the officer with whom the deposit was made. No deductions for commissions must be made from the deposits.

Special Advantages of This Loan.

IT IS A NATIONAL SAVINGS BANK, offering a higher rate of interest than any other, and *the best security.* Any savings bank which pays its depositors in U. S. Notes, considers that it is paying in the best circulating medium of the country, and it *cannot* pay in anything better, for its own assets are either in government securities or in notes or bonds payable in government paper.

It is equally convenient as a temporary or permanent investment. The notes can always be sold for within a fraction of their face and accumulated interest, and are the best security with banks as collaterals for discount.

Convertible into a 6 per ct. 5-20 Gold Bond

In addition to the very liberal interest on the notes for three years, this privilege of conversion is now worth about three per cent. per annum, for the current rate for 5-20 Bonds is not less than *nine per cent. premium*, and before the war the premium on six per cent. U. S. stocks was over twenty per cent. It will be seen that the actual profit on this loan, at the present market rate, is not less than ten per cent. per annum.

Its Exemption from State or Municipal Taxation.

But aside from all the advantages we have enumerated, a special act of Congress *exempts all bonds and Treasury notes from local taxation.* On the average, this exemption is worth about two per cent. per annum, according to the rate of taxation in different parts of the country.

It is believed that no securities offer so great inducements to lenders as those issued by the Government. In all other forms of indebtedness, the faith or ability of private parties, or stock companies, or separate communities, only, is pledged for payment, while the whole property of the country is held to secure the discharge of all the obligations of the United States.

While the Government offers the most liberal terms for its loans, it believes that the very strongest appeal will be to the loyalty and patriotism of the people.

SUBSCRIPTIONS WILL BE RECEIVED by the Treasurer of the United States, at Washington, the several Assistant Treasurers and designated Depositaries, and by the

and by all National Banks which are depositaries of public money, and

"A Stitch in Time Saves Nine."
All Furnaces, Stoves and Funnels should be thoroughly cleaned out and put in order, as soon as fires are done being made in them. If allowed to remain filled with ashes and soot through the summer, they will decay very rapidly, and useless expense be incurred.
A full supply of Linings and Repair Pieces constantly on hand, and all orders attended to with dispatch. E. A. STEVENS.

Facts for the People.
The enormous rise in price of Iron, Coal and Labor, has caused manufacturers to advance the price of STOVES and Castings several times since the war began; and it is now arranged to make a general advance of 25 to 50 per cent. this season.
We have not yet raised the price of Stoves in proportion to their increased cost, but shall be compelled to do so very shortly. Persons who expect to purchase anything in the Stove and Furnace line within a year or two, will save money by doing so at once. The price of a Stove is not so much an object, now, as its capacity and the cost of operating it. All things considered, there is no Stove equal to
THE MODEL COOK.
IT IS, IN FACT,
The Best Stove Out,
for economy, convenience and dispatch.
Many people think it best to use an old stove as long as possible, but it is far better to throw it away and purchase a MODEL COOK, than to keep it at the present high price of fuel.
One of our shrewdest citizens who purchased a MODEL COOK STOVE a year since, says he has saved more than its cost already.
A careful, prudent farmer purchased one, and after it had been in operation some days his son came into the store and said, "something was wrong at their house;" his father and himself used wood of the same pile, he burned three baskets full a day, and his father only one! We sold him a Stove before he left, and there has been no complaint since.
These stoves are in use in many hotels and boarding houses, and in hundreds of private families in this city and vicinity, and give the best of satisfaction.

Morning Chronicle.

— At the exposition of pictures at the Industrial Palace in Paris there is one large room where the rejected pictures are exhibited. This was an idea of the Emperor's and a good one. It is said that the eccentricity, self conceit and ignorance of a large class of persons who think themselves artists, are here most strikingly exposed.

— A paper substance to be used for bookbinding has just been invented in England. It appears to receive gilt impressions with the distinctness of morocco, and, as it can be washed with soap and water when dirty, it may be surmised that hereafter the phrase "musty literature" will fall into disuse. It is said that its cost will be something like one-half of the present price of embossed cloth.

DR. S. O. RICHARDSON'S

BLOOD ROOT ELIXIR

Has been thoroughly tested and proved in his medical practice, for a period of THIRTY YEARS, and is now presented to the public as an effectual cure for

CONSTIVENESS,

and the best remedy ever prepared for

Diseases of the Liver,

SCROFULA,

All Humors and Impurities of the Blood, and Diseases of the Skin.

The preparing and combining the Blood Root Elixir, is attended with more trouble and expense (in proportion to the inhalation of ether in surgery. Roots and plants, in themselves powerful and disagreeable, are, by a new and scientific process of extraction, rendered MORE EFFECTIVE IN THEIR OPERATION, entirely divested of the griping and distressing pain which attends the action of all other purgative medicine. They are also made to become HIGHLY PLEASANT AND AGREEABLE TO THE TASTE.

and by their peculiar combination work so perfectly in HARMONY WITH NATURE that no unpleasant reaction will follow its operation. It also possesses

A Diffusive and Alterative Effect,

which can only be attained by medicine in a liquid state. These are new demands in purgative medicines.

The hard and compact manner in which pills are prepared renders them indigestible—and when taking, are frequently voided from the bowels, half dissolved, causing only PARTIAL ACTION, thereby creating irritation and pain to the parts connected with their operation.

The pill dissolved, sometimes acts, will produce more medicinal and physical effect than five in a crude state.

The BLOOD ROOT ELIXIR has no partial action upon the bowels, but is equally diffused thro' and throughout the whole circulation of the blood, purifying and invigorating every action of the STOMACH AND BOWELS, LIVER, LUNGS, KIDNEYS, and gently stimulating dormant and morbid secretions through the system.

A single dose will produce a cheerful and exhilarating COMMOTION, which will inspire the patient with confidence and assurance of THEIR DILATE RELIEF. A course of one or two short period will DRIVE the obscure and hidden humors to the surface of the skin, and relieve or check Scrofulous Eruptions, and by thus purifying and strengthening the blood, will remove the most fruitful

CAUSE OF CONSUMPTION.

It incites the various organs of the system to act their allotted part removing the causes which induce RHEUMATISM, NERVOUS PAINS, SICK HEADACHE, LOSS OF APPETITE, DYSPEPSIA, COSTIVENESS, and the various diseases which arise from a derangement of the Stomach and Bowels, and vitiated circulation of the Blood.

COUGHS and COLDS, in their early stages, will immediately yield to the effect of the Elixir.

The BLOOD ROOT ELIXIR contains no mineral, no pernicious botanical element, no excess, but stimulates the operations by its mild diffusive action. It is an effective and painless aperient—has a decided salutary action upon the Liver, and does has been so medicine prepared for consumers family as which possesses equal merit.

Travellers, both by sea and land, will find the Elixir a complete antidote for the evils to which they are obliged to endure from a change of climate, of water, or of diet.

See the pamphlet around each bottle for a history of this Elixir.

The proprietor of the Blood Root Elixir (Dr. S. O. Richardson) has been long and favorably known to the public by his celebrated SALERY WINE BITTERS, the best tonic medicine ever discovered, and which has been in use over thirty years. He is a graduate of the New Hampshire Medical College, and has been a respectable member of the Massachusetts Medical Society, and has made the study of medicine his profession since 1829.

And so fully convinced is the Doctor of the wonderful curative effects of his Blood Root Elixir, that he hereby offers to any Druggist or person who will use one-half of a bottle of his Elixir and not be conscious of a good effect therefrom, to refund to said person the amount which he paid for the same, by returning the village bottle to his office.

Price $1.50 per Bottle.

Sold in Portsmouth by J. H. THACHER, opposite the Post Office, and No 19 Market Square; and by Dealers in Medicine generally, and at Dr. Richardson's Office, No. 51 Hanover street, Boston. 4m5—3mcodeW

SPEER'S

SAMBUCI WINE,

PURE AND FOUR YEARS OLD,

OF CHOICE OPORTO FRUIT.

For Physician's Use, Females, Weakly Persons and Invalids.

AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs; very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or compounded manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by physicians and chemists for its peculiar medicinal properties, superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm; improving the appetite, and benefitting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

☞ None genuine unless the signature of "ALFRED SPEER, Passaic, N. J." is over the cork of each bottle.

CHEROKEE REMEDY

AND

CHEROKEE INJECTION,

Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Stricture, Gravel, Gleet, Gonorrhea, and is especially recommended in those cases of Fever Albus or Whites in females, where all the old numerous medicines have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all its original purity and vigor, and gently removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an adjuvant assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites, *to effect a healing, soothing and demulcent* removing all scalding, heat, chordee and pain, instead of the burning and almost unendurable pain that is experienced with nearly all the *cheap quack Injections.*

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write us and we will mail free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.

They cure Suppressed, Excessive and Painful Menstruation.

They cure Green Sickness (Chlorosis).

They cure Nervous and Spinal Affections, pain in the back and lower parts of the body, Hemorrhage, Fainting on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysteria, Sick Headache, Giddiness, &c., &c. In a word, by removing the irregularity, they remove the cause and with it ALL the effects that spring from it.

Composed of simple vegetable extracts, they contain nothing injurious to the most delicate, however delicate, their function being to substitute strength for weakness, which, when properly used, they never fail to do.

They may safely be used at any age and at any period, *except during the first three months*, during which the unfailing nature of their action would inevitably prove abortive.

All letters seeking information or advice will be promptly, freely and discreetly answered.

Full directions accompany each box.

THE MAGEE

COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented; the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and radiron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming oven attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING

FURNACES.

The subscriber, being the Sole Agent in this vicinity for the ventilating and air-warming valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pots is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the best in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, and pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 20 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world.—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Shea, and others.

EYE, N. H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of Dr. Swett's PANACEA, and several bottles of his Humor WASH, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNES.
PORTSMOUTH, April 21st, 1862.
I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. COWDEN.
From ELDER I. CHESLEY, *Lee, May 31, 1841*
DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY
☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, No. 7 High street, Portsmouth, N. H., promptly attended to. may26

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837,)
76 State street, opposite Kilby street,
Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds Assignments, and all papers relating to Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it my clients have advantage for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse." CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and *trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. R. H. Eddy has made for me THIRTEEN applications, one of but one of which patents have been granted, and that is *now pending*. Such unmistakable proofs of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents; as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.
During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which were decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.

The Old Established Hospital.
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, other inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Bites, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. Teller, they will find a friend to console and a Physician who has secured thousands in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures. Dr. TELLER'S great work for the Married or those contemplating marriage—300 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery, it contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
DR. TELLER still remains the only Agency in America, for the sale of Dr. Valboisé's Celebrate Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
CAUTION—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of the unfortunate. On receipt of $1, (the price per box,) these Pills will be sent by mail or express, to any part of the world, secure from prying or damage.
Office hours from 9 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice. N. B.—No students or boys employed. Notice this, address all letters to

VERNATELLA.
Warranted to make the Soles of Boots and Shoes water and dampness proof, and wear one-third longer.
VERNATELLA
Is a preparation from Copper, having no grease, linseed oil, or anything of the kind, and when the soles are once saturated with it, water can no more get through them than through copper itself. **Price 25 Cents Per Bottle,**
at retail everywhere.
But its cost to the purchaser is really NOTHING, as it makes the soles wear enough longer to more than pay for it, leaving as a net gain the making of them Water and Dampness Proof, and the preservation thereby of that priceless gem, the health.
☞ LADIES, READ THIS! ☜
SAVE YOUR HEALTH.
Use Vernatella on the soles of your shoes. It makes them water proof and thereby protects your feet from dampness, for the ground is always more or less moist, either from rain or the morning and evening dews.

Morning Chronicle.

Portsmouth, N. H.

FRIDAY, SEPTEMBER 2, 1864.

THE REBELLION.

Forrest, Wheeler, and Morgan are reported to have joined their forces, and to be operating against Gen. Sherman's communications between Chattanooga and Nashville.

The rebel account of the surrender of Fort Morgan states that it took place on Tuesday afternoon, August 23, and that Gen. Page destroyed every thing in the fort and spiked his guns. He and his garrison, numbering 581, were sent to New Orleans. The rebel loss was seventeen killed,— wounded unknown. None of the combatants were allowed to visit the city The rebels report 4,000 Union troops on the main land at Grant's Pass.

The pirate Tallahassee slipped into Wilmington on the night of Aug. 25, after a fight with the gunboat Monticello, in which no damage was done either vessel. It is said repairs necessary will detain the pirate there two months; meanwhile another pirate the Edith, is to run out and continue the work of destruction.

Gen. Canby officially reports the unconditional surrender of Fort Morgan, Aug. 23d. By the surrender we have about 600 prisoners, 60 pieces of artillery and a large quantity of material. In twelve hours preceding the surrender about 3000 shells were thrown into the fort. The citadel and barracks are entirely destroyed, and the works generally much injured. Many of the guns were spiked, their carriages burned and much of their ammunition destroyed by the rebels. The loss in the army was one man killed and seven wounded.

General Sheridan is still near Charlestown, Va. Early's main force is believed to be in the vicinity of Bunker Hill.

DRAWING IT MILD.—The Richmond Enquirer of the 16th, says, discussing peace:

"This Confederacy or the Yankee nation, one or the other, goes down, down to perdition. That is to say, one or the other must forfeit its national existence and lie at the mercy of its mortal enemy. We all know by this time the fate in store for us if we succumb. The other party has no smaller stake. As surely as we completely ruin their armies—and without that is no peace or truce at all—so surely we will make them pay our war debt, though we wring it out of their hearts. And they know it well, and therefore, they cannot make peace except through their utter exhaustion and absolute inability to strike another blow."

GOLD. — Those who are unacquainted with the schemes of the Coal Hole in New York, may suppose that the recent decline in gold has been in consequence of our military success, or the absence of much demand for export; but those who profess to know say that neither of these, nor any political movements, have anything to do with the fall of gold. The agents of the Coal Hole have knocked the price of gold down for the purpose of buying up the dividends recently paid by the government, and when these are absorbed they will run the price of gold up to 300 or higher for political effect. It is predicted that gold will be used freely to affect the Presidential election. Those who control it intend to enhance the prices of the necessaries of life, and charge their iniquity on the present administration, in their appeals to the laboring classes to vote their ticket.—*Traveller.*

WELL SAID.—That sterling weekly, the Saturday Evening Gazette, puts the issue of the war into the following nutshell:

It is Northern *endurance* pitted against Southern *desperation*, and if we yield the prize which is within our grasp, future generations will curse the men who sacrificed their heritage through fear and ignorance of our own vast resources. The trial hour is approaching, and mens souls' and women's hearts will be tried. If we shrink or shirk, if we hesitate or yield, we shall merit the stigma which shall forever remain upon Northern courage and Northern pluck.

HERRING FISHERIES.—The Portland Advertiser says the Eastern fishermen are reaping a good harvest this season. A correspondent writing from Lubec says that herring are plenty and fatter than for a number of years. It usually takes four hogsheads of fish to make one barrel of oil. This season it requires but a little over one hogshead. The oil which three years ago sold for $9 per barrel, now sells readily for $40, and herring which last year commanded 25 cents per box now sell for 70 cents.

☞ The Fair of the New England Agricultural Society, which is to be held at Springfield, Mass., on Tuesday, Wednesday, Thursday and Friday of next week, promises to be very successful. At 11 o'clock on Friday, Gov. Andrew is to deliver an address. We understand that return tickets will be furnished over the roads from Worcester, this way, to those attending the fair.

☞ Hall's Journal of Health for September contains an essay on "The Children of the Rich," by Horace Greeley; "Living beyond one's Means," by D. C. Bowen, and several Health Tracts.

— Gold 247.

— Within a few days 1,400,000 bushels of coal have been started from Pittsburg for Cincinnati.

ITEMS—NEW AND OLD.

— Idaho City was almost swept off the earth by a tornado on the 27th ult.

— Coal has declined in New York a half dollar a ton.

— The names of three millionaires appear on the tax list of Providence.

— The official Vienna Gazette says the approaching visit of the King of Prussia to Vienna is one of the most essential guarantees for the peace of Europe.

— The Scotia's news in England was regarded as decidedly promising for the North, and caused a fall in the Confederate loan of from two to three per cent.

— The Jews in Philadelphia have leased a building and arranged it so that they can have a theatrical entertainment and a ball, all in the same evening.

— In Greenwood, Me., there are three caves, one of them 100 feet long, 8 feet wide and 28 feet high. In one of the caves ice forms all the year round.

— A young man was arrested in Toronto the other day, for kissing his hand to a young lady who was passing along on the opposite side of the street. What next?

— Any person selling friction matches after the first of September without a one-cent revenue stamp upon each box or package containing the same, is subject to a fine of $10 for each offence.

— The distribution of mail matter now done at leading offices is to be done hereafter in the cars by clerks detailed for the purpose, so that the delay hitherto required will be obviated, and mail matter can be taken at a later period.

— The Louisville Press understands that the Hon. Jesse D. Bright has sold out all his Kentucky possessions, freed his negroes, given them each a sum sufficient to commence the world with; and has, with his family, gone to Europe, there to remain until after the war.

— Gen. Heintzleman has prohibited express, railroad or other forwarding companies from forwarding or delivering arms, powder or ammunition of any kind in Ohio, Indiana, Illinois and Michigan for the next sixty days, without a permit from headquarters; also, dealers in these articles from selling the same within this time.

— A gentleman who saw the Tallahassee at Halifax says she had but 250 tons of coal on board. Her mainmast was gone, and her machinery was considerably out of order. A large part of her crew abandoned her at that port. It was thought that her commander would endeavor to go to Wilmington to make repairs.

— Fort Morgan cost the U. S. Government in its construction and armament $1,500,000, and is capable of mounting 132 guns and of garrisoning 700 men for siege operations. This fort commands the entrance of Mobile Bay, and its possession saves the necessity of keeping a blockading fleet there.

— The ship Archer, Capt. J. P. Cressey, has just made the passage from Calcutta to Boston with a full cargo in 97 days. Capt. Cressey made in the Flying Cloud the two shortest passages on record (each inside of 90 days) from New York to San Francisco, and has also made the shortest passage on record from Boston to Cadiz. Give him a chance at the Tallahassee.

— A Major of the Confederate army, named Lawrence, attempted to disturb a meeting held in Toronto, C. W., last week, in aid of the Freedmen's Association. He denounced the Yankees of Vermont, New Hampshire and Massachusetts as the true slave traders. He was hissed by a large majority of the audience, and the colored people manifested a strong disposition to put him out of the house.

— The Washington Chronicle says there seems to have been a systematic effort made to depreciate the crops of 1864. The amended accounts that are daily reaching the Agricultural Bureau from all parts of the West, from Michigan, Indiana, Iowa, Ohio and Wisconsin, all indicate that we shall have ample abundance for home consumption and for liberal foreign export, despite the drain of the war.

— The act of July 4, 1864 increases the invalid pensions of those who have lost both hands or both eyes to twenty five dollars per month, and those who have lost both feet to twenty dollars per month. It also provides for disabled discharged men, or those temporarily serving with the regularly organized military or naval force, as well as for their widows and other dependent relatives; and for cases where there is no evidence of muster in.

— Jackson Haines the skater, in imitation of Morphy the chess player, of Heenan the prize fighter, of Bateman the actress and Patti the prima donna, hopes to win a fortune abroad; and he has started for England, intending to make a professional tour as a skater—certainly a novelty in the way of amusements. He will travel all over Europe, and probably find the most enthusiastic patrons in Holland, Scandinavia and Russia, where ice and skates are almost national characteristics.

☞ It is a coincidence somewhat singular, that while the great convention was sitting in Chicago, *resolving* all sorts of calumnies and calamities against the United States and the President and Cabinet, especially the War Department,—at that moment we got news that the rebels have surrendered Fort Morgan to Admiral Farragut,—and also that gold has fallen ten per cent. At the same time, too, we have a report that a great Banking Concern in Europe offers to loan Uncle Sam a huge pile of money at 3 per cent for 75 years. This happened just when the wise men at Chicago were resolving that the present administration is unable alike to carry on war or make peace. But with this big loan our rulers could buy up every noisy croaker in the Chicago puddle, if they were worth buying, as they are not.

But money and men are the sinews of war, and if the fact that we are getting both causes gold to fall, then our success in these items foreshadows a collapse of the rebellion, and a consequent return of peace on a better basis than we have ever yet enjoyed.

It ought to be the prayer of every christian that these hopes may be realized, and it should be the effort of every patriot and good citizen to strengthen our rulers, our armies and our navy, for the speedy consummation so devoutly to be wished.

There can be no neutrals. Every man who does not aid our defenders really aids the rebellion. U. T.

☞ Gen. Seymour, recently returned from Southern prisons, who has never heretofore acted with the republicans, concurs with Col. Harriman in his estimate of the desperate condition of the rebels and in the belief that the success of the republicans at the Presidential election will virtually end the rebellion. He says—"disappointed from the first in not having been acknowledged by foreign Powers—more bitterly disappointed in their general expectation that Northern cowardice or dissension would secure their ends; but a single chance remains, and that is the result of our next election for President. If a democrat succeeds to Mr. Lincoln, they profess to feel sure of negotiations, and sure of their Confederacy. They believe a democrat will be elected. In Mr. Lincoln's re-election they see only subjugation, annihilation, for the war must then continue, and continuance is their failure and ruin. In military affairs it is an excellent rule never to do what the enemy desires; is it not equally true in politics? Certain it is that the only remaining hope of the South lies in Mr. Lincoln's defeat."

☞ The editor of a Maine paper went to church last Sunday, and evidently had the blues. In his Tuesday's paper he perpetrates the following;

"Let every man have a place in which to work," said a preacher whom we tried to hear Sunday morning. Certain it is that the work of the ministry is not that preacher's place, and the sooner he leaves it the better for himself, and the cause. He is out of his place entirely.

And again, in another paragraph he speaks right out in meeting, to wit:

Why is it that our benevolent organizations generally select stupid dolts for their agents and to present their cause to the public? Certainly they do not show much wisdom in so doing. If we wish to operate on the public mind politically, the ablest, most eloquent men are selected to talk to the people. But the men sent out by the churches to present the claims of the Bible, Mission and other good causes, are generally superannuated preachers, or men who never could preach or are deficient in the powers of oratory, and cannot interest an audience with any mental effort. The most intellectual and eloquent men in the church should present the claims of its benevolent operations. Thus the desired object would be attained.

Oh, fie, man, "you shouldn't go to church to criticise the minister." Perhaps there is a little truth in what you say, but isn't it a pity that men need so much "eloquent" urging to give of their abundance?

"NO PAY FOR THE WOUNDED."—When we read this heading over an item of news, we were surprised and grieved that our government should be so negligent in such a matter. But we perceived on reading the item that it was the "Confederacy" that had not paid up,— and that the groan came from Richmond. It is as follows:—

We regret to learn that there is no money in the hands of Major Ambler, paymaster, for the sick and wounded soldiers. Consequently, the sick and wounded who are receiving furloughs, and to whom in many instances there is due six months' pay, are obliged to go to their homes without a cent. Of course, no blame attaches to Major Ambler for this, for no man is more anxious than he to ameliorate the condition of our suffering soldiers; but he can only pay out the amount of funds furnished him by the Treasury. We think they are wasting their time trying to get up their notes in too fine a style. This is all unnecessary. Any kind of a piece of paper with the handsome phiz of any of our great men on it, and the signatures of two beautiful young women, will answer every purpose. The money is wanted for use, not ornament, and ought to be shorked out.—*Richmond Whig.*

— It is thought that the State Constitution of Nevada will be adopted to get rid of obnoxious territorial officials.

A MOB DISPERSED BY A JOKE.—When an officer of the revolution, the first Napoleon had been ordered out to disperse a body of rioters. Having drawn up his soldiers and some guns across the street, he waited their advance. They at length appeared, sweeping down on him and his party like a roaring torrent. The artillerymen, with their port fires, stood ready at his signal to pour showers of grape into the body of the mob. Unwilling to shed blood, he stepped out from his men to reason with the suffering and misguided people, and soon found himself *vis-a-vis* with their head—a virago of a woman, whose appearance presented a remarkable contrast to his own. She was of great size, and enormously fat, while he, always very little, was at that time so thin, as well as small that he was known by the *sobriquet* of "La Petit Corporal."

He remonstrated with this lady; but she replied with a volley of abuse—telling him that while she and other honest, hard-working people were starving, such idle fellows as he and his soldiers, were fattening on the best of the land. With that eagle eye and remarkable promptitude which afterwards turned the fate of many a battlefield, Napoleon saw at once the weak point of his adversary's position. He paused till she was out of breath. Then taking off his hat, he bowed to the mob, and placing his own thin figure beside that of his fat opponent, he asked them to say, whether the good lady or he looked most like starving. As happens in more respectable assemblies than mobs, and elsewhere than in France, a good natured joke won the day; and the people, for a time at least, quietly dispersed.—*Good Words.*

If any prefer to pay weekly, they can do so at our counting room only. Will all concerned please remember this, and thus aid in the more prompt and accurate delivery of our papers. Sept. 1.

STARTLING BUT TRUE.—The volunteers are braving the dangers of fever, scurvy, wounds and cholera. Many a gallant fellow will leave his bones to bleach, who, by the aid of Holloway's Pills and Ointment, would have returned to his family strong and healthy. Soldiers, try them.

If the reader of this "notice" cannot get a box of Pills or Ointment from the drug store in his place, let him write to me, 80 Maiden Lane, enclosing the amount, and I will mail a box free of expense. Many dealers will not keep my medicines on hand because they cannot make as much profit as on other persons' make. 35 cents, 88 cents, and $1.40 per box or pot. 226

Draft Notice.

To the Citizens of Portsmouth:

The undersigned, having been appointed by the Board of Mayor and Aldermen, a Committee to lay before the Board of Enrollment the names of all persons who claim exemption from the following causes, viz: Alienage, Non Residence, Unsuitableness of Age, Manifest Permanent Physical Disability, and persons who have been in the service two years during the present war, would give notice that they will be in session on and after Wednesday, Aug 17, 1864, from 2 till 5 o'clock and from 7½ to o'clock P. M., at the City Rooms, for the purpose of receiving evidence in such cases.

The Enrollment list can be seen during the same hours, and every person who can present a claim for such exemption is respectfully requested to attend as above, and by this means correct the Enrollment, so that our quota can be reduced.

It is the duty of every citizen, whether enrolled or not, to see that the Committee have all the information in his power to give in the above matter, in regard to any person, and we trust that every enrolled man will urge the importance of the subject upon all those who are exempt for the above causes, as it is a matter of interest to all.

Any information in regard to matters connected with the above will be cheerfully given.

Let there be no delay.

☞ At the office of the Provost Marshal of the First N. H. District, in this city, from twenty-five to thirty men daily are being accepted as substitutes in view of the approaching draft, which is ordered for Monday next, and for which we understand all preparations are made. For a guess, we should say that perhaps some 500 or 600 of the 2000 or more required under this call in this District, have already been put into the service; and the capacities of the very efficient and hard-working Board of Enrollment at this office, are constantly taxed to to the utmost. Whether, in this state of things, and with the office enlisting all the men which can possibly be examined,—whether, under these circumstances, the War Department will postpone the draft while the volunteering on the part of towns and individuals continues thus brisk here, or not, we presume no one here yet knows; but if the draft does immediately proceed, of course volunteering must cease, and so, for the moment at least, the service will lose rather than gain by the operation.

☞ Portsmouth isn't a very big place, but 'tis larger than Newcastle, and if one will prowl around its streets after nightfall, keeping his eyes and ears open, he will be able to form a pretty accurate idea of what transpires in larger cities when darkness enfolds them. Here a devotee at the shrine of Bacchus performs his time honored part of upholding a lamp post; there the sharp click of billiard balls warns us to mind our P's and cues, or we may pay dearly for the fascinating amusement. The loud wrangling in yonder house with ragged, greasy curtains, has become so old a story that it ceases to attract attention from the neighbors. Here, there and everywhere flit the birds of prey, whose province is the night; their plumage graduated from that of the bird of paradise, down to the draggled pinions of a sick barn-yard fowl—and we don't know which we pity most, the one who has already fallen to utter wretchedness, or she who has inevitably to make that fall and lives with the precipice under her feet.

But the night does not monopolize all the sad or sickening sights. Passing one of those dens of infamy which pock-mark the face of the city with their hideousness, a day or two since, we were attracted by the singular conduct of a woman dressed in a decent suit of black. She was evidently making a reconnoissance in force. From the street she would dash into the yard, with such a whoop as would reflect credit on a Comanche; then as suddenly make a masterly retreat from the yard to the street, with a whisk of hoops that no Comanche would tolerate. Finally her surcharged feelings exploded in words upon a wondering bystander, while she gesticulated like a native Parisian: "I want my husband.—Here's where he spends his nights; here's where he spends his money, and lets his own shop go to the devil." Poor woman, we pitied her, revealing family discord to strangers in the light of that beauteous August afternoon; and the shadow it cast on our mind has lasted longer than those cast on the rippling surface of "Sagamore" by the light clouds that flecked the sky that day.

☞ It will be seen that our old friend, Mr. Leverton, uses the advertising columns of this old Chronicle, (as he has always done to a liberal extent, when he had any communication to make to the public,—and always paid for it, too,) we say it will be seen that he announces the abandonment of his new Daily Paper project, for the present at least; and that he denounces one "Long John Abbott," so called, an old wandering typo, of Fort Warren and other notoriety, for deceiving, and misleading, and deserting him, in the matter of his new enterprise. Mr. Leverton is a young man of great industry and perseverance—which qualities are said to be, after all, the first requisites of genius; but, especially in these times, we thought he would have in his new Daily a bigger load than he could carry. At any rate, no such swab as the fellow he had chosen to aid in his enterprise, could be of any service — for how can a man who can't help himself, aid another?

While we have no fear or jealousy of any rival in business, and never had,—but are disposed to wish any man success in all laudable undertakings, whether new Dailies or what not,—we still are of opinion that the paper talked of would have had but poor success, and that neither the projector nor many other people who have not tried it, have much idea of the endless amount of labor and expense necessary to the publication of even a small Daily.

☞ The U. S. steamer Colorado went into commission on Wednesday, and will soon be ready for sea. Among the boys from our midst who have shipped for one year on board this vessel, are Adams Perry and Benjamin E. Fernald, Carpenter's mates, and Charles D. Perry, fireman. We are sorry to lose such young men from among us, but the government in obtaining them get no bounty-jumpers or scaly substitutes. Success attend them.

[Communication.]

PRIVATE WAYS.—*Messrs. Editors:* I wish you would touch up the owners of private ways, to give the public notice that they are not public roads, especially if they lead to dangerous places. A young gentleman of this city, accompanied by two ladies, a few days since, while in Greenland, started to drive down a road which he supposed led from the Exeter road to the Bay, there being nothing to show that it was not public. Just as he had crossed the Concord railroad, he found the road terminated in a farm yard. He turned his carriage about, when the cars shot by, not more than six or eight feet distant, without any premonition. All three jumped from the carriage, and the young man, getting the horse by the bridle, succeeded in holding him. *

Communication.

Messrs. Editor—I have waited patiently for you (as you must be sufferers) to complain of the nuisance in the shape of boys drumming about the streets in the vicinity of Market Square. The man who would present his son with such a barbarous toy, deserves to have the tympanum of one of his ears scared with hot iron as a slight atonement for the torture inflicted on others. Every day or two, some man who is not making a twentieth part of the din these boys make three or four times a week is arrested for brawl and tumult. Now do, Good Mr. Dresser, see if our city ordinances wont allow you to abate this egregious evil.

☞ Browne and Pike's Dramatic Company offer an extra bill attraction this Evening, comprising the great Comedy of Our American Cousin, with a grand diversitement of singing and dancing—including a new song dedicated to Geo. B. McClellan. The whole being for the benefit of Mr. G. W. Pike, who will sustain his very popular character of Lord Dundreary and also appear in Two Comic Dances.—We hope to see the Temple crowded. *

☞ The frames of the large steamer Piscataqua are being rapidly erected, at the Navy Yard. She will be three hundred and fourteen feet in length.

U. S. 7-30 LOAN.

The Secretary of the Treasury gives notice that subscriptions will be received for Coupon Treasury Notes, payable three years from Aug. 15th, 1864, with semi-annual interest at the rate of seven and three-tenths per cent. per annum,—principal and interest both to be paid in lawful money.

These notes will be convertible at the option of the holder at maturity, into six per cent. gold bearing bonds, payable not less than five nor more than twenty years from their date, as the Government may elect. They will be issued in denominations of $50, $100, $500, $1,000 and $5,000, and all subscriptions must be for fifty dollars or some multiple of fifty dollars.

The notes will be transmitted to the owners free of transportation charges as soon after the receipt of the original Certificates of Deposit as they can be prepared.

As the notes draw interest from August 15, persons making deposits subsequent to that date must pay the interest accrued from date of note to date of deposit.

Parties depositing twenty-five thousand dollars and upwards for these notes at any one time will be allowed a commission of one-quarter of one per cent., which will be paid by the Treasury Department upon the receipt of a bill for the amount, certified to by the officer with whom the deposit was made. No deductions for commissions must be made from the deposits.

Special Advantages of This Loan.

IT IS A NATIONAL SAVINGS BANK, offering a higher rate of interest than any other, and *the best security.* Any savings bank which pays its depositors in U. S. Notes, considers that it is paying in the best circulating medium of the country, and it *cannot* pay in anything better, for its own assets are either in government securities or in notes or bonds payable in government paper.

It is equally convenient as a temporary or permanent investment. The notes can always be sold for within a fraction of their face and accumulated interest, and are the best security with banks as collaterals for discount.

Convertible into a 6 per ct. 5-20 Gold Bond

In addition to the very liberal interest on the notes for three years, this privilege of conversion is now worth about three per cent. per annum, for the current rate for 5-20 Bonds is not less than *nine per cent. premium*, and before the war the premium on six per cent. U. S. stocks was over twenty per cent. It will be seen that the actual profit on this loan, at the present market rate, is not less than ten per cent. per annum.

Its Exemption from State or Municipal Taxation.

But aside from all the advantages we have enumerated, a special act of Congress *exempts all bonds and Treasury notes from local taxation.* On the average, this exemption is worth about two per cent. per annum, according to the rate of taxation in different parts of the country.

It is believed that no securities offer so great inducements to lenders as those issued by the Government. In all other forms of indebtedness, the faith or ability of private parties, or stock companies, or separate communities, only, is pledged for payment, while the whole property of the country is held to secure the discharge of all the obligations of the United States.

While the Government offers the most liberal terms for its loans, it believes that the very strongest appeal will be to the loyalty and patriotism of the people.

SUBSCRIPTIONS WILL BE RECEIVED by the Treasurer of the United States, at Washington, the several Assistant Treasurers and designated Depositaries, and by the

All Furnaces, Stoves and Funnels should be thoroughly cleaned out and put in order, as soon as fires are done being made in them. If allowed to remain filled with ashes and soot through the summer, they will decay very rapidly, and useless expense be incurred.

A full supply of Linings and Repair Pieces constantly on hand, and all orders attended to with dispatch. E. A. STEVENS.

Facts for the People.

The enormous rise in price of Iron, Coal and Labor, has caused manufacturers to advance the price of STOVES and Castings several times since the war began; and it is now arranged to make a general advance of 25 to 50 per cent. this season.

We have not yet raised the price of Stoves in proportion to their increased cost, but shall be compelled to do so very shortly. Persons who expect to purchase anything in the Stove and Furnace line within a year or two, will save money by doing so at once. The price of a Stove is not so much an object, now, as its capacity and the cost of operating it. All things considered, there is no Stove equal to

THE MODEL COOK.

IT IS, IN FACT,

The Best Stove Out,

for economy, convenience and dispatch.

Many people think it best to use an old stove as long as possible, but it is far better to throw it away and purchase a MODEL COOK, than to keep it at the present high price of fuel.

One of our shrewdest citizens who purchased a MODEL COOK STOVE a year since, says he has saved more than its cost already.

A careful, prudent farmer purchased one, and after it had been in operation some days his son came into the store and said, "something was wrong at their house;" his father and himself used wood off the same pile, he burned three baskets full a day, and his father only one! We sold him a Stove before he left, and there has been no complaint since.

These Stoves are in use in many hotels and boarding houses, and in hundreds of private families in this city and vicinity, and give the best of satisfaction.

Ayer's Cathartic Pills

Are the most perfect purgative which we are able to produce or think it has ever yet been made by anybody. Their effects have abundantly shown to the community how much they excel the ordinary medicines in use. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow disemper, stimulate sluggish or disordered organs into their natural action, and impart a healthy tone with strength to the whole system. Not only do they cure the every-day complaints of everybody, but also formidable and dangerous diseases. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be, employed for children. Being sugar-coated, they are pleasant to take; and, being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief, were they not substantiated by such of such exalted positive and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of our remedies, while others have sent us the assurance of their conviction that our preparation contributes immensely to the relief of our afflicted, suffering fellow men.

The Agents below named are pleased to furnish gratis our American Almanac, containing testimonies to their use, and certificates of their cures of the following complaints:

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Liver Complaint, Dyspepsia, Foul Stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and pervading therefrom, Flatulency, Loss of Appetite, all Diseases which require an evacuant medicine. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstructions of its functions.

Do not be put off by unprincipled dealers with other preparations which they may have more profit on. Demand AYER's and take no others. The sick want the best aid there is for them, and they should have it.

Prepared by J. C. AYER & Co., Lowell, Mass., and sold by Brackett Hastings, J. H. Thacher, W. R. Preston, David Kimball, and all druggists. 4y25eOlnw 2m 1t

DR. S. O. RICHARDSON'S

BLOOD ROOT ELIXIR

Has been thoroughly tested and proved in his medical practice, for a period of THIRTY YEARS, and is now offered to the public as an effectual cure for

COSTIVENESS,

and the best remedy ever prepared for

Diseases of the Liver,

SCROFULA,

All Humors and Impurities of the Blood, and Diseases of the Skin.

The preparing and combining the Blood Root Elixir, is intended with results to medical science next in importance to the inhalation of ether in surgery. Roots and plants, in themselves pungent and disagreeable, are, by a new and scientific process of extractive (or vacuum) pressure, MORE EFFECTIVE IN THEIR OPERATION, entirely divested of the griping and distressing pain which attends the action of all other purgative medicines. They are also made to become HIGHLY PLEASANT AND AGREEABLE TO THE TASTE,

and by their peculiar combination work so perfectly in HARMONY WITH NATURE that no unpleasant reaction will follow its operation. It also possesses

A Diffusive and Alterative Effect,

which can only be attained by medicine in a fluid state. These are new elements in purgative medicines.

The hard and compact manner in which pills are prepared renders them indigestible—and when taken are found to pass off from the stomach and bowels, half-dissolved, causing only PARTIAL ACTION, thereby creating irritation and pain to the parts connected with the bowels.

Our pills dissolved, *immediately*, will produce more medicinal and physical effect than five in a crude state.

The BLOOD ROOT ELIXIR has no partial action upon the bowels, but is *equally diffused* thro' and throughout the whole circulation of the blood, imparting a healthy and active action to the STOMACH AND BOWELS, LIVER, LUNGS, KIDNEYS, and gently stimulating dormant and morbid secretions through the whole system.

A single dose will PURGE, PURIFY, and invigorating CORRECTION, which will inspire the patient with confidence and assurance of IMMEDIATE RELIEF. A continued use for a short period will DRIVE the obscure and hidden humors to the surface of the skin, and relieve or check Scrofulous Affections—and by purifying, invigorating and strengthening the blood, will remove the most fruitful

CAUSE OF CONSUMPTION.

It incites the various organs of the system to act their allotted part, removing the causes which induce RHEUMATISM AND NEURALGIA, FEARFUL LOSS OF APPETITE, DYSPEPSIA, COSTIVENESS, and the various diseases which arise from a derangement of the Stomach and Bowels, and restricted circulation of the Blood.

COUGHS and COLDS, in their early stages, will immediately yield to the action of this medicine.

The BLOOD ROOT ELIXIR contains no mineral, no pernicious botanical element, no excitant, but stimulates the secretions into a mild diffusive action. It is an active, effective and pleasant—has a decided, salutary action upon the *Liver, and there has been no medicine prepared for* common family use which possesses this property.

Travellers, both by sea and land, will find the Elixir a complete antidote for the evils which they are obliged to endure from a change of climate, of water, or of diet.

See the pamphlet around each bottle for a history of the Elixir.

The proprietor of the Blood Root Elixir, (Dr. S. O. Richardson,) has been long and favorably known to the public by his celebrated SHERRY WINE BITTERS, the best tonic and medicine ever discovered, and which has been in use over thirty years. He is a graduate of the New Hampshire Medical College, and has for a long time been member of the Massachusetts Medical Society, and has made the study of medicine his profession since 1829.

And we fully convinced is the Doctor of the wonderful curative effects of his Blood Root Elixir, that he hereby offers to each and every person who will use one-third of a bottle of the Elixir and not be conscious of a good effect therefrom, to refund to said person the amount which he paid for the same, by returning the village bottle to his office.

Price $1.50 per Bottle.

Sold in Portsmouth by J. H. THACHER, opposite the Post Office, and No. 17 Market Square; and by Dealers in Medicine generally, and at Dr. Richardson's Office, No. 51 Hanover street, Boston. ap6—3meod&W

CHEROKEE REMEDY

—AND—

CHEROKEE INJECTION,

Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Stricture, Gravel, Gleet, Gonorrhœa, and is especially recommended in those cases of Fluor Albus (or Whites in females) where all the old nauseous medicines have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an allay or assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites. Its effects are *healing, soothing and generalcent*; removing all scalding, heat, chordee and pain, instead of the burning and almost unendurable pain that is experienced with nearly all the *cheap quack injections.*

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION, the disease in the same time all improper discharges are removed, and the weakened organs are speedily restored to full vigor and their strength.

For full particulars get our pamphlet from any drug store in the country, or write us and we will mail free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.

Price—CHEROKEE INJECTION, $2 per bottle, three bottles for $5.

Sent by Express to any address on receipt of price. Sold by all druggists everywhere.

THE GREAT

INDIAN MEDICINE,

COMPOUNDED FROM

ROOTS, HERBS AND LEAVES.

CHEROKEE CURE.

An unfailing cure for Spermatorrhœa, Seminal Weakness, Nocturnal Emissions, and all diseases of a self-pollution; such as Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Trembling, Wakefulness, Eruptions on the Face, Pale Countenance, Insanity, Consumption, and all the other complaints caused by departing from the path of nature.

☞ This medicine is a simple vegetable extract and one on which all can rely, as it has been used in our practice for many years, and with thousands treated it has not failed in a single instance. Its curative powers have been sufficient to gain victory over the most stubborn cases.

☞ To those who have trifled with their constitution, until they think themselves beyond the reach of medical aid, we would say, *Despair not*: the CHEROKEE CURE will restore you to health and vigor, and after all quack doctors have failed!

☞ For full particulars, get a circular from any drug store in the country, or write the proprietors, who will mail free to any one desiring the same, a full treatment in pamphlet form.

☞ Price, $2 per bottle or three bottles for $5, and forwarded by express to all parts of the world.

Sold by all respectable druggists everywhere.

DR. WRIGHT'S

REJUVENATING ELIXIR,

OR ESSENCE OF LIFE.

Prepared from Pure Vegetable Extracts,

Containing nothing injurious to the most delicate.

The Rejuvenating Elixir is the result of modern discoveries in the Vegetable kingdom; being an entirely new and abstract method of cure, irrespective of all the old and worn-out systems.

This medicine has been tested by the most eminent medical men of the day, and by them pronounced to be one of the greatest medical discoveries of the age.

One bottle will cure General Debility.

A few drops cure Hysterics in females.

One bottle cures Palpitation of the Heart.

A few doses restore the organs of generation.

From one to three bottles restore the manhood and full vigor of youth.

A few doses restore the appetite.

Three bottles cure the worst case of impotency.

A few doses cure the low spirited.

One bottle restores mental power.

A few doses bring the rose to the cheek.

Health and vigor follow in many more and robust health the poor debilitated, worn-down and despairing devotee of sensual pleasure.

The failings of youth, the over-tasked man of business, the victim of nervous depression, the individual suffering from general debility, or from weakness of a single organ, will all find immediate and permanent relief by the use of this Elixir or Essence of Life.

☞ Price, $2 per bottle, or three bottles for $5, and forwarded by express, on receipt of money, to any address.

Sold by all druggists everywhere.

CHEROKEE PILLS!

SUGAR-COATED.

FEMALE REGULATOR.

Health Preserver!!

CERTAIN AND SAFE.

☞ For the Removal of Obstructions, and the Insurance of Regularity in the Recurrence of the Monthly Periods.

They cure or obviate those numerous diseases that spring from irregularity, by removing the irregularity itself.

They cure Suppressed, Excessive and Painful Menstruation.

They cure Green Sickness (Chlorosis).

They cure Nervous and Spinal Affections, pains in the back and lower parts of the body, Heariness, Fatigue on slight exertion, Palpitation of the Heart, Lassitude, Spirits, Hysteria, Sick Headache, Giddiness, &c., &c. In a word, by removing the irregularity, they remove the cause and with it all the effects that spring from it.

Composed of simple vegetable extracts, they contain nothing deleterious to any constitution, however delicate, their function being to substitute strength for weakness, which, when properly used, they never fail to do.

They may be safely used at any age and at any period, *except during the first three months*, during which the unfailing nature of their action would infallibly *prevent* pregnancy.

All letters seeking information or advice will be promptly, freely and discreetly answered.

Full directions accompany each box.

THE MAGEE

COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be confined day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING

FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, which have generally proved a failure over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases have been allowed to pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, but are forced up by the admission of fresh air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used.

We have in store the different sizes, Brick and Portable, for which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

Smith's Catarrh Snuff.
For the cure and immediate relief of Catarrh, Colds in the Head, Dryness of the Air Passages, &c.
This Snuff does not sneeze one in inhaling it. It will break up a Cold in the Head in a few minutes. It is softening and soothing in its effects. Every one, as far as is known, is delighted with its results. The large demand it is having, by the gross and dozen, shows its value. The Proprietor was cured last winter of Catarrh of many years standing, with its "Catarrh Snuff," and the cure is PERMANENT.
For sale in Portsmouth by the THACHERS and PRESTON, Druggists, and by A. A. PAYNE and WELLS, Grocers.
Geo. C. Goodwin & Co., Boston, Gen. Agents.
Prepared by Rev. JOSEPH SMITH,

EYE, N.H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of Dr. SWEETS PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Sweet's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since, I have acted as agent for the sale of it. JOSIAH JENNESS.
PORTSMOUTH, April 21st, 1862.
I have for several years been afflicted with dizzness at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWEET'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.
From ELDER I CHESLEY, *Lee, May* 31, 1841.
DR. SWEET: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY
☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. SWEET, No. 7 High street, Portsmouth, N. H., promptly attended to. may26

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837,)
76 State street, opposite Kilby street,
Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a valuable collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse." CHARLES MASON, Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is now pending. Such unmistakeable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him for their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.
During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. **R. H. EDDY.**

The Old Established Hospital.
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his Old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus deprived themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to console and a Physician who has unsurpassed experience in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoices in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures Dr. TELLER'S great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, how to choose a Partner—a complete work on Midwifery, it contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
DR. TELLER still remains the only Agency in America, for the sale of Dr. Vichon's celebrated female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unsurpassed, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 9 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.
N. B.—Persons at a distance can be cured at home by addressing the Doctor as per advertisement, inclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases strictly private. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

VERNATELLA.
Warranted to make the Soles of Boots and Shoes water and dampness proof, and wear one-third longer.
VERNATELLA
Is a preparation from Copper, having no grease, linseed oil, or anything of the kind, and when the soles are once saturated with it, water can no more get through them than through copper itself. **Price 25 Cents Per Bottle,** at retail everywhere.
But its cost to the purchaser is really NOTHING, as it makes the soles wear enough longer to more than pay for it, leaving as a net gain the making of them Water and Dampness Proof, and the preservation thereby of that priceless gem, the health.
☞ LADIES, READ THIS! ☜
SAVE YOUR HEALTH.
Use Vernatella on the Soles of your Shoes. It makes them water proof and thereby protects your feet from dampness, for the ground is always more or less moist, either from rain or the morning and evening dews.

SATURDAY, SEPTEMBER 3, 1864.

THE REBELLION.

The steamer McClellan arrived at New York on Thursday with Adm. Farragut's official despatches regarding the capture of Fort Morgan, and the flags of the rebel ram Tennessee, the rebel steamer Selma and Forts Gaines and Morgan. The rebel ram Nashville was blown up by the Metacomet on the night of Aug. 25th below Mobile. She was 360 feet long, and was to mount 12 guns. The gunboat Oneida has fished up six torpedoes in the channel below the forts. The ram Tennessee would soon leave for New Orleans. The Selma is doing duty in the Union cause. Our forces ashore and on shipboard are in excellent condition.

At Mobile Adm. Farragut and Gen. Granger have compelled the evacuation of Fort Powell, and the surrender of Forts Gaines and Morgan; have captured the ram Tennessee and several other war vessels, 1500 prisoners, 100 guns, a vast quantity of small arms, munitions of war, &c., and six months' provisions for the Union garrison to be placed there, and have penned up at least three blockade runners. They have lost one man killed and six men wounded in the army; also the Tecumseh and a part of her crew, and a few men on the other ships.

Gen. Butler's canal at Dutch Gap is almost completed. The rebels are busy erecting batteries to command our position. They are reported to have a mysterious-looking and apparently formidable craft in one of the creeks emptying into the James river.

Gen. Sheridan has sent out a scouting expedition to Ashley's and Snicker's Gap, which brought in a number of prominent secessionists, and 35 horses. Early was at Winchester on the night of Aug. 31. Gen Averill drove the rebels out of Martinsburg on the morning of the 1st, and pursued them four miles towards Winchester.

Wheeler, Forrest and Rhoddy, who are said to have 10,000 men with 12 guns, have been tearing up the track of the Great Western railroad between Nashville and the Tennessee river. Gen. Rosseau went out and attacked them on Thursday morning, and has driven them three miles towards Murfreesboro.

THE REBEL ACCOUNT OF THE PEACE INTERVIEW.—The rebel official account of the interview between Jeff. Davis and Benjamin on the one side, and Mr. Gilmore and Col. Jaques, on the other, is rather an important document at just this time. Though much briefer than Mr. Gilmore's account, and drawn in very artful terms, while professing to correct the former, it substantially confirms on the great point which enlists the public interest. Mr. Benjamin thus narrates the substance of Jeff. Davis' language in the course of the interview:

"He stated that if they were themselves so unacquainted with the form of their own Government as to make such propositions, Mr. Lincoln ought to have known, when giving them his views, that it was out of the power of the Confederate Government to act on the subject of the domestic institutions of the several States, each State having exclusive jurisdiction on that point, still less to commit the decision of such a question to the vote of a foreign people; that the separation of the States was an accomplished fact; that he had no authority to receive proposals for negotiation except by virtue of his office as President of an independent Confederacy, and on this basis alone must proposals be made to him."

On this, a loyal journal remarks:

There is no getting over the positiveness of these assertions; and those who have made light of Mr. Gilmore's statement have now the official rebel account, arriving at precisely the same conclusion. While the Democratic party at Chicago are calling upon our Government to set back and suppress all our military operations, in order to try peace negotiations for the restoration of the Union, Jeff. Davis is declaring that the Union is gone forever, that he has conquered a separation, and "on this basis alone must proposals be made to him." This settles the whole matter, so far as the Jeff. Davis dynasty is concerned. That dynasty is to be subdued and overthrown by force of arms, before there is any chance for the restoration of the Union. The Democratic party has made an egregious blunder. They have opened the cry for peace where there is no peace, and what is worse, they have done it from mercenary motives, to the sacrifice of the public welfare. Their condemnation is sure.

— The British Customs have ordered that no Federal or rebel ships shall be allowed to enter any English port for the purpose of being dismantled.

— The Richmond Enquirer estimates that sixty thousand people of Virginia, which number is one-sixth of the whole population, are dependant on public charity for support.

— A Yorkshire paper says: "A lady fell off one of the boat piers and was in imminent danger of being drowned. Three fishermen let each other down, forming a chain of their bodies, and saved her. The lady did not even thank her deliverers; nor, we understand, did her husband."

THE LEGISLATURE.

WEDNESDAY.—The House passed a resolution requesting the Governor to inform the War Department that volunteers are being rapidly enlisted in this State; and to ask that the draft be postponed. The special committee reported against the appointment of a permanent committee on Finance, as recommended by the Governor, as "proper effort under the existing laws would readily obtain the necessary temporary loan at a reasonable rate of interest." Both Houses passed a resolution referring to the Supreme Court the question whether the soldiers' voting bill is a law or not.—The House appointed a committee to inform the Governor that the Legislature has completed its business, and is ready to be adjourned.

THURSDAY.—The House received from the Senate a resolution declaring the message of the Governor of Aug. 9th, in the opinion of the Legislature disgraceful in its nature, erroneous in its assumption of facts, and a breach of privilege of the Legislative department of the Government. The resolution was indefinitely postponed.

In the afternoon, the House passed a resolution stating that it is the determination of the Legislature and of the people to sustain the pecuniary credit of the State in every particular; and pledging the faith of the State for the prompt and complete discharge of all pecuniary liabilities incurred by the Treasurer with the approval of His Excellency the Governor, and the Council, and in accordance with existing acts and resolves of the Legislature, whether arising within or without the State. A message was received from the Governor, adjourning the Legislature without day. The session has lasted 24 days.

NEW HAMPSHIRE ITEMS.

—— The Members of the Legislature have presented Col. Charles H. Bell, of the 18th regiment, with a sword.

—— Capt. Chandler's company of Heavy Artillery, raised in Manchester, has gone to Concord to be mustered in. The Nashua company is nearly or quite full.

—— Rev. T. L. Ambrose, chaplain of the 12th N. H. regiment, who was severely wounded in one of the recent fights in Virginia, died on Friday, 19th ult. He belonged in Ossipee, and was highly esteemed as a faithful and devoted chaplain.

—— The September Term, Supreme Judicial Court, commences in Dover on Tuesday, 6th.

—— The Heavy Artillery Company which Lieut. Colbath is enlisting in Dover is rapidly filling up. About seventy-five men had enrolled their names up to Tuesday evening.

—— Col. M. Donahoe, of the 10th regiment, has been subjected to much trouble on account of charges which have been preferred against him by some of the officers of his command. After a full investigation before a court martial he has been honorably acquitted.

—— The Boston Journal says, on the authority of a correspondent in the First N. H. cavalry, that about two hundred and fifty more of the miserable wretches put in as substitutes deserted on the first night they went into camp. Three hundred of them have run off, having cost the government about $300,000 and rendering it no service whatever.

—— The Exhibition Building on the Fair Grounds of the Hillsborough South Agricultural Society, in Milford, was burned to the ground on Sunday night. It was the work of an incendiary.

☞ Speaking of the Chicago nomination a loyal journal says:

On the whole, it was, perhaps, the best thing that could be done in a party point of view. It is true, it is the very condemnation of inconsistencies. Gen. McClellan, whose whole distinction has been gained as a war man, is set upon a peace platform and given a peace associate. Being one of the first men in the country to urge a stringent draft, he commands the support of all now opposed to that measure. He is now put forward by those who demand a cessation of hostilities, when in June last he said publicly of the rebellion: "The only alternatives for our choice are its suppression or the destruction of our nationality." He is the nominee of all who are crying out against "arbitrary arrests," and he is instructed by a resolution of the Convention, in case he should be elected President, to open the doors of all political prisons, and yet he is the man, and the only man, who ever ordered the arrest of a whole Legislature of a State!

But what of all this? The party that has taken up Gen. McClellan is a bundle of contradictions. * * * It has been determined for a long time that a "spontaneous outburst should greet McClellan's nomination," and all that money and management can do will be done to rush this ticket through the country under a great impression of popularity and enthusiasm. It is hoped thus to carry the unthinking, and to attach every man who has a grievance or a wish unsatisfied.

The Union men should be fully prepared for this game. Short as the time is, it is sufficient for bringing home to every mind not absolutely closed by prejudices and passion, the great, cardinal, decisive facts in issue.

ITEMS—NEW AND OLD.

— Gold 248 1-2.

— Massachusetts has filled its quota.

— The New Ironsides sailed from Philadelphia on Tuesday.

— The yellow fever is abating at Key West.

— Last month was the warmest August since 1849.

— A gentleman was robbed of $13,500 at the Theatre in Nashville a week since.

— The old Portland Band has been reorganized by Mr. D. H. Chandler.

— Maine has just been credited with 3083 men in the Naval service—a good lift on the State's quota.

— Mr. David Niles, of Niles' Dover Express, was robbed of $10,000 in the Boston and Maine Depot, on Wednesday last.

— There is a girl in Mercer, Me., 15 years old, that weighs 225 pounds.

— The Queen of England receives pay as an authoress from Murray, the London publisher.

— Indian outrages in the West are increasing, and our present force there is said to be entirely inadequate to suppress them.

— We don't believe our Government can send any better peace negotiators South than Grant, Sherman and Farragut.

— The New Bedford Mercury learns that Adm. Porter is to take command of the North Atlantic Blockading Squrdron, in place of Adm. Lee.

— The New York Herald says that coal in that city has come down in price two dollars per ton by wholesale, and that large quantities are accumulating along the docks.

— The billard match for $1000 is to take place in Boston on the 13th of September, between Harry Eaton of San Francisco, and Robert A. Wilmarth of Boston.

— The report of the anti-draft riot in New Orleans, and the loss of 400 lives, is not confirmed by later intelligence from that city.

— All the prizes in the recent London donkey show were carried off by one man. There were nineteen silver cups, and they were stolen by a thief, and had not been recovered at last accounts.—*Boston Post.*

— The exports of domestic produce from New York this week are very large—over seven millions—three times as much as during the same week last season.

— A Salem mechanic has constructed an automaton that smokes cigars. He ought to have done it before the price of tobacco went up.

— The thousand-millions' German loan story is pronounced a humbug, a canard, a hoax, a shave, a quiz, a stock-jobbing invention, or whatever else is most false, unreliable, and contemptible.

— John Milton's house in Barbican, London, which is being demolished, was occupied by a dyer named Heaven, who has placarded the premises thus: "Removal of Heaven, the premises being required for the Metropolitan railway."

— A New York correspondent says that the pickpockets have adopted a new dodge. They eat onions, then they enter a horse car and take a seat by a lady. The lady turns aside her head to escape their offensive breath, and their purse is abstracted.

— Neither Mr. Gilmore, Col. Jacques, nor Mr. Greeley ever have been authorized to express any desires, views or opinions of the President, either in Canada or Richmond, on the subject of negotiations for peace, beyond what he has plainly and carefully written over his own signature.

— Somebody last spring recommended mixing coal oil and sawdust and putting it around the roots of plum trees to keep off the curculio. Those who tried it found it did not keep off the pest this year, but it will next year. It has killed the trees.

— Some Detroit substitute brokers recently went into Canada, boasted they were bounty jumpers, and guiled the flats by telling them how easy it was to "do" the U. S. Government. Several agreed to try the dodge and share the bounties; they enlisted, and now are in front of Petersburg, wondering how the Yankees could so easily desert when they find it so difficult.

THE PIRATE TALLAHASSEE.—A double-screw steamer named the Atalanta, had a race across the English Channel with a paddle steamer called the Empress, which excited considerable interest. The Atalanta was afterward fitted out as a blockade-runner, and sailed for Bermuda, which port she reached in eleven days and a half. She has since run the blockade three times, once making the trip from Wilmington, N. C., to Bermuda in 48 hours. It is now stated, on what seems to be good authority, that this vessel is the notorious Tallahassee, she having received an armament and been otherwise fitted out for her present villainous business in Wilmington, and run through our blockading squadron off that port. She is a vessel of 600 tons register, about 280 feet long, and has screw propeller under each quarter, and is capable of steaming sixteen knots an hour, which is a very high speed for a vessel of her size.

☞ The well-informed correspondent of the Boston Journal, "Perley," in his letter from the Clifton House, of Aug. 25, says that the Southern men there really have among them commissioners accredited from Jeff. Davis. He says, "*I am positive*" of this. He adds: "The Democrats who come here are convinced that the rebels at the South desire peace—that they desire a reconstruction of the Union—and that they will join their Northern friends in just *such a 'reconstruction'* as followed the return of the British monarch after the Puritan Republic was permitted to be destroyed by those whom it had enriched. The South want (they say) an armistice—a national convention—a restoration of old harmony—Union against foreign intervention—and national prosperity, rather than bloodshed and ruin."

It is quite obvious that the rebellious spirits, and the worshippers of the slave power, have a most earnest desire to recover the supremacy of that delectable institution—and are determined to restore it, if they get votes enough. This is now their only hope.

☞ Circular No 65, Adj. Gen.'s Office, War Department, dated Aug. 18, states that "men who have served two years (continuously) in the Army or Marine corps of the United States, and have been honorably discharged by reason of expiration of term of service, or otherwise, and are thus by law exempt from draft, may be enlisted in the First Battalion, Veteran Reserve Corps, (for three years,) without bounty from the United States."

"A Wonderful Discovery."

DR. TEBBETTS' "PHYSIOLOGICAL HAIR REGENERATOR" is compounded in strict accordance with the well known laws of Physiology and modern vegetable Chemistry. It is not a "DYE," and will not stain a particle. It will "RESTORE GRAY HAIR" in all cases to its original color. It promotes a luxuriant growth of new HAIR in all cases on BALD HEADS, when the glands or roots of the hair are not completely disorganized. It prevents the hair from falling off and removes all dandruff, heat, humors and itching from the scalp. It keeps the hair soft, moist and perfectly healthy, and gives it a glossy and beautiful appearance. It is highly perfumed, and as a Dressing it has no superior. The "REGENERATOR" is warranted to produce the above results in all cases, if not, the money to be refunded. With it every "GRAY HEAD" in New England can be restored in less than sixty days.

☞ The morning train from Concord on the C. & P. Railroad, was thrown from the track on Friday at the gravel pit near the Plains. The 9 o'clock freight train from this city passed over the road safely, but previous to the arrival of the down train, which is due here at 10 o'clock, some fiend in human shape tampered with the switch, removing with a wrench the nuts securing the "strap," driving back the bolts, and taking off and throwing away the strap; and then moving the track about half the width of the rail—just enough to fail to attract the eye of the engineer, and at the same time ensure the accomplishment of his diabolical plan. The engine and two of the three passenger cars composing the train were thrown off, but fortunately no one was injured. The engineer reversed the engine, and with the fireman jumped off. Had they not done so they would undoubtedly have been killed, as the engine was completely wrecked.

Mr. John Swindells, proprietor of the brewery near the Creek in this city, was run over and instantly killed by the evening train from Concord on the same day. As the train was approaching the Creek crossing the engineer glanced along the track and observed that it was clear, but noticed a man standing on one side and a little girl running down towards the track on the other. Presently, while the engineer was watching the latter to see that she did not come too near, the man, who proved to be Mr. Swindells, was in some unexplained manner precipitated in front of the engine and the entire train passed over him. His body was torn and lacerated in a frightful manner. No blame can attach to the engineer of the train.

☞ In Board of Aldermen, on Thursday evening, permission was given U. Blaisdell to lay sidewalk in North street.

The Committee on Claims reported that A. B. Mudge's barn would have been burned if it had not been pulled down, and that the city is not liable. Laid on the table for one week.

An application from Elisha Tripp for sidewalk on Penhallow street was referred. Also, Charles W. Carter's application for sidewalk in Chestnut street; and application of N. F. Mathes and others that sidewalk in State street might be relaid.

The Mayor was authorized to hire a room for a recruiting office for the 18th N. H. regiment.

The petition of Thomas M. Lang; and others, to have Lang's road widened, was referred to the Committee on streets with power to act,—expense not to exceed $40.

☞ The quota of Greenland is supposed to be full. And the towns of Exeter, Newmarket, and others, have, it is supposed, nearly or quite filled theirs—though many towns hope to reduce their quotas by correcting their enrollment.

The quota of Portsmouth is thought to lack considerably over 100, after making all allowances—the deficiency being largely in Ward One. With the liberal bounties of $900, $1000, and $11.0 0, offered to actual enrolled men *volunteering* for one, two and three years, it would seem that love of country and love of money combined might fill up the 18th N. H. regiment and our city's quota, without a draft. One year's men will receive, all told, nearly $1500 for their year's service, we believe.

Communication.

Messrs. Editors.—We think that the correspondent of yesterday who was so much disturbed by the drumming in the street of a few little boys, was rather severe in his condemnation of them. He must either be one of three things, viz: a copperhead, an old bachelor who never troubled himself much about children, or else he must be a person with a very sensitive ear for music. For our part we must say that if nothing disturbs our peace more than a boy's drum and fife we shall live very comfortably. By all means let the boys drum, if they will. F.

☞ Quite a serious affray occurred on board the steamer Colorado at the Navy Yard on Friday, in which the master at arms was stabbed in the head by a sailor, (substitute,) inflicting a frightful gash across the face. A number of these bounty jumping rascals are already in irons on board the Colorado.

☞ A marine deserted from his post at the Navy Yard a night or two since by effecting a change of clothing and stealing a coat. When his "relief" came, they found his gun and soldier clothes doing all the guard duty. He has not yet been secured, but his chances of escape are doubtful.

☞ The time of Co. A, Maine State Guards, of Bangor, now on garrison duty at Fort McClary, expires next Monday, Sept. 5. Co. B, also of Bangor, Capt. Ricker, is to be mustered into the service and relieve them.

☞ Mr. Wm. G. Shackford of this city has received an appointment as Acting Ensign in the U. S. Navy, and been ordered on board the practice ship Savannah.

☞ The Martin Guards, at Fort Constitution for one hundred days, have received orders to recruit their company for one year—it is said with the assurance that they shall remain there. About two thirds of the company, it is thought, will re-enlist.

U. S. 7-30 LOAN.

The Secretary of the Treasury gives notice that subscriptions will be received for Coupon Treasury Notes, payable three years from Aug. 15th, 1864, with semi-annual interest at the rate of seven and three-tenths per cent. per annum,—principal and interest both to be paid in lawful money.

These notes will be convertible at the option of the holder at maturity, into six per cent. gold bearing bonds, payable not less than five nor more than twenty years from their date, as the Government may elect. They will be issued in denominations of $50, $100, $500, $1,000 and $5,000, and all subscriptions must be for fifty dollars or some multiple of fifty dollars.

The notes will be transmitted to the owners free of transportation charges as soon after the receipt of the original Certificates of Deposit as they can be prepared.

As the notes draw interest from August 15, persons making deposits subsequent to that date must pay the interest accrued from date of note to date of deposit.

Parties depositing twenty-five thousand dollars and upwards for these notes at any one time will be allowed a commission of one-quarter of one per cent., which will be paid by the Treasury Department upon the receipt of a bill for the amount, certified to by the officer with whom the deposit was made. No deductions for commissions must be made from the deposits.

Special Advantages of This Loan.

IT IS A NATIONAL SAVINGS BANK, offering a higher rate of interest than any other, and *the best security.* Any savings bank which pays its depositors in U. S. Notes, considers that it is paying in the best circulating medium of the country, and it *cannot* pay in anything better, for its own assets are either in government securities or in notes or bonds payable in government paper.

It is equally convenient as a temporary or permanent investment. The notes can always be sold for within a fraction of their face and accumulated interest, and are the best security with banks as collaterals for discount.

Convertible into a 6 per ct. 5-20 Gold Bond

In addition to the very liberal interest on the notes for three years, this privilege of conversion is now worth about three per cent. per annum, for the current rate for 5-20 Bonds is not less than *nine per cent. premium*, and before the war the premium on six per cent. U. S. stocks was over twenty per cent. It will be seen that the actual profit on this loan, at the present market rate, is not less than ten per cent. per annum.

Its Exemption from State or Municipal Taxation.

But aside from all the advantages we have enumerated, a special act of Congress *exempts all bonds and Treasury notes from local taxation.* On the average, this exemption is worth about two per cent. per annum, according to the rate of taxation in different parts of the country.

It is believed that no securities offer so great inducements to lenders as those issued by the Government. In all other forms of indebtedness, the faith or ability of private parties, or stock companies, or separate communities, only, is pledged for payment, while the whole property of the country is held to secure the discharge of all the obligations of the United States.

While the Government offers the most liberal terms for its loans, it believes that the very strongest appeal will be to the loyalty and patriotism of the people.

SUBSCRIPTIONS WILL BE RECEIVED by the Treasurer of the United States, at Washington, the several Assistant Treasurers and designated Depositaries, and by the

1st National Bank of Portsmouth, N H,
Nat. Mech. & Traders' Bank, "
and by all National Banks which are depositaries of public money, and

ALL RESPECTABLE BANKS AND BANKERS throughout the country will give further information and afford

Facts for the People.

The enormous rise in price of Iron, Coal and Labor, has caused manufacturers to advance the price of STOVES and Castings several times since the war began; and it is now arranged to make a general advance of 25 to 50 per cent. this season.

We have not yet raised the price of Stoves in proportion to their increased cost, but shall be compelled to do so very shortly. Persons who expect to purchase anything in the Stove and Furnace line within a year or two, will save money by doing so at once. The price of a Stove is not so much an object, now, as its capacity and the cost of operating it. All things considered, there is no Stove equal to

THE MODEL COOK.

IT IS, IN FACT,

The Best Stove Out,

for economy, convenience and dispatch.

Many people think it best to use an old stove as long as possible, but it is far better to throw it away and purchase a MODEL COOK, than to keep it at the present high price of fuel.

One of our shrewdest citizens who purchased a MODEL COOK STOVE a year since, says he has saved more than its cost already.

A careful, prudent farmer purchased one, and after it had been in operation some days his son came into the store and said, "something was wrong at their house;" his father and himself used wood off the same pile, he burned three baskets full a day, and his father only one! We sold him a Stove before he left, and there has been no complaint since.

These Stoves are in use in many hotels and boarding houses, and in hundreds of private families in this city and vicinity, and give the best of satisfaction.

From the Journal.

AN HOUR AT PORTSMOUTH NAVY YARD.

There is a rapid progress in the improvements of the Yard as well as in the construction of ships, as we found by a visit to the yard on Wednesday. It is only seven or eight years ago that the Government had about concluded to put the Yard in ordinary, that is, to suspend all work, and leave only enough persons there to protect the property. Fortunately, however, there were men of discernment, who saw the unwise policy of such a movement, and obtained appropriations for the continued gradual improvement of the Yard, so that when the war commenced, the Yard was in a state of readiness for the work it was needed to perform.

Between the time we visited the Yard a few months since and now, we notice many improvements completed and going on. A large three story store house, for naval stores, adjoining the old store house on the eastern end, has been built. It presents a handsome front on the east.—The spacious rooms are filled with stores for the vessels fitting out. Among these we noticed several boxes labelled "roast beef." These boxes are filled with tin canisters hermetically sealed, each containing four pounds of beef, roasted in Portland, which may be kept in this way for years.—Other provisions, perishable on exposure to the air, are packed in like manner.

The Ordnance Park has been enlarged, and presents more guns and shot handsomely piled than ever before.

The Marine Barracks, which have long been too limited, are being materially enlarged. The main body of the block is being elevated to the present height of the east and west wings, and these wings are being raised to three stories.

An extensive timber shed is in the vicinity connected with the Ordnance Department. The lower story for timber, is made by granite pillars, sustaining a large hall of brick, also for Ordnance purposes. Its length is 100 feet, and 60 feet wide.

The Porter's house, in the avenue in the rear of Commodore Pearson's residence, has been erected the past year. It is a handsome two-story brick house, quite an improvement on the old residence of Mr. Anderson which was consumed by fire.

There has been an addition made to the Ordnance Building, and the manufacture of gun carriages has been greatly increased.

A large two-story building, 150 feet in length, by 55 feet wide, is just being completed on the north side of the island. The lower room is for a blacksmith shop, and the upper for a carpenter's shop. A steam engine is attached, and the whole building is to be warmed by steam.

The Futtock Saw Mill is quite a curiosity. Two gangs of saws work together, and saw by pattern either in straight or curved lines. Much labor as well as stock is saved by this new process.

There are now building on the Yard the noble steam frigate Franklin, of 50 guns, of which some account is given on our first page. She will be launched the 17th.

The Contoocook, 2200 tons, 233 feet in length. She is a propeller gunboat. Will be ready to launch in two months.

The Passaconaway, 3200 tons, same length, an iron-clad propeller, is also on the stocks.

The Piscataqua is being built in the rear of the Dry Dock. Her ribs are just being raised. Her keel is 304 feet.

The Agamenticus, an Iron-clad Steamer of 1564 tons, is afloat, and her turrets are being constructed. To say nothing of the marvel of the work throughout, for strength, these turrets are a wonder to behold. Made of eight coatings of iron, each an inch and a quarter in thickness. Each turret, with the two cannons it contains, and the pilot house on top, weighs about 500 ton. Yet one of these is made to traverse when in action. About two hundred steam engines are used in various parts of the vessel. She is moved by two propellers. Keel 250.

There are also at the Yard at the present time, the Colorado, the San Jacinto, the Iosco, the Albatross, the Tioga, and the DeSoto.

The Receiving Ship Vandalia, with her tender, the Beauregard, are anchored north of the Dry Dock.

Among the projected work not yet commenced, we saw at the office of the Civil Engineer, Mr. Chandler, the plan of a handsome church, designed to be located in the green enclosure where the flag staff now stands. This will not probably be built till the pressure for the war begins to subside. At present over two thousand men are employed on the Yard.

HOW THE 3D N. H. REGIMENT FIGHTS.

The following is an extract from a letter written by a member of the 3d N. H. regiment, describing the action at Deep Bottom, Aug. 18th:

During the forenoon, the regiment numbering 250 men, were in the woods in front of some strong works held by the "Johnnies," keeping perfectly quiet, and preparing a grand charge and perhaps a desperate fight. The rebels were known to be in force, but those works were to be taken, and although the *old men* who had but six days to serve, were feeling that if they went into the fight the chance for going home next week were slim, yet they were firm and resolved to go at any cost. No $1000 subs there.

At 4 o'clock the order came to prepare for the fight. In five minutes the 3d N. H. were in line and ready—the word "go" was given, and go they did, yelling like tigers. Then came the storm of shell, grape and canister and bullets, and the brave boys fell by dozens, yet on they went, and the rebels fell back fighting desperately every inch. Our boys were in their works, and the Johnnies were piled in heaps all around. In ten minutes from that time it was hard to tell whether there was any 3d N. H. or not.

What was left were back where they started from, having been flanked, driven and routed—with no Colonel or Adjutant, and but three or four officers. How did that happen, you ask. I will tell you. Our boys that took the works had not held them more than five minutes, when two whole divisions of rebels came down on *three* sides of them, and opened such a terrible enfilading fire on our brigade, that it is a wonder that one man got back alive, of course they fell back and the rebels had a fair chance to shoot them by scores.

Lieutenant Colonel J. I. Plimpton was shot through the breast and killed instantly. Our brave little Adjutant, C. J. Copp, of Nashua, (only 19 years old,) who has returned to duty from a bad wound received at Drury's Bluff, was (I am afraid) mortally wounded, and also Lieut. Lamprey. Lieut. Atherton was killed. Then there is slightly wounded, Capt. Wadlin, Lieuts. Eldredge, Hazen, Giddings, and between 95 and 100 of the men killed and wounded. Quite a number of the old men were killed and wounded. Co. G has not a commissioned or non commissioned officer left. Capt. Dow is in command of the regiment.

Col. Plimpton's body could not be brought off the field; and three or four boys were wounded in taking his sword and papers. In the afternoon a flag of truce was sent out, and they gave us the body of Col. P., but they had taken all his clothing. We buried him this forenoon on the banks of the James, under a peax tree, and a head board is to be placed there. There were about ten of us including the chaplain, who offered a prayer, and we buried all that remained of Colonel J. J. Plimpton.

Ayer's Cathartic Pills

Are the most perfect purgative which we are able to produce or which we think has ever yet been made by anybody else. Being composed entirely of vegetable matter, we can do the community how much they excel the ordinary medicines in use. They are safe and pleasant to take, but powerful to cure. Their extraordinary properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow diseases, stimulate sluggish or disordered organs into their natural action, and impart a healthy tone with strength to the whole system. Not only do they cure the every-day complaints of everybody, but also formidable and dangerous diseases. While they produce powerful results, they are at the same time so diminished dose, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take, and, being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief, were they not substantiated by men of such assured position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their influence to certify to the public the quality of our remedies, which for years we have sent as the assurance of their conviction that our preparations contribute immensely to the relief of our afflicted, suffering fellow citizens.

The Agents below named are pleased to furnish gratis our American Almanac, containing directions for their use, and the testimonials of their cures of the following complaints:

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache, Pain in the Stomach, Nausea, Loss of Appetite, Indigestion, Morbid Inaction of the Bowels and pain arising therefrom, Flatulency, Loss of Appetite, all Diseases which require a cathartic medicine. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they would reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstructions of its functions.

Do not be put off by unprincipled dealers with other preparations which they may think more profit on. Demand AYER'S and take no others. The sick want the best aid there is for them, and they should have it.

Prepared by J. C. AYER & Co., Lowell, Mass., and sold by Brackett Hutchings, J. H. Thacher, W. H. Preston, David Kimball, and all druggists.

DR. S. O. RICHARDSON'S

BLOOD ROOT ELIXIR

Has been thoroughly tested and proved in his medical practice, for a period of THIRTY YEARS, and is now presented to the public as an efficient cure for

COSTIVENESS,

and the best remedy ever prepared for

Diseases of the Liver,

SCROFULA,

All Humors and Impurities of the Blood, and Diseases of the Skin.

The preparing and combining the Blood Root Elixir, is attended with results to medical science next in importance to the inhalation of ether in surgery. Roots and plants, in themselves purgative and disagreeable, are, by a new and scientific process of extraction (a process entirely different from the old one), made EFFECTIVE IN THEIR OPERATION, entirely divested of the griping and distressing pain which attends the action of all other purgative medicines. They are also made to become HIGHLY PLEASANT AND AGREEABLE TO THE TASTE,

and by their peculiar combination work so perfectly in HARMONY WITH NATURE that no unpleasant reaction will follow its operation. It also possesses

A Diffusive and Alterative Effect,

which can only be attained by medicine in a fluid state. These are new elements in purgative medicines.

The hard and compact manner in which pills are prepared renders them indigestible—and when taken are passed through the stomach and bowels, half-dissolved, causing only PARTIAL ACTION, thereby creating irritation and pain to the parts connected with the bowels.

Once pill dissolved, sensation ceases, will produce more medicinal and physical effect than five in a crude state.

The BLOOD ROOT ELIXIR has no partial action upon the bowels, but is equally *diffused* there and through out the whole circulation of the blood, imparting a healthy tone and action across to the STOMACH AND BOWELS, LIVER, LUNGS, KIDNEYS, and gently stimulating dormant and mortal secretions through the whole system.

A single dose will produce a cheerful and exhilarating COMMOTION, which will inspire the patient with confidence and assurance of IMMEDIATE RELIEF. Continued use of the Elixir will DRIVE the obscure and hidden humors to the surface of the skin, and relieve or check Scrofulous Affections, Eruptions, Pimples, purifying and strengthening the blood, will remove the most fruitful

CAUSE OF CONSUMPTION.

It invites the various organs of the system to act their allotted part, removing the causes which induce RHEUMATISM, DYSPEPSIA, FEMALE DISEASES, LOSS OF APPETITE, DYSPEPSIA, COSTIVENESS, and the various diseases which arise from a derangement of the Stomach and Bowels, and restricted circulation of the Blood.

COUGHS and COLDS, in their early stages, will immediately yield to this vitalizing Elixir.

The BLOOD ROOT ELIXIR contains no mineral, no poisonous botanical element, to excite, but stimulates to the exercise of healthy diffusive action. It is an effective and painless agent—has a decided, salutary action upon the Liver, and there are few *cases of Liver Complaint* or *Chronic Dyspepsia* which it cannot cure.

Travellers, both by sea and land, will find the Elixir a complete antidote for the evils which these are subject to, unless from a change of climate, water, or diet.

Read the pamphlet around each bottle for a history of the Elixir.

The proprietor of the Blood Root Elixir, Dr. S. O. Richardson, has been long and favorably known to the public by his celebrated SHERRY WINE BITTERS, a medicine whose merits were discovered, and which has been in use over thirty years. He is a graduate of the New Hampshire Medical College, and a consulting member of the Massachusetts Medical Society, and has made the study of medicine his profession since 1829.

And so fully convinced is the Doctor of the wonderful curative effects of his Blood Root Elixir, that he hereby offers to refund to any person who has bought one-half of a bottle of his Elixir and not be conscious of a good effect therefrom, to refund to said person the amount which he paid for the same, by returning the village bottle in his office.

Price $1.50 per Bottle.

Sold in Portsmouth by J. H. THACHER, opposite the Post Office, and by Druggists and by Dealers in Medicine generally, and at Dr. Richardson's Office, No. 51 Hanover street, Boston. au5—3moed&W

CHEROKEE REMEDY

—AND—

CHEROKEE INJECTION,

Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Stricture, Gravel, Gleet, Gonorrhœa, and is especially recommended in these cases of Fever Ailments Where it formerly where all the old nauseous medicines have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all of its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as anally or assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites. Its effects are *healing, soothing and demulcent;* removing all scalding, heat, chordee and pain, instead of the burning and almost unendurable pain that is experienced with nearly all the *cheap quack injections.*

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write us and we will mail free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.

DR. WRIGHT'S

REJUVENATING ELIXIR,

OR ESSENCE OF LIFE.

Prepared from Pure Vegetable Extracts,

Containing nothing injurious to the most delicate.

The Rejuvenating Elixir is the result of modern discoveries in the Vegetable kingdom; being an entirely new and abstract method of cure, irrespective of all the old and worn-out systems.

This medicine has been tested by the most eminent medical men of the day, and by them pronounced to be one of the greatest medical discoveries of the age.

One bottle will cure General Debility.
A few doses cure Hysterics in females.
One bottle cures Palpitation of the Heart.
A few doses restore the organs of generation.
From one to three bottles restore the manliness and fall vigor of youth.
A few doses restore the appetite.
Three bottles cure the worst case of Impotency.
A few doses cure the low spirited.
One bottle restores mental power.
A few doses bring the roses to the cheek.

This medicine restores to manly vigor and robust health the poor debilitated, worn-down and despairing devotee of sensual pleasure.

The listless energy of youth, the over-tasked man of business, the victim of nervous depression, the individual suffering from general debility, or from weakness of a single organ, will all find immediate and permanent relief by the use of this Elixir or Essence of Life.

☞ Price, $2 per bottle, or three bottles for $5, and forwarded by express, on receipt of money, to any address.

Sold by all druggists everywhere.

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING

FURNACES.

The subscriber, being the Sole Agent in this vicinity for the above mentioned and of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pots is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases are lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 50 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases or the fire-pot of which is a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the reception of heat, which are so difficult to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., — Albert R. Hatch, Esq.,
Aaron H. Hill, — Charles H. Mendum,
Henry F. Wendell, — John Sise, and others.

Smith's Catarrh Snuff.
For the cure and immediate relief of Catarrh, Colds in the Head, Dryness of the Air Passages, &c.
This Snuff does not sneeze one in inhaling it. It will break up a Cold in the Head in a few minutes. It is softening and soothing in its effects. Every one, as far as is known, is satisfied with its use. The demand it is having, by the gross and dozen, shows its value. The Proprietor was cured last winter of Catarrh of many years standing, with his "Catarrh Snuff," and the cure is PERMANENT.

RYE, N.H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., but she obtained no relief until I procured some ten or twelve bottles of DR. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as the cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOHN L. PARKER.
PORTSMOUTH, April 21st, 1862.
I have for several years been afflicted with distress at my stomach, loss of appetite, and often troubled up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.
From ELDER I CHESLEY, *Lee, May 31, 1841*
DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named. ISAAC CHESLEY.
☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, No. 7 High street, Portsmouth, N. H., promptly attended to. mav26

American and Foreign Patents.
R. H. EDDY.
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837,)
76 State street, opposite Kilby street,
Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in France and other foreign countries. Caveats, Specifications, Bonds Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting one Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay thereby, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse." CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in due form to secure for them an early and favorable consideration at the Patent Office." EDMUND BURKE,
Late Commissioner of Patents.
Mr. R. H. Eddy has made for me THIRTEEN applications, all but one of which patents have been granted, and that is *now pending*. Such unmistakeable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.
During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.

The Old Established Hospital.
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the latest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their healthy and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to counsel and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures Dr. Teller's great work for the Married or those contemplating marriage—200 pages—full plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The Science of Marriage, or the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery, it contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr. Teller has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
Dr. TELLER still remains the only Agency in America, for the sale of Dr. Nicholls Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unsurpassed. Sent to any part in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
Caution to ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of the Female. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 9 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

VERNATELLA.
Warranted to make the Soles of Boots and Shoes water and dampness proof, and, wear one-third longer.
VERNATELLA
Is a preparation from Copper, having no grease, linseed oil, or anything of the kind, and when the soles are once saturated with it, water can no more get through them than through copper itself. **Price 25 Cents Per Bottle,**
at retail everywhere.
But its cost to the purchaser is really NOTHING, as it makes the soles wear enough longer to more than pay for it, leaving as a net gain the making of them Water and Dampness Proof, and the preservation thereby of that priceless gem, the health.
☞ LADIES, READ THIS! ☜
SAVE YOUR HEALTH.
Use Vernatella on the Soles of your Shoes. It makes them water proof and thereby protects your feet from dampness, for the ground is always more or less moist, either from rain or the morning and evening dews.

MONDAY, SEPTEMBER 5, 1864.

THE REBELLION.

Adm. Farragut in his official report of the capture of Fort Morgan strongly condemns the dishonorable conduct of the rebel officers, stating that most of the guns of the fort were spiked, many gun-carriages wantonly injured, and arms, ammunition, provisions, etc., destroyed,—there is reason to believe, after the white flag was raised. It was also found that Gen. Paige and several of his officers had no swords to deliver, while some of those which were surrendered had been broken. The Admiral says "Gen. Page and his officers with childish spite destroyed the guns which they said they would defend to the last, but which they never defended at all, and threw away or broke those weapons which they had not the manliness to use against their enemies, for Fort Morgan never fired a gun after the commencement of the bombardment, and the advance pickets of our army were actually on its glacis."

Sec. Stanton announces that Gen. Sherman's advance entered Atlanta on Friday noon.

Sec. Stanton officially reports that the naval and other credits have practically reduced the last call to 300,000 men; and that 100,000 new troops promptly furnished are all that Gen. Grant asks for the capture of Richmond and to give a finishing blow to the rebel armies yet in the field. The Secretary states that the residue of the call would be adequate for the garrisons in forts, and to guard all the lines of communication and supply, free the country from guerrillas, give security to trade, protect commerce and travel, and establish peace, order and tranquillity in every State.

Gen. Sheridan reports that the rebels are moving down the Valley, falling back toward Winchester. Gen. Averill attacked and drove their cavalry from near Bunker Hill to within six miles of Winchester, where his advance was stopped by a division of infantry. He captured 20 wagons, 2 battle flags, a number of prisoners, and a herd of cattle. He then moved towards Berryville. Gen. Sheridan started with his whole army on Friday evening in pursuit of the rebels.

By Telegraph—Sunday noon.

WAR DEPARTMENT,
WASHINGTON, Sept. 3.

To Maj. Gen. Dix:

No intelligence from Atlanta later than my telegram of Friday night has been received. The telegraph between Nashville and Chattanooga was broken Friday night by Wheeler, and we have nothing south of Nashville. This accounts for the absence of later intelligence from Atlanta. No doubt is entertained of the correctness of the reports received on Friday night, which came from two independent sources, besides the official dispatch of Gen. Slocum. An official report from Nashville, Saturday evening, says the damage done by Wheeler to the railroad will be speedily repaired; that Wheeler has retreated; that Gen. Rousseau is in pursuit; and that in an engagement between Rousseau's and Wheeler's forces the rebel Gen. Kelly was mortally wounded and is in our hands.

A telegram from Gen. Sheridan states that Early has retreated up the Shenandoah Valley, and that he was pursued by Sheridan with his whole army; that Gen. Averill had attacked Vaughan's cavalry and captured 20 wagons, two battle flags, a number of prisoners and a herd of cattle.

E. M. STANTON, Sec. of War.

The N. Y. Post's Washington dispatch says it is believed in official circles that the importance of Gen. Sherman's success has not yet been fully developed, and that he not only occupies Atlanta but has inflicted a crushing blow on Hood's army, and now occupies the East Point stronghold, in the rear of Atlanta, to which it was supposed Hood would retreat if compelled to evacuate.

The N. Y. Commercial's Washington dispatch says a dispatch from the front states that an attack on Grant's position on the Weldon railroad is momentarily expected, with all of Lee's available force. There are many indications that the rebels are pinched for supplies. They are using the Weldon railroad as far as Ream's Station, and wagon their supplies from that point, a distance of 22 miles.

WASHINGTON, 3d.—It is understood that the draft under the last call will not take place for two or three weeks to come. It will require some time to arrange the credits for naval enlistments, &c., and to re-arrange the several quotas under the draft.

— The Indian tribes engaged in war on the Plains number in all about 18,000. It is estimated that of these 4000 are warriors, and are now under arms.

— A joint stock company has been founded, with the Marquis de Morney at its head, to improve the breed of French horses. Its capital will be $4,000,000.

NEW HAMPSHIRE ITEMS.

—— The 18th regiment is filling up more rapidly than was expected.

—— The Concord and Dover companies of Heavy Artillery are both full.

—— Among the new counterfeits are 5s on the New Ipswich Bank—raised from 1s.

—— Two pearls, one about the size of a pea, have recently been found in pearl muscles in Canterbury.

—— The Epping camp meeting closed on Saturday. More than 5000 persons have been in attendance.

—— Moses O. Pearson, Esq., one of the Representatives of Manchester, has enlisted in Capt. Chandler's company of Heavy Artillery.

—— Mr. G. W. Rogers and his wife, of Rumney, were both thrown from a carriage on Saturday, Aug. 27, by his horse taking fright, and Mr. R. was so badly injured that he died on Monday afternoon.

—— At Dartmouth College commencements appointments are hereafter to be made on the principle of relative merit, as in other colleges. They have lately been awarded by lot at Dartmouth—by whose brilliant suggestion we know not.

☞ The Salem Gazette, a well known advocate of moderate measures and reasonable views, says:

The New Chicago Platform has no soul or spirit of patriotism in it. We are engaged in a war for the defence of the national life and territory; but those who read this platform will find in it not a word against the enemy who has so wantonly attacked both. It does not denounce the enemies of the Union, nor does it approve of those who have given their lives to defend it against those enemies. From first to last, there is not even the barest intimation that the power of the national government must at all hazards be asserted, and there is not the first sign of a resolution to make the rejection of peace by the rebels on the basis of the Union the ground and justification for enforcing by arms the supremacy of the constitution.

GOLD AND THE CHICAGO NOMINATION. — It is often hard to tell what influences control the gold market, but it would seem to be certain that the Chicago Convention has had no favorable effect upon it. During the first day of the Convention gold reached the lowest point of 233, but took a rise about the time the purposes of the managers became more distinctly defined. On Tuesday the Convention was in an unsettled state, and so was gold. On Wednesday morning, there being a strong probability of McClellan's nomination, gold began to be higher, and the progress during the day may be noted as follows:—

In the morning,	gold at 236
McClellan nominated,	" " 238
Pendleton "	" " 239
Convention dissolved,	" " 243½

This may be all accidental or irrelevant, but it certainly shows that the action at Chicago had no perceptible good effect on gold and prices in general. In this connection we quote from the monetary article of the New York Commercial Advertiser:

"It is a somewhat significant fact that Government stocks have declined under these influences. Had there been any serious opinion that peace would ultimately come out of the action of the Chicago Convention a rise in the funds would have been a natural consequence, instead of which Five-Twenties have declined two per cent. during the last two days."

IDLE GIRLS.—The number of idle and useless girls in all our large cities seems to be steadily increasing. They lounge or sleep through their mornings, parade the streets during the afternoon, and assemble in frivolous companies of their own and other sex to pass away their evenings. What a store of unhappiness for themselves and others are they laying up for the coming time, when real duties and high responsibilities shall be thoughtlessly assumed! They are skilled in no domestic duty—nay, despise them; have no habits of industry nor taste for the useful. What will they be as wives and mothers? Alas for the husbands and children, and alas for themselves! Who can wonder if domestic unhappiness or domestic ruin follows? It is one of the world's oldest maxims that idleness is the mother of all evil and wretchedness. How sadly strange is it that so many parents—mothers especially—forget this, and bring up their children in dainty idleness. They are but sowing the wind to reap the whirlwind.

Too much money or currency of any kind, is bad, whether it be hard or soft. Spain once became nearly bankrupt, owing to excessive speculations caused by the glut of silver imported from her Mexican mines, and India is suffering at the present time from a similar plethora of the precious metals, and consequent advance in prices. The plentifulness of paper money on this side of the water has produced much less effect on the prices of stocks, than it has upon almost every thing else, excepting real estate, which is little if any higher now than it was before the war made legal tender notes and bank bills so abundant.—*Com. Bulletin.*

A chin upon which the beard has a tendency to be red or reddish requires more than any other kind of chin the daily visitation of the razor. Leave that kind of chin bur for one morning unscraped, and the consequences are ghastly. The particularity white skin which usually accompanies red hair, assumes a sickly appearance in connection with pale red bristles, and an idea is suggested of unwholesome and imperfectly trimmed pork.

— The N. Y. Herald editorially condemns the Chicago platform, and advises Gen. McClellan to kick it to pieces. Cous in Sal's friends won't allow him to do that. He belongs to them now.

ITEMS—NEW AND OLD.

— They have an opera at Bombay.

— Vermont's State Election takes place Tuesday, Sept. 6th.

— The Maine State Election occurs next Monday, 12th.

— M. Matter is dead. He was a German author, born in 1781, and at the age of *eight* years, it is said, taught school.

— The difficulties between the Egyptian government and the United States have been amicably settled.

— One of the most prominent men in the Chicago Convention was Mr. Tilden, of New York, who was an intense free soiler in 1848.

— The N. Y. Tribune's Washington dispatch insists that the Treasury Department is considering a large foreign loan which has been tendered to the government.

— An elderly man who is a manager of one of the charitable institutions of Philadelphia is under arrest for embezzling $3700 of its funds.

— It is said that in Sweden, the Baptists are making extraordinary progress. Persecution has not yet ceased; but it is relaxing.

— The extent of the line now held by the forces immediately under the direction of Grant is, by the shortest roads, thirty miles.

— The chamois have so much decreased in number in Switzerland that in some of the cantons it has been forbidden to hunt them for three years, under a severe penalty.

— The Democrats of Bath rang the bells over the nomination of McClellan; but some Union ladies of one parish seized the rope of one of the bells and prevented the sexton from joining in the clangor.

— George Sanders announces that the Chicago nomination of McClellan is not satisfactory, but that the nomination of Pendleton is. He does not approve of the platform.

— At Corning, N. Y., on Tuesday last, a stranger was choked to death while eating at the Exchange Hotel. A large piece of tough mutton was extracted from his throat after death.

— The Navy Department has ordered an investigation into the charge that the Pontoosuc remained forty-eight hours in the harbor of Eastport, and thereby gave the pirate Tallahassee an opportunity to escape from Halifax.

— The Kearsarge being soon expected to arrive at New York, a committee of the Chamber of Commerce is preparing measures to make a proper recognition of the eminent services of Capt. Winslow and his gallant tars.

— The working women of New York have petitioned the government so to modify the contract system as to make it obligatory upon contractors to pay the prices allowed by government for labor. They are making army shirts *at six cents a piece!*

— A messenger from the Bank of Mutual Redemption laid a small trunk containing $40,000 on the counter of the Shoe & Leather Dealers' Bank, Boston, on Friday morning, and a few minutes afterwards found it had been stolen.

— It is stated that 1000 deserters and persons fleeing from the draft entrenched themselves on the side of a mountain in Columbia county, Pa., with four pieces of artillery; but Gen. Couch marched against them with 580 men, and they succumbed without firing a shot.

— The old book publishing firm of Crosby & Nichols, of Boston, has been dissolved, and the wholesale department of the business will be conducted for the future under the firm name of Crosby & Ainsworth. The retail department is now in the hands of Nichols & Noyes.

— The agricultural editor of the Rockford, Ill., Register having nursery ground occupied with small apple trees, which he desires to devote to other purposes, offers until May 1st, 1865, to give away these apple trees to the farmers of the county in such quantities as they may desire, to be planted along the roadsides of the farms.

A FIRST RATE NOTICE.—The Salem Gazette says, "the jumble of discordant extremes that has stolen the name, and forms what is preposterously called "the democratic party" of the present day, is but a repetition of the tory party of the revolution—disloyal to the American government, crouching and subservient to that which is attempting to ruin it."

It is certain that the coming election will be greatly influenced by the army vote, and also by success or defeat of our army and navy. Grant and Sherman, and Lee and Hood represent the opposing parties. If the former succeed in their campaigns, the people will support the administration, which will have the credit of the success. If Lee and Hood succeed, the Chicago nominees will gain votes: the victory of the confederates would give courage to the copperheads; and a copperhead victory would cause illumination by the rebels, exactly as New York election did two years ago. Their cause is one and the same. U. T.

STARTLING! BUT TRUE.—The volunteers are braving the dangers of fever, scurvy, wounds and cholera. Many a gallant fellow will leave his bones to bleach, who, by the aid of Holloway's Pills and Ointment, would have returned to his family strong and healthy. Soldiers, try them.

If the reader of this "notice" cannot get a box of Pills or Ointment from the drug store in his place, let him write to me, 80 Maiden Lane, enclosing the amount, and I will mail a box free of expense. Many dealers will not keep my medicines on hand because they cannot make as much profit as on other persons' make. 35 cents, 88 cents, and $1.40 per box or pot. 226

au1 J. C. BROWN.

Draft Notice.

To the Citizens of Portsmouth:

The undersigned, having been appointed by the Board of Mayor and Aldermen, a Committee to lay before the Board of Enrollment the names of all persons who claim exemption from the following causes, viz: Alienage, Non Residence, Unsuitableness of Age, Manifest Permanent Physical Disability, and persons who have been in the service two years during the present war, would give notice that they will be in session on and after Wednesday, Aug 17, 1864, from 2 till 5 o'clock and from 7½ to 9 o'clock P. M., at the City Rooms, for the purpose of receiving evidence in such cases.

The Enrollment list can be seen during the same hours, and every person who can present a claim for such exemption is respectfully requested to attend as above, and by this means correct the Enrollment, so that our quota can be reduced.

It is the duty of every citizen, whether enrolled or not, to see that the Committee have all the information in his power to give in the above matter, in regard to any person, and we trust that every enrolled man will urge the importance of the subject upon all those who are exempt for the above causes, as it is a matter of interest to all.

Any information in regard to matters connected with the above will be cheerfully given.

Let there be no delay.

Card to the Public.

The undersigned, with much regret, is compelled to inform the public that the contemplated Daily Evening Paper, which it was his intention to publish, commencing Sept. 1st, is for the present abandoned

By the grossly false representations of Mr. John Abbott, the individual to whom was entrusted the business arrangements of the paper—who by his base treachery, his unsurpassed ability and talent for lying, and the large amount of "cheek" he possesses, has so disorganized the arrangements—I am compelled to forego the proposed publication for the present.

With many thanks to those who so kindly gave their aid to our enterprise, in the way of subscriptions and advertisements, we trust that ere long we shall present them with what they are now denied, but so ardently desire, A Daily Evening Paper.

Hair Dye! Hair Dye!!

BATCHELOR'S Celebrated Hair Dye

Is the Best in the World!

The only Harmless, True and Reliable Dye Known!

This Splendid Hair Dye is Perfect—changes Red, Rusty, or Gray Hair instantly to a *Glossy Black or Natural Brown*, without injuring the hair or staining the skin, leaving the hair soft and beautiful; imparts fresh vitality, frequently restoring the original color, and renders the ill effects of bad dyes. The Genuine is signed WILLIAM A. BATCHELOR, all others are mere imitations and should be avoided. Sold by all Druggists, &c. FACTORY, 81 BARCLAY STREET, N. Y. **Batchelor's New Toilet Cream** for Dressing the Hair. Jy9—1ydaw

"A Wonderful Discovery."

DR. TEBBETTS' "PHYSIOLOGICAL HAIR REGENERATOR" is compounded in strict accordance with the well known laws of Physiology and modern vegetable Chemistry. It is not a "Dye," and will not stain a particle. It will "RESTORE GRAY HAIR" in all cases to its original color. It promotes a luxuriant growth of new HAIR in all cases on BALD HEADS, when the glands or roots of the hair are not completely disorganized. It prevents the hair from falling off and removes all dandruff, heat, humors and scaliness from the scalp. It keeps the hair soft, moist and perfectly healthy, and gives it a glossy and beautiful appearance. It is highly perfumed, and as a Dressing it has no superior. The "REGENERATOR" is warranted to produce the above results in all cases, if not the money to be refunded. With it every "GRAY HEAD" in New England can be restored in less than sixty days.

THACHER, opposite the Post Office and 12 Market Square, Agent for Portsmouth—Geo. C. Goodwin, No. 38 Hanover street, Boston, Wholesale Agent for New England and sold by Druggists everywhere. TEBBETTS BROTHERS, Druggists and Chemists, Proprietors, Manchester, N. H. Jel—tf

PENHALLOW STREET.—The burnt district is being cleared and built up; but no material difference is to be made in the street itself, except the necessary and very agreeable substitution of new buildings for old. The chance to form another nice business street was suffered to go by—we think unwisely. Mr. Tripp has his new paint-shop nearly completed; and Mr. Coffin's is also in a good state of forwardness. Messrs. Grogan & Gardiner also intend to rebuild, between these two, forthwith. Mr. Thos. Murphy's dye house building is also progressing well. These buildings are all of wood. The brick store formerly occupied by Mr. John Somerby and others was withdrawn from auction, and disposed of at private sale to E. M. Brown & Co.

☞ Rather late in the day, perhaps—but since we were making an item about the Penhallow street fire, we will say a word, even now, about "gumption," or presence of mind, as exemplified on that occasion.

At Mr. Dorr's nice residence only his little daughter was at home, we believe; and instead of running away in fright, as most girls of her age would, or waiting for reinforcements, as *seven* "gentlemen" are reported to have done at a certain house in this city a few nights since, before going down cellar to capture a thief, who, meantime, as "discreetly" as they, made good his escape—this young lady took hold herself, with a will, and carried out of the house, or threw from the windows, a large amount of valuable articles, worth, so we heard at the time, several hundred dollars. It will be recollected that her mother also saved a valuable house from the flames several years ago, on the same premises.

Mr. John Yeaton also exhibited remarkably good pluck and sound judgment on the occasion. His store was of brick, but the doors, windows, &c., were on fire repeatedly and for a long time. Still he refused to move out, or to allow any one else to remove an article, although greatly urged to do so. Finally, when almost all who saw it, thought his store must "go," and no water was to be had—he went into the upper story himself, and in the scorching heat and blinding smoke, drew vinegar from his casks by the tubful, and effectually quenched the fire, which was now fast getting into the chambers—and soon the danger was over. On looking over the premises next morning, we could but come to the conclusion that, had that one man (who was then pretty well exhausted) possessed any less courage, determination or gumption, not only would his own store and stock have been destroyed or badly damaged, but in all probability the fire, thereby getting into Market street, would have done far greater damage than did result from it.

☞ The new Road, petitioned for by Mr. Nathan Jones and many others, to extend from Myrtle street (at the City Farm) to Sherburne's Road, (at the new road recently cut by Portsmouth and Newington, through land of Mr. Lane and the heirs of Hon. James Pickering,) is a thoroughfare which is much needed, and the opening of which would be a great public improvement, and we don't see that anybody need oppose it, since the cost can't be great. But at first sight it would seem more advisable to alter the proposed course a little, and come into Boyd's Road, and so connect with the fine Avenue which is now being made of Woodbury street, running down through North Portsmouth. This Chronicle advocated this new road long ago, and also that it be continued at the *other* end down to Great Bay, through what was then Mr. Fulton's—now Mr. Jones' farm. There certainly ought to be some public highway to that large body of water.

Communication.

Messrs. Editors—Your courteous correspondent "P" is (if I may quote his words) "one of three things," viz: a blackguard, a man with the ears of Midas, or an idiot. On the first proposition there can be but little doubt; witness his urbane manner of speaking of a person who ventures to remonstrate against the continuance of a nuisance that has frequently been deprecated in private. We are told that the human body contains iron, and there may be copper in my head, for all I know; and at any rate I'll not deny the presence of *brass* in "P's" face. If the second proposition be true of him, no wonder he is calm under the infliction, and doubtless would consider it an outrage to say aught against the custom Portsmouth audiences have of digging their boot-heels into the wooden ribs of the venerable Temple, creating a stifling dust and deafening din. But if the second be not true of him, then, from the position he has taken, the third *must*, and I advise him to emigrate to Nootka Sound, where, according to John R. Jewett's narrative, he can get his fill of the very worst drumming.

☞ The ship Frank Pierce, Bush, (built in this city in 1852, and owned here,) from New York March 16 for Panama, was abandoned at sea June 5. No particulars are given. She was 1145 tons burden.

THE QUOTAS of the several sub-districts of the 1st District of New Hampshire have been reduced somewhat in accordance with the corrected enrolment. The quota of the entire District is now 2252,—it having been 2457 before the corrections were made. The quota of this city is now 258, instead of 271. No orders have yet been received by Capt. Daniel Hall, Provost Marshal of this District, to proceed with the draft; and the towns would do well to use every exertion to fill their quotas before the order comes. A CORONER'S INQUEST was held on Saturday morning on the body of John Swindells, who was killed on the Concord & Portsmouth railroad on Friday afternoon. The testimony of George Webster of Concord, Engineer of the train; Rudolphus Green of Bow, Fireman; John Davidson, John E. Locke, and John Warburton of this city, was taken. Marcellus Bufford, Esq., Justice of the peace and quorum, acted as coroner, and Messrs. Joseph M. Edmonds, Samuel H. Goodall and Robert Lefavour constituted the jury. The verdict rendered was to the effect that the said John Swindells was run over by the train of cars, consisting of an engine, tender and three passenger cars, then running upon the C. & P. railroad track—the train being in charge of George Webster, Engineer; that said train was then passing over a public highway in and near the compact part of the city at the rate of speed of ten or twelve miles an hour; that it has been the custom of the trains on this road generally to cross the highway at this crossing at a faster rate of speed, viz., fifteen miles per hour; that the said train was preceded by the tender to the engine, and that Mr. Swindells was unconscious of its approach until he had stepped upon the track; that he then attempted to escape, turning and starting for that purpose, and was in the act of springing from the track when the tender struck him, and the cars passed over him, rolling him over and over for the distance of forty feet, breaking the skull, leg and arm, and causing his immediate death. The jury further find:

That if the said cars had been going at the rate of but six miles an hour the said Swindells would, in our opinion, have had time to jump from said track and escape; and that said cars were running in or near the compact part of said city at a rate of speed of at least ten miles an hour, when the law allows but six miles an hour; that said cars were then and there at said crossing driven at an unlawful rate of speed; that at said crossing there is no flag-man stationed, nor are there any gates to stop the travel; that it is a dangerous crossing at all times, even at a rate of speed according to law, and that there should be a flagman stationed there, or gates should be placed there according to law to guard against accidents; that the city of Portsmouth has taken no action to direct the erection of gates at such crossing, as they might do.

So the Jurors aforesaid, upon their oaths aforesaid, do say that the said Concord & Portsmouth railroad, by their servants and agents, having charge of said train of cars in manner and form aforesaid, by their illegal and unlawful rate of speed and running of said train of cars at said crossing the said John Swindells did then and there kill and murder, against the peace and dignity of the State.

☞ Miss Berry, daughter of Mr. Gilman C. Berry, of Rye, who had just returned from Lynn—either lost her wallet containing nearly $20, or had it stolen from her pocket, soon after leaving the Eastern Railroad station in this city, on Wednesday evening, Aug. 24th. The money was the earnings of the young lady, who is an invalid; and any information concerning it, which may be left with her father or at the Chronicle office, would be an act of kindness and justice.

☞ Kittery is credited with 78 men in the U. S. Navy—more than any other town in Maine except Portland, which has 319. York has 18.

☞ Shop-lifting is said, by our merchants, to be more prevalent in this city than ever before.
